Introduction

Golden Gate National Recreation Area

Park Description

Golden Gate National Recreation Area (GGNRA), a unit of the National Park Service, was established by an Act of Congress on October 27, 1972. The 80,000-acre park encompasses a great diversity of cultural and natural resources in and around the Bay Area of San Francisco, California. It includes Muir Woods National Monument and Fort Point National Historic Site.

The park holds almost five million three-dimensional and documentary artifacts dating from the time before European contact to the present. They are preserved and maintained for the public by the Division of Cultural Resources and Museum Management, which includes the Park Archives and Records Center (PARC).

Park Archives and Records Center

Historical Note

GGNRA and the sites within it have been collecting records since their inception. The PARC was established in 1994 to receive records and archival collections from the U.S. Army and the Presidio Army Museum after the closure of the Presidio of San Francisco as an Army base. The collections continue to grow through the donation of materials by private individuals, transfer of inactive park records by staff, and acquisition of relevant documentary materials.

Scope of Collections

The archival collections in the custody of the GGNRA document the history and activity of the various sites and groups associated with the park, described in the park's Scope of Collection Statement (2009).

The PARC contains U.S. Army and National Park Service facility records for the Presidio of San Francisco, forts and coast defense sites in the area, and various GGNRA sites. Subjects and sites documented include the United States Army (Bear Flag Revolt, Civil War, Spanish-American War, Mexican War, World War I, Army Air Service, Coast Artillery, Army medical facilities and issues, World War II, Army support during natural disasters, Viet Nam War, and Operation Desert Storm); Alcatraz Island (Army fortress, Army Disciplinary Barracks, U.S. Penitentiary, and Indian Occupation); the natural resources conservation movement resulting in the establishment of Muir Woods National Monument; agriculture in the Marin Headlands; Point Reyes Peninsula and Bolinas Lagoon areas; U.S. Lifesaving/Coast Guard Services; San Francisco Earthquake and Fire of 1906; Panama Pacific International Exposition of 1915; natural resources and environmental issues; and preservation of open space in the Bay Area. Also included in the PARC are many of the GGNRA administrative records that document the development and expansion of this park.

Visiting the PARC for Research

The PARC is located in an historic brick building, formerly a cavalry stable, on the Presidio of San Francisco. Collections and archives support services are available for walk-in research during open hours or by appointment. Please contact the PARC (see below) for the current schedule of reference hours.

Copy Services

Black and white photocopy services for standard and oversize materials are available on-site. Color photocopying, photographic duplication, and duplication of other media are available by special arrangement. Researchers are charged for all duplicates on a cost-recovery basis.

Rights and Publications

Copies are provided under the Fair Use provisions of the Copyright Law (Title 17, U.S.C.). Researchers must complete a Permission to Publish Contract form with the Park Archivist for any other intended use of these materials (such as publication or exhibit). Researchers should consult with staff regarding their needs for commercial or public use of materials.

Legal Status of Holdings

Many holdings of the PARC were acquired/transferred prior to the establishment of the archives program, and have little documentation on their provenance (source/chain of custody). All materials received after 1994 have been accessioned and documented. If provenance cannot be determined, the PARC assumes that it owns the property rights, but does not own the copyright. Staff will provide assistance, but it is the responsibility of the researcher to acquire permission from the copyright holder to cite, quote, or reproduce collection materials.

Collections developed by or for government organizations or operations are in the public domain and may be used, cited, and quoted without restriction, provided they are properly credited to the PARC. The archives contain no national security classified materials.

Donations to the Collections

The PARC welcomes donations of a variety of historic materials that meet the criteria in the Scope of Collections Statement and do not duplicate existing holdings. Collections are maintained for research use in perpetuity; there is no guarantee that items will be exhibited. If you own materials that may be relevant to the themes of GGNRA and would like to deposit them in the PARC, please consult with an archivist.

How to Use This Finding Aid

This document contains information on the contents and significance of an archival collection. It includes descriptive information; repository information; collection history; biographical or historical information on creators of the collection; and a container or folder list of everything in

the collection. After reviewing the finding aid, please discuss your specific needs with the archivist who will locate and retrieve the relevant materials.

How to Use the Collections

Please follow all rules and regulations regarding research, the use of the research facility, and the handling of collection materials. This will protect the collections so they continue to be available for generations to come. If anything appears to be out of order or damaged, please notify a staff member.

Contacts

For additional information on the use of archival collections at GGNRA, please contact the Park Archives and Records Center:

-9 Oversize 36x48 map folders	= 0.9 LF
-1 Mega-map oversize folder	= 0.1 LF
-4 books stored in the Rare Book Library	= 0.5 LF

Provenance

The records were created and maintained by the Sixth U.S. Army and were transferred to the National Park Service (NPS) upon the deactivation of the Presidio and the transfer of the Army's property to the NPS in 1994. On September 2, 1994, the National Park

¹ Cover image: Group photograph of the Sixth U.S. Army Roads & Railroad Division stationed at the Presidio of San Francisco, Christmas 1947 (B25 F13).

² All box measurements are recorded in inches.

