VOLUME 1						
1.	BA	Cover	-	VOLUME 1 GOGA will furnish new photograph. Aspiration is for one that is iconic, with people, of a site in the planning area. GOGA [BA] will provide photo.	Edit #1 and 10, photos: BA will send them (by end of month – due 6/28). Then Jim	
2.	BA	0	-	Continue to hold space for a 1-2 page letter from the Superintendent on GOGA letterhead. GOGA [BA] will provide letter.	Jim Leave a page or two in the document. Due 6/28, if possible. Could be in draft form until after WASO review.	
3.	BA	Abstract	-	ABSTRACT 25-36: Delete these 2 paragraphs. They make the abstract too long and add little.	Wanda	
4.	BA	Abstract	56	Do we need to identify which alternative is the “environmentally preferred”?	No change (TG checked DO12 and confirmed with Paul W.)	
5.	BA	Abstract	57	Revise: “The potential impacts of implementing the various alternatives were analyzed in six broad topic areas...”	Wanda Highlights mean that we should change the text to the highlighted text.	
6.	BA	Abstr. 2	1	Final...	Wanda	
7.	SP	Abstr. 2	3&4	If customary, please capitalize Record of Decision	Wanda	
8.	BA	Abstr. 2	4	To clarify, add: “...Regional Director upon the recommendation of the General Superintendent of Golden Gate National Recreation Area.	Wanda	
9.	DAH	Abstract p. 2	7-9	The language in the abstract differs from the language on p. S-xix, lines 73-76. I recommend these be consistent and use the language on p. xix that states that ‘many’ vs. ‘all’ of the actions will require additional study and implementation planning.	Wanda (let us know if this doesn’t make sense)	
10.	BA	Inside Cover	-	GOGA will supply photograph for this page.	Jim Note – this is the page after the abstract. There used to be a photo in DGMP, and it disappeared in this version. Please use that image again – GG Bridge with cables. Nope, it turns out that we used that image as chapter divider for “appendices” Park to provide new image.	
11.	BA	Inside Cover	-	Does this GMP get an official document number? (Is it already on the inside back cover?)	Jim	
12.	BA	S-i	3	SUMMARY Add reference to Muir Woods: “...plan for Golden Gate National Recreation Area and Muir Woods National Monument was completed...”	Wanda	
13.	NH	S-ii	51	Delete “the Main Post” Correct name is “Sutro Heights Historic District” Delete “(Cavallo Point)”. The Fort Baker Plan covers more than just this partner’s area.	Wanda Global Check for Sutro: May need to find/replace other instances.	
14.	NH	S-iv	27	Insert redwood: “are the old-growth redwood forest and their associated...”	Wanda	
15.	NH/BA/DAH	S-v		6: delete stray hyphen 7: New first sentence for the paragraph: “Boundary Adjustments: Proposed adjustments are in San Mateo County. They consist of approximately 330 acres of undeveloped parcels, the 710-acre McNee Ranch (part of Montara State Beach), and ¼ mile strip from the mean high tide line of land already within the park boundary.” 39: Add a comma after Mt. Tam State Park 84: Re trails, change creation to “improvement”	Wanda	
16.	BA/DAH/KC	Various	-	Substitute “Nearshore” for “Offshore” throughout document, including wherever headers say “Offshore Ocean and Bay Environment”; change to “Nearshore Ocean and Bay...” Use other language when we are referring to the boundary which extends ¼ mi. from shore, or from the coastline or mainland. Suggest adding definition of ‘Nearshore’ to the glossary. This does not require changes to zoning maps!	Don Decisions: -check it out case-by-case, it might be better to say “¼ mile from shore” or “nearshore.” In general, don’t use “offshore”, use “nearshore.” Most important to get it right in vol I, no change in vol II. -don’t put nearshore in glossary, it is probably self-evident.	DONE
17.	DAH	S-v	66	Plural: “protected areas”	Wanda	
18.	AsF	S-v	72	Change to “.....one of the fourth largest collections in the national park system...” This needs to be tracked & changed throughout doc (re: Vol I: 97:2). This statement is less definitive and more realistic.	Wanda Global check

19.	NH	S-vi	-	25: Marin heading should be same format as SF and SM: “ Park Lands in Marin County: ” 45: Change coastal shrubs to “coastal scrub” (singular)	Wanda	
20.	BA/NH	S-viii	-	23: Change first part of bullet; piecemeal to “ unsystematic ” Delete “ buildings and ”. ‘Structures’ is the inclusive term. 81: Remove periods at the end of the headings, like “Visitor Experience.”	Wanda	
