COVID-19 Safety Precautions

When the COVID-19 Community Level is **LOW** or **MEDIUM** in the county or all the counties where the park is located based on data provided by the Centers for Disease Control and Prevention (CDC), individuals are not required to wear masks.

When the COVID-19 Community Level is **HIGH** in the county or all the counties where the park is located based on data provided by the CDC, all individuals over the age of two must wear masks, regardless of vaccination status, in all common areas and shared workspaces in buildings owned, leased, or otherwise controlled by the National Park Service, including, but not limited to, park visitor centers, administrative offices, lodges, gift shops and restaurants.

When the COVID-19 Community Level is **HIGH** in one or more, but not all, of the counties where the park is located based on data provided by the CDC, the superintendent will determine whether individuals are required to wear masks. The requirement, if any, will apply to all facilities within the park.

Masks must cover the nose and mouth and fit snugly around the nose and chin with no large gaps around the sides of the face. Masks not designed to be protective, masks with ventilation valves, and face shields do not meet the requirement.

Regardless of the COVID-19 Community Level, individuals may wear masks if they choose to do so. Where a state, local, tribal, or territorial government where the park is located imposes more protective mask-wearing requirements than those indicated by the COVID-19 Community Level, individuals must follow those more protective requirements within the park. More protective state, local, tribal, or territorial mask-wearing requirements are hereby adopted as federal requirements in all units of the National Park System located within that state, locality, area subject to a federally recognized Indian tribe's regulatory jurisdiction, or territory, regardless of a particular park's jurisdictional status.

Additionally, all individuals must wear masks in or on public transportation conveyances and transportation hubs/facilities, to the extent required by current orders or directives issued by the CDC, the Transportation Security Administration (TSA), or other federal agencies with jurisdiction over those conveyances or areas. As of March 4, 2022, CDC and TSA orders or directives require all individuals regardless of vaccination status to wear masks in indoor areas of all forms of public transportation conveyances, including busses, trains, and boats/ferries, and in the indoor premises of transportation hubs/facilities. Individuals are not required to wear masks while outdoors on conveyances or while outdoors on the premises of transportation hubs/facilities.