Service requested the release of certain records held in the custody of the U.S. Army, Directorate of Public Works that concern the facilities and resources the NPS would be managing in place of the Army. These records, with some exceptions, were released and transferred to the National Park Service in accordance with the terms of cooperative agreements, and partially consisted of the materials in this collection. These materials were transferred to the Park Archives and Records Center in October of 1994 as sixteen U.S. Army Directorate of Public Works Operations records groups (ADPWO-001 through ADPWO-016). Their respective provenance is as follows:

- ADPWO-001 – Boiler Plant, Presidio of San Francisco (PSF) Bldg 1040
- ADPWO-002 – Water Treatment Plant, PSF Bldg 1773
- ADPWO-003 – Operations and Maintenance Division Office, PSF Bldg 290
- ADPWO-004 – General Maintenance Branch Office, PSF Bldg 282
- ADPWO-005 – Carpenter Shop, PSF
- ADPWO-006 – Electric Shop, PSF Bldg 284
- ADPWO-007 – Mechanical Shop, PSF Bldg 284
- ADPWO-008 – Mechanical Shop, PSF Bldg 284
- ADPWO-009 – Mechanical Shop, PSF Bldg 284
- ADPWO-010 – Paint and Sign Shop, PSF Bldg 285
- ADPWO-011 – General and Preventive Maintenance Shop, PSF
- ADPWO-012 – Roads and Pavement Branch Office, PSF Bldg 290
- ADPWO-013 – General Maintenance Branch Office, PSF Bldg 282
- ADPWO-014 – Entomology Branch Office (Pest Management), PSF Bldg 269
- ADPWO-015 – Operations and Maintenance Division Employee Files, PSF
- ADPWO-016 – Paint and Sign Shop, PSF Bldg 285

Note: The ADPWO records groups were surveyed prior to this project and some material unrelated to the Golden Gate National Recreation Area's scope was discarded or transferred. In addition, some project specific records from the ADPWO Army records groups were removed and processed with the U.S. Army Project Records, GOGA 37252.

Scope and Content Note

The Sixth U.S. Army, Directorate of Public Works, Maintenance Shops Records, dating from 1776 to 1999 with bulk dates from 1950-1995, documents the management of various operations and maintenance shops in their duties at the Presidio of San Francisco and its sub-installations, including Fort Baker, Fort Barry, Fort Cronkhite, Fort Funston, Fort Mason, Fort Point, Fort Winfield Scott, and multiple Bay Area Army Reserve Centers.

Photograph of Roads and Pavement Branch work on Crissy Army Air Field with the Golden Gate Bridge in the background, no date (B26 F10).

The records cover many topics including administrative functions; U.S. Army regulations and policy; shop management and operations; infrastructure and facility management; tests and reports; work plans and projects; equipment and supplies; safety and health; environmental issues; as well as base closure and NPS transition and transfer. The records include textual records, photographic media, books, recordbooks, plans, maps, and blueprints.

These materials contribute to the documentation of changes, additions, and conditions of lands and structures that are now within the boundaries of the Golden Gate National Recreation Area.

Organization and Arrangement

The Sixth U.S. Army, Directorate of Public Works, Maintenance Shops Records are organized into ten series and arranged into 74 subseries and 23 sub-subseries. Each section is arranged chronologically unless otherwise noted in the Series Description section (starting on page 15).

Series I: Operations and Maintenance Division Office Records

Subseries A: U.S. Army and General Presidio of San Francisco (PSF)
Administrative Functions, Regulations, Standards, and Policy

Subseries B: Operation and Maintenance (O&M) Division Operations
Management

Subseries C: Facility Management

Subseries D: Water System Management

Sub-subseries 1: Administrative Functions: History, Regulations,
Standards, Policy, and Operational Procedures

Sub-subseries 2: Water Tests, Water Studies, and Water Reports

Sub-subseries 3: Water System Evaluations, Inspections, Citations, and
Deficiencies

Sub-subseries 4: Water-Related Projects

Sub-subseries 5: Environmental Management, Water Conservation, and
Safety

Sub-subseries 6: News Articles

Subseries E: Boiler Plant Management

Subseries F: Hospital Management (Letterman)

Subseries G: Land and Forest Management and Land Use

Subseries H: Utility System Management

Subseries I: Sewer System Management

Subseries J: Pest Control

Subseries K: Inspector General Reports and Findings

Subseries L: Safety

Subseries M: Environmental Management and Energy Conservation

Subseries N: Base Closure and NPS Transition and Transfer

Subseries O: 35mm Photographic Slides

- Sub-subseries 1: Historic Slides
- Sub-subseries 2: Aerials Slides
- Sub-subseries 3: Landscapes Slides
- Sub-subseries 4: Building Exteriors Slides
- Sub-subseries 5: Building Interiors Slides
- Sub-subseries 6: People and Army Personnel Slides
- Sub-subseries 7: Events and Ceremonies Slides
- Sub-subseries 8: Briefing Slides (Presentation Slides)
- Sub-subseries 9: Maps Slides
- Sub-subseries 10: Renderings and Project Sketches Slides
- Sub-subseries 11: Insignia, Crests, and Signs Slides

Series II: Boiler Plant and Power Plant Records

- Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
- Subseries B: Boiler Plant and Power Plant Management: Regulations, Policy, and Operations
- Subseries C: Boiler Plant and Power Plant Data Logs and Operation Logs
 - Sub-subseries 1: Recordbooks
 - Sub-subseries 2: Operating Logs
 - Sub-subseries 3: Recording Charts
 - Sub-subseries 4: Power Plant Meter Readings
- Subseries D: Boiler Plant and Power Plant Work Plans
- Subseries E: Boiler Plant and Power Plant Projects
- Subseries F: Equipment and Supplies
- Subseries G: Utility Management
- Subseries H: Safety and Health
- Subseries I: Environmental Issues

Series III: Carpenter Shop Records

- Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
- Subseries B: Equipment and Supplies
- Subseries C: Base Realignment and Closure (BRAC)

Series IV: Electric Shop Records

- Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
- Subseries B: Electric Shop Management: Regulations, Policy, Procedures, and Operations
- Subseries C: Work Plans
- Subseries D: Electric Shop Projects
- Subseries E: Alarm Systems
- Subseries F: Equipment and Supplies
- Subseries G: Safety and Health
- Subseries H: Water Supply Management and Water Conservation

- Series V: Entomology Shop Records
 - Subseries A: Pest Management Plans
 - Subseries B: Pest Management, Wood Decay, and Weed Control Inspection Reports and Service Orders
 - Subseries C: Pest Trap Checkout Logs