21.	DAH	S-ix	10-11	Should there be a comma between rehabilitation and stabilization? Is the word ‘and’ in the wrong place on line 10 ?	Wanda Wanda	
22.	NH	S-x	-	14: Change end of last sentence to read – “...Lands End, in collaboration with other land managers and incorporating measures to address sustainability and climate change...” 69: Change coastal communities to “ the Coastsides area south of Devil’s Slide, ”		
23.	BA	S-xvi	-	45: Missing “ the Marin Headlands ” 84: Change park staff to “ the park... ” Consider doing this in other places where we use the terms park staff and park managers.	Wanda Discussion with park: GOGA gave us the changes to “the park” phrasing ones that seemed most important. There are some places that are repetitive with several sentences starting with “park managers, “park staff, “the park. “ GOGA tried to reduce this here with comment #23. The park” makes it more high-level and official.	
24.	BA/AsF	S-xvii	-	55: Start sentence with “ On the island, visitors would...” 63: Delete “ evaluator ” excavations. [Also on p. 225, line 33.]	Wanda	
25.	BA/NH	S-xvii	-	86: Please add short reference to user capacity on Alcatraz, as we do for Muir Woods (on next page). “ In addition, a comprehensive user capacity strategy would help the park monitor and adaptively manage crowding and impacts to cultural and natural resources. ” 91: Change, “...present the monument as a contemplative outdoor museum setting for visitors to discover the primeval redwood forest and the monument’s place in the early U.S. conservation movement— within minutes of San Francisco. ”	Susan to confirm Then Wanda to complete Instructions: Yes, all changes have been confirmed and can be made- were not made by Susan	
26.	BA/ASF	S-xviii	72	Delete this bullet: “ Management of sensitive coastal...removal of contributing historical archeological resources ”. This overstates the impact of possibly removing old plumbing fixtures dumped over the side of Alcatraz.	Wanda	
27.	NH	S-xiv	8	Put “ wilding ” in quotes.	Wanda	
28.	BA/SP/NH	S-xix	-	13: Missing period. 43: Please have editor review the grammatical correctness of “ lesser ”. The idea is that future projects could be fewer or smaller in scope. Change if editor advises. 62: Capitalize Record of Decision?	Wanda	
29.	BA	S-xix	58	Please add NEXT STEPS header or something similar to separate from COSTS section.	Wanda “Next Steps”	
30.	NH	I-vi	-	TOC Set off “ The Preferred Alternative ” with an EM dash. Same on TOC pages I-x (Alcatraz) and I-xi (Muir Woods).	Wanda	
31.	BA	I-vii	-	The headings for the SFPUC are incorrectly formatted in the body of the document, resulting in incorrect format in the TOC. “Offshore [Nearshore] Ocean Environment” is not a subheading to SFPUC. See same for Alt 2 (bottom of page). Alt 3 looks correct.	Wanda	
32.	BA	I-ix and x	-	Some of the headings for ALCATRAZ are also incorrectly formatted in the body of the document, resulting in incorrect format in the TOC for ALL 4 alternatives. The “ARRIVAL AREA” and “MAIN PRISON AREA” are not subheadings to “ FERRY EMBARKATION ”. They are same level headings.	Wanda	
33.	BA	I-xii	-	Add “ — Preferred Alternative ” to maps 5, 6, 7, 15, and 21.	Jim	
34.	BA	I-xvi	-	Pluralize Consultants	Wanda	
35.	NH	3	12	PART 1: BACKGROUND Change This to “ That plan...”	Wanda	
36.	NH	3	32	Change tourist to visitor destination.	Wanda	
37.	NH	3	47	Insert “ Lands End ” between Cliff House and Fort Baker.	Wanda	
38.	NH	3	55	Insert: “These lands are also coastal preserves...”	Wanda	
39.	BA/NH	4	-	22: Add “...yet to be fully accomplished...” 85: Change an already mature to “ a maturing national park...”	Wanda	
40.	BA	5	30	Please review use of commas and semicolons. Change interested parties to “interested organizations.”	Wanda	
41.	BA/JC	6	-	21: Fix formatting of orphan. 29: Insert new paragraph below. “ The GMP/EIS provides recommendations regarding the use of many park facilities; however, future decisions about the specific use of individual facilities will be based on a number of criteria and opportunities for maximizing the life and value of these important public resources. Facilities could serve a variety of uses over the twenty year life of the GMP consistent	Wanda

				with the surrounding management zoning and NPS policy."		
