[Fire Island National Seashore's General Management Plan](#)

Dear Friends,

After many months of behind-the-scenes work, Fire Island National Seashore's General Management Planning team recently released its second GMP Newsletter, *Preliminary Management Alternatives*. If you've added your name to the GMP mailing list, you should have already received a copy of the newsletter.

This newsletter summarizes the GMP planning processes completed to date, and provides a snapshot of the preliminary management alternatives that will be presented in the draft General Management Plan/Environmental Impact Statement (GMP/EIS). The GMP planning team is accepting comments on the content of the newsletter through September 6, 2010.

The Seashore is conducting several public meetings this summer to present the preliminary management alternatives that have been drafted, and to solicit feedback and input that will help planners refine the content and define the park's preferred alternative.

You're invited to join Superintendent Chris Soller and the park's GMP planning team on Thursday, June 17, from 7:00 - 9:00 p.m. at the Patchogue Ferry Terminal. Project manager Ellen Carlson will provide a brief presentation describing the alternatives and the progress of Fire Island's GMP schedule. Staff will be on hand to answer questions about the proposed alternatives and to accept public comments.

Additional public meetings will be held on Fire Island in August at Fire Island Pines and Ocean Beach.

Thanks for your participation. We value your opinion and appreciate your support of Fire Island National Seashore.
