3. To assume all obligations of the Contract incurred by the Assignor prior to the effective date of the Assignment if the Assignor fails to perform them, including, but not limited to, payment of franchise fees, payment of utilities provided by the National Park Service, and deposits to capital and government improvement accounts, if any.

4. Within 60 days after approval of the Assignment, a copy of an itemized Bill of Sale covering all transferred assets will be provided to the National Park Service.

6. The National Park Service, when developing the requirements of any subsequent concession contract for this operation, will not take into account the purchase price or any outstanding debt resulting from this Assignment. This approval does not impact any preferential right assignee may have under statute or regulation.
10. Assignee will not utilize this approval in any form or manner, including, but not limited to, any litigation, proceeding or hearing, involving the National Park Service or the United States of America, as evidence of any fact or matter other than that the National Park Service approved the Assignment in accordance with Section 408 of the National Park Service Concessions Management Improvement Act of 1998 (P.L. 105-391).
11. Notwithstanding any representations made by the Assignee to the National Park Service or the Assignor or other persons as to the value of the Contract or possessory interest, if any, or as to any other matters related to this transaction, the National Park Service, by approving this Assignment, expressly is not agreeing to, approving or concurring in any such representations. The National Park Service reserves the right to challenge any representations made by the Assignee in any future matters concerning the Contract and the National Park Service, including, but not limited to, the value of any possessory interest granted by the Contract, if any.
12. That, to the extent that the Assignor may have been allocated user days or other access privileges to the park area for the purposes of the Contract, such allocations are subject to change or elimination by the

National Park Service and that the Contract does not grant such allocations as a matter of right to the Assignee or any subsequent concessioner.

13. The approval of this Assignment by the Secretary shall not be construed, in any manner, as amending, altering or waiving any terms and conditions of the Contract.

14. The approval of this Assignment by the Secretary does not in and of itself constitute approval of any financial transaction or encumbrance associated with this Assignment. - (1) The Concessioner or the Director may request, in the event that either considers that extraordinary, unanticipated changes have occurred after the effective date of this Contract, a reconsideration and possible subsequent adjustment of the franchise fee established in this section. For the purposes of this section, the phrase “extraordinary, unanticipated changes” will mean extraordinary, unanticipated changes from the conditions existing or reasonably anticipated before the effective date of this Contract which have or will significantly affect the probable value of the privileges granted to the Concessioner by this Contract. For the purposes of this section, the phrase “probable value” means a reasonable opportunity for net profit in relation to capital invested and the obligations of this Contract.
- (2) The Concessioner or the Director must make a request for a reconsideration by mailing, within sixty (60) days from the date that the party becomes aware, or should have become aware, of the possible extraordinary, unanticipated changes, a written notice to the other party that includes a description of the possible extraordinary, unanticipated changes and why the party believes they have affected or will significantly affect the probable value of the privileges granted by this Contract.
- (3) If the Concessioner and the Director agree that extraordinary, unanticipated changes have occurred, the Concessioner and the Director will undertake good faith negotiations as to an appropriate adjustment of the franchise fee.
- (4) The negotiation will last for a period of sixty (60) days from the date the Concessioner and the Director agree that extraordinary, unanticipated changes occurred. If the negotiation results in agreement as to an adjustment (up or down) of the franchise fee within this period, the franchise fee will be adjusted accordingly, prospectively as of the date of agreement.
- (5) If the negotiation does not result in agreement as to the adjustment of the franchise fee within this sixty (60) day period, then either the Concessioner or the Director may request binding arbitration to determine the adjustment to franchise fee in accordance with this section. Such a request for arbitration must be made by mailing written notice to the other party within fifteen (15) days of the expiration of the sixty (60) day period.
- (6) Within thirty (30) days of receipt of such a written notice, the Concessioner and the Director will each select an arbiter. These two arbiters, within thirty (30) days of selection, must agree to the selection of a third arbiter to complete the arbitration panel. Unless otherwise agreed by the parties, the arbitration panel will establish the procedures of the arbitration. Such procedures must provide each party a fair and equal opportunity to present its position on the matter to the arbitration panel.
- (7) The arbitration panel will consider the written submissions and any oral presentations made by the Concessioner and the Director and provide its decision on an adjusted franchise fee

(up, down or unchanged) that is consistent with the probable value of the privileges granted by this Contract within sixty (60) days of the presentations.

