

1. VISITOR ACCESS:Transportation and Trails

Goal 1A:

Originating at major park entrance locations, a comprehensive system of visitor access opportunities and services are provided to icon areas throughout the park.

1. VISITOR ACCESS:Transportation and Trails

Goal 1B:

Promote transportation as part of the visitor experience and as an aid to resource management via a seamless, sustainable transportation system.

1. VISITOR ACCESS: Transportation and Trails

Goal 1C:

Access to the parks and circulation within the park are improved for those visitors who lack private transportation.

1. VISITOR ACCESS: Transportation and Trails

Goal 1D:

Visitor access to and within the park are integrated not only with existing park transportation systems, but also with the anticipated regional infrastructure, demographics, and technological changes.

2. RECREATION OPPS. AND CONFLICTS

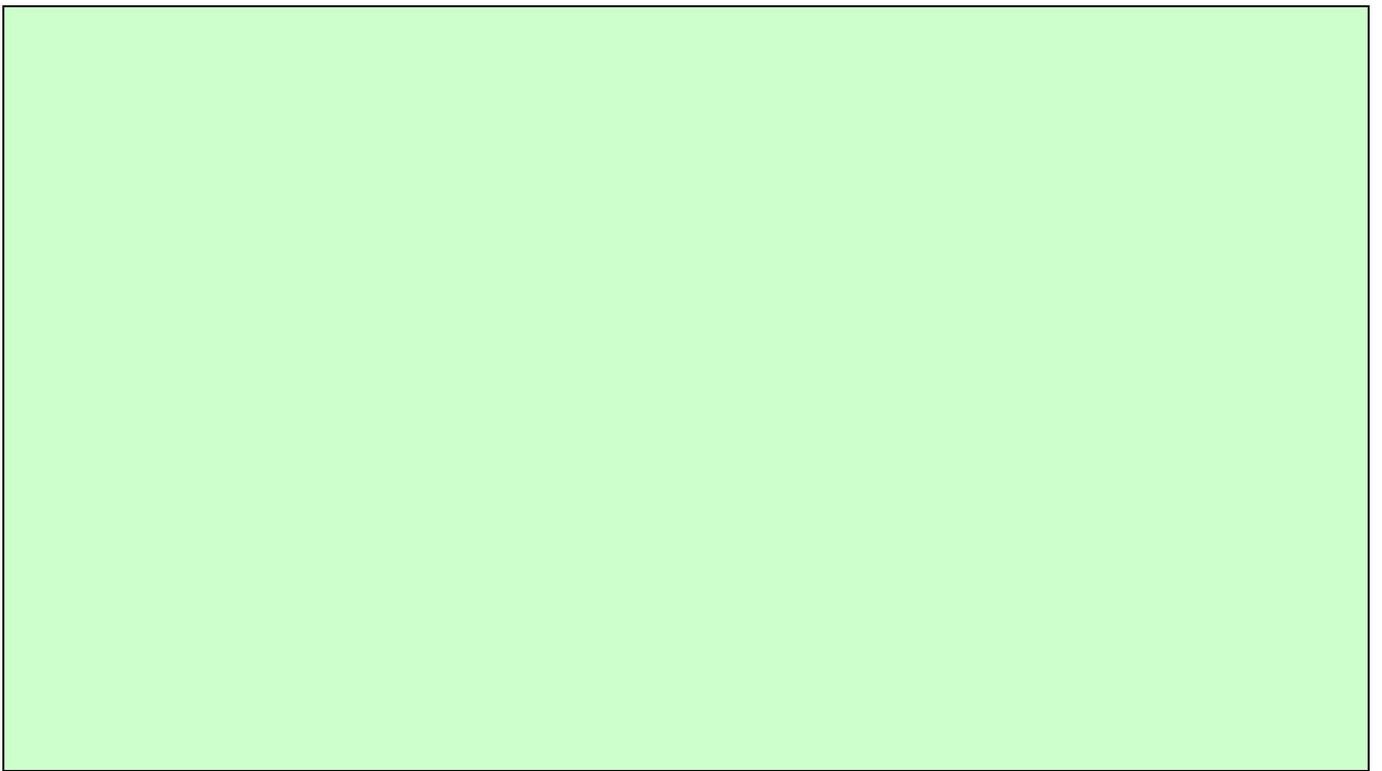

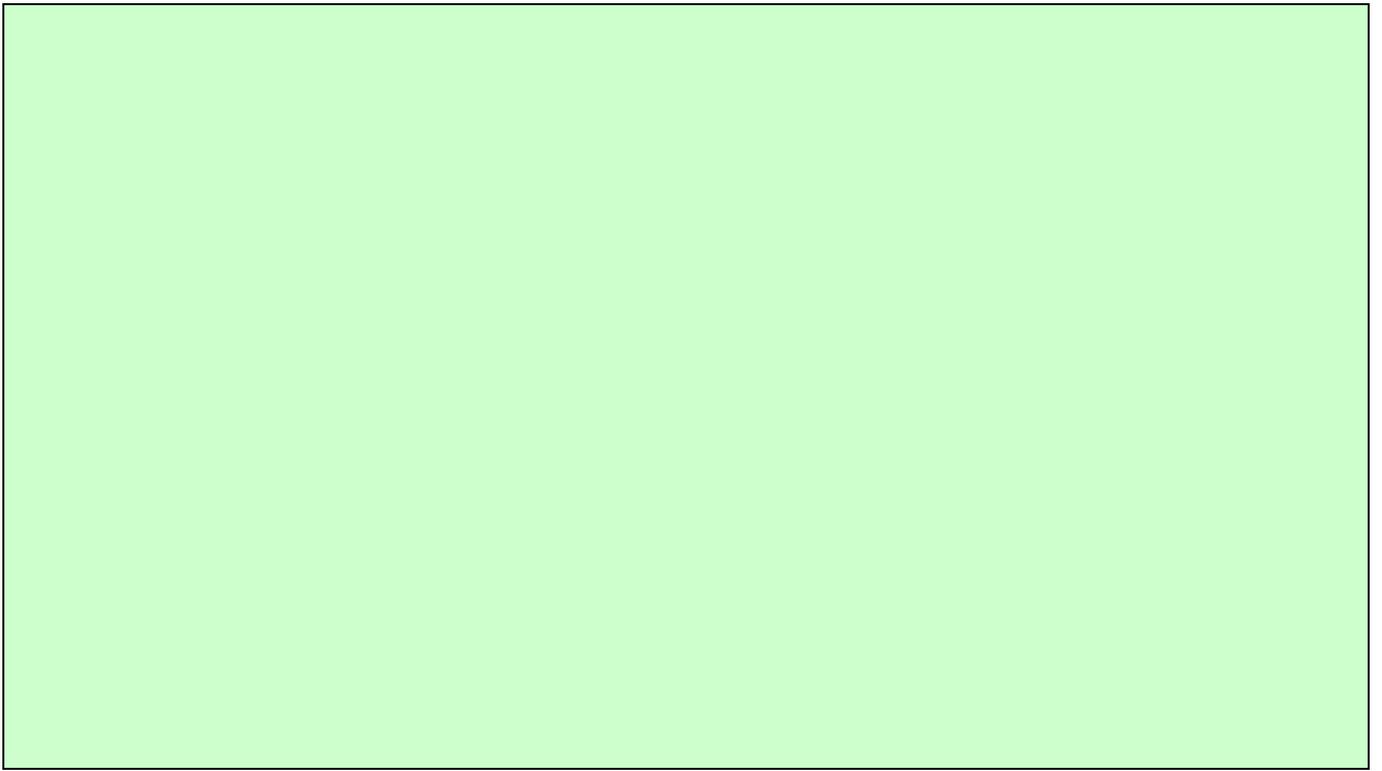

Goal 2A:

Promote the park as the backbone of resource-based public lands in the region, emphasizing trail connections, undeveloped open space and recreation opportunities that are unique to the resources in the park.

2. RECREATION OPPS. AND CONFLICTS

Goal 2B:

Provide a diverse range of recreation opportunities that appeal to emerging urban audiences.

2. RECREATION OPPS. AND CONFLICTS

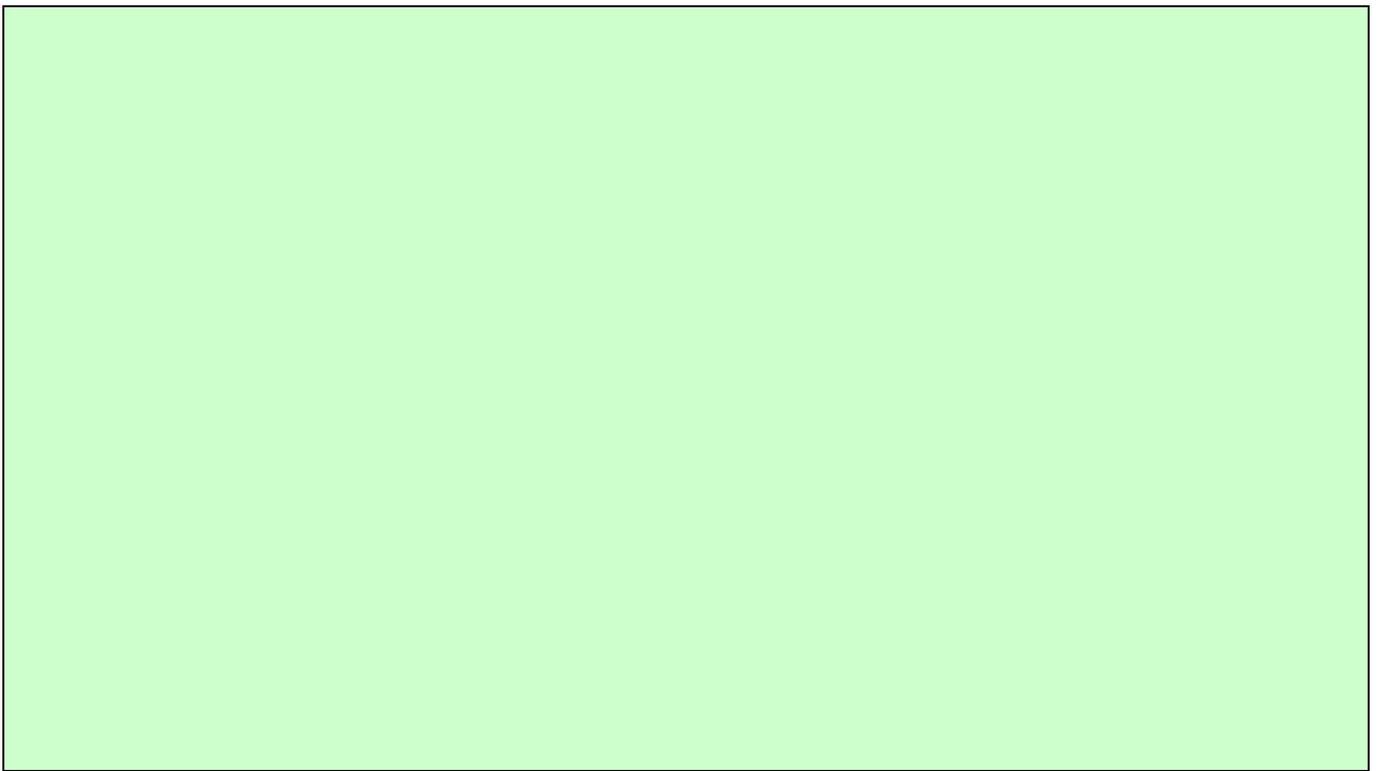

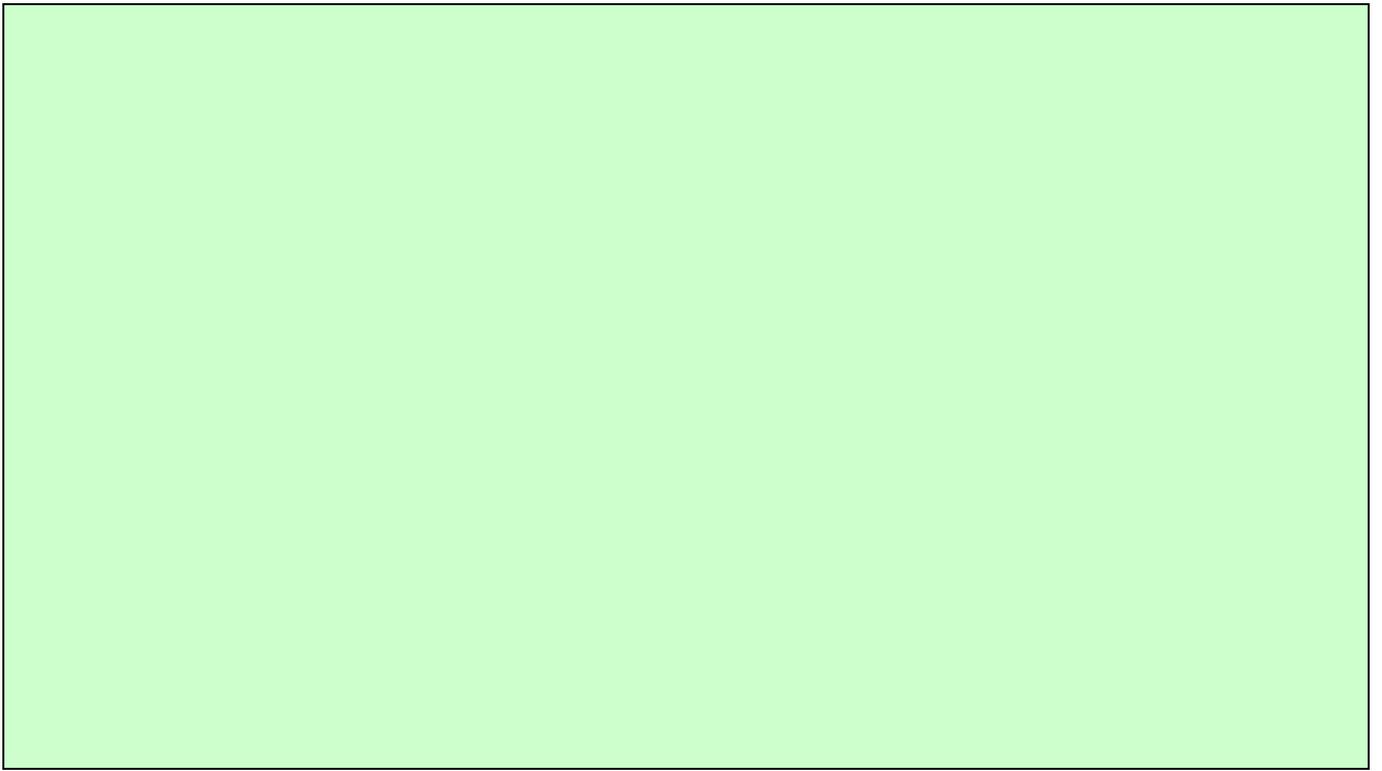

Goal 2C:

Provide a diverse range of recreation opportunities that meet the interests of a diverse public by distributing opportunities according to the urban to rural continuum (range and type of use is scaled across a spectrum that is related to proximity to the city).

2. RECREATION OPPS. AND CONFLICTS

Goal 2D:

Promote responsible management of natural and cultural resources by focusing recreation opportunities on stewardship-based activities.

