Mapping Exercise Summary**

Sweeney Ridge		Sweeny Ridge is good for serious exercise and all-around views. Also, there is interesting layer of wildlife.
Sweeney Ridge		Sweeny Ridge - Build a connector trail from the southwest corner of the GGNP land to San Pedro Valley County Park. The Valley View Trail is already there. This would allow hikers to hike Milagra Ridge to Sweeny Ridge to the county park and then on up and over Montara Mt. The land for the connector trail is probably owed by Pacifica or San Mateo County.
Sweeney Ridge		Sweeney - Excellent trails for equestrians to go from 92 to coast. One of our favorites!

Watershed		The watershed simply by being there teaches so many people about the beauty and necessity of open spaces

Park Unit	Specific Location	Comment
Problem Locations		
Bolinas Lagoon		New Trails and public access around ACR properties and Bolinas Lagoon must incorporate watershed protection and erosion control elements.
Bolinas Lagoon		Will GG creeks help or hurt Bolinas Lagoon
Bolinas Lagoon		Bolinas Lagoon or little Lagoon / ineffective Flood Center
Bolinas Lagoon		Bolinas Lagoon management for ecological benefits, not property values.
Bolinas Lagoon		Preservation of Bolinas Lagoon as a functioning as System
Crissy Field	Doyle Drive	Plan for Doyle Drive tunnel should be extended distance wise to mitigate noise and air pollution.
Crissy Field		Dogs off leash at Crissy Field east Beach main area
Crissy Field		a "reassessment" of the Crissy Field EA needs to be looked at due to the "designation" label since CF has been restored. Even though CF has a large carrying capacity weekend users, such as bicyclists are speeding the promenade is a BIG safety issue.
Devils Slide		A land bridge is the best idea I've ever heard both for people and wildlife. The highway cuts the land in half.
Devils Slide		Devils Slide

**Golden Gate NRA/Muir Woods NM GMP
Public Scoping April 2006
Mapping Exercise Summary**

Ft. Funston		Ft Funston - need more benches, bathroom @ the bottom of the hill, cut out deadwood and unattached branches, need better access to the ocean, safer, less steep, repair roadway, clean sand off roadway, open up a sand dune for the children to slide down, too much emphasis on native plants - not what was there - just sand
Ft. Funston General		Fort Funston: habitat on the shorted lanes has been destroyed by dogs and their owners. We have lost a number of leading bird species. True islands at Battery Davis 1/8. The skyline Grove have lost understory and habitat significant to migrating birds. How are you going to manage it? Rules, regs, enforcement
General		Mountain bike trail guidelines need to be updated. 6 foot wide trails are erosive and hard to maintain, also they can't switchback, and steep grades mean high speeds (trail conflicts) and locked brakes (more erosion). Plus, narrow trails are more aesthetically pleasing and fun to hike, ride, as well as being much less damaging to the environment.
General		We never met any black people. They are actually borwn. The folks called white are more of a pinky-tan color. Consider the indigenous people of north america, they were named after a foreign country, India. Perhaps the name "Ingens' would work better. You may have noticed that people who are exposed to more sun get more of a tan. Anthropologists tell us that we all have African origins. That makes me an African American. Being born in the US makes me a native americna being an ortist make me a person of color. In Howard Ainn's peoples history of the US, he points out that the response of the slaves to the master was to go slo, act stupid and savorage. do you see a pattern here: The baggage from over a hundred years ago is stil with us. In 2005 the US senate passed a measure apologizing for not passing an anti-lynching bill many years ago, but the senators from Misissippi would not sign it. I hope that I have helped to ruin a lousy game.
General		San Francisco makes it clear that we won't have any surface freeways through our City. I agree. SF is also the last city in the US with no thruway. There is only one way to go: tunnels. Two big ones for autos and transit: Golden Gate Bridge to 280 near Brotherhood Way, under Juniper Serra. Golden Gate Bridge under Lombard to the east end of the Bay Bridge with a transit stop at Treasure Island. Two small ones for autos, busses, bikes and pedestrians: Presidio: MacArthur Tunnel - widen. Ft. Mason: North Point to marina Blvd. Can you imagine what the traffic might be like if all the thru traffic were off our city streets?
Golden Gate Bridge		Reasons why the toll booth should be removed from our roads: Stealing peoples lives a few minutes at a time adds up; Represents a taking without compensation; The pollution caused while waiting and sent to the Central Valley; The heat created while waiting; The cost of fuel while waiting, stop and go; an antiquated form of revenue collection left over from the 1930s; Government treats the people as if their time had no value; Costs to business at commercial rates; The phrase "a dollar waitin' on a dime" fits here; The cost of collection. Big money; Our highway system is designed to move us quickly and cost billions to make this happen. Stopping folks in the middle of the highway to "stand and deliver" right in the bottleneck is contrary to the general pupose; the bridges are an integral part of the highway system and ought to be budgeted just like the rest of the system; Get the money at the gasoline pump or at registration when the engine is turned off, not in the middle of the road; The toll booth is an extortion racket; Husts the poor the most
Lands End	Lands End Trail	East end of Land's End Trail should be opened to bikes