42.	NH	9	-	58: Add to SFPUC bullet: "...easements administered by the park" 71-74: Combine first 3 bullets – "Presidio of San Francisco, including Crissy Field, Baker Beach, and Lobos Creek Valley."	Wanda	
43.	NH/BA/DA H	10	-	16: Change to "Ongoing planning and implementation efforts include:" 26: Fix – Marin Equestrian Stables Plan / Environmental Assessment" 28: Fix – Headlands project is also an "/ Environmental Assessment" 33 and 35: Delete the last 2 bullets. (Doyle Dr. is not an NPS plan and PORE GMP has already been cited.)	Wanda Global check on plan name changes (26/28).	
44.	BA	11	-	Map 1 – Should this map show the coastline of San Mateo County to Pillar Point as part of the GMP Planning Area? The boundary is good. I could live with this as is.	Craig gave us the planning area layer (on 3/29). Can he make the change and resend? Craig will resend. – Park to come back to this question. Jim	
45.	MG/BA/N H	14	-	Add to the last paragraph about themes. "For the purposes of the GMP, the interpretive themes on the following pages relate directly to each individual significance statement. The park Interpretation and Education division has further refined the themes to reflect the dynamic resources, powerful stories and overarching meaning of the park. These can be found in the park's Long Range Interpretive Plan."	Wanda	
46.	BA	15	-	On advice of our accessibility reviewer, please increase the contrast between the citation and the background photo.	Jim	
47.	NH	22	-	Please change title to "Coast Miwok and Ohlone People" [It's more respectful.]	Wanda Global check	
48.	NH	24	-	Add to significance: "...last remnant old-growth redwood forest..."	Wanda	
49.	BA	25	82	This shouldn't be a separate bullet. Continues from previous.	Wanda	
50.	BA	27	-	Figure 1: Please make vertical hatching tighter. Add labels for the two major lakes in the easements: "San Andrea Lake" to north; "Crystal Springs Reservoir" to south.	Jim	
51.	NH/BA/DA H	28	-	8: Add, "...San Francisco counties west of the Golden Gate." 58: Delete: "lighthouse in San Francisco."	Wanda	
52.	NH	29	7	Fix: "...mailing list and by park partners..."	Wanda	
53.	BA/DAH/K C	Various	-	Substitute "Nearshore" for "Offshore" throughout document, including wherever headers say "Offshore Ocean and Bay Environment"; change to "Nearshore Ocean and Bay..." Use other language when we are referring to the boundary which extends ¼ mi. from shore, or from the coastline, mainland, or mean high tide line. Suggest adding definition of 'Nearshore' to the glossary. This does not require changes to zoning maps!	Don	DONE
54.	DAH	30	56	Make singular: "confounds" to "confound"	Wanda This should be changed to "compound"	
55.	AsF	31	83	No longer 15 storage facilities. Change to "numerous".	Wanda	
56.	AsF	31	86	Change to: "Of the four largest...One of the largest storage areas is in a building managed by the Presidio Trust with no lease agreement in place. The facility that housed the park archeology lab was removed in 2010 to make way for the Presidio Parkway project. The park..."	Wanda	
57.	AsF	31	99	Add sentence on line 99 after "...museum collections. The park has been working to consolidate collections and improve existing conditions where possible."	Wanda	
58.	NH	32	31	Change: "Climate change may have has begun to affect..."	Wanda	
59.	BA	38	-	Figure 2. Even though neither DSC nor GOGA created this map, adding labels for two major sites, "Fort Point NHS" and "Crissy Field", will help communicate what NPS manages.	Jim	
60.	AsF/BA	39	-	Please add dates for NPS projects on 39 and 40. Not for anything after p. 40/ line 67. See appendix B.	Susan	DONE
61.	DAH	39	85-88	Delete: Lower Redwood Creek Interim Flood Reduction. Superseded by the Wetland and Creek Restoration at Big Lagoon listed on p. 40.	Wanda Also please check elsewhere.	
