

## Data Download Sites

1. USGS Rapid Data Delivery Site (RDDS): <http://firedata.cr.usgs.gov/>
  - a. Data types: Aerial imagery, DEMs, and various scales of topographic maps including BLM ownership maps.
  - b. Access restrictions - username: FireXdata - password: FireXdata
2. NRCS Geospatial Data Gateway: <http://datagateway.nrcs.usda.gov/>
  - a. Data types: Aerial imagery, topographic maps, and other vector data.
  - b. Access restrictions – None.
3. NIFC FTP site: [ftp://ftp.nifc.gov/BASE\\_INFO/Statewide\\_GIS\\_Data/](ftp://ftp.nifc.gov/BASE_INFO/Statewide_GIS_Data/)
  - a. Data types: varies by state. Some states are very good at keeping data loaded and up to date.
  - b. Access restrictions – none to download, username and password needed to post.
4. USTopo – the new GeoPDF version of the paper topo:  
<http://nationalmap.gov/ustopo/index.html>
5. FSTopo – USFS created Topo Maps: <http://fsgeodata.fs.fed.us/rastergateway/states-regions/states.php>

## Internet Map Services

These map services are added via ArcCatalog and stream data over the internet. See [Connecting to GIS Servers](#) for more information on how to set up the connection.

1. MODIS Active Fire Mapping site: <http://activefiremaps.fs.fed.us/index.php> - Map services for ArcGIS and Google Earth as well as hardcopy maps and digital data download.
2. USDA National Agricultural Imagery Program (NAIP):  
<http://gis.apfo.usda.gov/ArcGIS/rest/services/NAIP> - Imagery organized by state.
3. USTopo: <http://basemap.nationalmap.gov/ArcGIS/rest/services/USGSTopo/MapServer>
4. USGS Basemap services: <http://basemap.nationalmap.gov/ArcGIS/rest/services/>
5. USGS National Map Viewer services: <http://viewer.nationalmap.gov/example/services.html> - lots of different data sets here.
6. NPS internal map services: <http://insidemapservices.nps.gov/arcgis/rest/services>
7. NPS external map services: <http://mapservices.nps.gov/arcgis/rest/>