- Series VI: General Maintenance and Preventive Maintenance Shops Records
 - Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
 - Subseries B: General Maintenance Shop and Preventive Maintenance Shop Management: Regulations, Procedures, and Operations
 - Subseries C: Building Preventive Maintenance Records
 - Subseries D: Equipment and Supplies
 - Subseries E: Safety and Health
 - Subseries F: Environmental Issues
 - Subseries G: Base Realignment and Closure (BRAC)

- Series VII: Mechanical Shop Records
 - Subseries A: Mechanical Shop Management: Regulations, Procedures, and Operations
 - Subseries B: Mechanical Shop Projects
 - Subseries C: Equipment and Supplies
 - Subseries D: Base Realignment and Closure (BRAC)

- Series VIII: Paint and Sign Shop Records
 - Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
 - Subseries B: Paint and Sign Shop Management: Regulations, Procedures, and Operations
 - Subseries C: Nameplate Distribution Recordbooks
 - Subseries D: Equipment and Supplies
 - Subseries E: Safety and Health
 - Subseries F: Environmental Issues
 - Subseries G: Base Realignment and Closure and NPS Transition and Transfer

- Series IX: Roads and Pavement Shop Records
 - Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy
 - Subseries B: Roads and Pavement Shop Management: Regulations, Procedures, and Operations
 - Subseries C: Roads and Pavement Shop Projects
 - Subseries D: Equipment and Supplies
 - Subseries E: Safety and Health
 - Subseries F: Environmental Issues

Subseries G: Water Supply Management

Series X: Water Treatment Plant Records

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

Subseries B: Water Treatment Plant Management: Regulations, Procedures, Operations, and Literature

Subseries C: Water System Review

Subseries D: Water System Tests and Data

Sub-subseries 1: Water Tests, Operating Logs, and Data Reports

Sub-subseries 2: Recording Charts

Subseries E: Water Plant Projects

Subseries F: Records of Inspections & Service Forms

Subseries G: Equipment and Supplies

Subseries H: Consolidated Property Book and Hand Receipts

Subseries I: Safety and Health

Subseries J: Environmental Issues and Energy Conservation

Subseries K: Base Realignment and Closure (BRAC) and NPS Transition and Transfer

All of the series (except Series V and Series VI) contain oversize material. The oversize material consists of plans, drawings, and other items housed in nine oversize map folders, three oversize flat 15x19-inch boxes, and one mega-map folder. The oversize material is arranged in the order it was separated from the files, i.e., in the series and box and folder order. A separation note was placed in each folder to note the original location of the item and the oversize storage location. Many of the plans are annotated with shop-specific information. Duplicate material was discarded, except for plans that contained annotations.

Significance

The Sixth U.S. Army, Directorate of Public Works, Maintenance Shops Records contain valuable information regarding the maintenance of buildings, facilities, infrastructure, utilities, and lands in the Presidio of San Francisco and its sub-installations. The records provide insight into the historic management of the areas now within the boundaries of the Golden Gate National Recreation Area and will support further management and preservation of these areas. The collection documents Army life, historic buildings, and the ever-changing cultural landscape. The files are original to site and are not contained or duplicated elsewhere.

Related Collections and Sources

Please note that this list is not comprehensive. It is intended as an aid to researchers. For more complete information, contact the reference archivist.

Condition

Overall the records are in good and stable condition. The text files, having been working files, contain some soiled and worn documents. Some documents have residual rust marks resultant of staples or binder clips that have been removed. Some documents and oversize material have adhesive tape attached, some of which is becoming brittle.

The oversize material was originally stored folded in the text files and therefore have many crease lines, some have rips and tearing along these crease lines. Some of the plans are unreadable in areas due to poor replication.

Some of the job description records in Series IX, Roads and Pavement Shop Records, Subseries A, have water damage, dirt accretions, and fire damage including singe marks along paper edges. The documents are fragile due to their condition.

History

The Army at the Presidio of San Francisco

The U.S. Army was stationed at the Presidio of San Francisco from 1846-1994, the last Army headquarters being the Sixth U.S. Army. The Presidio of San Francisco military

Golden Gate NRA, Park Archives, Sixth U.S. Army DPW Maintenance Shops Records, GOGA 38131 B35 F18

Ratcliff Hoists equipment catalog cover with the Golden Gate Bridge in the background, 1984. The company was located in San Carlos, California (B35 F18).

reservation at the Golden Gate developed into the most important Army post on the Pacific Coast. Over time its armaments evolved from smooth bore cannons to modern missiles. It became the nerve center of a coastal defense system that eventually included Alcatraz and Angel Island and that reached as far north as the Marin Headlands and as far south as Fort Funston. These lands were all incorporated into the Golden Gate National Recreation Area. Eventually, there were five distinct posts at the Presidio, each with its own commander: the Main Post, Fort Point, Letterman Hospital, Fort Winfield Scott, and Crissy Army Air Field. Also on the 1,491-acre reservation were a Coast Guard lifesaving station and a U.S. Public Health Service Hospital. The Presidio of San Francisco's sub-installations included Forts Baker, Barry, Cronkhite, Funston, Mason, and Miley, as well as various U.S. Army Reserve Centers throughout the San Francisco Bay Area.³

In 1972, the Presidio of San Francisco, then an active installation, was included within the boundaries of the Golden Gate National Recreation Area. In 1989, the Presidio of San Francisco was selected to close as part of the Base Realignment and Closure Act that was designed to close excess military bases. On October 1, 1994, after the post became excess to military needs, it was transferred to the National Park Service.⁴

The Maintenance Shops

The Sixth U.S. Army Maintenance Shops were based at the Presidio of San Francisco. At the time these records were transferred to the NPS, the Operations and Maintenance Shops were under the U.S. Army Directorate of Public Works. At different times, the shops whose records are included in this collection belonged to various divisions including the Directorate of Engineering and Housing (DEH), the Directorate of Facilities Engineering, the Operation and Maintenance Division, the Utilities Division, the Buildings and Structures Branch, and the Roads and Grounds Branch.

