

Amazing Animal Adaptations! Saturday, September 3, 2016

“Build a Critter” Kids Craft Activity Included!

5:00PM — 6:00PM

Owens Creek Campground

15882 Foxville Deerfield Road, Sabillasville, MD 21780

Why do baby deer have spots? Why do opossum have “thumbs” on their rear feet? Why is a red fox’s fur red? Why can’t you hear an owl’s wings flap when it flies? Join a park ranger at the Owens Creek Campground and learn how animals have used their unique and amazing adaptations to ensure survival in the forest.

This program is FREE and open to the public.
