

BUILD YOUR OWN FORT

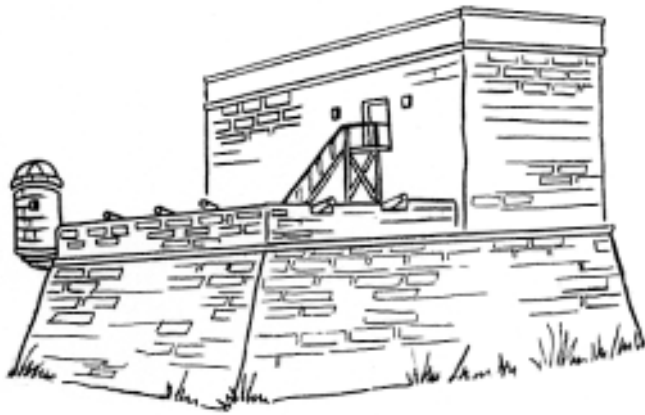

Shown below are three examples of forts located in northeast Florida. Using these pictures, design your own fort. Once you come up with your idea, label the five parts that you think are the most important from the list below. Then, on the back of your drawing, write those five parts in the order of their importance to the settlement and explain why each was necessary. Good luck!

Fort de la Caroline

Castillo de San Marcos

Fort Matanzas

Ideas to label and explain about your fort: French (or name your own country) flag, gate, wood palisade, oven, storehouse, soldier's houses, cannon, moat, cistern, aqueduct, drawbridge, or any other important detail you can remember or create!