62.	JC	40	35	Insert NatureBridge for clarity: "Headlands Institute (<i>NatureBridge</i>) Campus Improvement and Expansion Plan / Environmental Assessment"	Wanda Also please check elsewhere.	
63.	BA	42	44	Cite the act of March 27, 1978 as the "National Parks & Recreation Act" since that's the way we cite it in the abstract (line 17). I find it hard to keep these straight! I also request we include Abstract lines 16-23 as a new paragraph after line 86. This explains policy for the GMP.	Don - National Parks and Recreation Act of 1978. Wanda (abstract change)	Both items DONE
64.	BA	43	x	Is there a new policy about IMPAIRMENT to be cited?	Don says: no change needed.	
65.	DAH	45	-	PART 2: BUILDING THE MANAGEMENT ALTERNATIVES The title sounds like this is how we are going to treat buildings in the park. Make it "Building The Management Alternatives". Also requires changing the TOC and header. Please replace photograph. GOGA [BA] to provide NPS photo: Ranger with	Wanda Jim

				school group.		
66.	BA	48	35	Replace the last sentence with: "Detailed descriptions of the eight management zones follows."	Wanda Follows or follow?	
67.	NH	49	39	Delete "...park and the people is..."	Wanda	
68.	NH	54	35	Change from mandates to "includes"	Wanda	
69.	BA	55	82	This needs to be updated. Replace "the alternatives analyzed" with "the draft preferred alternative." Also, extend second sentence "...finalizing the GMP/EIS; see part 12 of this document."	Wanda	
70.	NH	57 (ZONES)	-	Diverse Opps zone summary: Revise 1 st sentence: "... support a wide variety of opportunities appropriate to the setting. Significant..." Revise 3 rd sentence: "People Visitors would..." Natural Resources – Interpretive Corridor Zone: Add this as a second paragraph which is copied from Natural Zone. "Rare and exceptional natural resources, processes, systems, and values would be preserved and enhanced." Park Ops zone summary: 1 st sentence remove stray comma after "facilities,"	Wanda	
71.	DAH	60	-	T&E: Sensitive Resource Zone and Natural Zone—should have the identical language for the Threatened and Endangered Species and their Habitat Resource topic.	Wanda Copy natural zone description and paste into the sensitive resources description.	
72.	DAH	63	-	Types of Activities: Diverse/Scenic/Evolved/ Natural Zones—clarify that allowable fishing is "recreational". Substitute "recreational fishing" wherever "fishing" is used throughout the document, as appropriate. Interpretive corridor – end second bullet with science "themes" Sensitive Resource Zone—change "citizen science" to "participatory science". Search entire document for 'citizen science' and replace throughout. Park Operations Zone – make second paragraph a bullet	Don (Background: They are in a lawsuit in Marin – herring commercial fishing). Frank and Daphne agreed that recreational fishing is the best wording to use (don't use non-commercial fishing).) Decision: Just pay attention to fishing in vol I. Put in "recreational" fishing wherever it shows up, except in the zones table since the lead in to the bullets includes "the following recreational activities..".	