Series Description

The Sixth U.S. Army, Directorate of Public Works, Maintenance Shops Records are organized into ten series and are arranged into 74 subseries and 23 sub-subseries.

Series I: Operations and Maintenance Division Office Records

Volume: 6.5 linear feet

Box Range: 1-7

Dates: Inclusive: 1776-1995

Bulk: 1970-1995

The early dates (circa 1776) represent a few slides of historic images.

Note: Undated files are filed in the front of each subseries.

³ Golden Gate National Recreation Area website. "U.S. Military Period, 1846-1994." Accessed 4/3/2013, <<http://www.nps.gov/prsf/historyculture/us-military-period.htm>>.

⁴Golden Gate National Recreation Area website. "U.S. Military Period, 1846-1994." Accessed 4/13/2013, <<http://www.nps.gov/prsf/historyculture/us-military-period.htm>>.

Arrangement: This series is arranged into 15 subseries (A-O) and 17 sub-subseries that are each arranged chronologically unless otherwise noted. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files pertaining to the operation of the Operations and Maintenance (O&M) Division (Shop 39) located in Presidio of San Francisco (PSF) Building 290. Many of the records were created by Richard T. Hansen, who was the O&M Division Supervisory General Engineer as of July 1993 and the Chief of the O&M Division circa 1994-1995. These records are Army records group ADPWO-003 and ADPWO-015.

Subseries A: U.S. Army and General Presidio of San Francisco (PSF) Administrative Functions, Regulations, Standards, and Policy

This subseries contains records relating to Army policy, Army agreements, DEH (Directorate of Engineering and Housing) operations, budget planning, long-range planning, Army programs, and operations handbooks and reference guides. Army programs that are documented include the San Francisco Conservation Corps (SFCC), the Summer of Service, and the Presidio On Call Crew.

Subseries B: Operation and Maintenance (O&M) Division Operations Management

This subseries focuses on the general management and operations of the Water Plant, Boiler Plant, Water Distribution System, reservoirs, facilities, utilities, sewers, storm drains, roads and pavements, land management, and overall infrastructure. The records relating to O&M Division projects pertain to preventive maintenance and repairs. The records also document the interface and interaction between the U.S. Army and the National Park Service during the post to park transition.

Subseries C: Facility Management

This subseries details general information on historic property management, facility maintenance projects and programs including the PSF Self-Help Program, as well as work on various buildings.

Subseries D: Water System Management

This subseries is arranged into six sub-subseries as follows:

Sub-subseries 1: Administrative Functions: History, Regulations, Standards, Policy, and Operational Procedures

This sub-subseries is comprised of Army and other institutions' regulations and standards on the management of Water Systems and the Water Supply. The records also include the Water Plant and Water Treatment Plant operational procedures, projects, operations manuals, equipment, plans, visitor logs, and other water monitoring information.

Sub-subseries 2: Water Tests, Water Studies, and Water Reports

This sub-subseries contains information about water tests including bacteriological testing, contamination testing, testing regulations and procedures, testing frequency and schedule, and aquifer and pump testing. The records include water system and facility improvement studies as well as reports about Lobos Creek and its wells, Golf Course water use, water costs, facility inspection, water quality, water production, mandatory water reports, geotechnical reports, system repair, and storm drains.

Sub-subseries 3: Water System Evaluations, Inspections, Citations, and Deficiencies

This sub-subseries is comprised of documents that review and critique the water system and its management. The records include inspections and evaluations by outside institutions, including the City of San Francisco, about water system management and its deficiencies. Other topics include water system surveys of different areas, water district permits, water quality, water disruption, water complaints, and water quality test failures.

Sub-subseries 4: Water-Related Projects

This sub-subseries documents projects related to the Water Distribution System, Water Plant, Water Supply, and Water Treatment including equipment repair and installation; seismic evaluation; testing and monitoring; project operations and logistics; water well work; and project plans and drawings.

Sub-subseries 5: Environmental Management, Water Conservation, and Safety

This sub-subseries concentrates on environmental issues including pollution, hazardous materials, and lead contamination. The records also document water conservation issues in the Presidio of San Francisco, Golf Course, and Lobos Creek; preparation for water shortage; and water supply management. Also included are records about safety, specifically emergency preparedness.

Sub-subseries 6: News Articles

This sub-subseries is comprised of news articles about water from local San Francisco Bay Area newspapers. The articles pertain to the water supply, water studies, monitoring and testing, sewage contamination, Water Plant design, and overall water conservation.

Subseries E: Boiler Plant Management

This subseries focuses on Boiler Plant cleaning operations and inspection reports.

Subseries F: Hospital Management (Letterman)

This subseries documents the hospitals on the Presidio of San Francisco including Letterman General Hospital (LGH), Letterman Army Medical Center (LAMC),

and Letterman Army Institute of Research (LAIR). Topics include general fact sheets, equipment information, energy control and efficiency, operations procedures, LAIR floor plans, and a report on the LGH swimming pool.

Subseries G: Land and Forest Management and Land Use

This subseries contains agreements between the National Park Service and the Army regarding land use, forest and natural areas management plans, projects, reports, survey data, and grounds maintenance.

Subseries H: Utility System Management

This subseries concentrates on the management of utility services including natural gas, electricity, and generators. The records include system agreements, correspondence, inspections, conversion to PG&E (Pacific Gas & Electric) service, operations and maintenance, equipment, and safety.

Subseries I: Sewer System Management

This subseries contains instructional literature about wastewater systems, sewer system management operations, and sewer repair and maintenance projects, which include maps, plans, and information on the Richmond Transport Project.

Subseries J: Pest Control

This subseries is comprised of an industrial hygiene study of pest control operations and its use of pesticides and herbicides.