Lands End		Lands end - trail maintenance and preservation
Marin	Boundary of Sausalito	No bike trail or good hiking connection from GGNRA to Sausalito
Marin	Bunker Road	Marin Headlands @ Bunker Rd trail heads (coastal & Rodeo) are obscured and subject to damage
Marin	Coast from Stinson to Bridge	Near shore coastal waters need resource protection Stinson Beach to Golden Gate enhance North South
Marin	Coastal Trail	Coast trail from GG bridge is not open to bikes - no way to enter park and avoid cars - Dangerous
Marin	Coastal Trail	Coastal trail between Conzelman and Baker Road badly ending
Marin	Coastal Trail	Some of this Coastal trails off-limits to bikes - shouldn't be - it's a great connector.
Marin	Conzelman Road	Weekend traffic on Conzelman
Marin	Conzelman Road	Sometimes as a cyclist I feel like a 2nd class citizen. An example is coastal trail between Conzelman Rd and Bunker Rd. It is currently closed to bikes, not open to hikers and equestrians. If there is a safety hazard or risk of further damage, I have trouble seeing how it is a problem for cyclists, but not other trail users.
Marin	Gerbode Valley	Gerbode Valley - Maintaining good horse trails
Marin	Green Gulch	Re Route upper middle green gulch on north side ridge
Marin	Green Gulch	Middle Green Gulch should be bidirectional
Marin	Highway 1	No bike accessible trail from Muir Woods Rd to Mt tram park to avoid Hwy 1 which is very dangerous
Marin	Rodeo Beach	Too much trash left by visitors at Rodeo
Marin	Rodeo Beach	Lots of unleashed dogs chasing wildlife all over park
Marin	Rodeo Beach	Rodeo Beach - beach and trail maintenance
Marin	Rodeo Beach	Rodeo dog impact on Lagoon

Marin	Tennessee Valley	Tennessee Valley - Maintaining good horse trails and separation of horse and dog use
Marin	Tennessee Valley	Tennessee Valley Parking lot needs some repair after long winter.
Marin	Tennessee Valley	" " near coast in Tennessee Valley area
Marin	Trail between Miwok and Bobcat Trail	Trail between Miwok and Bobcat trail - why closed to mtn bikes?
Marin	Tunnel	Tunnel @ entrance to Fort Cronkhite - V Congested with traffic - need pedestrian entrance to reduce traffic into the area
Marin		Gave a list of concerns and issues for Equestrian users. ETRAC is a coalition of 12 horse riding groups from Marin County to Los Altos. We would like to be included in the trails planning process Also, in saving stables on your lands.
Marin		Employee housing is necessary
Marin		Green Building technologies all new construction
Marin		Urban Fire Wildland area needs maintenance
Marin		Highway 1 access route to coastal Marin is failing
Marin		Violations and practices by Cal Trans along Hwy1
Marin		It would be great to have more areas to public transportation on for week days and weekends.
Marin		Highway 1 as vector for invasive species
Marin		Concern that multi use bike rules speed won't be enforced
Marin		Needs safe connector trail off Hwy 1 to RWC