73.	DAH	64	-	Natural Sounds: Sensitive Resource Zone – line 9. Change "Noise disturbance of wildlife..." to "Noise disturbance to wildlife..."	Wanda	
74.	BA/NH	64	-	Interp/Ed/Orient: Interpretive Corridor Zone– Change park's to "monument's" in 1 st paragraph. Delete last sentence about contained fires. (FD/KC) Scenic Views, Park Operations Zone: Insert sentence, "Operational facilities may be screened to minimize impacts on scenic views."	Wanda	
75.	NH/BA	65	-	Skills, Risk, Time Required: Delete this entire row. [Not necessary or informative for managers. Richard Delao: Its generality could be problematic for accessibility planning.]	Susan confirm with Kerri Then Wanda	DONE confirmed with Kerri, change made
76.	BA	65	-	User Levels/Diversity/Encounters: Diverse/Evolved/Historic/Interpretive/Natural/Sensitive zones– Add following to end of text "Refer to Chapter 7, User Capacity, for additional specific guidance." (NOT Scenic or Park Ops zones.)	Wanda	
77.	BA/ASF/N H	65	-	Development and Management: Historic Immersion zone– revise last sentence to read, "...may include modern visitor support facilities compatible with the historic setting." Interpretive Corridor Zone– delete end of paragraph beginning with "(eg...)". This is redundant with later section on facilities. Interpretive corridor and Natural zones– delete "(e.g...)" section. This is redundant with later section on facilities.	Wanda	
78.	BA	66	-	Types of Facilities: Diverse Opps and Scenic Corridor zones, under Support bullet: change outlets to "facilities" Interpretive Corridor Zone– add fences, benches, and pedestrian bridges to list of "support facilities."	Wanda	
79.	BA	69	-	PART 3: ELEMENTS COMMON TO ALL Since we re-titled "Native American Engagement" to "American Indian Engagement", the sections aren't in alphabetical order. Change sequence if you can.	Wanda	
80.	BA/DAH	70	-	Check all headers this section. Not all pages have a header and some left hand pages say "Actions" other says "Elements". 19-21: Change, "The natural and cultural resources of the park would face pose a greater threat..."	Wanda

101.	JC	99		<p>Replace entire PARTNERSHIP section.</p> <p>When people experience Golden Gate National Recreation Area through participation in either a park or park partner program, they make an emotional connection to the park. This connection often results in an appreciation and support for the public lands and resources. Golden Gate National Recreation Area has effectively established and maintained an array of partnerships that have increased the number and variety of channels through which a diverse community can experience the park. These partnerships not only strengthen public ties to the national park system and help fulfill the park’s mission and goals, but they also enhance Golden Gate National Recreation Area’s overall financial sustainability. Park partners fund and manage programs and services for new segments of the visiting public and they contribute significantly to the preservation of historic NPS facilities from which programs are provided. In some cases, partnerships are a source of direct revenue to the park as well.</p> <p>For all these reasons, Golden Gate National Recreation Area works to facilitate and maintain partnership opportunities by incorporating partnership development into every aspect of the organization. This includes specifically recruiting and training for partnering skills, organizing staff in a way that facilitates partnerships, and seeking partners in the search for solutions to park issues. Park management is continuously evolving the partnership concept and exploring partnership practices from around the globe to gather innovative ideas and best practices. The park aspires to maintain its role as a learning laboratory in developing programmatically diverse, powerful and successful partnerships in a national park setting. It will embrace and promote partnership development with the following guiding principles:</p> <p>Identify Partnership Opportunities</p> <p>Partnership solutions will be actively considered when undertaking park management issues. The decision to establish a specific partnership will be guided by a defined need related to the park’s mission, purpose and/or strategic goals, and under circumstances in which the need may be best fulfilled or significantly strengthened with a park partner. The park will seek partners most qualified and capable of meeting the specific objectives at hand.</p> <p>Be Innovative in Crafting Partnerships</p> <p>The park is committed to a broad partnership vision and culture that includes taking reasonable risks in partnerships within the parameters of policy as well</p>	<p>Wanda</p> <p>And please copyedit this big new chunk of text.</p>

				<p>as a willingness to share control in realizing the vision for the park.</p> <p>Develop Win-Win Partnerships All parties to a partnership need to have a clear understanding of mutual benefits. With this in mind, the park will continue to select and maintain partnerships in which the objectives are directly linked to a partner's organizational mission and goals. The park will strive to share resources, benefits, and recognition of successes of partnerships.</p> <p>Share the Vision The park and its partners will jointly develop and continually refine a shared vision of the work to be accomplished, in order to ensure joint ownership and buy-in of the objectives. The shared vision will encompass both the broad body of work and individual projects or initiatives undertaken. The park will foster a partnership culture of full engagement that leads to collective enthusiasm and clear results.</p> <p>Maintain Clear Expectations Partnerships will include formal written agreements and work plans that define mutual interests and expectations, roles and responsibilities for the park and partner, and clear accountability for the work to be performed.</p> <p>Actively Manage Partnerships The park will invest time and resources in its partnerships to ensure that they meet the objectives. If a partnership is not fully performing, the park will reinvigorate, restructure, or discontinue the partnership so that resources remain directed to successful and valuable joint endeavors.</p>

						this change.