3. BETTER COMMUNICATION AND REACHING NEW AUDIENCES

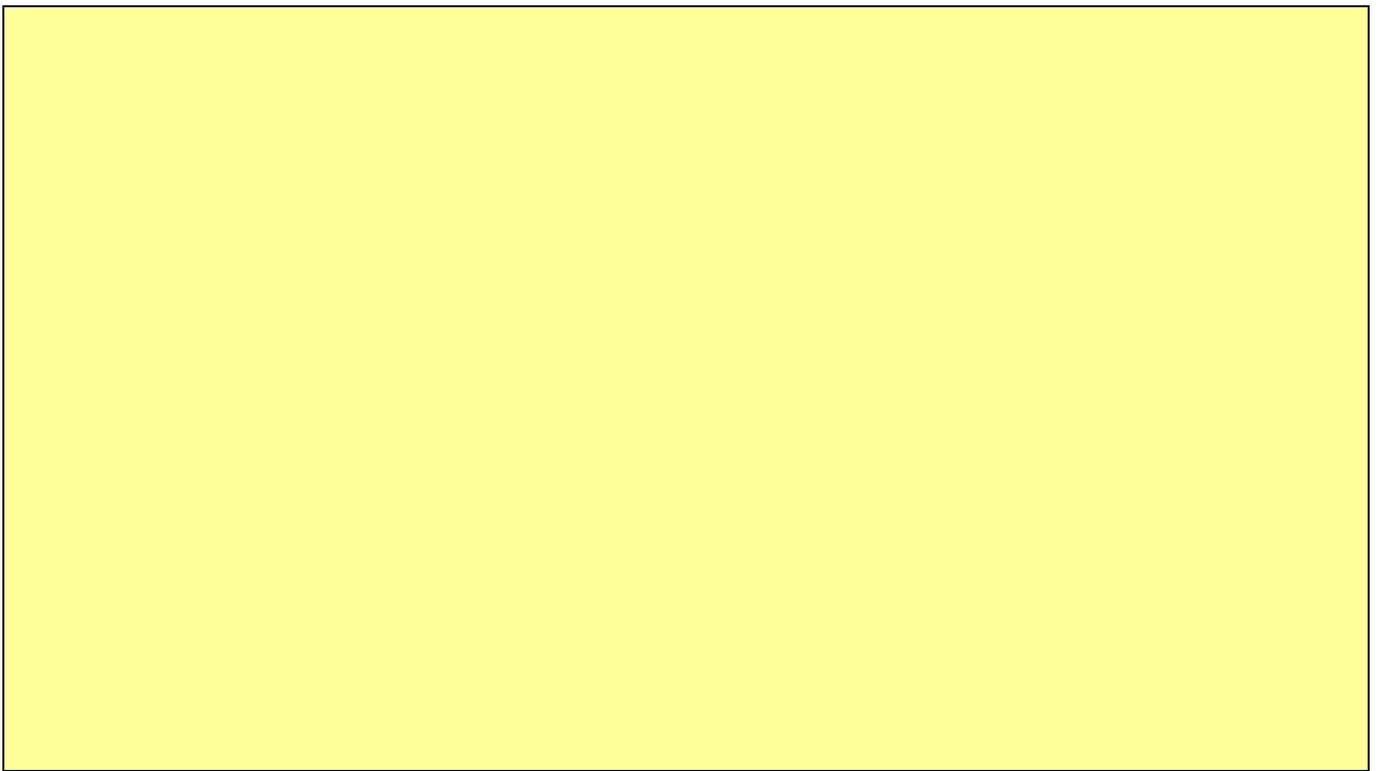

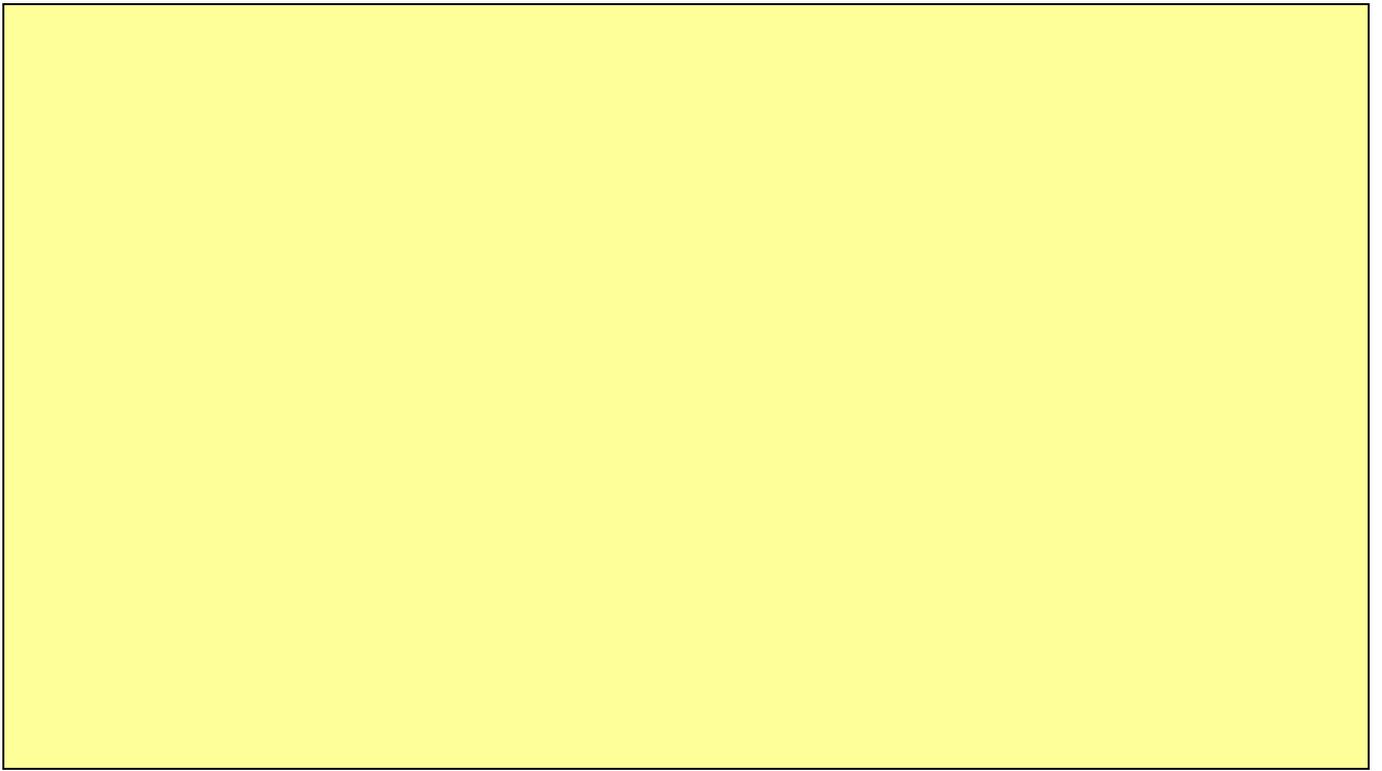

Goal 3A:

To encourage use and value of the park by underserved and emerging audiences, take the park and its messages into the community.

3. BETTER COMMUNICATION AND REACHING NEW AUDIENCES

Goal 3B:

To encourage use and value of the park by underserved and emerging audiences, focus on opportunities that appeal to new audiences in the park.

4. The Park's Diversity of Stories

Interpretation and Education Service Delivery:

Goal 4InterpA:

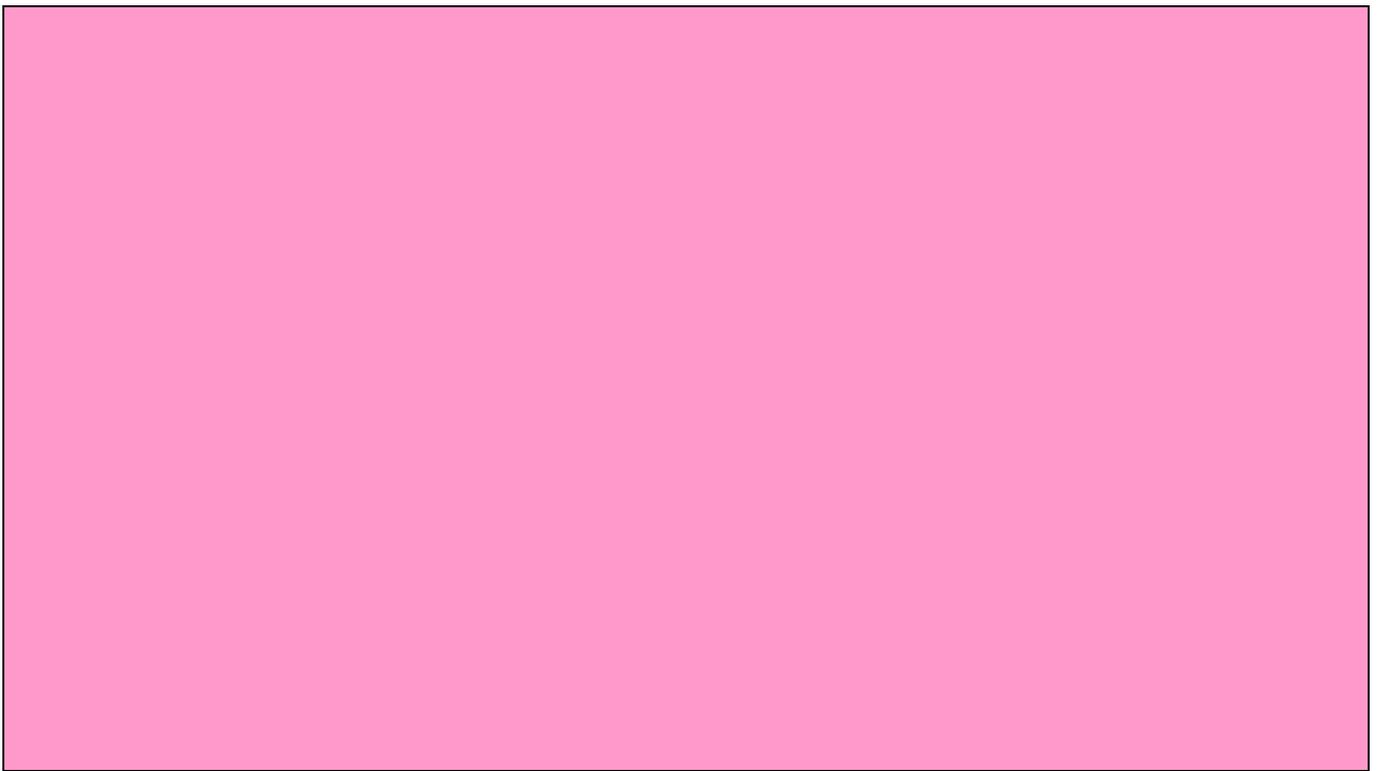

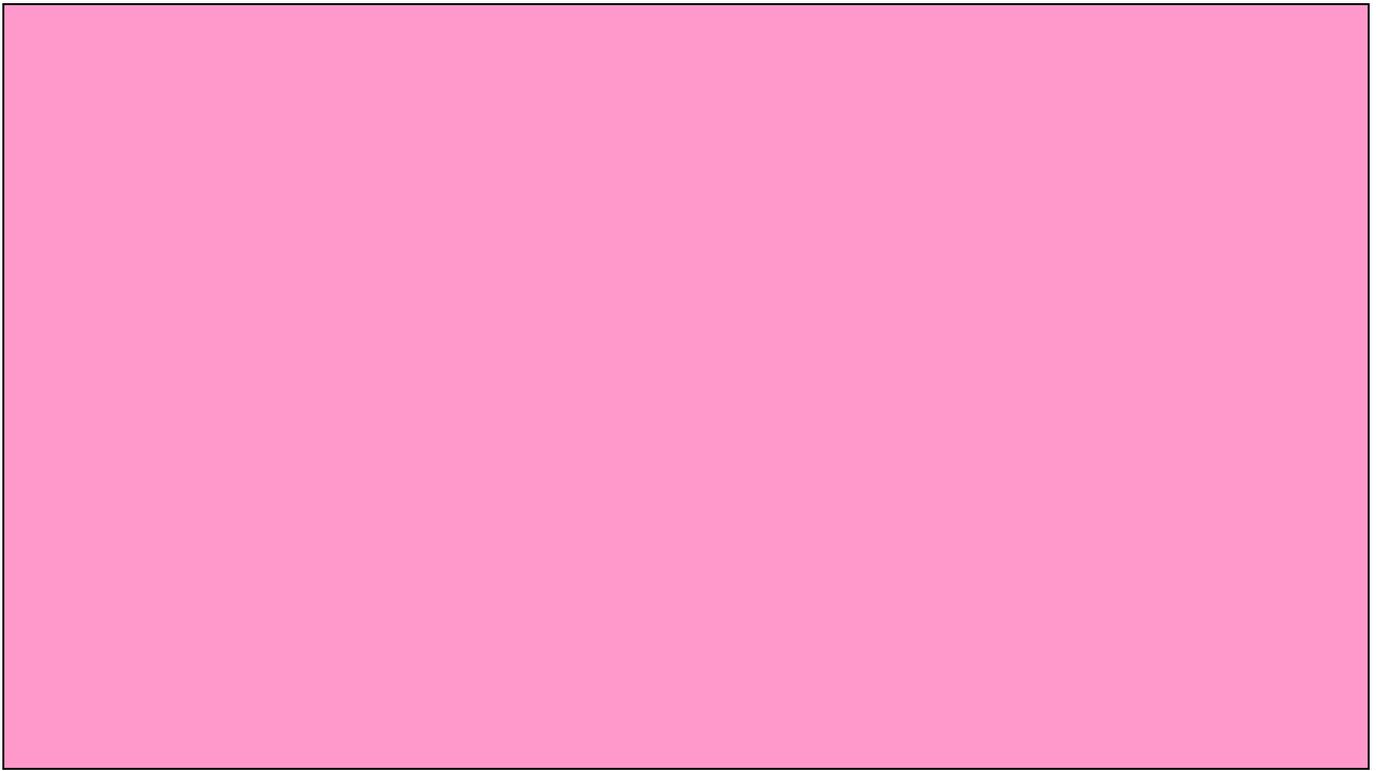

To encourage connections with people that haven't traditionally come to the park, stories are shared outside of park boundaries.

4. The Park's Diversity of Stories

Interpretation and Education Service Delivery:

Goal 4InterpB:

To better connect with visitors in the park, stories are place-based.

4. The Park's Diversity of Stories

Stories and Themes to be Emphasized:

Goal 4StoriesA:

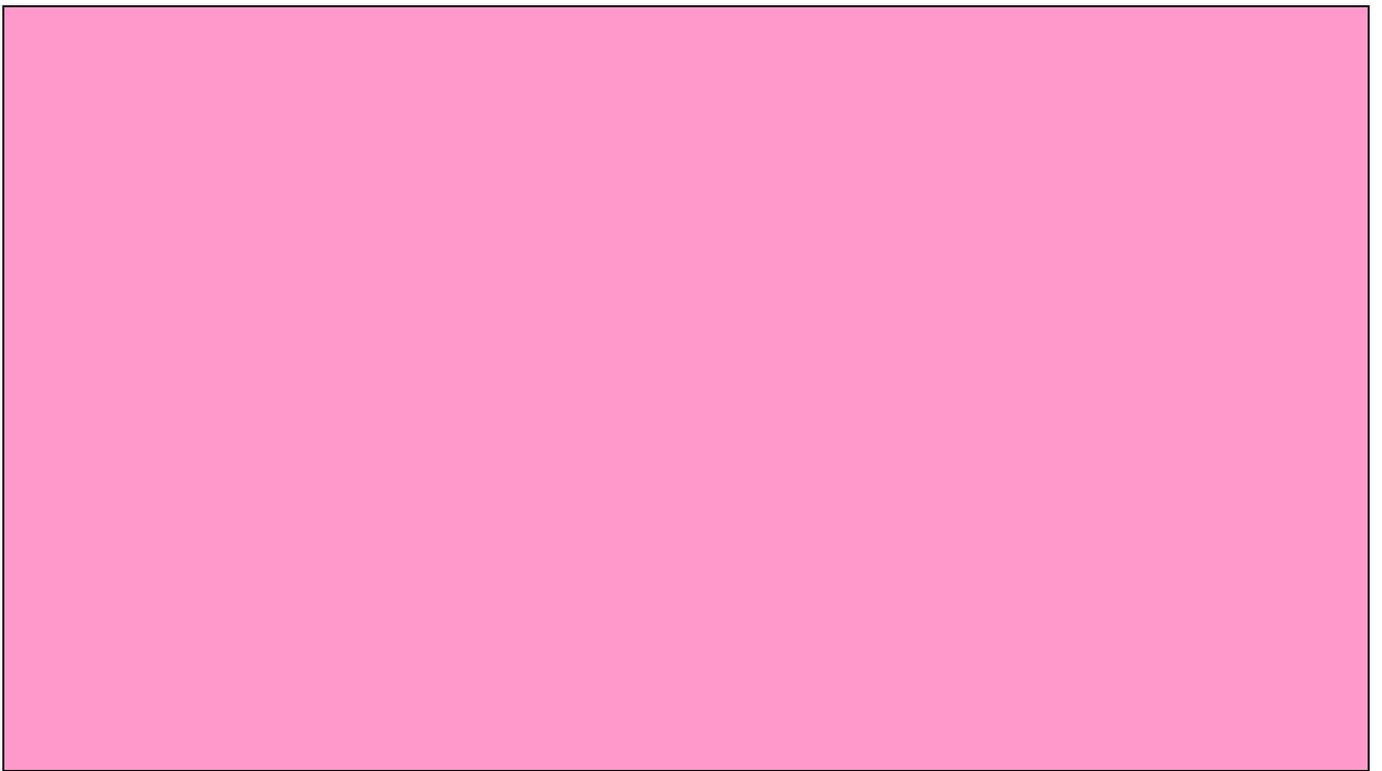

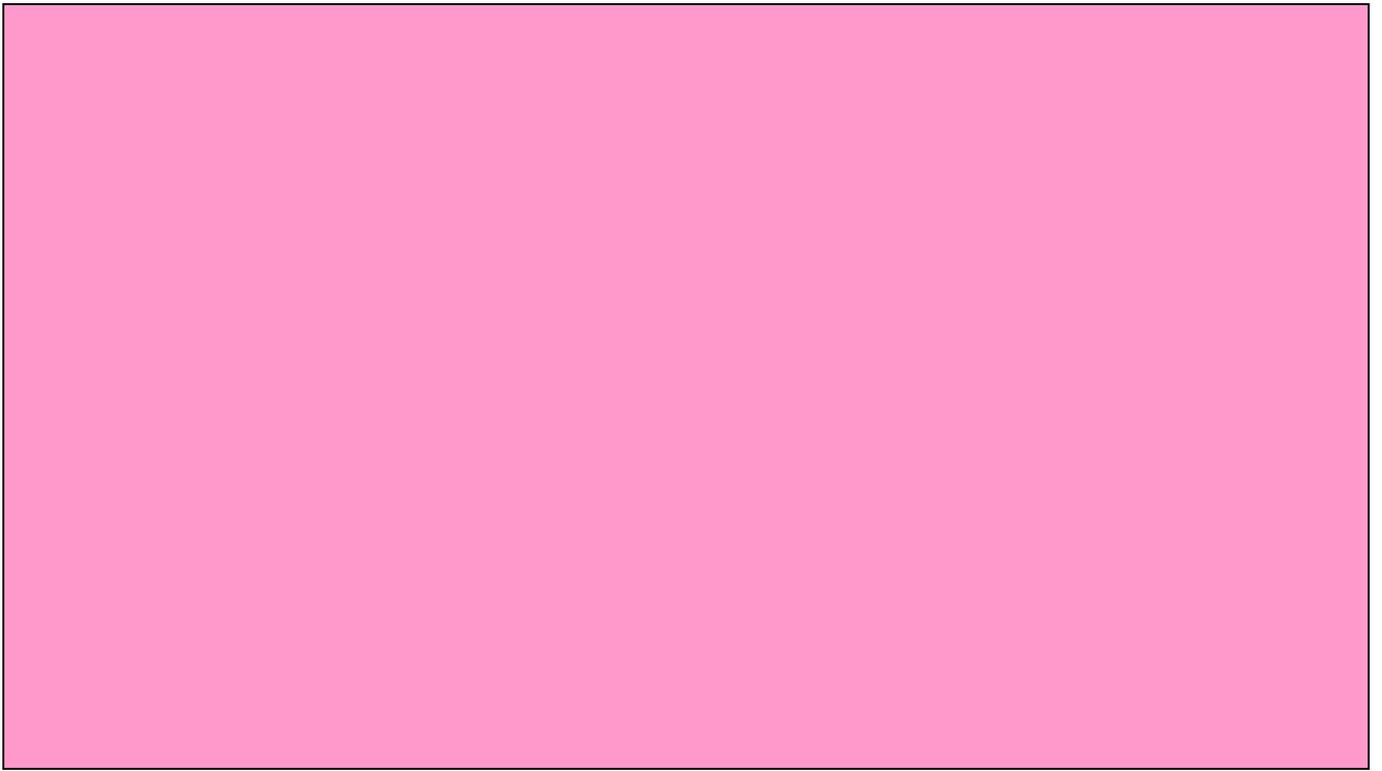

To help visitors understand the exciting and momentous nature of history in the park, stories capitalize on anniversaries/ benchmarks in time.