Subseries K: Inspector General Reports and Findings

This subseries contains reports about Facilities Engineering management and activities, physical security, DEH work management system, Family Housing maintenance contracts, and deficiency correction.

Subseries L: Safety

This subseries pertains to disaster preparedness and emergency response, specifically during earthquakes and wind storms. Other topics include medical system safety and health surveys.

Subseries M: Environmental Management and Energy Conservation

This subseries focuses on energy programs including conservation, co-generation, and energy plans and management. Also included are environmental review documents for various projects and environmental compliance. The records document water and air quality management in regards to air pollution control. Information on hazardous materials includes policy and management, emergency response, as well as underground storage tank removal procedures and leak detection.

Subseries N: Base Closure and NPS Transition and Transfer

This subseries documents the post to park transition of the Presidio of San Francisco from the U.S. Army to the National Park Service. Topics include infrastructure management, impact on the City of San Francisco, building and facility preparations, land analysis, and the impact to Army employees. The records also document the new tenants of the PSF including the Gorbachev Foundation.

Subseries O: 35mm Photographic Slides

This subseries is arranged into eleven topical sub-subseries. Many of the slides are marked "TASC Presidio SF" indicating they were reproduced by the Sixth U.S. Army's Training and Audiovisual Support Center (see related GOGA 35301: Presidio Training and Support Center (TASC) Negative Collection).

- Sub-subseries 1: Historic Slides
- Sub-subseries 2: Aerials Slides
- Sub-subseries 3: Landscapes Slides
- Sub-subseries 4: Building Exteriors Slides
- Sub-subseries 5: Building Interiors Slides
- Sub-subseries 6: People and Army Personnel Slides
- Sub-subseries 7: Events and Ceremonies Slides
- Sub-subseries 8: Briefing Slides (Presentation Slides)
- Sub-subseries 9: Maps Slides
- Sub-subseries 10: Renderings and Project Sketches Slides
- Sub-subseries 11: Insignia, Crests, and Signs Slides

Series II: Boiler Plant and Power Plant Records

Volume: 5 linear feet
Box Range: 7-12
Dates: Inclusive: 1918-1994
Bulk: 1940-1990

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into nine subseries (A-I) and four sub-subseries that are each arranged chronologically unless otherwise noted. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files pertaining to the maintenance and operation the Boiler Plant (Shop 30) and Power Plant. Major buildings concerned include PSF Buildings 35, 220, 237, 1040, and Fort Baker Buildings T-639 and 723, with the majority of the material pertaining to PSF Building 1040. Much of the material relates to the Letterman General Hospital (LGH) and Letterman Army Medical Center (LAMC) Boiler Plant and Power Plant. These records are Army records group ADPWO-001.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries concentrates on departmental supervising, employee administration, civilian personnel management, handicap employment, organizational charts, accounting, reporting, as well as Army regulations and standing operating procedures.

Subseries B: Boiler Plant and Power Plant Management: Regulations, Policy, and Operations

This subseries details plant operations including Army regulations; standing operating procedures; specifications; equipment manuals; duties and tasks; equipment layout and inspection; and standard forms. Records relating to plant employee management include job standards, performance review policy, supervision, safety, workforce numbers, and organizational charts. This series also contains training course material on corrosion and other Facilities Engineering topics, as well as information on the use and storage of fuel oil and petroleum products.

Subseries C: Boiler Plant and Power Plant Data Logs and Operation Logs

This subseries is arranged into six sub-subseries as follows:

Sub-subseries 1: Recordbooks

This sub-subseries is arranged first by employee recordbooks in chronological order, and then by operations recordbooks in alphabetical order. The employee recordbooks detail the Power Plant daily schedule organized by employee. The operations recordbooks are entitled Electric Power, Evaporation, and Gas-Oil Fuel.

Sub-subseries 2: Operating Logs

This sub-subseries is comprised of operating logs that record operational data from the Boiler Plant and Boiler Water Treatment in PSF Buildings 220 (Post Headquarters), 237 (Crissy Field), and 1040 (LAMC Power Plant and Boiler Plant), as well as Fort Baker Building T-639. The data is recorded on forms DA 5-97, DA 5-98, DA 3967, and DA 4367.

Sub-subseries 3: Recording Charts

This sub-subseries contains Boiler Plant equipment recording charts with data on FWT/FW (Fresh Water Tank/Fresh Water), Air, Water, Main Steam, Steam, DA Tank/DA, Vacuum, DATC, Condensate, and DFT. [Some of the acronyms meanings are unknown.]

Sub-subseries 4: Power Plant Meter Readings

This sub-subseries is comprised of meter readings from the Letterman Army Medical Center (LAMC) Power Plant in PSF Building 1040. The meter readings are daily readings of equipment levels.

Subseries D: Boiler Plant and Power Plant Work Plans

This subseries documents one-year, five-year, and long-range work plans by fiscal year for the Boiler Plant, Power Plant, and other operations and maintenance shops. The work plans outline various projects and their related costs, labor requirements, and prioritization.

Subseries E: Boiler Plant and Power Plant Projects

This subseries concentrates on plant projects of facility additions and equipment repair, replacement, maintenance, and service including generators and boilers. Some of the project records include equipment installation and instruction manuals for equipment installed during the project. Many of the projects center on Letterman General Hospital's Boiler Plant and Power Plant in PSF Building 1040. This subseries has many plans and blueprints associated with the projects.

Subseries F: Equipment and Supplies

This subseries pertains to installation and operating information for the Boiler Plant and Power Plant equipment and job supplies including technical specifications; product information and catalogs; order information; chemical information; and hand receipts.

Subseries G: Utility Management

This subseries pertains to utility management in Army facilities including Family Housing and Letterman Army Hospital.

Subseries H: Safety and Health

This subseries concentrates on safety training and seminars; health hazards; Boiler Plant safety and health instructions; and paint color coding for different materials.

