Key Information About This Leasing Opportunity

- **Property Condition:** The property will be delivered to the Lessee "as-is with all faults." It is incumbent upon the Offeror to conduct all due diligence. The information contained herein is considered generally reliable but not guaranteed.
- **Anticipated Lease Commencement:** The NPS anticipates lease commencement by January 2026, following acceptance of Lessee's Construction Documents for Initial Improvements.
- **Lessee Improvements:** Subject to NPS approval, Lessee will be permitted to make Improvements compliant with the 2024 International Code Council (ICC) family of codes and the 2023 National Electrical Code (NEC). NPS will adopt the newest editions of the codes as they become available.
 - Additionally, because the facilities are located in a coastal zone, the Lessee shall be responsible for obtaining any New York State or federal permits required in connection with such activities and adhering to seasonal restrictions related to nesting shorebirds and their habitat.
 - Rent may be offset by the NPS-approved cost of completed Initial Improvements and/or Alterations. The NPS has identified a tentative list of improvements that will be required over the term of the upcoming lease/s for each property in Appendices A and B. Each offeror is responsible for verifying the condition of the property, developing a detailed scope of work, and preparing a cost estimate for its proposed improvement plan.

The system deficiencies must be cured by the Lessee, in a manner approved in advance by the NPS, prior to commencing any authorized use.

This may entail coordination with NPS for components of such systems which are outside the leased premises.

- All work must be completed within a defined timeframe defined in the negotiated lease. All work is subject to NPS review, inspection, and final approval.

LEASE TERMS AND CONDITIONS

Term of Lease

The Lease to be awarded under this RFP will have a term not to exceed thirty (30) years. The Lease may be extended once for a period not to exceed one (1) additional year if the NPS determines that an extension is necessary because of circumstances beyond the control of the NPS.

Conditions

Selection of a proposal does not guarantee a lease for the Offeror. The responsive proposal judged best under the proposal selection criteria will be given an opportunity to negotiate a final lease agreeable to both the Offeror and NPS.

Lease Provisions

The Lease to be awarded under this RFP will contain the provisions required by 36 C.F.R. Part 18 as well as other provisions determined by the NPS to be necessary to assure use of the leased property in a manner consistent with the purposes of the park area, and where applicable, to assure the preservation of historic property.

Required provisions include, without limitation:

- A termination for cause or default provision;
- Appropriate provisions requiring the Lessee to maintain the leased property in good condition throughout the term of the Lease;
- Appropriate provisions stating that subletting of a portion of the leased property and assignment of a lease, if permissible under the terms of the lease, must be subject to the written approval of NPS;
- Appropriate provisions requiring the Lessee to pay for use of all services and utilities not provided by the Lessor and to pay all taxes and assessments imposed by federal, state, or local agencies applicable to the leased property or to Lessee activities;
- Appropriate provisions stating that the Lessee has no rights of renewal of the Lease or to the award of a new Lease upon Lease termination or expiration;
- Appropriate provisions stating that the Lessee may not construct new buildings or structures on leased property except in limited circumstances;
- Appropriate provisions requiring that any improvements to or demolition of leased property to be made by the Lessee may be undertaken only with written approval from the NPS; and
- Appropriate provisions that describe and limit the type of activities that may be conducted by the Lessee on the leased property.

A Sample Lease is attached to this RFP.

PROPOSALS CONSIDERED PUBLIC DOCUMENTS

All proposals submitted in response to this Prospectus may be disclosed by the Service to any person, upon request, to the extent required or authorized by the Freedom of Information Act (5 U.S.C. § 552). If you believe that your proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, mark the cover page of each copy of the proposal with the following legend:

“The information specifically identified on pages of this proposal constitutes trade secrets or confidential commercial or financial information that the Offeror believes to be exempt from disclosure under the Freedom of Information Act. The Offeror requests that this information not be disclosed to the public, except as may be required by law.”

You must specifically identify what you consider to be trade secret information or confidential commercial or financial information on the page of the proposal on which it appears, and you must mark each such page with the following legend:

Information so identified will not be made public by the NPS except in accordance with law. The NPS does not warrant and assumes no liability for the accuracy of the information provided in this RFP.

ELIGIBILITY

Applicants subject to existing legal authorizations must be compliant with current lease obligations in order to be eligible for this opportunity. Current lessees of NPS property who have not satisfied reporting obligations or other lease obligations or have outstanding rent payments will not be considered eligible for this opportunity.

Applicants who are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from a public transaction by a federal department or agency, or whose legal authorizations to undertake operations on park lands or to use and occupy park lands and facilities have been revoked, suspended, or terminated, or whose obligations for payments have been deemed delinquent and have been deferred to the United States Treasury, are not eligible for consideration.
