

# VESTIGES of *Lands End*

## Art at Lands End

The beauty and drama of the cliffs, beaches, and ocean vistas at Lands End has inspired artists in many different creative media. Painters, sculptors, film makers, sand sculptors, photographers, and musicians as well as writers and poets have all found inspiration from the scenery at Lands End. The Golden Gate National Recreation Area archive contains prints of artwork with Lands End subjects produced as early as the 1870s.