Subseries I: Environmental Issues

This subseries details Bay Area pollution control regulations and energy conservation training seminars.

Series III: Carpenter Shop Records

Volume: 0.75 linear feet

Box Range: 12-13

Dates: 1961-1991

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into three subseries (A-C) that are each arranged chronologically. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files pertaining to the operation of the Carpenter Shop (Shop 1) located in PSF Bldg 288. These records are Army records group ADPWO-005.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries contains telephone directories and suppliers' guides for both the Presidio of San Francisco and the greater San Francisco Bay Area. This subseries is also comprised of employee and Army reference handbook materials on subjects such as the PSF Self-Help program, Equal Employment Opportunity, and Asbestos operations.

Subseries B: Equipment and Supplies

This subseries outlines installation and operating information in relation to carpentry actions for the Boiler Plant and Power Plant (PSF Building 1040) and includes a hardbound Hardware and Steel catalog.

Subseries C: Base Realignment and Closure (BRAC)

This subseries details Army instruction on the Presidio of San Francisco reorganization and BRAC stabilization of PSF buildings, facilities, and areas.

Series IV: Electric Shop Records

Volume: 3.25 linear feet

Box Range: 13-16

Dates: 1947-1993

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into eight subseries (A-H) that are each arranged chronologically. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files created by the activities and operation of the Electric Shop (Shop 2 (Interior) and Shop 12 (Exterior)) located in PSF Building 284. These records are Army records group ADPWO-006.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries is comprised of Army regulations, standards, technical manuals, standing operating procedures (SOPs), as well as military directories. The records also document employee information about administrative policy and procedures; accounting and budgeting; timekeeping; employee bulletins; equal employment opportunity programs; and job descriptions and standards.

Subseries B: Electric Shop Management: Regulations, Policy, Procedures, and Operations

This subseries details the general management and operations of the Electric Shop including electric specific Army regulations, technical manuals, and standing operating procedures. This section also contains electric distribution system plans

and records relating to the administrative functions of the Electric Shop such as union information, job standards, training, certification, and other employee information.

Subseries C: Work Plans

This subseries outlines work plans for electrical work at the U.S. Army Reserve Centers on the Presidio of San Francisco and Fort Baker. The work plans also detail work for the PSF Facilities Engineer, Post Engineer, and the Electric Shop Utilities Division.

Subseries D: Electric Shop Projects

This subseries focuses on projects related to the Electric Shop including work on the electrical distribution system; electrical equipment installation and maintenance; electrical plans and diagrams; electrical retrofitting; safety systems; as well as equipment inspections and test results.

Subseries E: Alarm Systems

This subseries concentrates on alarm systems including equipment catalogs, specifications, and manuals; installation and maintenance of alarm systems; and plans and diagrams. The different types of alarm systems detailed are burglar alarms, intrusion detection systems (IDS), fire alarms, Joint-Service Interior Intrusion Detection System (J-SIIDS), Halon and fire suppression systems, refrigerator alarms, and air raid sirens.

Subseries F: Equipment and Supplies

This subseries pertains to installation and operating information for the Electric Shop equipment and job supplies for the electrical distribution system and power supply system.

Subseries G: Safety and Health

This subseries contains a Guidebook for Health and Safety Committee, and documents general information on OSHA, shop safety, hazardous materials, safety inspections, hearing conservation, personal protective equipment, and asbestos removal.

Subseries H: Water Supply Management and Water Conservation

This subseries focuses on conservation and rationing of water, as well as other drought concerns and preparation including news articles and information on landscaping, grounds maintenance, water studies, and the Army Energy Program.

Series V: Entomology Shop Records

Volume: 2 linear feet
Box Range: 16-18
Dates: Circa 1976-1994

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into three subseries (A-C) that are each arranged chronologically unless otherwise noted.

Description:

This series contains building maintenance files created by the operation of the Entomology Office (Pest Management) (Shop 21) located in PSF Building 269. These records are Army records group ADPWO-014.

Subseries A: Pest Management Plans

This subseries outlines the Presidio of San Francisco Pest Management Plan and Wood Protection Program.

Subseries B: Pest Management, Wood Decay, and Weed Control Inspection Reports and Service Orders

This subseries is arranged by location:

1. Presidio of San Francisco
2. Fort Mason
3. Fort Baker
4. Fort Barry

Within each location group, the records are arranged by Building Number with General Areas for each installation following the building number records. This subseries is comprised of inspection reports for nearly every building and facility at the aforementioned installations. The reports include Pest Management Maintenance records and Termite and Wood Decay Inspection records (Form DD 1070). The reports outline pest trapping, pesticide use, facility structural assessments (dry rot, fungus, termites), structural damage (cracks), and other safety hazards. The reports provide the overall condition of each building. The records also pertain to weed control, tree removal, herbicide use, related service orders, and recommendations for improvements.

Subseries C: Pest Trap Checkout Logs

This subseries documents self-help issue records for the checkout of insect, rodent, and pest traps.

Series VI: General Maintenance and Preventive Maintenance Shops Records

Volume: 2.5 linear feet

Box Range: 18-20

Dates: 1971-1994

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into seven subseries (A-G) that are each arranged chronologically unless otherwise noted.

Description:

This series contains building maintenance files pertaining to the operation of the General Maintenance Shop (Shop 10) and Preventive Maintenance Shop (Shop 14) located in PSF Bldg 282. These records are Army records group ADPWO-011 and ADPWO-013.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries focuses on employee resources relating to labor unions; leave regulations; position management and classification; incentive awards and merit promotion; grievance system; employee bulletins; substance abuse; counseling; and equal employment. The records also contain building and facility general information such as physical security, Building Information Schedule, and PSF building lists with Army occupant information.