**Golden Gate NRA/Muir Woods NM GMP
Public Scoping April 2006
Mapping Exercise Summary**

Marin		RWC maintenance challenging Need horse bridges over the creek. No bikes enforced and fined.
Marin		Unsafe for bikes - needs enforcement - they ride it!!
Marin		Another challenge to maintain and dangerous when bikes break the rules. A favorite equestrian ride. I am concerned with increased multi-use trails the ambiance of trail experience will change. Consider some trails shared with bikes or even or odd days to know there are days one can ride and hike bike - free
Marin		Thru access needed to connect for multi-use
Marin		" " Heather-cut off parallel
Marin		Fox Trail is closed to Mt. Bikes but appears to be wide enough to accommodate multi use safely.
Marin		Fire trails, often rutted poorly graded and over grade in so far as steepness!! These fire roads I think well just too for that reason - to be a fire break OR ranch road. Now the use has changed and those fire roads should be too! Meandering, well graded and with a max. grade of say 10% should be the "norm"
Marin		McKenna Trail / Willow Trail: These are very steep trails/fire roads!! The first is not maintained, the other extremely over grade! These need to be realigned/fixed for bike/Ped usage.
Marin		1/4 mile of private road trail before you reach GGNRA trail. Rumors are it will be closed on built on - at top of Donahue St.
Milagra Ridge		Bikes are relegated to roads - no good reason to not allow mountain biking on other Milagra Ridge trails
Milagra Ridge		Allow dog and their owners to enjoy at the same time, not interfering with non-dog owners and habitat areas
Milagra Ridge		A thriving volunteer habitat maintenance activity is seriously hindered by loss of interpretive rangers for Milagra & Sweeny Ridges.
Milagra Ridge		Milagra Ridge - good area for wheel chairs but accessibility is bad
Milagra Ridge		Milagra Ridge - previously used by mt bikes and off leash.
Montara		Needs to connect to something such as San Pedro Valley Park or the top of Montara
Mori Point		The land is stripped from 4 WD vehicles, erosion is a problem
Mori Point		MORI point - the erosion and invasion of non native plants worse with rangers autos. Very concerned dogs off leash are not being allowed.
Mori Point		MORI Point, off road vehicle use, threatens endangered species habitat! Non native invasive species - plants, off leash dogs, threaten endangered species, and are disruptive to outdoor experiences and safety
Mori Point		MORI pt - just very concerned with off leash dogs, no problem with on leash under control dogs but MORI pt becoming a dog run with off leash dogs
Mori Point		MORI point - need to keep trail from sharp park beach to rockaway accessible to bike
Muir Beach	Coyote Ridge	Coyote Ridge: Too high concentration of "professional dog walkers. Pet Control - The narrowing of location in which people can walk their pets on or off leash has led to congestion in the permissible areas. My local area in particular (Miwok Tr. at Coyote Ridge Tr.) (Muir Beach) has become the dog walker's haven and has concentrated pollution and traffic. These areas in particular were once "off the beaten path" and are now swamped with irresponsible dog owners. Spread the people out. Patrol more frequently.

**Golden Gate NRA/Muir Woods NM GMP
Public Scoping April 2006
Mapping Exercise Summary**

		Coyote Ridge: Aero Tourism - out of control - too long, too low, high crash hazard Aero-tourism - Control and regulate flyovers. Perhaps charge fees to companies. Mandate strict noise and elevation standards. As a resident of the urban/wild-;and interface zone I am subject to as many as 35 low and loud flyovers per week. These planes and helicopters present noise pollution and fire hazard every day. As a visitor to the parks, these planes and helicopter tours greatly disturb the "soundscape" of the natural environment. With the increase of small planes will come the increase of ecotourism, unregulated flyovers and crash hazard.
Muir Beach	Coyote Ridge	
Muir Beach		Muir Beach - Maintaining safe use corridor for equestrians, hikers, and bicycles
Muir Beach		Huge erosion stream load impact upon riparian system
Muir Beach		Implement fully Fishery Protection/ Restoration at Muir Branch
Muir Woods		Muir Woods - transportation in general
Muir Woods		Muir Woods - Maintain use corridor for equestrians to ride trail from Gerbode Valley and Tennessee Valley to Mt. Tam and to Olema. Need public transit to keep vehicles out of area and off the narrow road toxic emissions, habitat encroachment, etc.
Muir Woods		Interpretation and advertisement should be united
Muir Woods		Continue public shuttle
Muir Woods		Muir Woods access traffic; wood site parking impacting creeks
Ocean Beach	End of Golden Gate Park	Another wind turbine to update in truth the historical meaning of the traditional windmills.
Ocean Beach		Ocean Beach: migratory and ---watering birds are constantly chased by dogs absolutely no control.
Ocean Beach		Ocean Beach - not clean and the beach walls and stairs need repair.
Pacifica		Pacifica - no areas within Pacifica to walk off leash
Pacifica		Pacifica - driving is a problem for many people
Phleger Estate		My greatest concern is that mountain bikes will be allowed into these areas causing a lack of safety for equestrian trail areas, and hikers. A major goal should be to connect GGNRA to other park systems such as San Mateo Parks, MROSD open space and POST open spate, wherever possible
Purisima Creek OSP		Not good signage, need access for cyclists as a safer than streets option, and recreational
		I am a member of ETRAC which is a coalition of equestrian organizations, promoting the creation and maintenance of a comprehensive regional trail system for equestrian trail riders on the San Francisco peninsula and environs. On a volunteer advisoty basis, our members have worked with POST (Peninsula Open Space Truct) and MROSD (Mid Peninsula Open space district) giving inputs on how best to utilize certain trails safely. We also advocate the restriction of mountain bike access on certain trails for reasons of safety. And we like to optimize trail connections for broader access regionally. Many of our members are extremely knowledgeable about our trails, existing and proposed, and we would like to offer our services to GGNRA in the master planning of trails in the future.
