## Glen Canyon News Release

### New Visitor Contact Station Opens at Wahweap

Page, Ariz. – Today, Glen Canyon National Recreation Area opened a new visitor contact station at the Wahweap District Ranger’s Office near Wahweap Marina. Operated in cooperation with the Glen Canyon Natural History Association, the visitor contact station offers free information about visiting Glen Canyon and Lake Powell and the surrounding public lands, as well as exhibits and information on paleontology, the ecology of Colorado Plateau, and boating safety, among other things. The Glen Canyon Natural History Association also operates a bookstore at the site.

“We are excited to offer our visitors another place to stop and get important information about their visit to Glen Canyon and Lake Powell,” said superintendent Kitty Roberts. “We sincerely appreciate the support of our partner, the Glen Canyon Natural History Association, in providing this service.”

A ribbon- cutting ceremony will be held Thursday, May 25 at 11:00 AM M.S.T. to mark the opening of the visitor contact station. The public is invited to join park staff and supporters of the Glen Canyon Natural History Association in formally “opening” the visitor contact station.

The Wahweap visitor contact station is centrally located on Wahweap Boulevard and is only a short walk from the Lake Powell Resort, the Wahweap launch ramp, and the Wahweap campground. The contact station is also located near the Stateline launch ramp and the boat rental office operated by Lake Powell Resorts and Marinas. Wahweap is the most popular access point to Lake Powell, with nearly 1.4 million visitors annually to this area alone.

The visitor contact station is incorporated into the front lobby area of the existing Wahweap District Ranger’s Office. Initially, the Wahweap visitor contact station will be open from 9 am to 5 pm, seven days a week.