4. The Park's Diversity of Stories

Stories and Themes to be Emphasized:

Goal 4StoriesB:

To help visitors understand the connection of people to place, stories focus on population growth and the natural and cultural response (includes the goal of response to climate change and the importance of the resources to the urban population).

4. The Park's Diversity of Stories

Stories and Themes to be Emphasized:

Goal 4StoriesC:

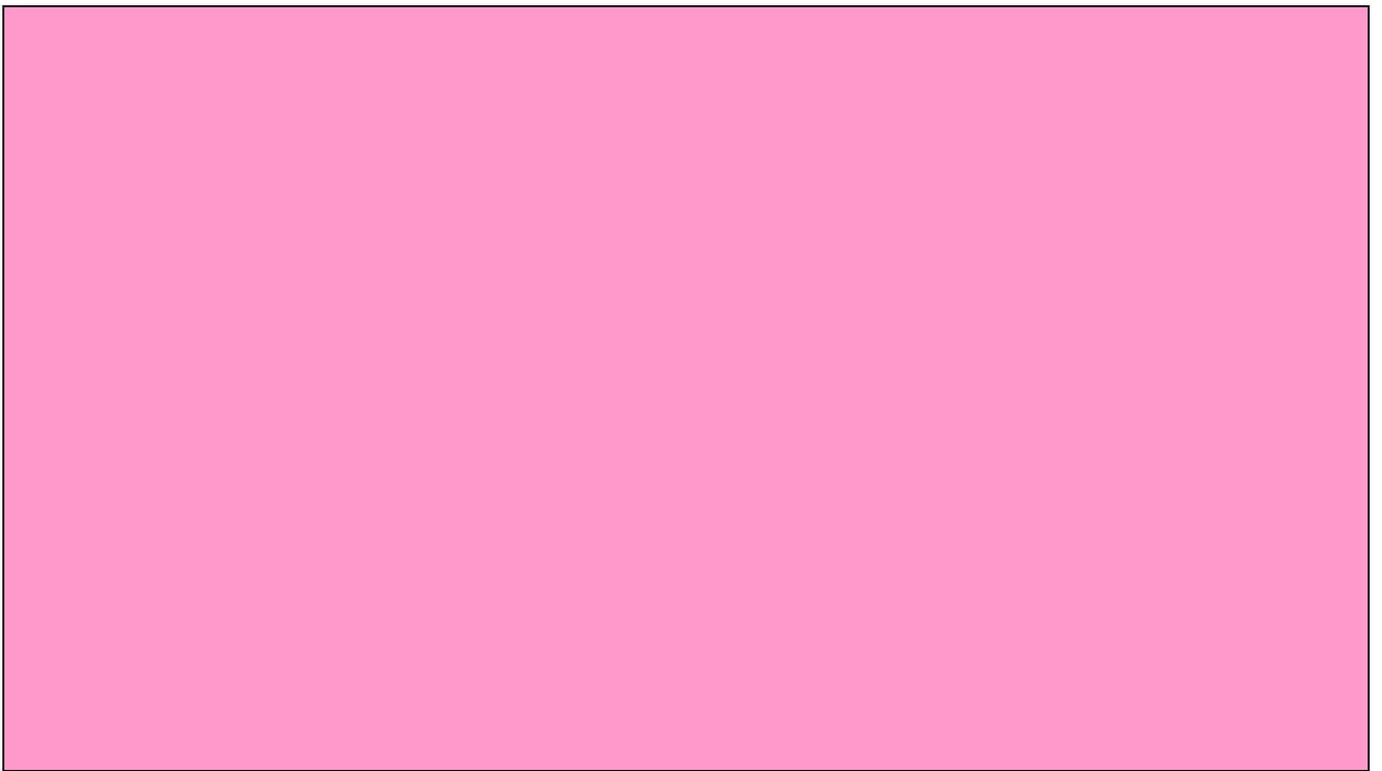

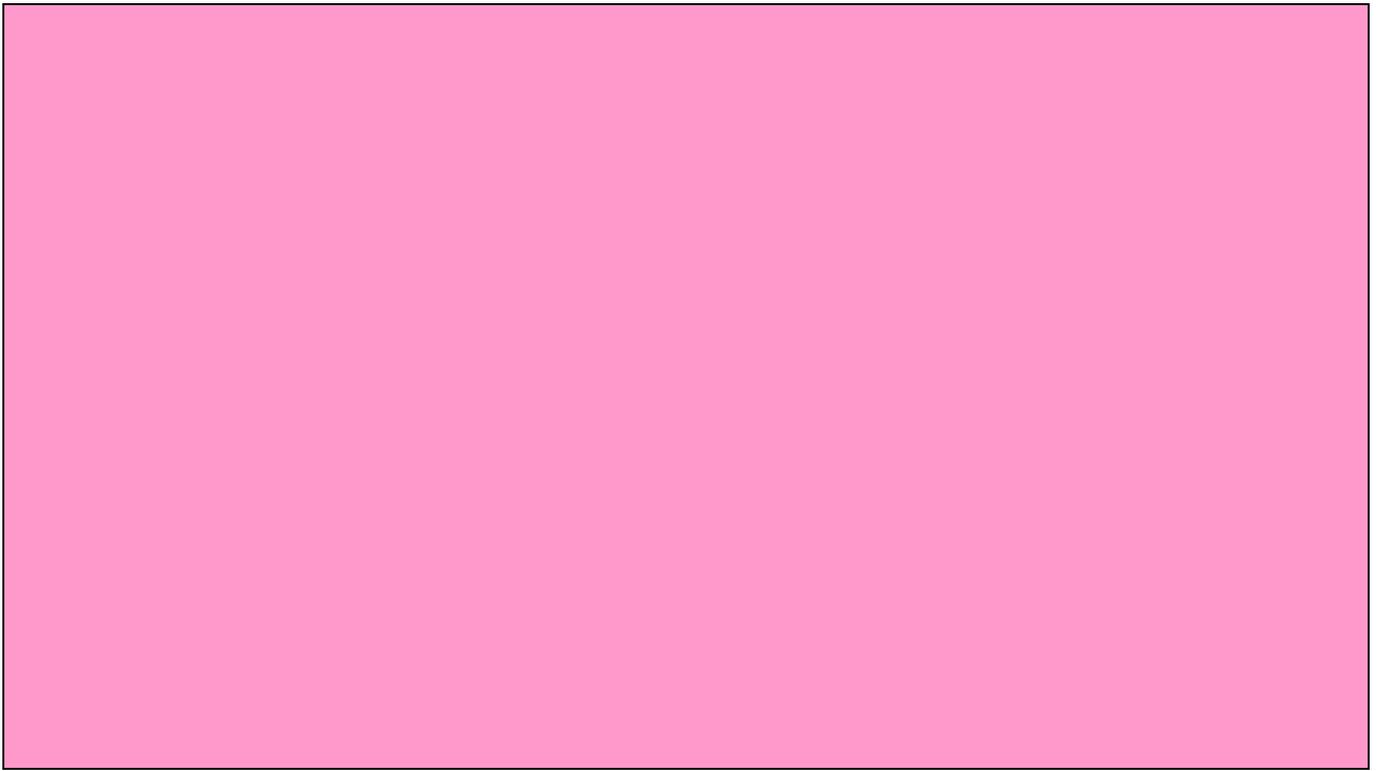

To help visitors understand the complexity and dynamic nature of history in the park, stories focus on interpretation of cultural resources ranging from Pre-European human presence, military use, Spanish mission, Mexican, and American; Native American interpretation; museum collections; and forts (includes interpreting the military history at Alcatraz).

4. The Park's Diversity of Stories

Stories and Themes to be Emphasized:

Goal 4StoriesD:

To help visitors understand the notion of responsible resource management, stories focus on emphasizing the park as an “outdoor laboratory”.

5. Global Climate Change

Goal 5A:

Raise public awareness about Global Climate Change through a focus on interpretation and outreach efforts.

5. Global Climate Change

Goal 5B:

Promote research and education on Global Climate Change via the park serving as a focal point for global warming research.

5. Global Climate Change

Goal 5C:

Serve as a leader and a model for management responses to Global Climate Change by implementing sustainable policies and actions that minimize the park's green house gas outputs.

6. Land and Water Protection

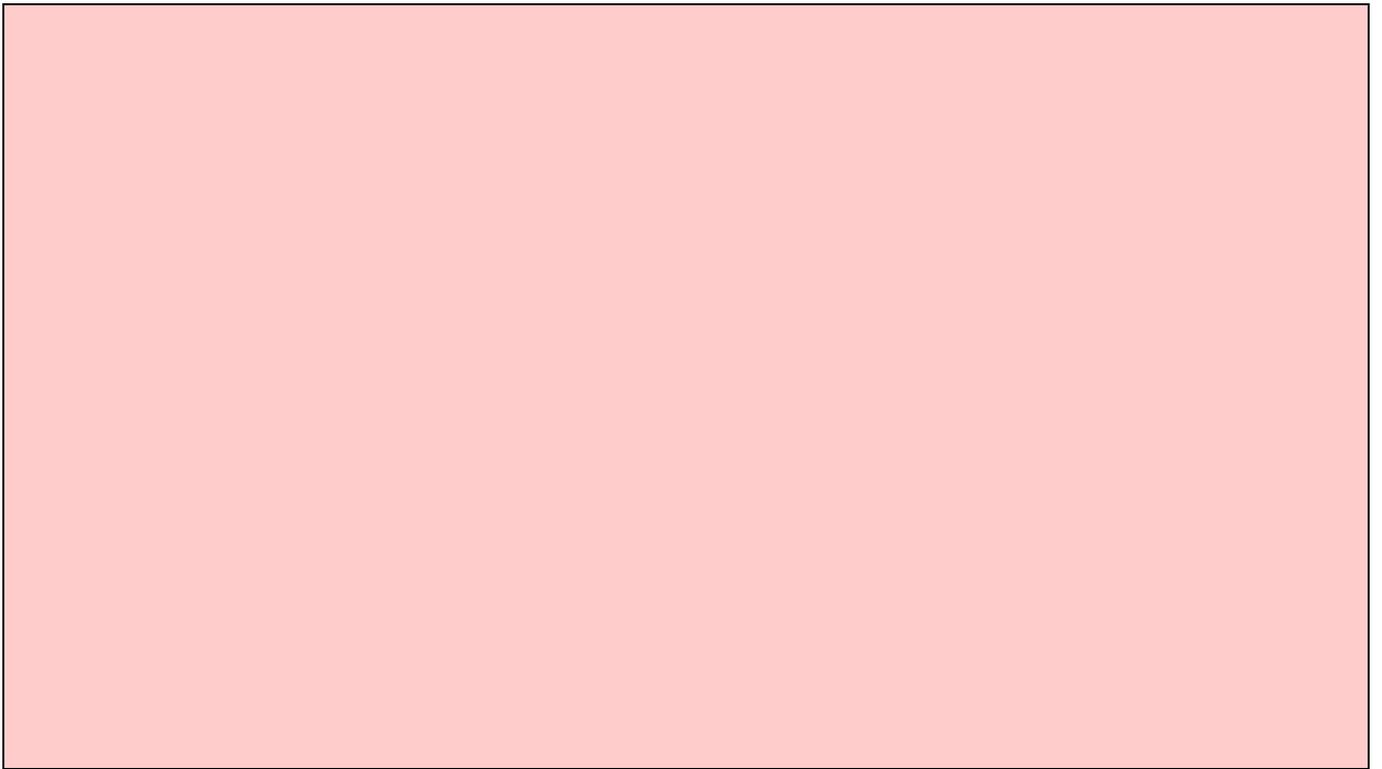

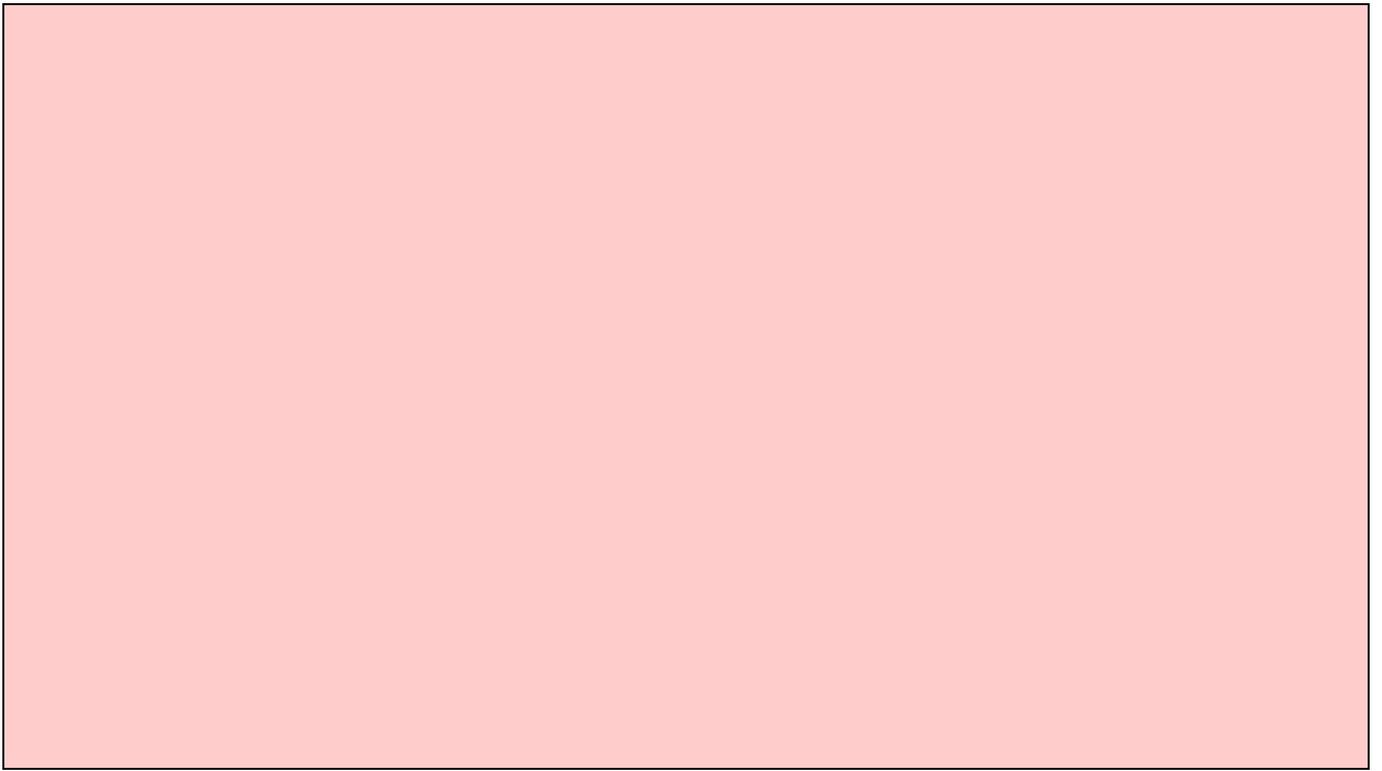

Goal 6B:

Pursue protection only of key parcels that are essential to fulfill park purpose and mission.

6. Land and Water Protection

Goal 6C:

Acquire and protect parcels that maximize recreational access (trail connections, etc.).

