A LOT OF ENERGY.
I BET HE'S HUNGRY AND
WOULD LOVE TO FIND ME!

DID YOU KNOW?

Wolverines are super explorers. They routinely travel hundreds of miles a week through some of the most

remote regions of the park. As they explore their territory and look for food, even high peaks like Mt. Cleveland

are no obstacle. One male wolverine climbed 5,000 feet in 90 minutes on his way up and over the summit.
