

Draw your own creature!

Now that you have learned how animals adapt to their surroundings, create your own make-believe animal using the guidelines below.

- 1) Must be able to travel through the forest canopy.
- 2) Must be able to run fast from predators.
- 3) Must be able to swim.

Describe one adaptation you gave your creature: Front hooves for

running fast, webbed back feet for

swimming, and a long tail for climbing.
