**Total Number of Bicycles Sold
by Wright brothers**

The graphs on these two pages provide a quick summary and illustrated analysis of the findings in the Excel spreadsheets pertaining to the Wright brother's bicycle sales.

The graph on this page shows the number of each type of bicycle sold by the Wright brothers in relation to each other. From first glance it is easy to ascertain that the Van Cleves and the St. Clairs were their most popular bike in sheer volume of sales. Also one can see that the Ladies St. Clairs and the Wright-Specials were rare sales to say the very least over the years of the brother's business.

The chart below details the exact number of each type of bike sold according to each year.

The other four graphs on the next page illustrate the numbers found in the chart on this page.

Year	Total	Ladies St. Clairs	Van Cleves	St. Clairs	Wright-Specials
1897	28	1	18	7	2
1898	95	3	40	48	4