- (8) Any adjustment to the franchise fee resulting from this section will be prospective only.
- (9) Any adjustment to the franchise fee will be embodied in an amendment to this Contract.
- (10) During the pendency of the process described in this section, the Concessioner will continue to make the established franchise fee payments required by this Contract.

6. Indemnification

The Concessioner agrees to assume liability for and does hereby agree to save, hold harmless, protect, defend and indemnify the United States of America, its agents and employees from and against any and all liabilities, obligations, losses, damages or judgments (including without limitation penalties and fines), claims, actions, suits, costs and expenses (including without limitation attorneys fees and experts' fees) of any kind and nature whatsoever on account of fire or other peril, bodily injury, death or property damage, or claims for bodily injury, death or property damage of any nature whatsoever, and by whomsoever made, in any way connected with or arising out of the activities of the Concessioner, its employees, agents or Contractors under this Contract. This indemnification will survive the termination or expiration of this Contract.

7. Notice of Bankruptcy or Insolvency

The Concessioner must give the Director immediate notice (within five (5) days) after the filing of any petition in bankruptcy, filing any petition seeking relief of the same or different kind under any provision of the Bankruptcy Act or its successor, or making any assignment for the benefit of creditors. The Concessioner must also give the Director immediate notice of any petition or other proceeding against the Concessioner for the appointment of a trustee, receiver, or liquidator, or, the taking by any person or entity of the rights granted by this Contract or any part thereof upon execution, attachment or other process of law or equity. For purposes of the bankruptcy statutes, NPS considers that this Contract is not a lease but an executory Contract exempt from inclusion in assets of Concessioner pursuant to 11 U.S.C. 365. The Director may terminate this Contract if the Director determines that the Concessioner is unable to perform the terms of Contract due to such bankruptcy or insolvency action.

8. Additional Provisions

- (b) This Contract does not grant rights or benefits of any nature to any third party.
- (c) The invalidity of a specific provision of this Contract will not affect the validity of the remaining provisions of this Contract.
- (d) Waiver by the Director or the Concessioner of any breach of any of the terms of this Contract by the other party will not be deemed to be a waiver or elimination of such term, nor of any subsequent breach of the same type, nor of any other term of the Contract. The subsequent acceptance of any payment of money or other performance required by this Contract will not be deemed to be a waiver of any preceding breach of any term of the Contract.
- (e) No member of, or delegate to, Congress or Resident Commissioner will be admitted to any share or part of this Contract or to any benefit that may arise from this Contract but this restriction will not be construed to extend to this Contract if made with a corporation or company for its general benefit.
- (f) This Contract is subject to the provisions of 43 CFR, Subtitle A, Part 12, Subpart D, concerning nonprocurement debarment and suspension. The Director may recommend that the Concessioner be debarred or suspended in accordance with the requirements and procedures described in those regulations, as they are effective now or may be revised in the future.

sanctions for noncompliance: Provided, however, that in the event the Concessioner becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Secretary, the Concessioner may request the United States to enter into such litigation to protect the interests of the United States.

Section II: Accessibility

Title V, Section 504, of the Rehabilitation Act of 1973, as amended in 1978, requires that action be taken to assure that any "program" or "service" being provided to the general public be provided to the highest extent reasonably possible to individuals who are mobility impaired, hearing impaired, and visually impaired. It does not require architectural access to every building or facility, but only that the service or program can be provided somewhere in an accessible location. It also allows for a wide range of methods and techniques for achieving the intent of the law, and calls for consultation with disabled persons in determining what is reasonable and feasible.

No handicapped person shall, because a Concessioner's facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity receiving Federal financial assistance or conducted by any Executive agency or by the U.S. Postal Service.