205.	BA	218	-	72: Use the correct words in parentheses – “(dorm-like accommodations and a service kitchen) and potential...” [No food service. Lacked dorm-like.] 91: Correct word is preservation. There is no restoration in this alt. 93: Change restoration to “rehabilitation”	Wanda Lee to doublecheck. This is good, right?	
206.	SP	227	68	Fix: San Mateo	Wanda	
207.	BA	235	1	Please start major new sections on a new page. They are very hard to find without a new header or flipping to the TOC. Some sections are ALL CAPS. Others are not. (See Visitor Use and Experience on p. 267.) This may affect formatting of the TOC. Would also help reader find sections. Headings look correct in Muir Woods consequences sections.	Wanda	
208.	BA	237	24	Remove stray hyphen – environ-ment	Wanda	
209.	BA/SP	239	21	Add “(NPS Preferred Alternative for...)”	Wanda	
210.	SP	240	2	Why is title italicized?	Wanda	
211.	SP	242	4	Delete “on”	Wanda	
212.	SP	251	-	18: make alternatives plural 92: Remove (draft). Also 252:25.	Wanda (note change to page 252 too)	
213.	BA	254	-	19: Delete – “...closed to visitors and park uses to protect...” 55: Change period to comma	Wanda	
214.	SP	255	95	Capitalize The...	Wanda	
215.	SP	258	42	Add “(NPS Preferred Alternative for...)”	Wanda	
216.	BA/AsF	262	-	Please consult the park about changes Lee Terzis is developing in response to DSC QA/QC comments about Ethnographic Resources.	Lee to keep park in the loop. Lee to provide to Wanda (Wanda, there will be lots of new text for Cultural Resources)	
217.	BA	267	20	Capitalize major title: VISITOR USE AND EXPERIENCE. Can this be at top of new page?	Wanda	
218.	BA	277	6	Capitalize major title: SOCIAL AND ECONOMIC ENVIRONMENT. Can this be at top of new page?	Wanda	
219.	BA	285	102	Change this flawed analysis. “...use the area. It is reasonable to expect that boat operators will continue to circle Alcatraz Island as part of the bay cruise, staying farther away from the shore. This impact will be long-term, negligible, and adverse to the local gateway.” [We didn’t see any related areas to change.]	Someone (probably Don, but maybe Sarah or Susan if they have time) to please give this a look. Does this change ripple anywhere else?	DONE
220.	BA	286	46	Capitalize major title: TRANSPORTATION. Can this be at top of new page?	Wanda	
221.	BA	294	-	39: Change “rubble that would be removed” to “ruins of demolished buildings” 78: Capitalize major title: PARK MANAGEMENT, OPERATIONS, AND FACILITIES. Can this be at top of new page?	Wanda	
222.	BA	300	-	Review headings in the MW consequences section. Use of caps is inconsistent. More importantly, please delete the subheadings for Alternative 1 “ <u>(NPS Preferred Alternative for Park Sites in Marin, San Francisco, and San Mateo Counties)</u> ” They are confusing to a reader trying to understand the <u>Muir Woods preferred alternative</u> . These are on pages: 300, 303, 306, 309, 313, (correctly omitted on p. 319), 323, 325, 327, 331, 339, and 345.	Wanda. Let Tom know if you have questions.	
223.	SP	304	44	Check the format of parens in this and other MW headers. Not everything is bold.	Wanda	
224.	SP	320	11	Capitalize The	Wanda	
225.	SP	321	18	Capitalize The	Wanda	
226.	BA	329-30	-	Replace paragraph from line 95 to line 5 on next page: “Within the monument, visitor access would be improved and congestion reduced through the redesigned arrival area and greater dispersion on thematic trails. Camp Hillwood would be used for park operations or more limited visitor programs and thereby restrict the existing limited opportunity for group overnights.”	Wanda.	
