

CLIMATE CHANGE in the ROCKIES

PAST and PRESENT

JUNE 14-15, 2016

The National Park Service and the Friends of the Florissant Fossil Beds Inc. are pleased to host a 2016 Climate Change Seminar.

Please join us for a 2 day seminar based out of Florissant Fossil Beds National Monument, with an off-site field trip to the Florissant Fossil Quarry. The seminar will include Climate Change 101 and Paleo Climate Change. Speakers will present on Biological Climate Change topics such as birds, grasshoppers, pikas, and alpine tundra. The seminar will include field studies, hands-on activities, and lecture.

What is Climate Change?
