Dear Friends

Many thanks to our Vision Fire Island Photo Safari participants who contributed their images of Fire Island.

We have assembled these images along with photographs contributed by our Vision Fire Island consultants and have posted them on the Vision Fire Island website.

Now, we invite you to participate in our on-line program to evaluate these images as they represent different facets of Fire Island's character and share your opinions related to the Island's natural and built environment. The Vision Fire Island Visual Preference Exercise has been extended through Sunday, December 20, 2009.

[Click here](#) for more information about this project.

To participate, go directly to the Vision Fire Island website, www.visionfireisland.com, to get started.

Thanks for your participation. We value your opinion and appreciate your support of Fire Island National Seashore.
