Have Jurymen building and one of the rooms is in very bad condition. It had ought to be repaired. The carpet on the floor is one which has been in use for seven years I shall expect to put on with these rooms until we could have a new building but that time is probaly three years in the future and these repairs will have to be made a number will have to be looked. But I think it much cheaper to make these repairs. You will remember the Jurymen pay rent here. Hoping that an order for these repairs will be done made

Remain Truly Yours