A. Discrimination Prohibited

A Concessioner, in providing any aid, benefit, or service, may not directly or through contractual, licensing, or other arrangements, on the basis of handicap:

- (1) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;
- (2) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;
- (3) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective as that provided to others;
- (4) Provide different or separate aids, benefits, or services to handicapped persons or to any class of handicapped persons unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

*Items marked with one asterisk are items which were not included in the draft contract, but were elements of the best offer.

**Items marked with two asterisks are elements that the Concessioner offered in their proposal.

- (6) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or
- (7) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service.

B. Existing Facilities

A Concessioner shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not require a Concessioner to make each of its existing facilities or every part of a facility accessible to and usable by handicapped persons.

*Items marked with one asterisk are items which were not included in the draft contract, but were elements of the best offer.
**Items marked with two asterisks are elements that the Concessioner offered in their proposal.

**OPERATING PLAN ATTACHMENT A
RESOURCE PROTECTION GUIDELINES
FOR GLACIER BAY NATIONAL PARK
Revised: October 28, 2005**

Off-Vessel Activities

I. RESOURCE GUIDELINES FOR WATER AND SHORE BASED OFF-VESSEL ACTIVITIES

- All groups will follow the guidelines set forth in the NPS Wilderness Visitor Use Management Plan (1989). The current plan includes:
 1. Group size is limited to 12 or fewer people, including the guide(s)
 2. Individual guided groups will remain out of sight and sound of each other.
 3. Visual evidence of previous use will be nearly absent.
 4. Landing sites and trails will not be evident, all garbage will be packed out and the noise level will be kept to a minimum.
- Out of sight means that each group will not be in view of each other at any time during the paddle. If because of topography, weather, or logistics each group can not remain out of sight of each other, they will remain at least one-quarter mile apart.
- Out of sound means that each group will remain far enough apart so they would not normally be able to hear each other. This separation may be further than the visual separation as sound travels easily around physical and water barriers that often restrict groups visually. This must be adjusted for each area based on topography and weather conditions. If because of topography, weather, or logistics each group can not remain out of sound of each other, they will remain at least one-quarter mile apart.
- Groups will avoid approaching within one-quarter mile of a tidewater glacier.
- Groups will avoid approaching within 100 feet of nesting seabird colonies. When seabirds begin to circle in the air, dive at individuals on shore, or vocalize, the group should move away from the area as quickly as possible. This will decrease the potential for incubating or brooding adults to abandon their nests. Additionally, adults that continue to leave the nest expend more energy and may expose their eggs and young to predation, chilling, and/or over-heating.
- Vessels dropping passengers on shore should avoid areas where marine birds are concentrated. Each vessel should approach the shoreline at a minimum speed to reduce disturbance to marine birds.
- Whenever possible, groups should attempt to hike in the rocky intertidal to avoid producing trails in the beach grass. When this is not possible, groups hiking in the beach grass, should avoid, to the best of their ability, hiking single file and spread their disturbance over a larger area. Also, consecutive groups should not travel the same path in the same area on any one day to avoid trailing.
- Groups should avoid kayaking or hiking directly in the streambed from July through September to reduce disturbance to spawning salmon and avoid trampling fertilized eggs within the stream gravel.
- Groups should leave the area if moose, bears, wolves, wolverines, or goats alter their behavior (e.g., turning sideways, standing up, leaving the area, stopping in their tracks) due to the presence of the group. This will prevent these animals from becoming displaced from important forage resources.

*Items marked with one asterisk are items which were not included in the draft contract, but were elements of the best offer.

**Items marked with two asterisks are elements that the Concessioner offered in their proposal.

- Groups should avoid hiking directly beneath or walking up to any occupied bald eagle nest. Bald eagles are susceptible to disturbance around their nest. An occupied bald eagle nest can be defined as any nest that has one or more bald eagles perched near (within one-quarter mile) or in the nest tree.

