Needles District Trails and Roads

Use topographic maps for exploring the backcountry.

NOTE: White shading within Canyonlands National Park indicates areas with designated site camping only.
Hiking Trails

Over 60 miles of interconnecting trails present hikers with spectacular canyon scenery. Some of the more common routes are described below. Trails traverse a mixture of slickrock benches and sandy washes, and some may require negotiating steep, rocky passes with drop-offs, narrow areas and ladders. Water sources are unreliable; carry all that you will need. Trails are marked with cairns (small rock piles) and signs at intersections.

**ELEPHANT HILL TRAILHEAD**

Chesler Park Viewpoint
6 mi/10 km, 3-4 hrs round trip
This popular trail leads across to a pass overlooking a scenic expanse of desert grasses and shrubs surrounded by sandstone spires.

Chesler Park Loop / Joint Trail
11 mi/18 km, 5-7 hrs round trip
This loop travels beyond the viewpoint described above, providing great views of the Needles formations. The southern portion, called the Joint Trail, winds through deep, narrow fractures in the rock. A short segment follows the four-wheel-drive road.

**SQUAW FLAT LOOP “A” TRAILHEAD**

Big Spring Canyon to Squaw Canyon
7.5 mi/12 km, 3-4 hrs round trip
A great introduction to the landscape of the Needles, connecting two canyons for a loop across varied terrain. The route between the canyons climbs steep grades that are dangerous when wet and may make people with a fear of heights uncomfortable.

Big Spring Canyon to Elephant Canyon
10.8 mi/17 km, 4-6 hrs round trip
This loop features extended hiking on slickrock benches and mesa tops overlooking canyons. Excellent views of sheer cliff walls and other rock formations. Two ladders must be climbed in the pass between the canyons.

Squaw Canyon to Lost Canyon
8.7 mi/14 km, 4-6 hrs round trip
Another wonderful loop hike with some difficult sections climbing between the two canyons. Riparian areas in both canyons attract birds and other wildlife. Route in Lost Canyon passes through dense vegetation and may be very wet. One ladder must be climbed.

Peekaboo
10 mi/16.5 km, 5-6 hrs round trip
Trail crosses both Squaw and Lost canyons on its way to Salt Creek Canyon, passing along slickrock benches with spectacular views. Steep slopes and nearby cliff edges make this a challenging route. Two ladders must be climbed. Prehistoric rock art panel may be seen at the end of the trail near Peekaboo camp.

**SHORT HIKES**

Short on time? Four short, self-guiding interpretive trails highlight various aspects of the area’s cultural and natural history. Trail guides are available in the visitor center and at trailheads for a nominal fee.

**Roadside Ruin**
.3 mi/5 km, 20 minutes
Easy trail. Leads to an ancestral Puebloan granary.

**Cave Spring**
.6 mi/1 km, 45 minutes
Two ladders. Leads to historic cowboy camp and prehistoric pictographs.

**Pothole Point**
.6 mi/1 km, 45 minutes
Uneven surface. Leads to pothole communities, views of the Needles.

**Slickrock Trail**
2.4 mi/4 km, 2 hours
Uneven surface. Several viewpoints and sometimes bighorn sheep.

**BIG SPRING CANYON TRAILHEAD**

Confluence Overlook
11 mi/18 km, 4-6 hrs round trip
Unlike other Needles hikes, this trail traverses dry, open country along the northern edge of the geologic faults that shaped the Needles. Trail ends at a cliff overlooking the junction of the Green and Colorado rivers 1,000 feet below.

**Four-Wheel-Drive Roads**

Over 50 miles of challenging backcountry roads access campsites, trailheads and park attractions. All vehicles and bikes must remain on designated roads. All of these roads require high-clearance, four-wheel-drive vehicles. Drive carefully: the risk of vehicle damage is great and towing expenses typically exceed $1,000.

**Elephant Hill**
One of the most technical four-wheel-drive roads in Utah. Elephant Hill presents drivers with steep grades, loose rock, stair-step drops, tight turns and backing. Over the hill, equally challenging roads lead to various campsites and trailheads, as well as to BLM lands south of the park. Challenging mountain biking.

**Colorado Overlook**
Moderate road, good for mountain bikes. There are large rocks and stair-step drops in the last 1.5 miles which visitors may avoid by parking on the road (leave room for others!) and walking to the overlook. Outstanding views of the Colorado River Canyon. Unprotected overlook; use caution. No vehicle camping.

**Horse Canyon / Peekaboo**
Permit required for day and overnight use. Roads travel along canyon bottoms where deep sand, deep water and quicksand are common. Too sandy for mountain bikes. At Peekaboo, vehicle campsites are available and prehistoric rock art may be seen. Horse Canyon road leads to several arches and Tower Ruin.

**Lavender Canyon**
Permit required for day use. Road follows a canyon bottom where deep sand, deep water and quicksand are common. Too sandy for mountain bikes. There are two major creek crossings with steep banks. Arches and ancestral Puebloan granaries may be viewed from the road. No vehicle camping inside the park.

**Backcountry Reservations**
Canyonlands National Park Reservation Office

**Protect Your Park**
- Pets are not allowed on hiking trails or on four-wheel-drive roads, even in a vehicle.
- Do not enter, alter, damage or deface archeological sites. Do not collect artifacts.
- Vehicles and bikes must stay on roads.
- ATVs are not permitted.
- Protect cryptobiotic soil crusts by staying on trails and roads.
- Permits are required for all overnight backcountry trips.

**Protect Yourself**
- Drink at least one gallon of water each day.
- Always carry a topo map, adequate clothing, and a flashlight.
- Remain in one place if you become lost or separated from a group.
- Never cross a canyon that is flooding.
- During lightning storms, avoid lone trees, cliff edges and high ridges. Return to your vehicle if possible.
- Be careful near cliff edges, especially when rock surfaces are wet or icy.
