

**1. The Natchez Trace was first made when**

animals walked through the woods.

**2. American Indians used the trails and built their homes nearby.**

3. Animals, Indians, Kaintucks and others walked along the same trails and pushed the

dirt or soil down with their footsteps.

4. Post riders delivered mail on the old Natchez Trace.

5. The National Park Service

protects the Natchez Trace Parkway.

6. National Park Service cares for special places.

7. People or We or Everyone or I can still walk on the old trails.