II. SITE SPECIFIC WATER AND SHORE BASED OFF-VESSEL ACTIVITIES

Resource guidelines for specific sites within Glacier Bay National Park:

Reid Glacier

- No more than two groups of 12 individuals will remain in Reid Inlet at any one time. These groups include those involved in all off-vessel activities (on shore and on the water).
- There will be no shore based activities allowed in the area surrounding the Ibach Cabin site. This area is used by numerous species of songbirds, shorebirds, waterfowl, and seabirds. There are mew gull and arctic tern nesting colonies south of the cabin that are susceptible to human foot traffic. Also, brown bears are frequently seen in this area and, in 1998 and 1999, this area was closed to all foot traffic because of increasing brown bear activity.

Tyndall Cove to Shag Cove, Geikie Inlet

- No foot traffic should take place on the small island at the entrance to Shag Cove due to an active bald eagle nest, which has failed to produce young in 1997, 1998, and 2000.
- Groups should not hike along the shoreline directly opposite from the small islet near the northwest entrance to Shag Cove. Marine birds (including harlequin ducks, scoters, and goldeneyes) tend to concentration in this area and can be susceptible to repeated human and vessel disturbance.

Spokane Cove, South Sandy Cove, North Sandy Cove

- The shoreline from Wolf Creek in Spokane Cove to a point due east from the southern tip of Garforth Island, including Puffin Island and the small islets of North and South Sandy Cove are closed to camping from May 1 through August 15. No hiking is authorized in this area due to a large population of black bears. Groups may go to shore for rest and lavatory breaks, but must remain within the intertidal.
- Groups should avoid hiking along Wolf Creek in Spokane Cove in late August and early September. This area contains large concentrations of bears when pink and chum salmon enter the stream drainage to spawn.

Beartrack Cove

- Groups should avoid hiking along the Beartrack River in late August and early September. This area is an important resource to black bears, bald eagles, ravens, crows, and gulls when pink and chum salmon enter the stream drainage to spawn.
- The Beartrack River tidal flats extend out over ¼ mile from the beach fringe. Extensive shoaling can occur in this area at low tide. Groups should be aware of the tidal movements for that day and exercise caution when going to shore in this area.

Berg Bay

- Berg Bay contains native allotments that are private property and not within the park's jurisdiction. Fig. 1. Identifies the general location and boundary of private allotments within Berg Bay.

III. SITE SPECIFIC WATER AND SHORE BASED OFF-VESSEL ACTIVITIES OUTSIDE GLACIER BAY PROPER

A. Resource guidelines for protecting marine birds:

*Items marked with one asterisk are items which were not included in the draft contract, but were elements of the best offer.

**Items marked with two asterisks are elements that the Concessioner offered in their proposal.

- The eastern tidal marsh of Taylor Bay; the Dundas Bay River, wetlands, and estuary; and Sawmill Bay and the Excursion River estuary support large concentrations of marine birds that use these areas for feeding and shelter. Many of these marine birds are also flightless during the late summer molt. The molting process can leave these birds vulnerable to predation and disturbance by vessels. Motorized vessels should minimize their wake and all groups should stay well away from areas where marine bird concentrations are present.

B. Resource guidelines for protecting streams:

- The mouth of the Dundas and Excursion Rivers is an important resource area for bears, moose, wolves, bald eagles, ravens, crows, and gulls when pink and chum salmon enter the stream drainage to spawn. Groups should avoid hiking along either of these rivers in late August and early September when spawning salmon are present.

C. Private Allotments:

- Excursion Inlet, Point Gustavus and Point Carolus contain native allotments that are private property and not within the park's jurisdiction. Fig. 1. Identifies the general location and boundaries of private allotments in these areas.

D. Resource Guidelines for Specific Sites Outside of Glacier Bay Proper

Taylor Bay:

- The tide flats surrounding the Brady Glacier outwash can be dangerous due to saturated mud and sand that causes the substrate to act like quicksand. This area is not to be taken lightly. Groups should avoid the mud flats near the western and eastern outwash streams and any other areas that contain saturated mud.
- When walking near the Brady Glacier, group guides should test the substrate stability with a stick before taking any clients into the area.