6. Land and Water Protection

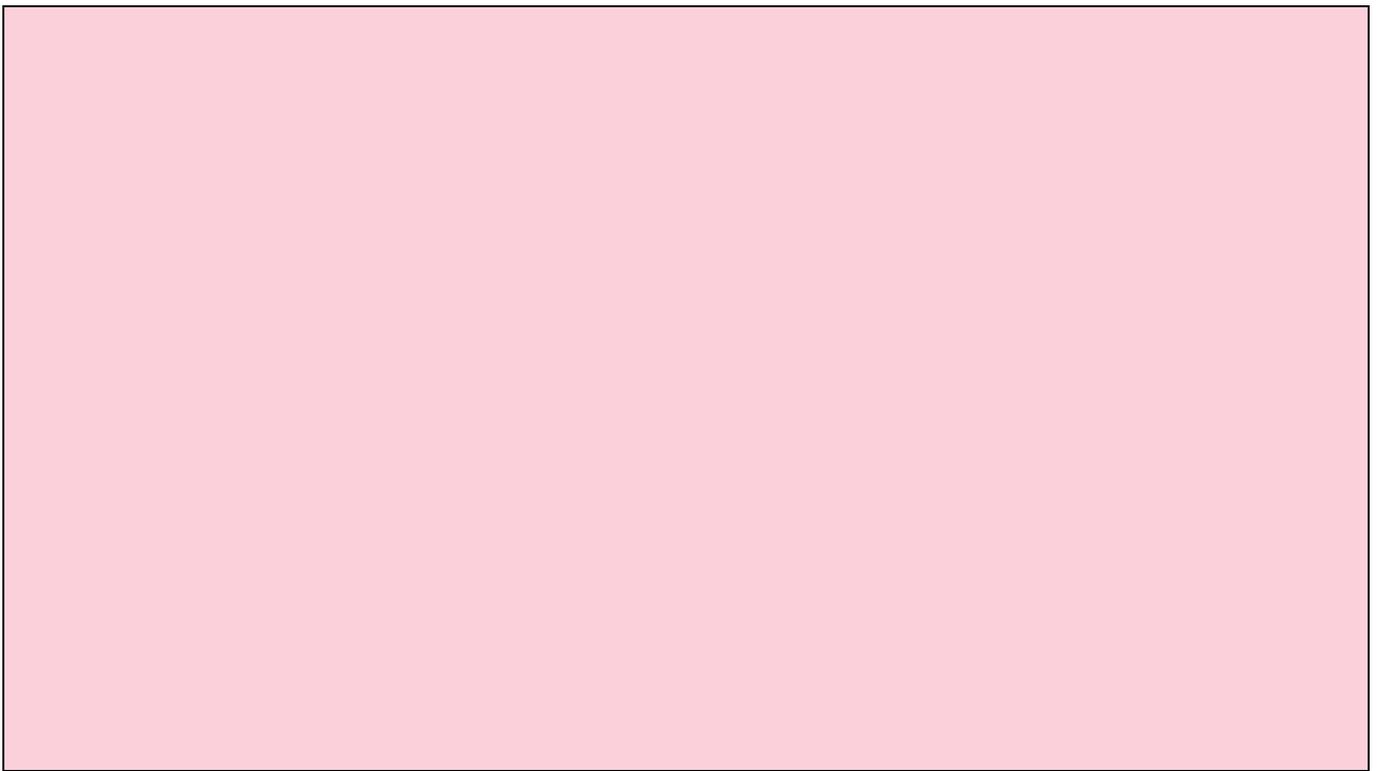

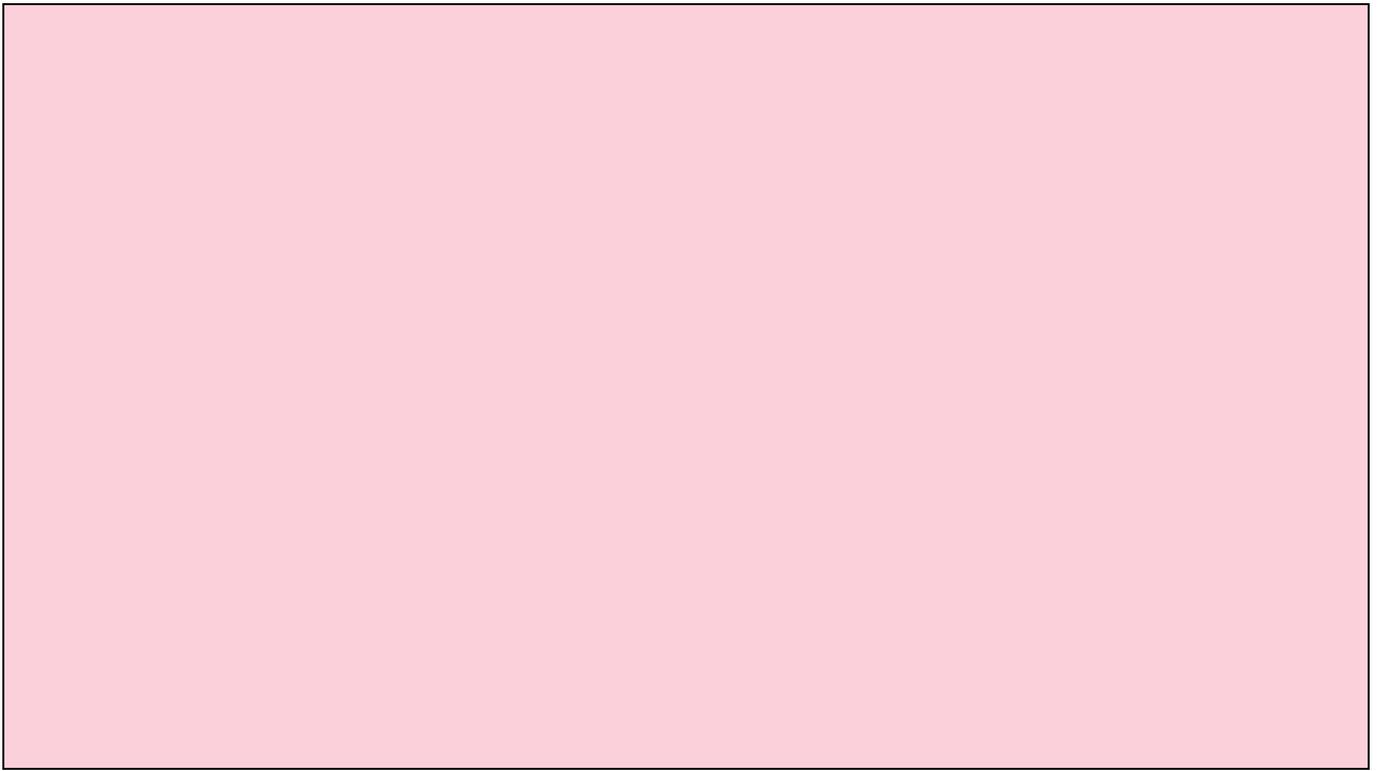

Goal 6D:

Acquire and protect parcels that maximize habitat connectivity and native plant and animal needs (i.e., wildlife migration and use corridors).

6. Land and Water Protection

Goal 6E:

Acquire and protect parcels that maximize the human connection to land and spirit.

7. Sustained Natural Resource Preservation and Management

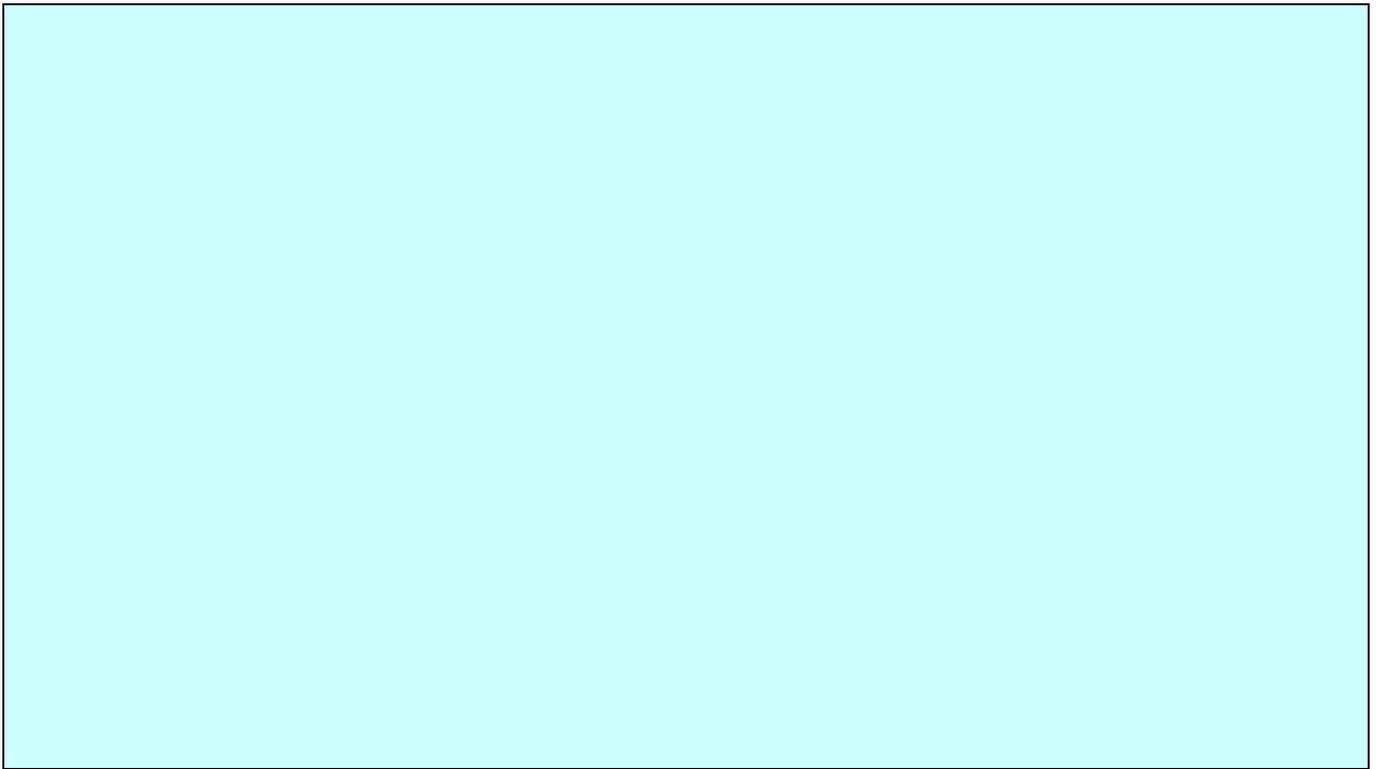

Goal 7A: *Fragmentation/Corridor*

Natural resources are preserved by focusing on the protection and management of a contiguous, unfragmented coastal habitat corridor that sustains exceptional biodiversity.

7. Sustained Natural Resource Preservation and Management

Goal 7B: *Human Component of Ecosystems*

Natural resources are preserved through the protection of cultural landscapes, where humans are engaged participants in the landscape and its management.

7. Sustained Natural Resource Preservation and Management

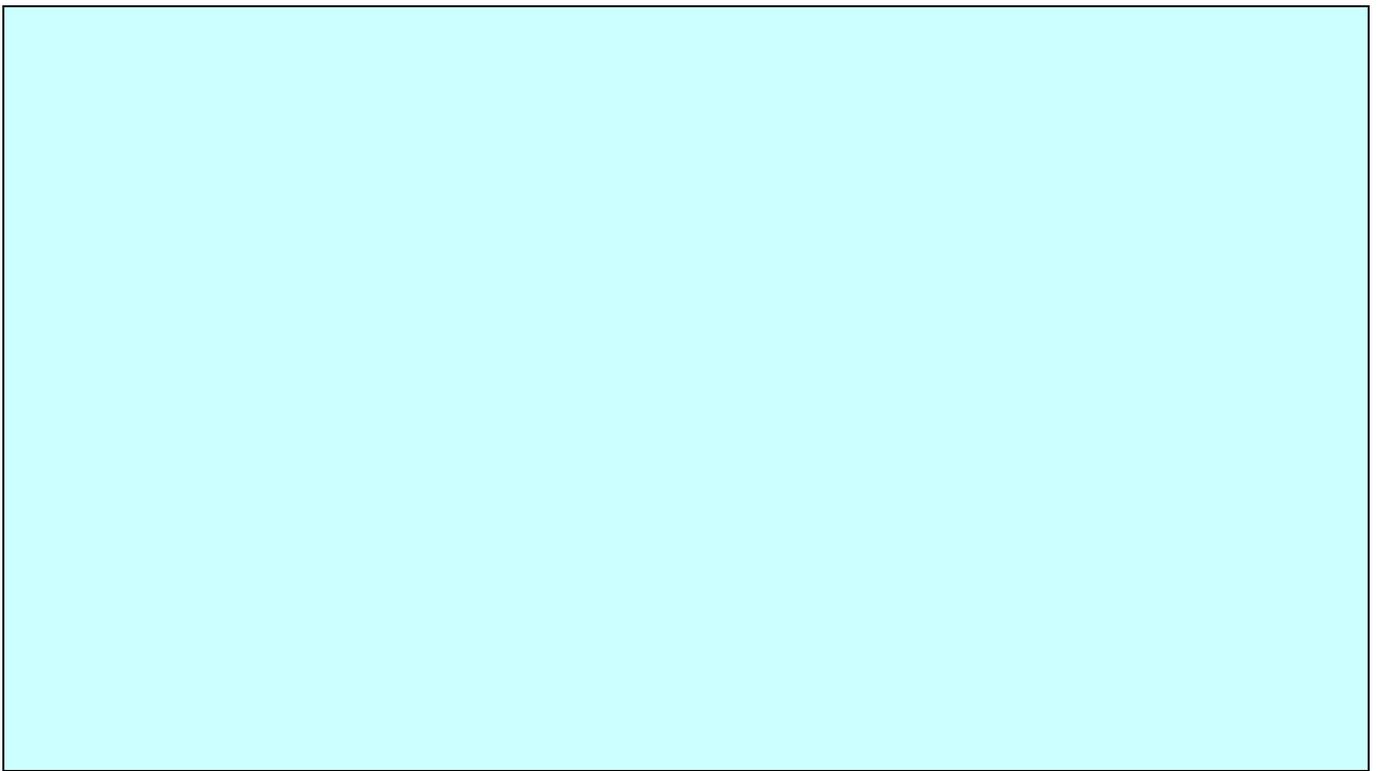

Goal 7C: *Watersheds*

Natural resources are sustained and managed by recognizing natural watershed processes and embracing collaborative approaches that maximize resource preservation and restoration opportunities.

7. Sustained Natural Resource Preservation and Management

Goal 7D: *Ecosystems*

Natural processes are sustained by focusing on multi-species conservation efforts and ecosystem management.

