

# **Attachment 1: Threats Biodiversity**

## **H=Habitat Loss**

Mining

Agriculture

Deforestation

Habitat Fragmentation

## **I=Invasive Species**

Competition for food

Brings diseases

Predation of native species

Modify habitats

## **P=Pollution**

Bioaccumulation in animal  
tissues

Excess of nutrients in system

Heavy metals

Industrial activities

## **P=Human Population**

Human population growth

Climate Change

Increase use of resources

More waste

## **O=Overharvesting**

Overconsumption of  
resources

Disruption of food chain

Poor soil conservation

Illegal wildlife hunting