Dundas Bay:

- The Dundas Bay cannery is located in lower Dundas Bay and was once the center of an active cannery operation. Several remnants and artifacts from this era still remain on site. When visiting the cannery site, groups will not enter the main cannery building. This building is condemned and dangerous to health and safety. Groups will also follow the safety guidelines developed for shore parties at the cannery site. A copy of these guidelines is enclosed.
- Groups will not remove any items from the Dundas Bay cannery location.
- Metal artifacts and structures and large rocks distributed throughout the cannery site can result in an uneven substrate. Many of the metal pieces are partially buried and contain sharp edges. Groups should take extra precautions when walking in the cannery site.
- The Dundas Bay cannery intertidal and subtidal area is strewn with metal pieces, some of which may be partially buried in the substrate. Vessels should take extra precaution when approaching this area.
- Bears frequent the large estuary at the end of Dundas Bay's northern arm. Caution should be used when taking groups to shore in this area.
- Both the northern and southern arms of Dundas Bay contain navigational hazards (e.g., submerged rocks and shoals) that, due to tidal fluctuations, may or may not be exposed. Extra precaution should be taken when traveling in these areas.
- Extensive mudflats are present in the mouth of the Dundas River and Dundas Bay's southern arms. Vessels should not travel into the mouth of the Dundas River. Exposed mudflats in Dundas Bay's **two southern arms can** extend out over ½ mile from the beach fringe at low tide. Water levels may

fluctuate from 20 ft. to 2 ft. in very short distances. Groups should be aware of the tidal movements for that day and exercise caution when navigating or going to shore in these areas.