8. Muir Woods National Monument

Natural Resources:

Goal 8NaturalA: *Natural Resource Research and Outreach*

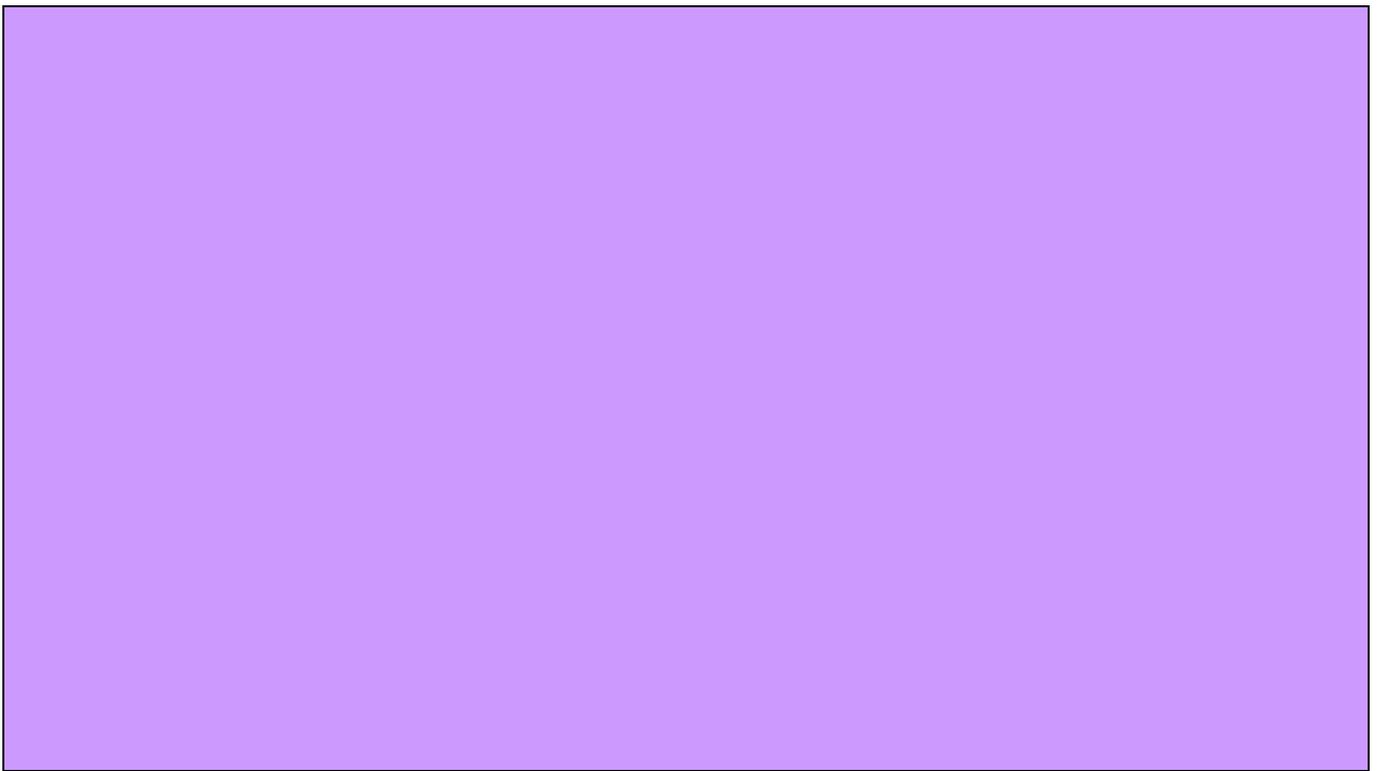

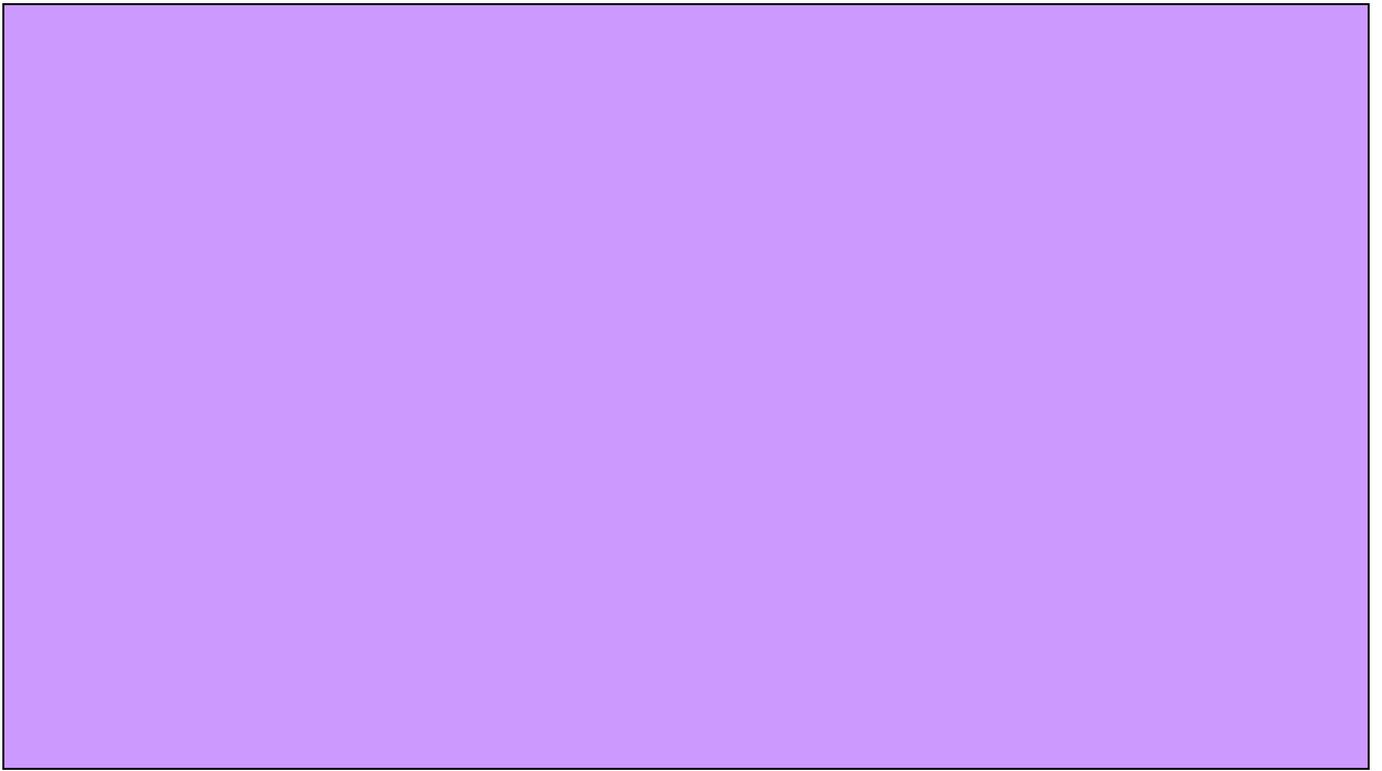

Improve natural resources through natural resource research, education, and outreach.

8. Muir Woods National Monument

Natural Resources:

Goal 8NaturalB: *Monument as Natural Cathedral*

Focus on natural resource preservation and restoration with a goal of maximizing biodiversity and restoring natural watershed processes.

8. Muir Woods National Monument

Cultural Resources:

Goal 8CulturalA:

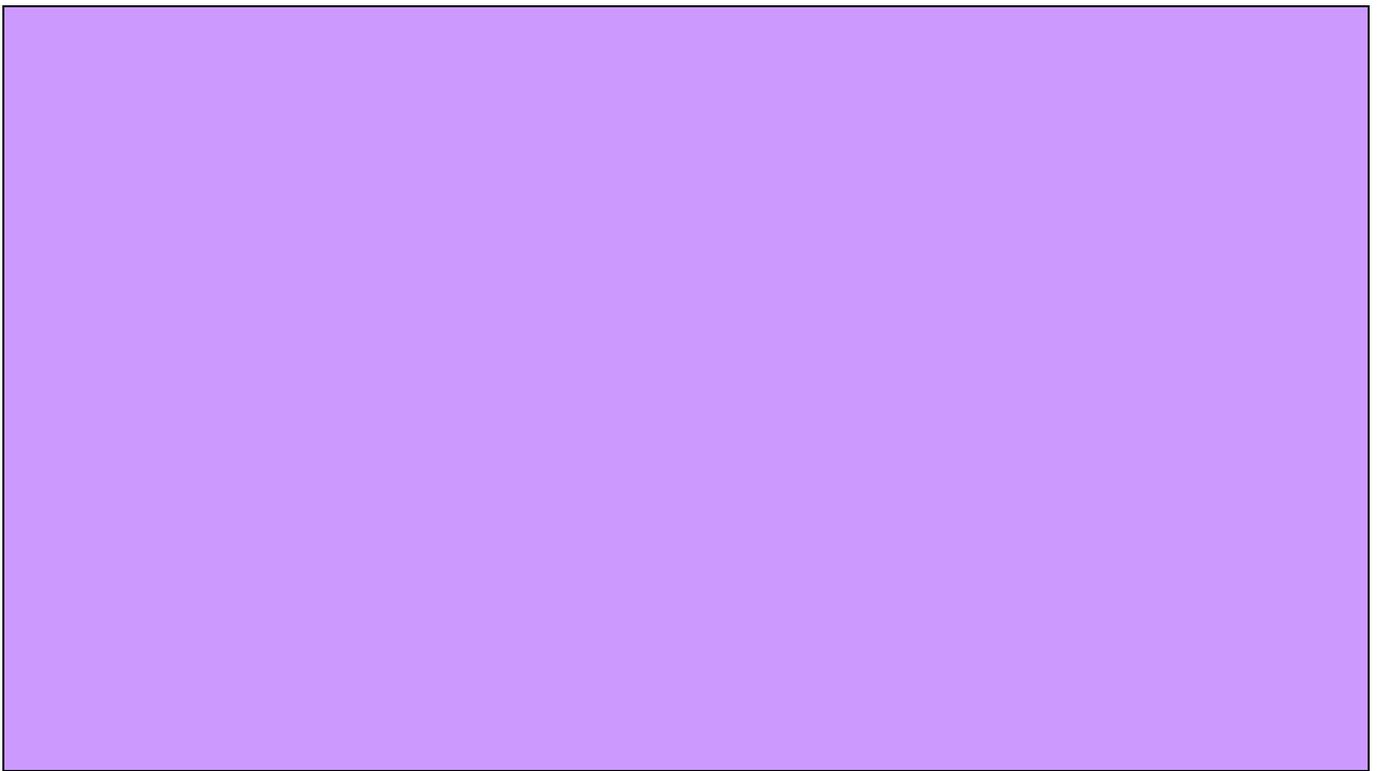

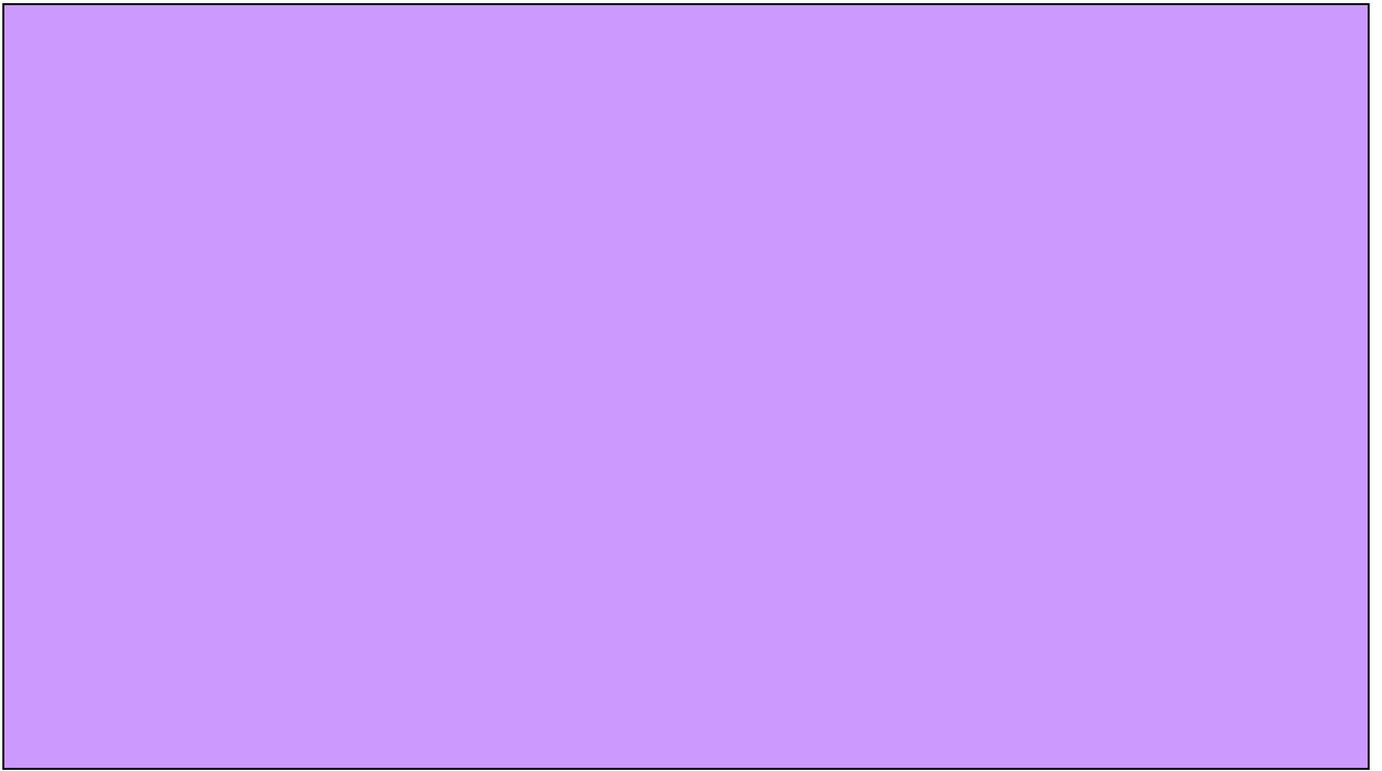

To cost-effectively maintain existing levels of integrity, focus preservation efforts on buildings with integrity and stabilize all other structures (whose envelopes no longer have integrity) as “managed ruins”.

8. Muir Woods National Monument

Cultural Resources:

Goal 8CulturalB:

Preserve cultural resources through strategic rehabilitation of those historic resources that best tell the monument’s story (have high integrity and are showcases of the period of significance).

8. Muir Woods National Monument

Cultural Resources:

Goal 8CulturalC:

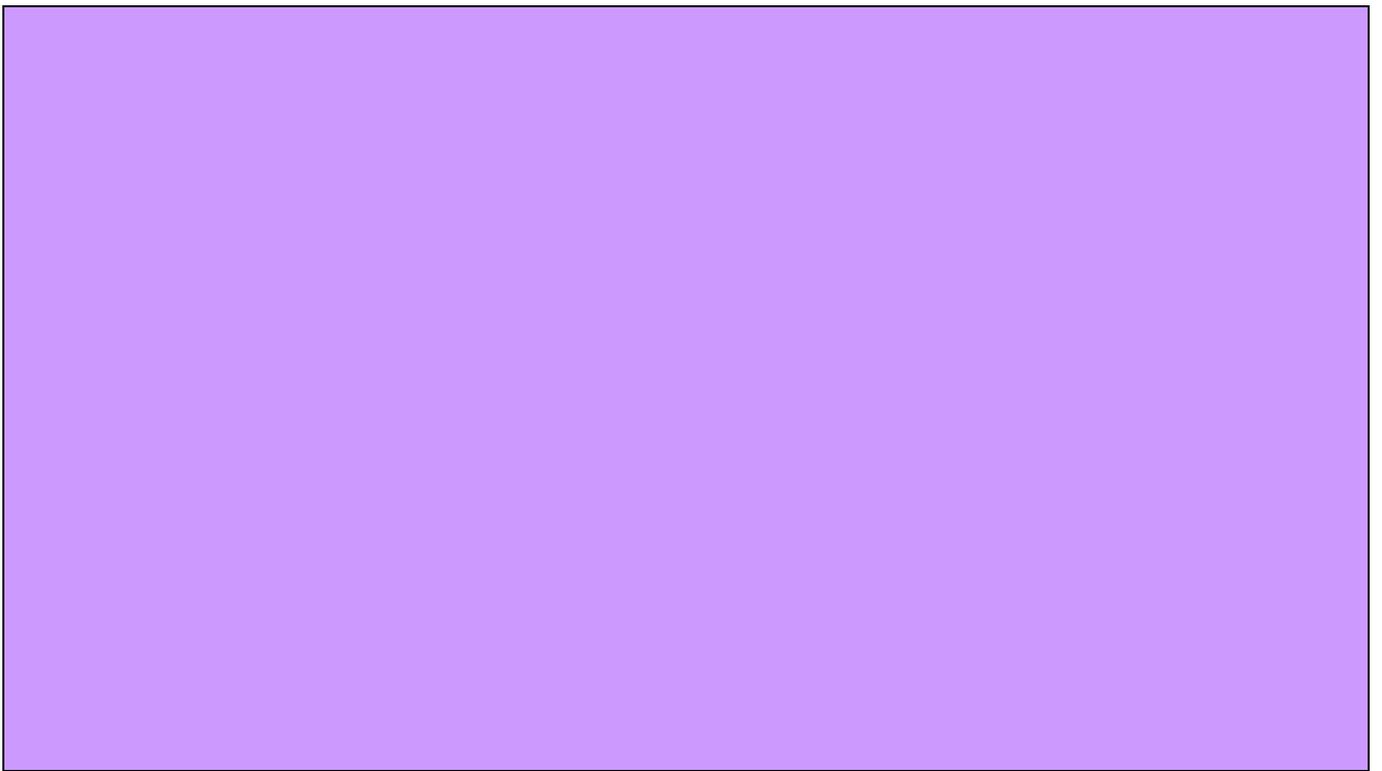

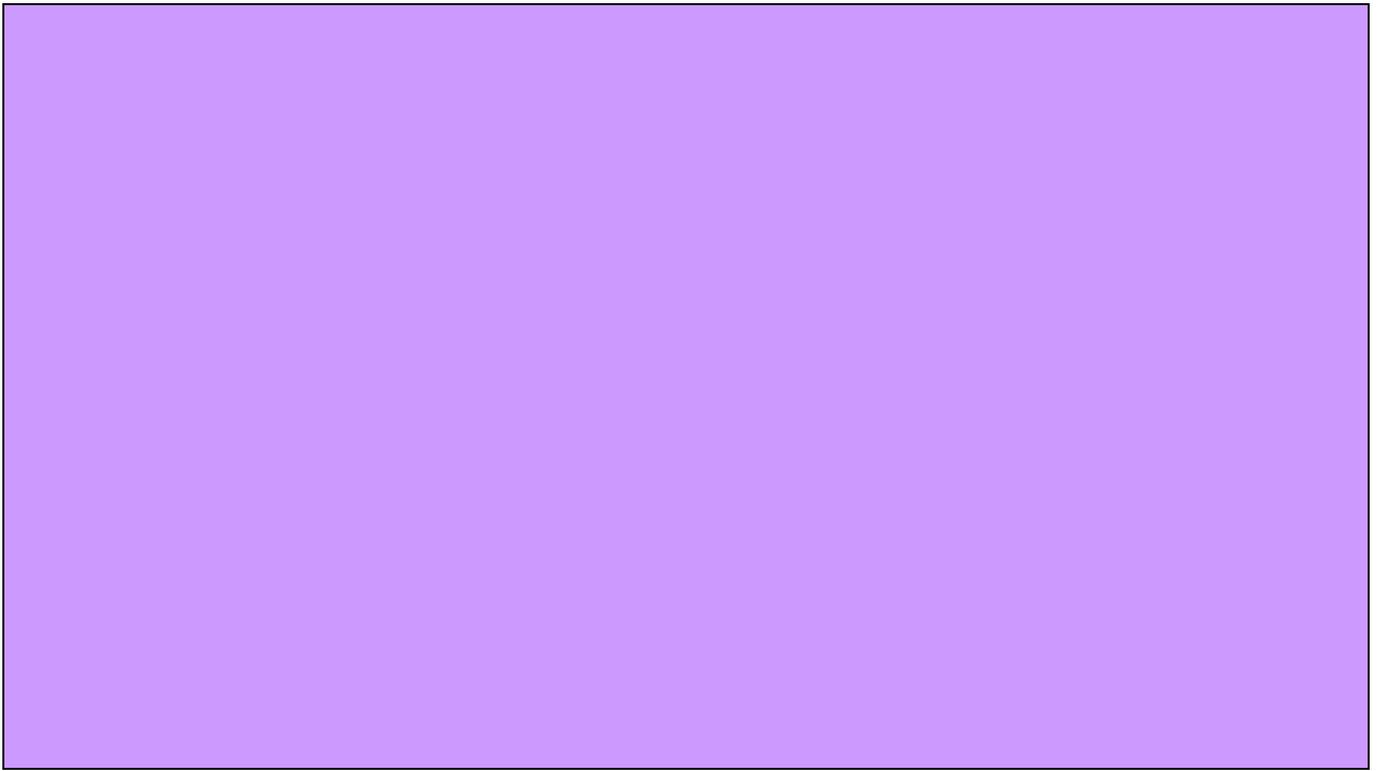

Preserve all cultural resources and improve visitor understanding of historic resources through restoration.