Subseries B: General Maintenance Shop and Preventive Maintenance Shop Management: Regulations, Procedures, and Operations

This subseries outlines the general management and operations of the General Maintenance and Preventive Maintenance Shops including manpower surveys; job pamphlets and regulations; job standards and responsibilities; maintenance information and schedules; quality control; departmental information; and personnel rosters. The records also document the Self-Help Program, Family Housing maintenance, and other shop-related projects.

Subseries C: Building Preventive Maintenance Records

This subseries is arranged by type of form:

1. Buildings and Structures Preventive Maintenance Checklists/Records (HQ PSF ENG Form 11)

2. Building Preventive Maintenance Records (DA Form 1112)

The first group (ENG Form 11) is arranged first by installation (PSF, Fort Mason, Fort Baker, Fort Barry) and within each installation by building number. The forms record completed facility preventive maintenance including roofing, structural, flooring, painting, heating, air conditioning, plumbing, electrical, equipment, and hardware. The second group (DA Form 1112) is arranged by building number and record the recommended and completed preventive maintenance on structures at Fort Baker, Fort Mason, Fort Winfield Scott, and the Presidio of San Francisco.

Subseries D: Equipment and Supplies

This subseries is comprised of user manuals for Integrated Facilities Systems and the Facilities Engineering Management System as well as other equipment. Also included is a policy document on the management of hand tools.

Subseries E: Safety and Health

This subseries concentrates on job safety, on-the-job injury information, vehicle use, OSHA compliance, emergency rosters, as well as safety policies, inspections, and reports.

Subseries F: Environmental Issues

This subseries contains hazardous waste memoranda and a hazardous waste management survey outlining deficiencies at the Presidio of San Francisco.

Subseries G: Base Realignment and Closure (BRAC)

This subseries details reduction-in-force during Base Realignment and Closure (BRAC) at the Presidio of San Francisco, and also includes a BRAC execution plan and closure schedule for the PSF and Hamilton Army Air Field.

Series VII: Mechanical Shop Records

Volume: 1.25 linear feet

Box Range: 21-22

Dates: 1946-1994

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into four subseries (A-D) that are each arranged chronologically. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files and equipment manuals created during the operation of the Mechanical Shop (Shop 6 is Refrigeration–Air Conditioning (Mechanical) Shop and Shop 13 is the Pipefitters (Mechanical) Shop) located in PSF Building 284. These records are Army records group ADPWO-008 and ADPWO-009.

Subseries A: Mechanical Shop Management: Regulations, Procedures, and Operations

This subseries concentrates on the general management and operations of the Mechanical Shop. Topics include building, facility, and mechanical system information including building lists and building demolition records. The records document POL (Petroleum, Oil, and Lubricants) facilities including information on underground storage tanks, gas stations, motor pool, pipeline replacement, regulations, and accountability. Additional records relate to utilities, heating, sewage, and boilers at the Presidio of San Francisco and the Letterman Army Institute of Research (LAIR).

Subseries B: Mechanical Shop Projects

The majority of this subseries is project documents for the Main Exchange Retail Store project at PSF Building 605. The remaining records document other projects, feasibility studies, water treatment, and a co-generation project proposal.

Subseries C: Equipment and Supplies

This subseries pertains to installation and operating information for the Mechanical Shop equipment and job supplies including boilers, heating

equipment, water heaters, dishwashers, gas pumps, and other general equipment information.

Subseries D: Base Realignment and Closure (BRAC)

This subseries focuses on the Presidio of San Francisco base closure procedures in regards to Consolidated Property Book property accountability and turn-in procedures.

Series VIII: Paint and Sign Shop Records

Volume: 2 linear feet

Box Range: 22-24

Dates: 1951-1992

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into seven subseries (A-G) that are each arranged chronologically. Oversize material is separated to oversize box and folder storage. One book is separated to the Rare Book Library storage.

Description:

This series contains building maintenance files pertaining to the operation of the Paint and Sign Shop (Shop 5) located in PSF Building 285. These records are Army records group ADPWO-010 and ADPWO-016.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries outlines general regulations and policy in regards to Army policy, employees and personnel, security, and labor regulations. This section also includes staff directories.

Subseries B: Paint and Sign Shop Management: Regulations, Procedures, and Operations

This subseries concentrates on the general management and operations of the Paint and Sign Shop including shop-relevant Army regulations and policy, equipment operation permits, interoffice correspondence, and hand receipt information. The records also document shop performance and work load; paint information and specifications; and sign templates, samples, diagrams, and recommendations.

Subseries C: Nameplate Distribution Recordbooks

This subseries is comprised of recordbooks recording Army personnel quarters nameplates, desk nameplates, and other signs manufactured by the Sign Shop.

Subseries D: Equipment and Supplies

This subseries pertains to installation and operating information for the Paint and Sign Shops equipment and job supplies including instruction manuals, product specifications, and Material Safety Data Sheets (MSDS).

Subseries E: Safety and Health

This subseries contains safety regulations, manuals, bulletins, and literature; employee safety information and procedures; and the PSF Safety Office files about safety inspections performed at the maintenance shops. One book entitled Supervisor's Safety Manual, published by the National Safety Council is separated to the Rare Book Library for storage.

Subseries F: Environmental Issues

This subseries focuses on regulations, policy, and procedures about hazardous material and hazardous waste management.

Subseries G: Base Realignment and Closure (BRAC) and NPS Transition and Transfer

This subseries details the Presidio of San Francisco's base realignment and closure and the subsequent National Park Service transition and transfer with information about reduction-in-force as well as a NPS/GGNRA Presidio Concepts Workbook and other transition ephemera.

Series IX: Roads and Pavement Shop Records

Volume: 10.95 linear feet

Box Range: 24-36

Dates: 1940-1994

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into seven subseries (A-G) that are each arranged chronologically. Oversize material is separated to oversize box and folder storage.