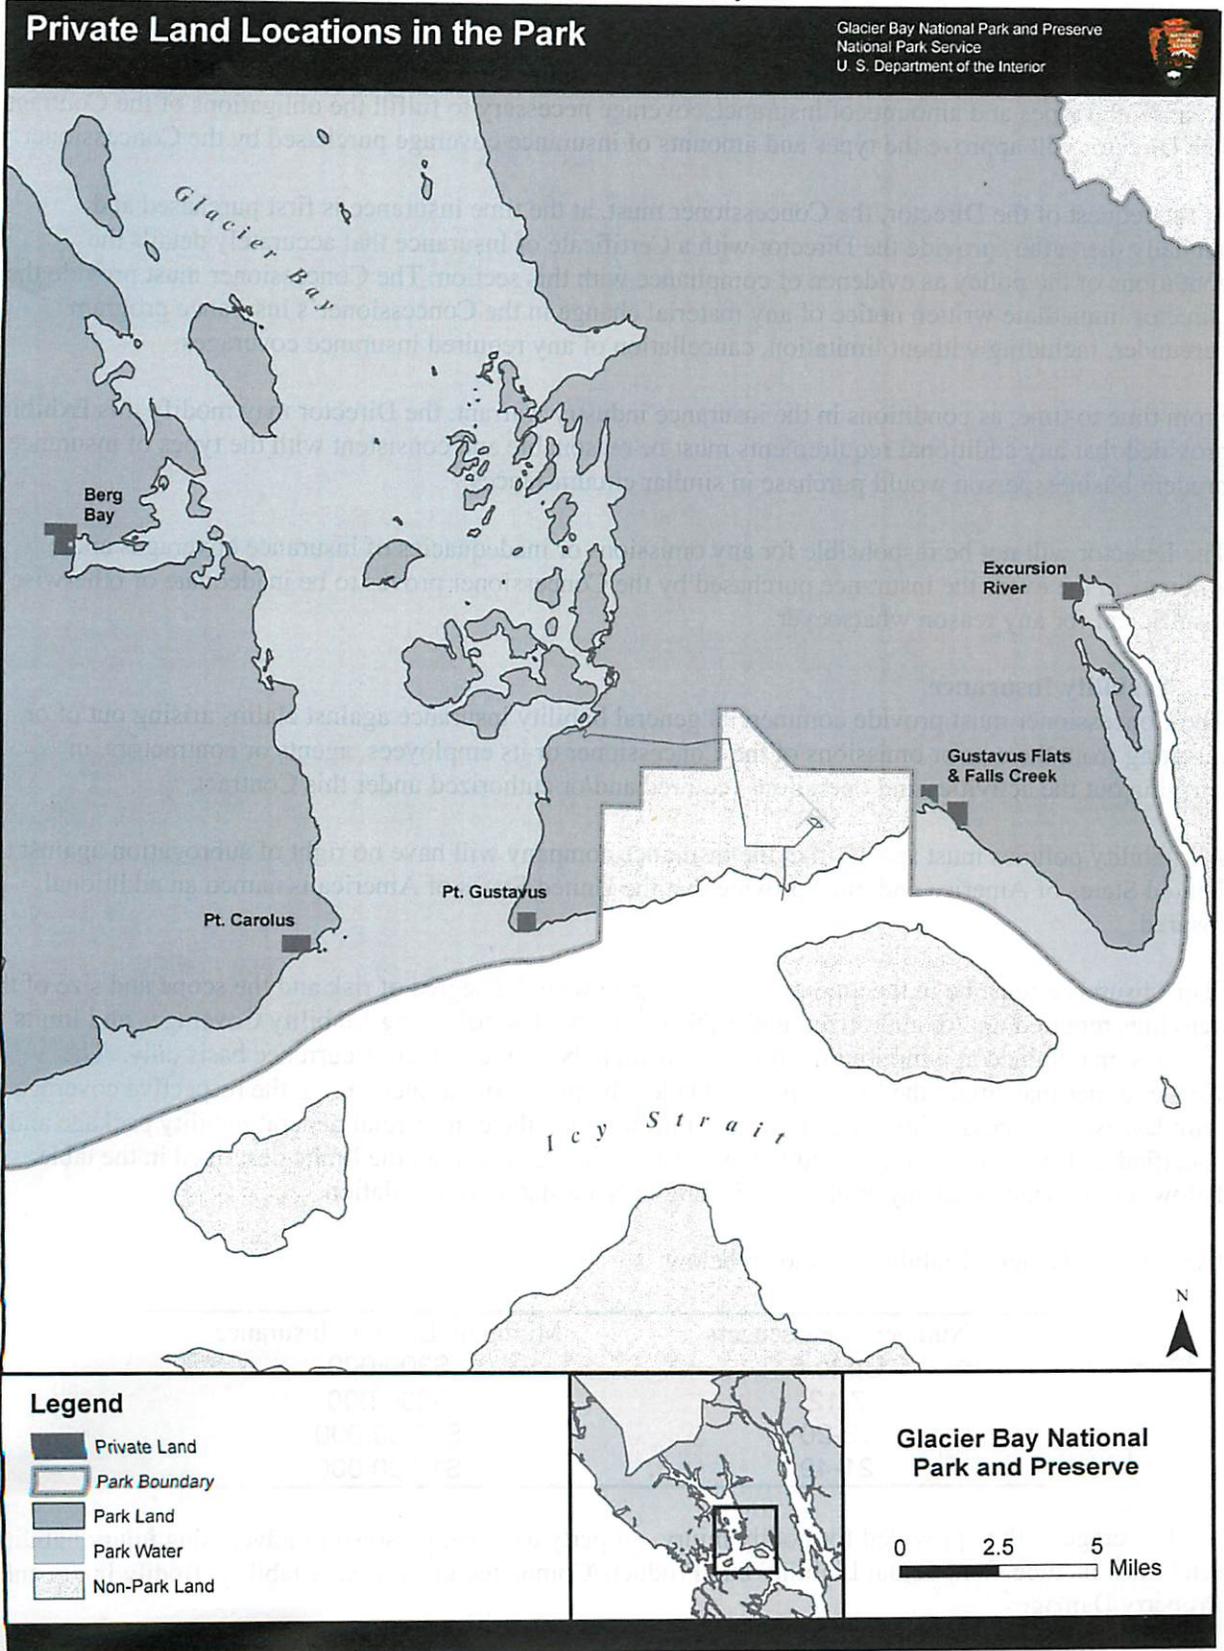

Excursion Inlet:

- Harbor seals haul out on a sand bar at the mouth of the Excursion River. All vessels (motorized and non-motorized)should remain at least ¼ mile from this haul-out when seals are present.
- The mouth of the Excursion River is also surrounded by extensive mud flats and shoaling. Vessels should not enter this area or travel into the mouth of the river.