227.	BA	335	-	49: Delete the paragraph (lines 49-59). A new welcome center is not part of Alternative 3 at Muir Woods. 61-84: Alternative 3, Social and Economic Environment: We disagree with this conclusion expressed in this paragraph. Please delete the entire paragraph. In running the MW shuttle for 7 years, there’s no evidence that it has had an adverse impact on economies of surrounding communities. Impacts have generally been beneficial as most visitors that take the shuttle still patronize local establishments before and after their visit to MW. Note that there are very few businesses between the shuttle lot and Muir Woods.	Sarah, please give Wanda clear instructions on this—what to change and where (pages, lines). You recorded our discussion below. Make this or relevant change for each alternative. 3 spots in the text, and 3 spots in table, 3 conclusions, also check cumulative analysis.	Done, Relates to comment #156
228.	SP/BA	336	-	40-45: Delete this sentence. Some of these are internal and unfinished. We don’t want to invite review.	Wanda	
229.	BA	337	38	Change: “...Mia Monroe, NPS, 2009.” Incorrect position title. Lacked date.	Wanda	
230.	BA	347	49	“Additional rangers would also assist in parking and shuttle management. [No “station.”]	Wanda

231.	BA	357	-	PART 11 – OTHER ANALYSES... This section is titled historic structures. Replace buildings with “structures” on lines 80, 94, and 97. 94: Add “...architectural and engineering values...”	Wanda	
232.	BA	359	44	Replace sentence: “These actions in combination with other plans and projects may result in a small number of visitors seeking other locations, such as state and local parks, for specific recreational activities, potentially having adverse impacts on visitor use and experience, and beneficial and/or adverse impacts on other parks.”	Wanda	
233.	BA	376	78	Correct to “Historic Structures”	Wanda	
234.	BA	387	-	PART 12 – CONSULTATION... 5: “ <u>draft general management plan...</u> ” Has this section been updated? Footer says Volume III/3. Make Vol II.	Wanda – Update footer to be Volume II. Change line 5 to eliminate “draft”. Don, please check this (since it may relate to the Draft/Final/ROD stuff we discussed w/ Alan’s comments).	
235.	BA	390	-	Let’s hope we can complete this soon! Also p. 392.	Make changes when get FWS letter.	
236.	NH	448	55	Pluralize concerns	Wanda	
237.	BA	482	15	APPENDICES Move Point Reyes GMP under next heading (Other Park Areas), line 30.	Wanda	
238.	BA	486	88	Change re Devil’s Slide: “...Park Service. At this time. Acquisition and Management of this site has not been determined but has been integrated...”	Wanda	
239.	BA	519	-	Confirm what we are holding space for: Floodplain SOF? NHPA Programmatic Agreement? USFWS letter? NMFS letter?	Wanda – Please copy/paste cover letter and pages 17-18 (3 pages) of NOAA letter dated Nov. 10, 2011 (currently further back in APPENDIX H (Coordination agency letters) into APPENDIX G (Consultation) under NOAA placeholder. These pieces of the NOAA letter (from National Marine Fisheries Service) relate to ESA Section 7 consultation. [NOAA merged to separate letters... one NMFS ESA-related, and one coordination related into one letter] Wanda – Please create Appendix for inserting Floodplain Statement of Findings document (separate). Also amend Table of Contents accordingly. Don and Ray will provide final draft of SOF doc in upcoming days (your 5/23 edited version) Park still hasn’t received a letter from FWS. Action: Don, BA, and Darren Fong to talk. Consultation section has been updated to reflect recent efforts. If correspondence from NMFS and USFWS is received in upcoming weeks, this section will be updated prior to printing and public release and letters will be attached. If no responses are received, NPS will attach letters to FGMP/EIS docs sent to both agencies. Letters will reiterate consultation requests and indicate that NPS considers no response as an indicator of concurrence with NPS determinations of effect and NPS’s intent to consult with agencies for future

242	Martha Crusius			Tom, The comments I have received are cut & pasted below. Basic sentiment is that they're fine with what you briefed in January, and have no more comments. Let's finalize this one and wrap it up! - Martha	No change needed.	