8. Muir Woods National Monument

Visitor Access and Experience:

Goal 8VisitorA: *First-time Visitor*

The monument is focused on catering to the needs and desires of first-time visitors, where facilities, programs, and management improve visitor convenience and experience.

1. VISITOR ACCESS:Transportation and Trails

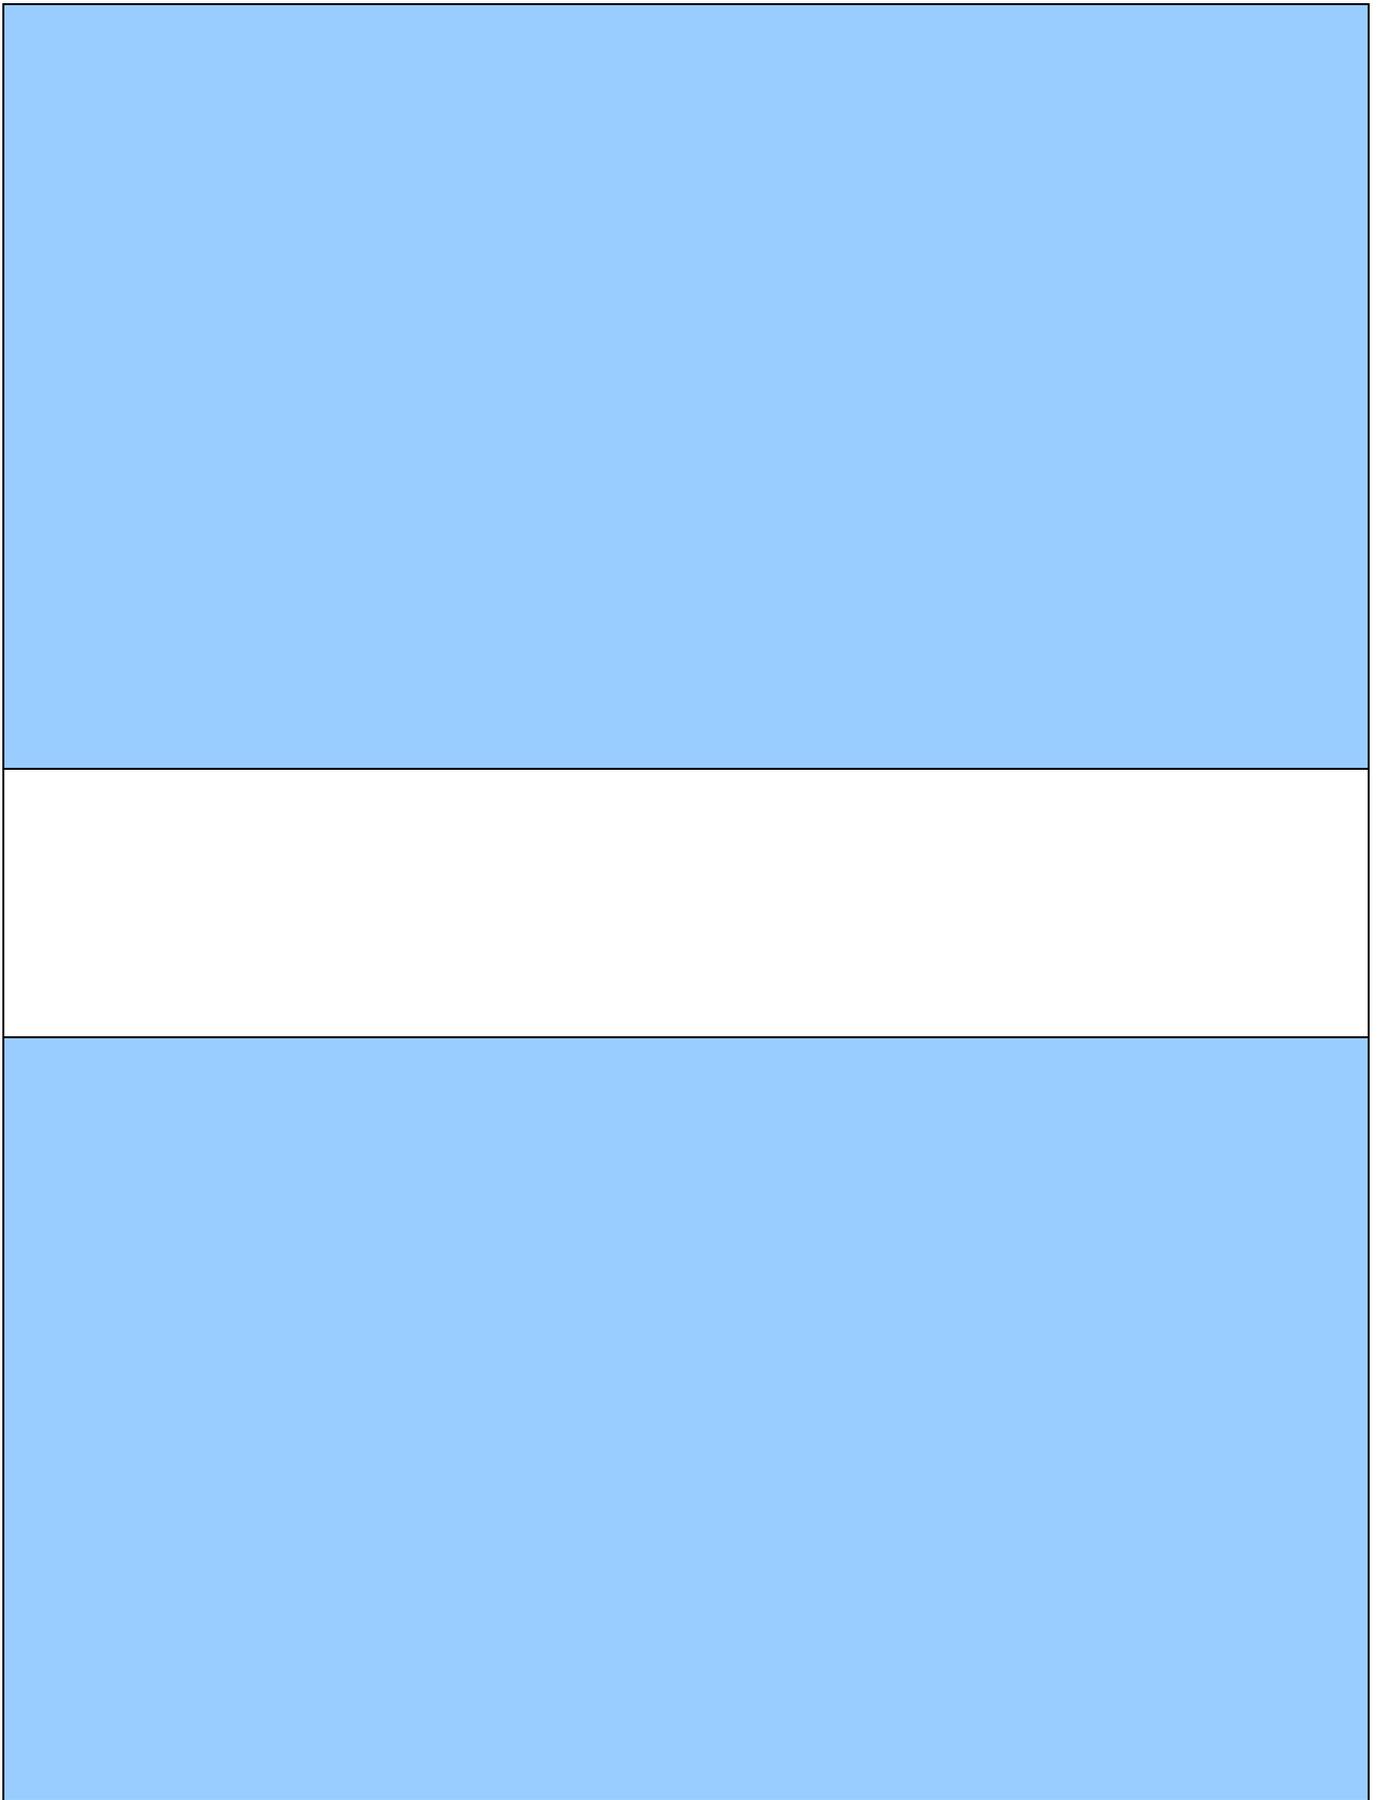

Goal 1E:

Visitor access is managed by transportation and recreation demand management instead of expanding capacity.

1. VISITOR ACCESS:Transportation and Trails

Goal 1F:

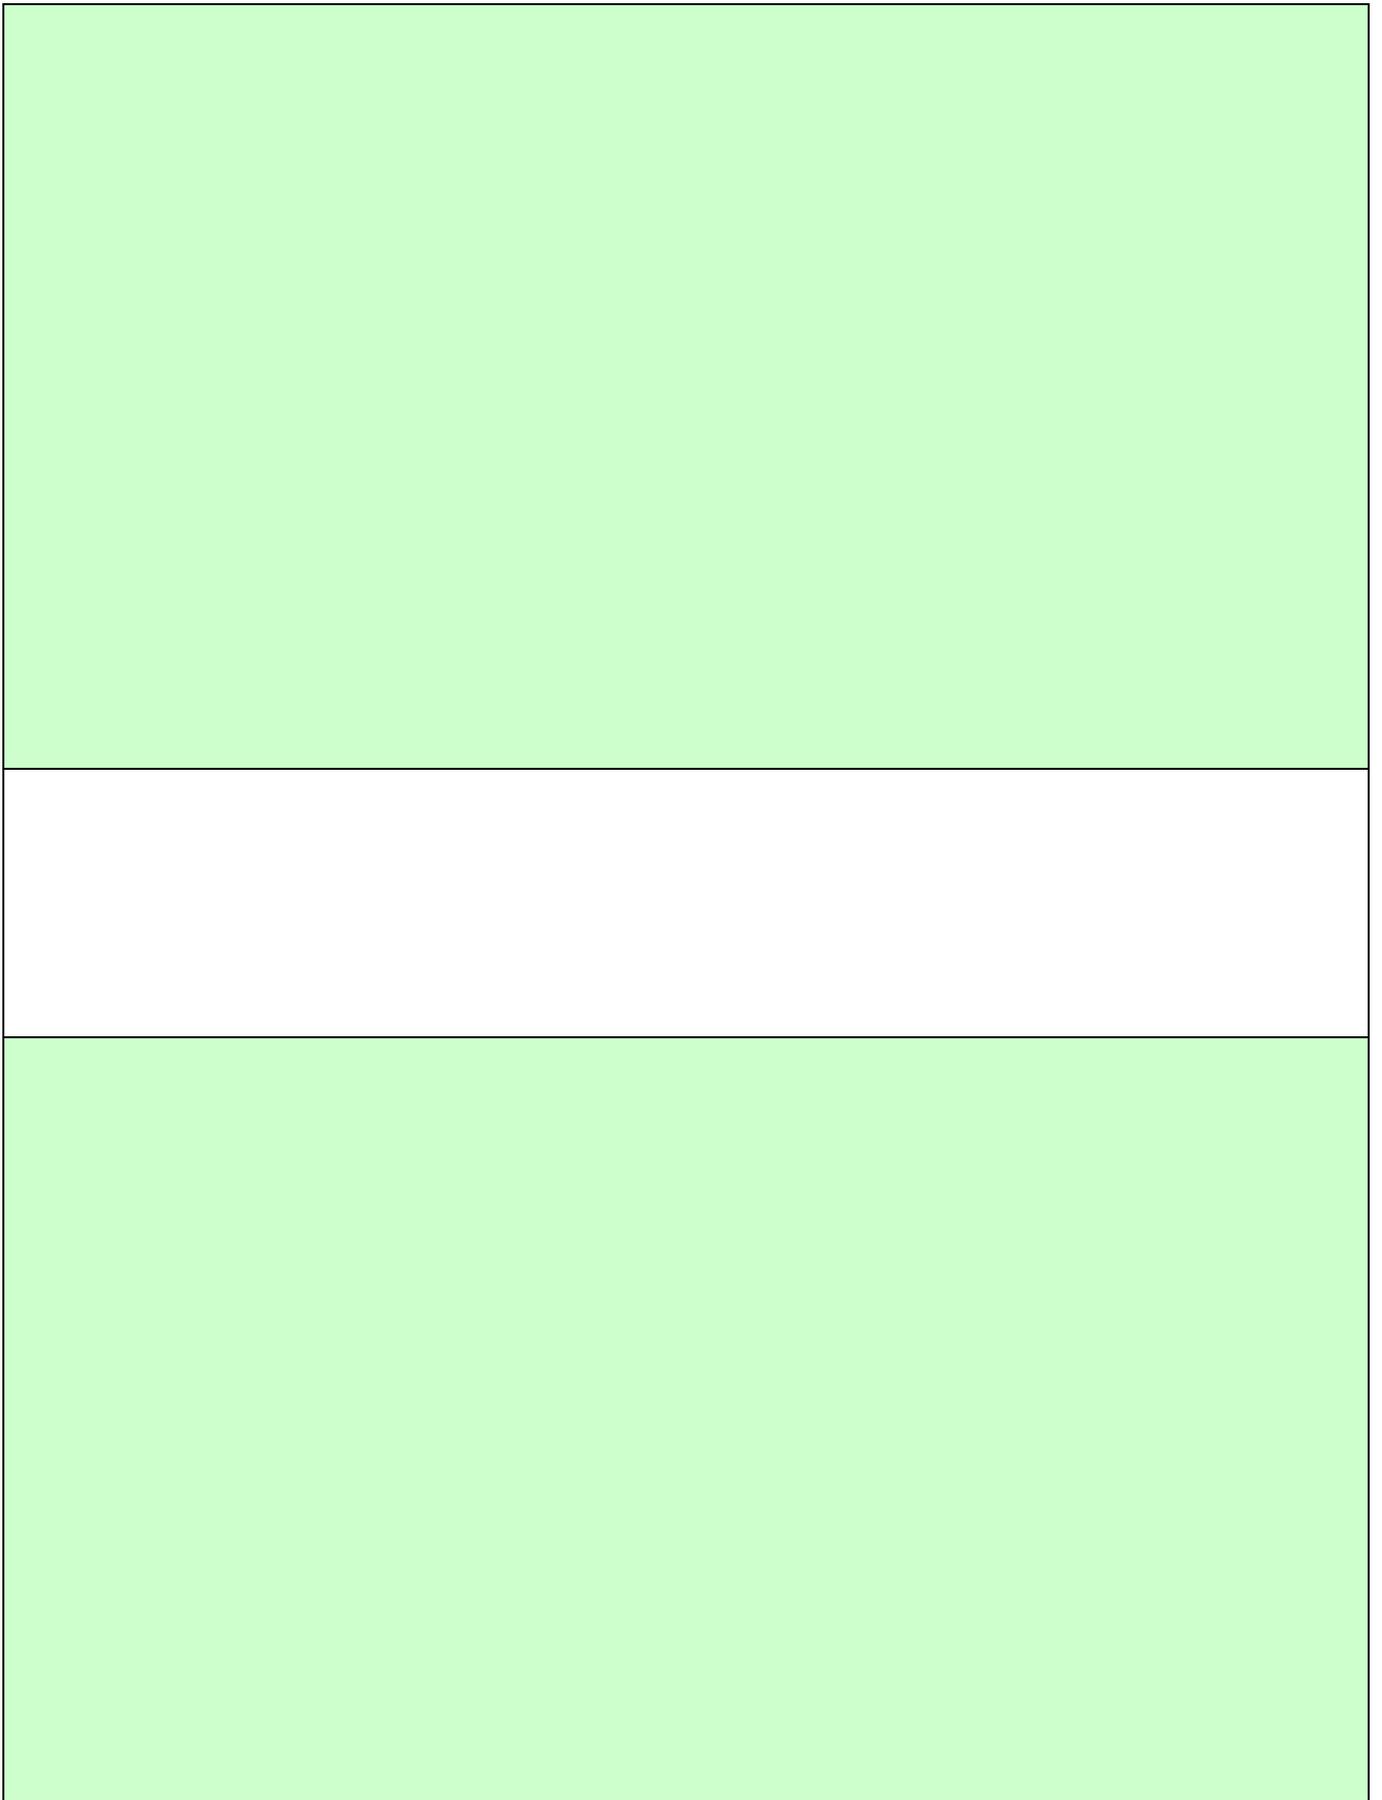

Manage the effects of transportation on visitor experience and resource conditions via controlled access with a Goal on management alternatives.

