

Day Trip Plan - Glacier National Park

Today's Date _____

This voluntary form can help you plan your day trip and can be a valuable tool for emergency search and rescue personnel. You can leave it with a friend, your hotel front desk, or in a location rescuers may find it (for security reasons, be careful not to leave it in plain view in your car). The National Park Service does not collect this form and it should be destroyed after the trip is completed. This form is available at any Glacier backcountry permit office or on the park's website www.nps.gov/glac. **Rescues will not be initiated until the park is notified that an incident has occurred.**

Overnight trips require a separate Backcountry Permit that must be obtained prior to entering the backcountry.

Name: _____ Number in party: _____
Phone Numbers: Home _____ Mobile/Cell _____ Other _____
Address: _____
Email addresses: _____
