DOWNLOAD SUBMISSIONS

Submissions: When participants begin completing missions, you'll see them all right here. You can group them by:

- 1) Missions: Very useful if you have a couple high-value missions you want to keep an eye on.
- 2) Teams (Points): Sort the teams with the highest scores first. Useful if you only want to keep an eye on the top few teams.
- 3) Teams (Alphabetical): Groups the submissions by teams, sorting alphabetically. Useful if you want to track a couple specific teams.

The Submissions tab is where you can see what data each team is sending. From here, you can download submissions and use that data to drive other activities.