2. RECREATION OPPS. AND CONFLICTS

Goal 2E:

Promote recreation opportunities that are directly facilitated by and protective of the unique natural and cultural resources of the park.

8. Muir Woods National Monument

Visitor Access and Experience:

Goal 8VisitorB: *Raising Standards*

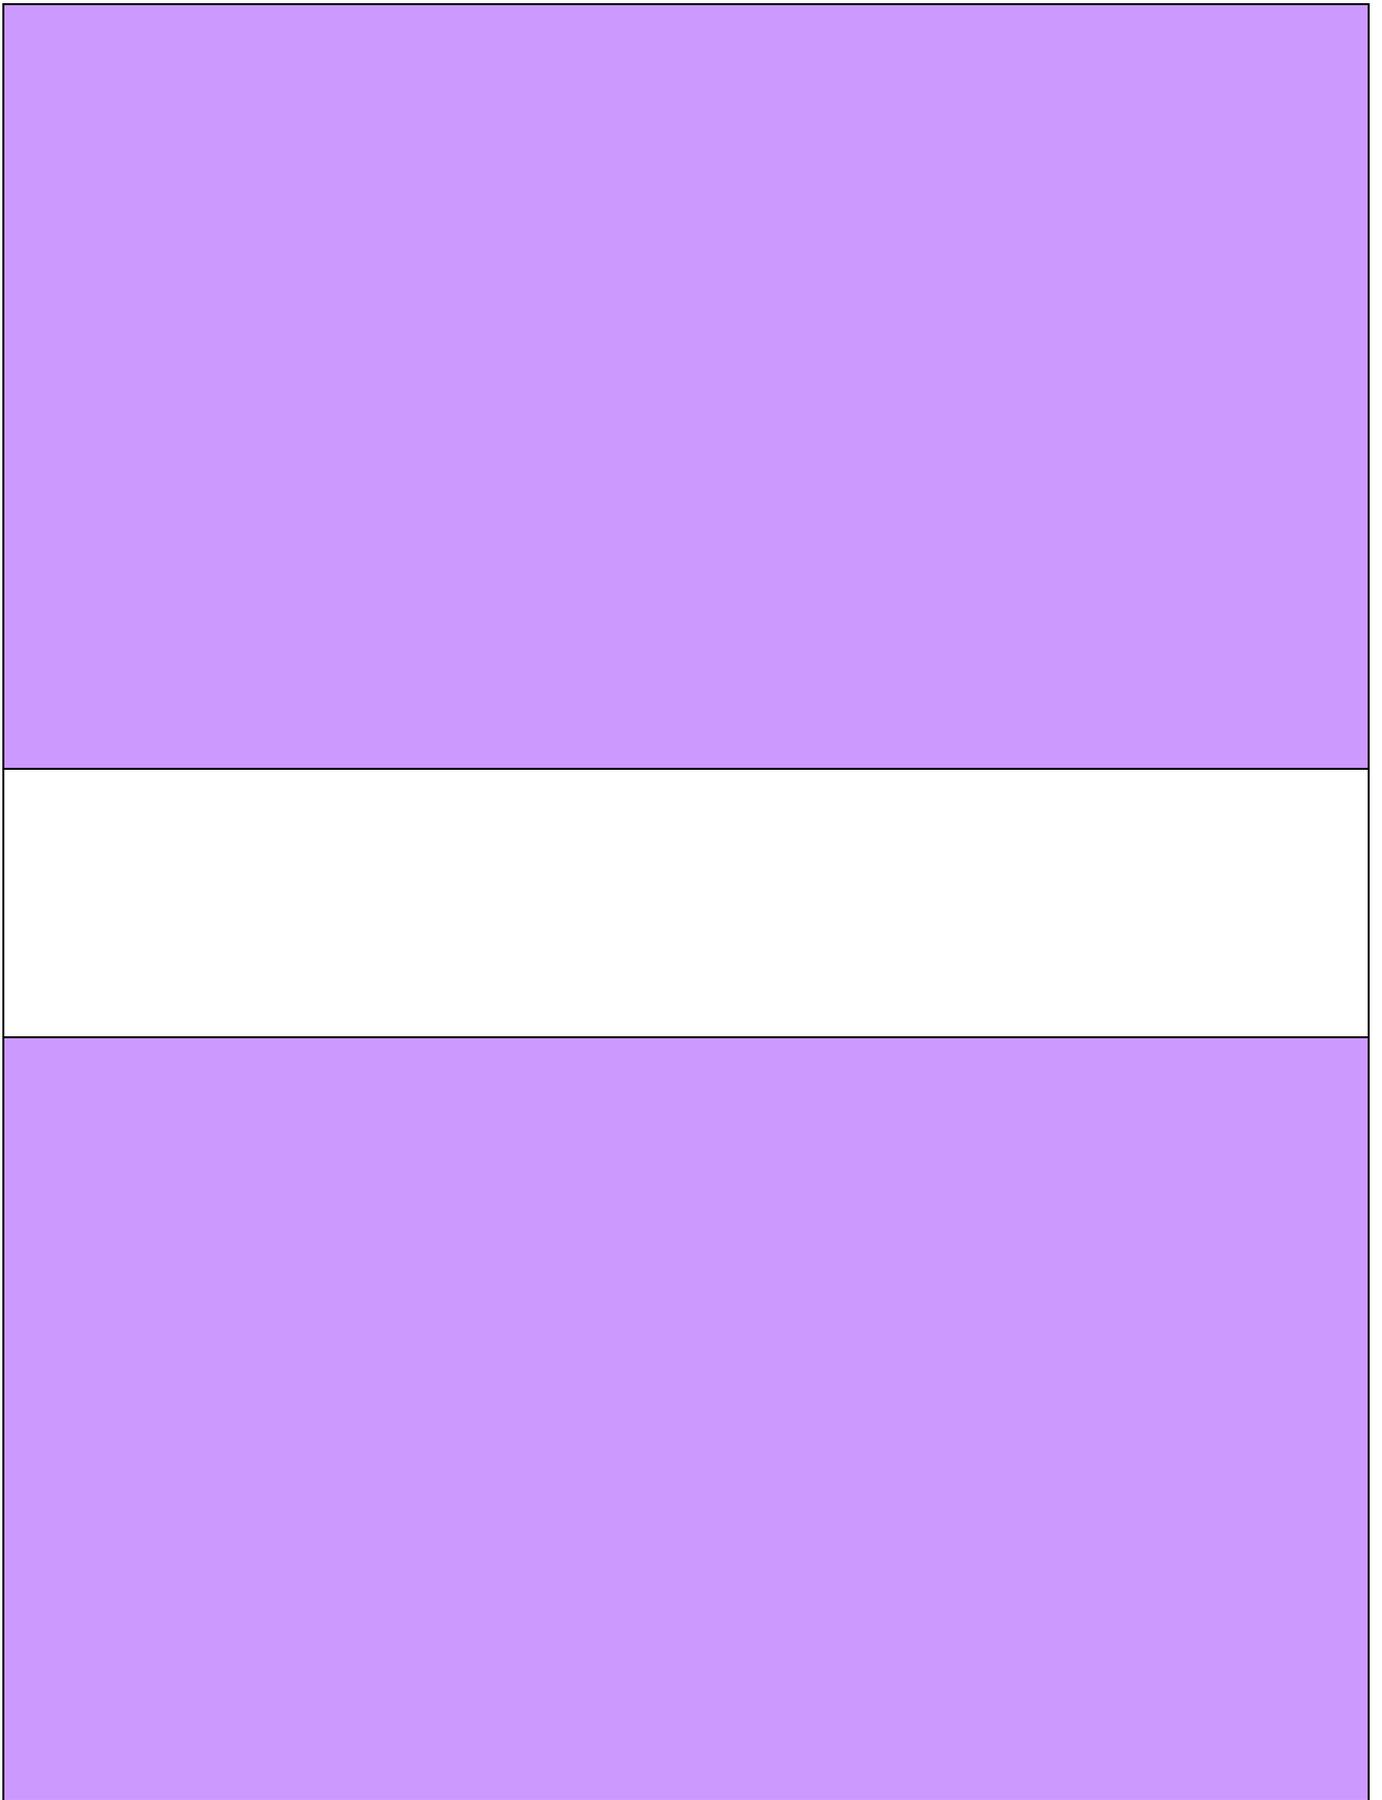

Focus on providing a high quality visitor experience that is representative of the NPS.

8. Muir Woods National Monument

Visitor Access and Experience:

Goal 8VisitorC: *Monument as Outdoor Sanctuary*

Focus on providing contemplative activities that are compatible with preserving the redwood forest ecosystem and improving natural processes.

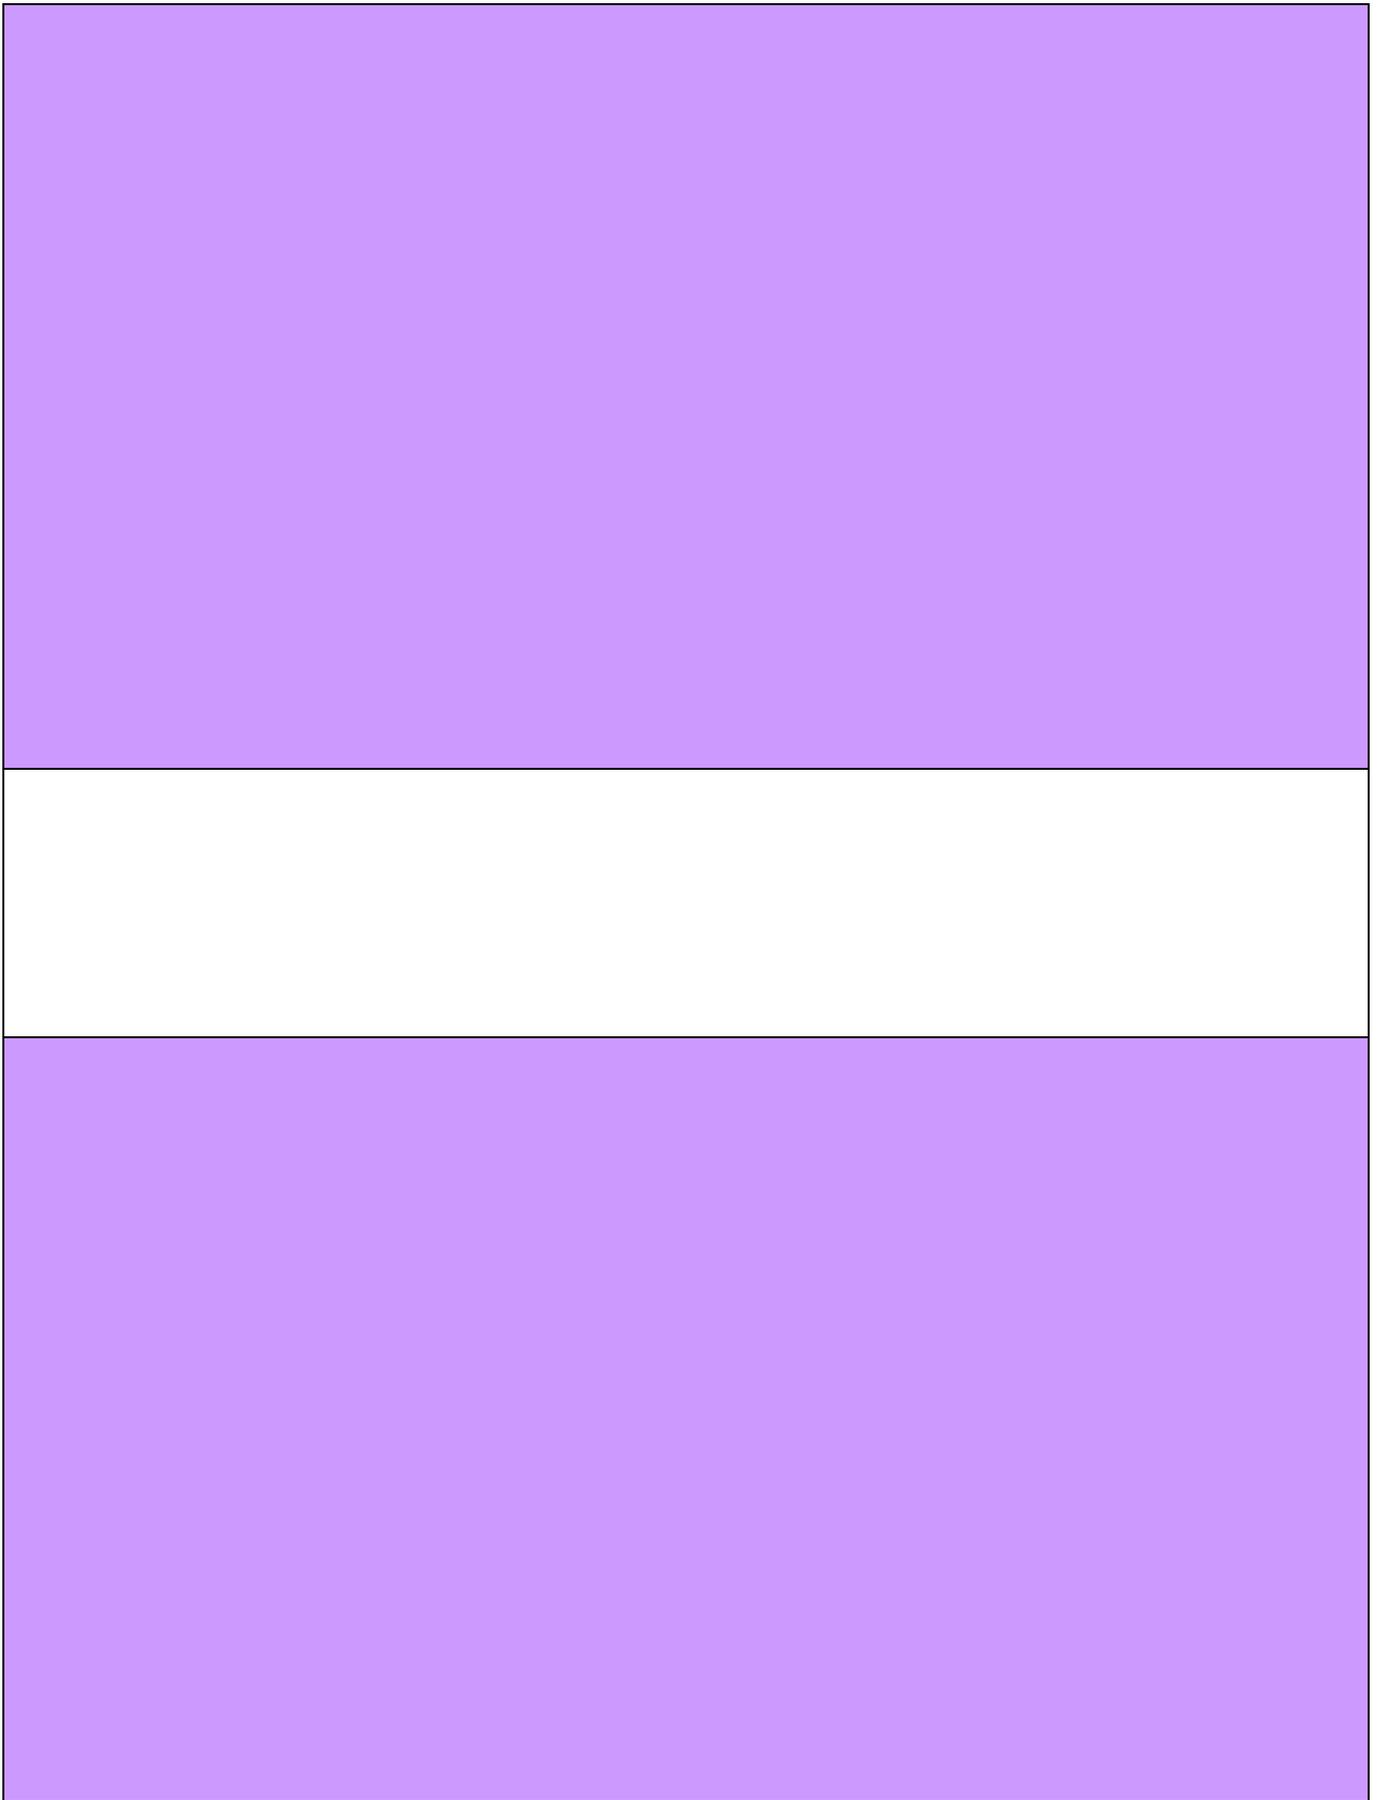

8. Muir Woods National Monument

Visitor Access and Experience:

Goal 8 Visitor D: *Conservation Movement*

Focus on telling the story of the conservation movement.

