

## Educational Media Library

*Everglades: River of Life*  
DVD run time: 18 minutes.

(National Park Foundation and Discovery Channel)

This film follows the natural flow of water from the northern Shark Valley Slough to the southern reaches of Florida Bay. Students will have an opportunity to explore the different ecosystems found in the Everglades. They will encounter a myriad of wildlife, including some of our most threatened and endangered species.

*The Alligators and Birds of the Everglades*  
DVD run time: 60 minutes.

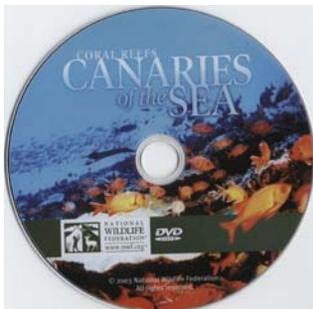

(Rich Kern's Nature Series)

The Everglades have earned a reputation as both a haunt for the American alligator and a refuge for an amazing array of bird life. This film explores the biology of some of the park's most conspicuous wildlife, and captures them in their most natural habitat. Viewing this title is a perfect precursor to an onsite visit.

*Coral Reefs: Canaries of the Sea*  
Interactive DVD-rom

(National Wildlife Federation)

The coral reefs of the Florida Keys are inextricably linked to the waters of Everglades National Park. This title will take students below the warm, coastal waters of the ocean to explore these colorful "rainforests of the sea". The film provides insight into the importance of coral reefs worldwide, and discusses some of the threats they face.

Burning Issues  
Interactive CD-rom

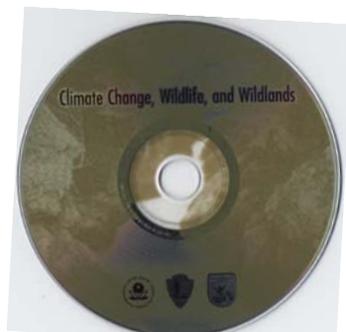

(Florida State University, NIFC, BLM)

This title explores the importance of fire in natural ecosystems. Students will have the opportunity to visit the national wildfire command center, learn about fire management, and even conduct simulated burns. In particular, students will visit a southeastern pine forest, where threatened and endangered wildlife depend on fire for survival.

Climate Change, Wildlife, and Wildlands  
Interactive CD-rom

(EPA, NPS, USFWS)

This teacher toolkit is filled with information on understanding the concept of climate change, and provides insight on how to bring the lessons to the classroom. With South Florida rising only a few feet in elevation, issues of sea level rise in the Everglades are discussed at length.

Everglades Songs For Kids  
Audio CD

This features a fun collection of original lyrics set to familiar songs. Particularly useful for younger students, these tunes provide an entertaining means of learning about the Everglades.

Earth Day. Electronic Field Trip

(NPS, Ball State University)

DVD run time: 60 minutes

Watch an episode of Ball State University's "Turn Over a New Leaf" live broadcast from Everglades National Park. Experience this interactive program about the on-going struggle between invasive and native species.

Untold Stories: Everglades National Park

(WPBT2)

DVD run time: 6 minutes

Follow 5th grade students on a curriculum-based field trip in Everglades National Park. Hear from teachers, students and rangers about the benefits of using national parks as classrooms.

Into The Wild: An Everglades Adventure

(WPBT2)

DVD run time: 26 minutes

Join the Roberts family as they camp, hike and explore the Everglades for their first time. This reality-style episode takes an urban family from Miami into a natural environment they have mixed feelings about - only twenty minutes from their home.

Everglades, Aventura y Diversión

(Univision23)

DVD: 26 minutes

La familia Tolón de Miami embarca en una aventura de acampar en los Everglades en este espectáculo de realidad gracioso.

The Tolon family from Miami, have their first camping adventure in the Everglades. (In Spanish).