Description:

This series contains building maintenance files pertaining to the operation of the Roads and Pavement Office (Shop 7) located in PSF Building 290. These records are Army records group ADPWO-012.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries is comprised of Army regulations, technical bulletins, technical manuals, and military standards as well as DEH (Directorate of Engineering and Housing) annual work plans. The subseries also contains job descriptions for Army positions including maintenance shop positions.

Subseries B: Roads and Pavement Shop Management: Regulations, Procedures, and Operations

This subseries concentrates on the general management and operations of the Roads and Pavement Shop including shop-relevant Army regulations and technical manuals. Other records document surfaced areas maintenance and traffic and road operations, safety, and equipment. The records include area maps and

plans; photographs of branch employees and work; as well as branch reports, inspections, and workload information.

Subseries C: Roads and Pavement Shop Projects

This subseries focuses on projects related to the Roads and Pavement Shop including pavement maintenance, maintenance of surfaced areas, and storm drain modifications.

Subseries D: Equipment and Supplies

This subseries pertains to installation and operating information for the Roads and Pavement Shop equipment and job supplies including product specifications, Army supplies, road and traffic supplies, playground equipment, fencing, as well as equipment and repair index cards.

Subseries E: Safety and Health

This subseries details OSHA compliance and training, disaster preparedness, and Material Safety Data Sheets (MSDS) for various products.

Subseries F: Environmental Issues

This subseries concentrates on energy conservation and hazardous materials.

Subseries G: Water Supply Management

This subseries contains an instruction manual for water treatment plant operators.

Series X: Water Treatment Plant Records

Volume: 11 linear feet

Box Range: 36-47

Dates: Inclusive: 1927-1997

Bulk: 1970-1993

Note: Undated files are filed in the front of each subseries.

Arrangement: This series is arranged into eleven subseries (A-K) and two sub-subseries that are each arranged chronologically unless otherwise noted. Oversize material is separated to oversize box and folder storage. Three books are separated to the Rare Book Library storage.

Description:

This series contains building maintenance files pertaining to the maintenance and operation of the PSF Water Treatment Plant (Shop 31 / Shop 31X) as well as the management of the overall water distribution system and wastewater and sewage treatment. The records were maintained by the Water Plant's Main Office and Operator's Office. The pertinent buildings are generally in the PSF 1700 Area, but other areas of the Presidio and its sub-installations are included. These records are Army records group ADPWO-002.

Subseries A: U.S. Army and General PSF Administrative Functions, Regulations, Standards, and Policy

This subseries focuses on Army regulations, memoranda, cooperative agreements, meeting agendas, and other administrative documents. The records also detail general building and facility information as well as local climatological data.

Subseries B: Water Treatment Plant Management: Regulations, Procedures, Operations, and Literature

This subseries outlines general management and operations of the Water Treatment Plant and the water distribution system including regulations, instructions, literature, standards, plans, diagrams, and operations manuals about the management of the water supply, water testing, and sewage treatment. Three books about engineering, ground water, and the analysis of water and sewage are separated to the Rare Book Library for storage.

Subseries C: Water System Review

This subseries concentrates on the overall review of the water distribution system, water quality, and the Water Treatment Plant including histories, studies, surveys, reports, evaluations, inspections, citations, complaints, and deficiencies. The records also document inspections by the State of California Department of Health Services.

Subseries D: Water System Tests and Data

This subseries is arranged into two sub-subseries as follows:

Sub-subseries 1: Water Tests, Operating Logs, and Data Reports

This sub-subseries is comprised of water operating logs that show daily data including the height of the water in the reservoirs; water production data reports; and water data reports on bacteriological, fluoride, turbidity, filter backwash, wells, and coliform, as well as monthly and yearly summaries of water quality.

Sub-subseries 2: Recording Charts

This sub-subseries contains water flow recording charts that show the height of reservoir water in feet. Each chart records one week of data.

Subseries E: Water Plant Projects

This subseries focuses on projects related to the Water Plant including maintenance of the pool, golf course, water supply, Lobos Creek wells, water and sewer treatment plant, and the city of San Francisco water connection system.

Subseries F: Records of Inspections & Service Forms

This subseries is comprised of Utilities Inspection and Service Records (Form DA 4177) that describe maintenance on water distribution system equipment at various sites including the Presidio of San Francisco, Fort Baker, Fort Barry, Fort

Cronkhite, and Fort Winfield Scott. This subseries also includes Sewer Operation Service Records (Form DA 5-34) that describe equipment inspection and maintenance at different areas of the Presidio of San Francisco and Fort Barry.

Subseries G: Equipment and Supplies

This subseries pertains to installation and operating information for the Water Plant and water distribution system equipment and job supplies as well as specific building equipment information.

Subseries H: Consolidated Property Book and Hand Receipts

This subseries documents the Army property accountability system including the Consolidated Property Book and hand receipt policies and procedures, hand receipt equipment lists for different divisions, and base closure property turn-in information.

Subseries I: Safety and Health

This subseries outlines occupational safety literature and standing operating procedures; safety inspections and reports of the Presidio of San Francisco Water Plant; safety equipment information; accident reporting; and disaster preparedness.

Subseries J: Environmental Issues and Energy Conservation

This subseries details energy and water conservation as well as information on hazardous materials including Water Plant inspection reports, inventories, regulations, news articles, and lead contamination information.

Subseries K: Base Realignment and Closure (BRAC) and NPS Transition and Transfer

This subseries pertains to Army employee resources, base closure operations, and the transfer of Army property to the National Park Service (Golden Gate National Recreation Area).

Box and Folder List

Box	Fldr	Series	Date	Folder Title
001	001	01: O&M Division - Subseries A: Admin	1975	MEMORANDUM OF UNDERSTANDING b/n PSF & California State Clearinghouse, Office of Governor: Development that will have significant effect on plans/programs of Army/Local/State Govts [ABAG - Association of Bay Area Governments]