243	Debbie Campbell			"At this point, all of my comments had been addressed."	No change needed.	
244	Dave Kruse			I actually did review (a skim) and had no comments	No change needed.	
245	Ray Murray			"Limited time and I know GOGA is in good hands."	No change needed.	
246	Chip Jenkins			"I am good, thanks"	No change needed.	
247	Martha Lee			Martha Lee hasn't been able to review but is trusting the judgment of all the others.	No change needed.	
248	Alan Schmierer	Vol.1 opps in Abstract (top of second page, line 1)	1	delete "Draft" qualifier.	Wanda	
249	Alan Schmierer	p.10	future planning	suggest we insert the Vista Grande Drainage Improvement Project (see briefing attached). if so, add discussion at pp.35-41 also.	Tom to obtain attachment from Martha/Alan. Don to review and consider. Tom – need to discuss.	DONE. BUT...Awaiting GOGA decision on inclusion of this project in GMP/EIS
250	Alan Schmierer	p.27	Fig.1	- check sequencing; within a couple adjoining pages, did not note any text discussing what is presented. alternative might be insert after p.9 which mentions the lands depicted.	Jim. Ask questions if needed.	
251	Alan Schmierer	35-41		suggest we insert the Vista Grande Drainage Improvement Project (see briefing attached). if so, add discussion at pp.35-41 also. (see note for p. 10)	Don. See above. Which subsection on pp 35-41? Implementation Plans? Plans in process of being developed? This project (not plan) doesn't fit cleanly into these lists.	Awaiting GOGA decision on inclusion of this project in GMP/EIS
252	Alan Schmierer	p.43	lines 51-55	good update Re: DNI	No change needed.	
253	Alan Schmierer	Vol.2		wish we still did GMPs that included project analysis, so that upon signing a ROD we could go forth and do some work on the ground	No change needed.	
254	Alan Schmierer	Vol.2 p.175		the disclaimer at bottom of left column is very important.	No change needed, but Don, please take a look at this in relation to following comments.	No change needed
255	Alan Schmierer	Vol. 1 Abstract? Page 2	7-8	. Relative to this disclaimer (comment above), but considering this is "just" an EIS public info phase, not the decision phase, suggest edit on p.2 of Abstract lines 7-8, such as "...all of the actions in the selected alt expected to be recommended for approval in the final plan will require more..." [text to delete substitute]	Don to consider the suggestion and address as needed. (Check with Paul as needed). Also, would this require any other similar tweaks to other text? Let's make sure we are consistent.	DONE
256	Alan Schmierer	Vol. 2 394-449		i did read through the comment-response summary (pp.394-449) as well as App.H and did not see any red flags waving.	Don to re-write all comment responses. No change needed.	
257	Alan Schmierer	Vol. 2 p. 390		At p.390 we need to insert updated info for USFWS.	Comment noted. Don to keep on top of this. (also see p. 392, Don) Section 7 ESA consultation status has been updated. However, we are still awaiting official correspondence from both USFWS and NMFS. The	DONE

				FGMP/EIS mailing to both agencies will be accompanied with a cover letter that further clarifies our request and intention to consult on future implementation [redacted] plans/actions identified in the FGMP.	
258	Alan Schmierer			<u>other notes</u> filing official printed document with EPA will be different than what we did with the DEIS. basically whoever will be preparing the electronic version for posting on PEPC will need to also do the electronic EPA filing - they no longer accept printed documents for filing, but they do expect printed documents get distributed to the public. we've now done the new process with YOSE (both river plans), HAVO (pig EIS), and LAKE (DCP\deis for CC and KL), was pretty smooth. i'll send followup note to Brian Aviles and Tom Gibney.	Comment noted. Tom and Don to strategize soon.
259	Alan Schmierer			<u>other notes</u> what is the target timeframe for official release of the FEIS for public inspection\starting the no-action period? i recently began drafting NOA but got interrupted so will resume and have draft asap. FYI on May 30 IMR had an NOA for Final EIS published, which was signed by the RD back on Dec.20 (a mere 5 1\2 mos hiatus).	Tom to circle back with Alan with dates.
