## Capitol Reef National Park

National Park Service  
U.S. Department of the Interior

# Bird Checklist

Canyon Wren

### Relative Abundance (RA)

**A** = Abundant: may be seen daily in suitable habitat and season, in relatively large numbers

**C** = Common: may be seen daily in suitable habitat and season, but not in large numbers

**U** = Uncommon: likely to be seen monthly in appropriate season and habitat; may be locally common

**R** = Rare: present, but usually seen only a few times each year

**O** = Occasional: occurs in the park at least once every few years, but not reported annually

### Residency Status (RS)

**P** = Permanent resident: present year-round

**S** = Summer resident: present during the breeding season

**W** = Winter resident: present during winter, often also in late fall and early spring

**T** = Transient: migrates through the park in spring and/or fall

**V** = Vagrant: park is outside of the species' usual range

**X** = Probably Present: observed near the park, no confirmed reports within the park, although suitable habitat exists

### Habitat Codes (HC)

**H** = High elevation forest

**P** = Pinyon-juniper forest

**S** = Shrub/shrub grassland

**R** = Riparian zones

**W** = Water (lakes, ponds, rivers)

**T** = Talus, cliffs, slickrock

**F** = Fruita developed area

*Species are in taxonomic order according to the American Ornithologists' Union. Please give a park ranger detailed descriptions of any observed species listed as occasional, rare, or not listed.*
