COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

HISTORY

Richard Vann donation of Chaco material from UNM Field School era

The Richard Pickard Vann Collection contains original documents from the time he spent at the University of New Mexico Chaco Field School from 1929-1931. He became an optometrist in Albuquerque, New Mexico, and died in the 1980's. His widow, Mrs. Kathleen Vann, donated this collection.

Other original copies of his student papers and some photographs are present in the Vivian Archive (see VA 1884J, VA 1885J, VA 1907B, VA 2179D, and VA 2183K). These are not a part of this collection since some were included in papers acquired from Paul Reiter or his family. However, some were from Richard Vann but since they were previously added to the Vivian Archive, they have been cataloged as part of the Vivian Archive.

National Park Service photocards exist for the photographs included in this collection.

Prints were originally loose or in a photo album. They were pasted onto NPS 10-30 photocards (CHCU 52486) by Chaco Project/NPS personnel. Nitrate negatives were cataloged separately. They were reformatted in 2002 onto safety film and interpositives were made. (CHCU101459-101482).

Some of these images appear in Richard Vann's report on Chetro Ketl masonry in Volume 2 of Paul Reiter's UNM field school books (see Vivian Archive # 1885).
