

## Cumberland Island National Seashore and ferry are back in business!

In order to provide a safe experience for our visitors, staff and volunteers, the ferry check-in process has been modified.

- Entry into the visitor center will be one way. Enter through the southeastern gate.
- Only one person per reservation should enter the line.
- A ranger will be present to answer questions and help guide you through the line.
- Check with the ranger if you need an accessible entrance into the building.
- While in line, please stand on the circles to socially distance from the other visitors.
- Once you have checked in, head outside, meet up with your group and head two blocks east to the ferry loading zone.
