

Dinosaur National Monument

PRELIMINARY INFORMATION CHECKLIST

Filming and Photography

The following checklist requests information, which must be provided to the park to allow our staff to properly evaluate your requested use. We will use this information to determine the appropriate analysis, environmental, and cultural documents required under the National Environmental Policy Act (NEPA) and the National Historic Preservation Act.

Use the below outline as a guide, and type your response on separate pages. BE BRIEF, BUT COMPLETE. Provide maps and preliminary site plans where applicable. If you have any questions, please contact Carla Beasley at Dinosaur National Monument at (435) 781-7702.

1. Type of requested use.
2. Project name (a brief descriptive title).
3. Proposal submitted by (name, mailing address, phone number, organization).
4. Permittee: organization, company or agency/jurisdiction; name, title, phone number, and mailing address of contact person.
5. Area of park to be impacted by this use (include map or drawing with location indicated).
6. Local/State/Federal agencies involved/contacted in this project/use (include name, phone number, title jurisdiction).
7. Starting date (proposed).
8. Ending Date (proposed).
9. Why is this project necessary?
10. What are alternative routings/sites, inside and outside the park? Why are they not acceptable?
11. What are the consequences if the use/project is not done inside the park?
12. Scope, location and dimensions of use/project (written description; general location map; engineering drawings; site plan or other descriptive information).
13. Description of what is to be done (details of work involved, and plans for use/project).
14. Preferred method of accomplishing use/project (construction sequence/schedule - if there is interference with activities of the area, discuss detour routes, signing, safety plan, erosion control plan).
15. Alternative methods for accomplishing project and reason for selection of methods outlined above.
16. List all major equipment to be used and purpose. Include type and size of equipment proposed to be used.
17. Describe the effects of your use/project on the park and area during construction. What potential physical damage, environmental impacts, effects on visitor use and traffic control will result from the project? Consider visual disturbance, noise, air, water, soil, impact to wetlands and vegetation, disruption to wildlife, traffic disruption. Discuss both short and long-term impacts.
18. Describe the long term effects of the project on the area after construction is completed.
19. What specific steps will you take to protect the use/project area, to minimize harmful effects and mitigate any permanent damage or loss discussed above.
20. What specific steps will be taken to restore the use/project area and eliminate the evidence of work after the use/project is completed.
21. Describe the cumulative effects from this and associated projects.
22. Attach supporting documents, references, photographs, drawings, maps, or other items, which clarify your proposal or support your conclusions. Include here a list of any other persons consulted about this project (phone number/title/agency/letters).