9. Alcatraz Island National Historic Landmark

Cultural Resources:

Goal 9CulturalA:

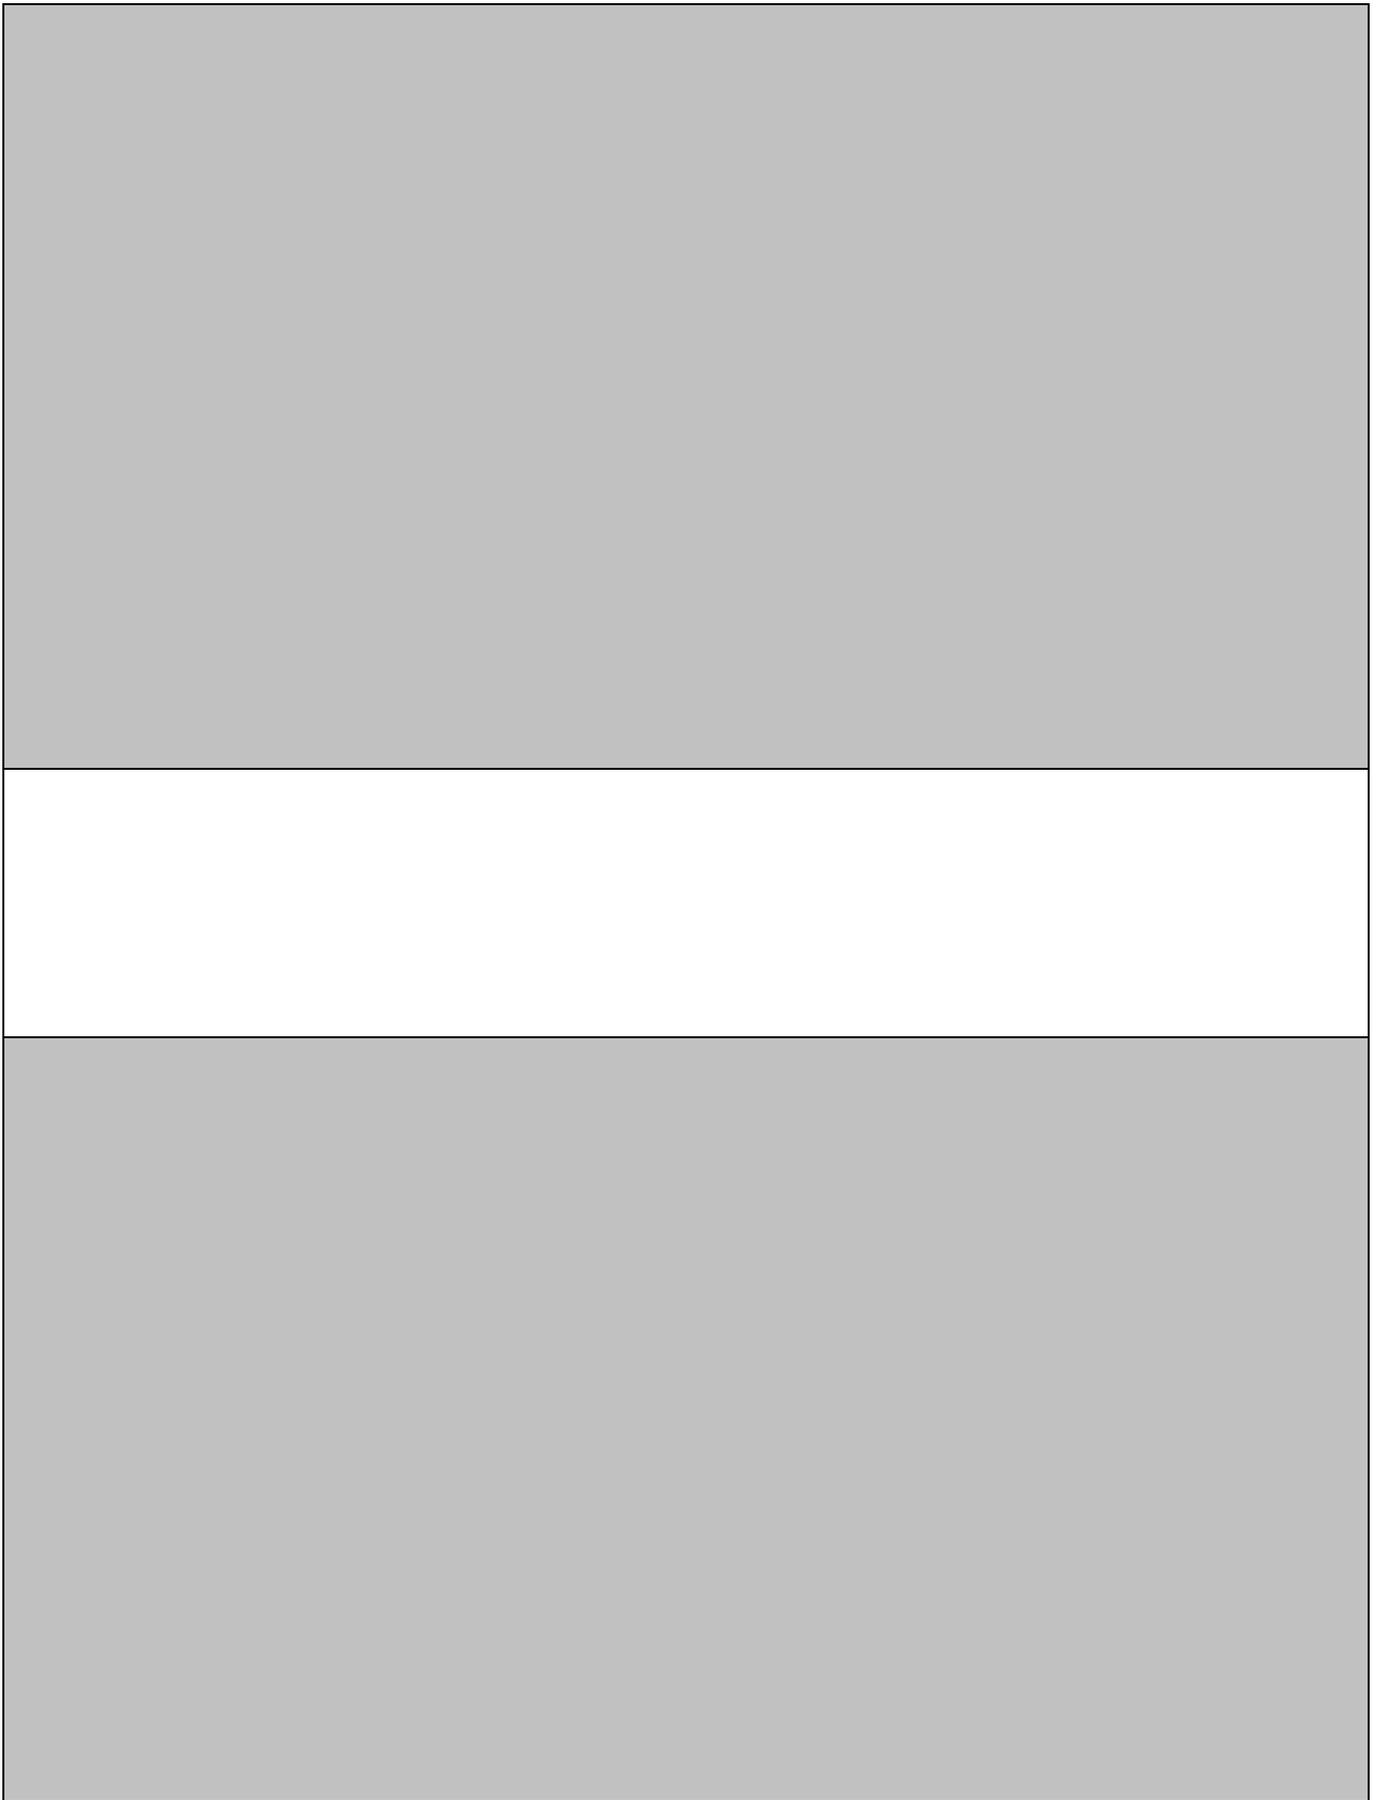

To cost-effectively maintain existing levels of integrity, focus preservation efforts on buildings with integrity and stabilize all other structures (whose envelopes no longer have integrity) as “managed ruins” (remove trash and deteriorating fabric and make safe for visitors).

9. Alcatraz Island National Historic Landmark

Cultural Resources:

Goal 9CulturalB:

To promote a wider range of education opportunities and sustainability of infrastructure, focus on rehabilitation island-wide for adaptive reuse for NPS and partner activities.

9. Alcatraz Island National Historic Landmark

Cultural Resources:

Goal 9CulturalC:

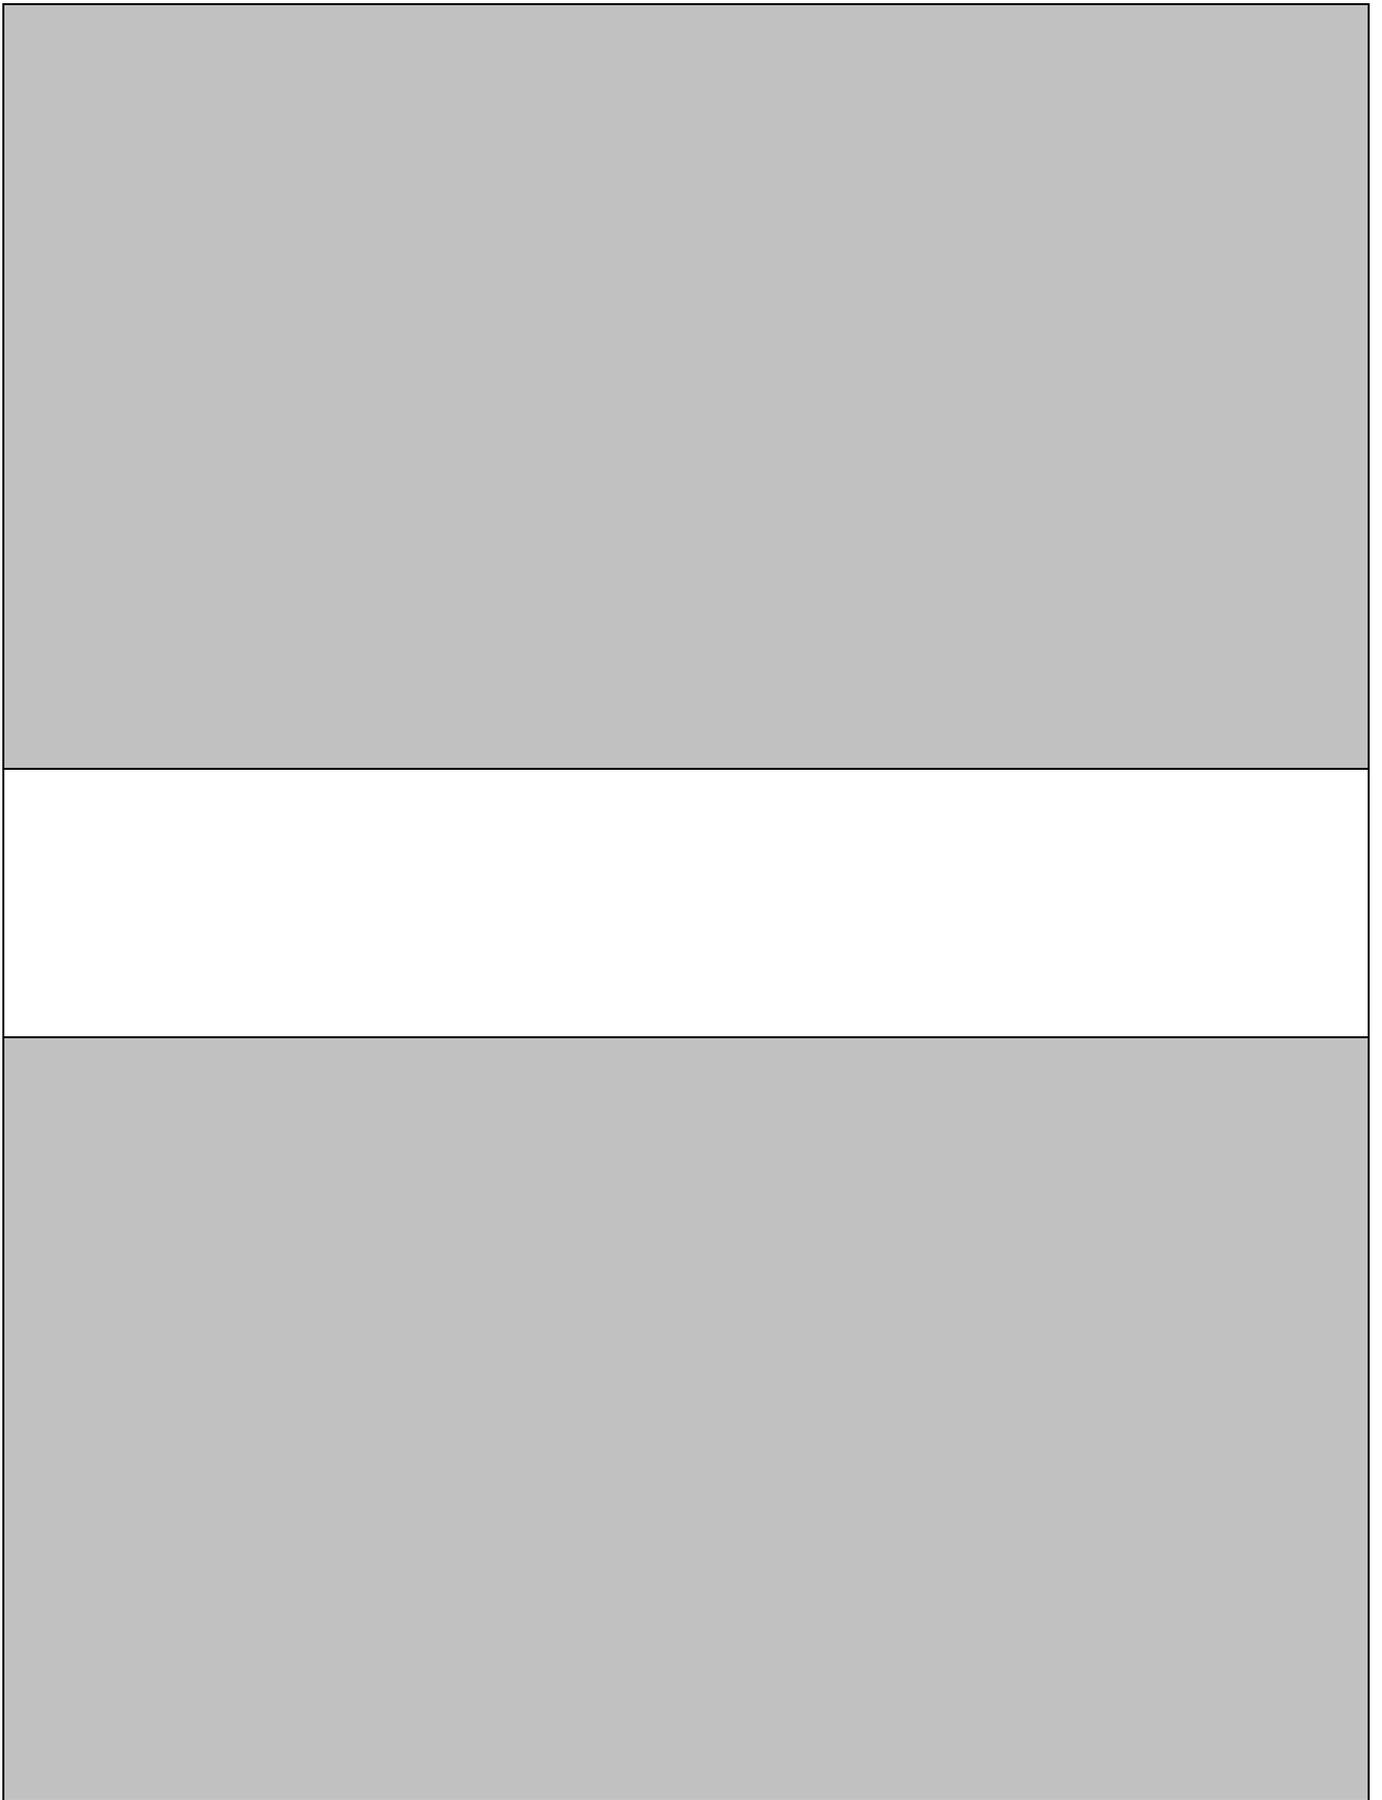

To promote better visitor understanding of Alcatraz's period of significance, focus on restoration island-wide to the period of significance.

9. Alcatraz Island National Historic Landmark

Natural Resources:

Goal 9NaturalA:

To preserve existing natural resource conditions, focus management efforts only on listed T&E species.

9. Alcatraz Island National Historic Landmark

Natural Resources:

Goal 9NaturalB:

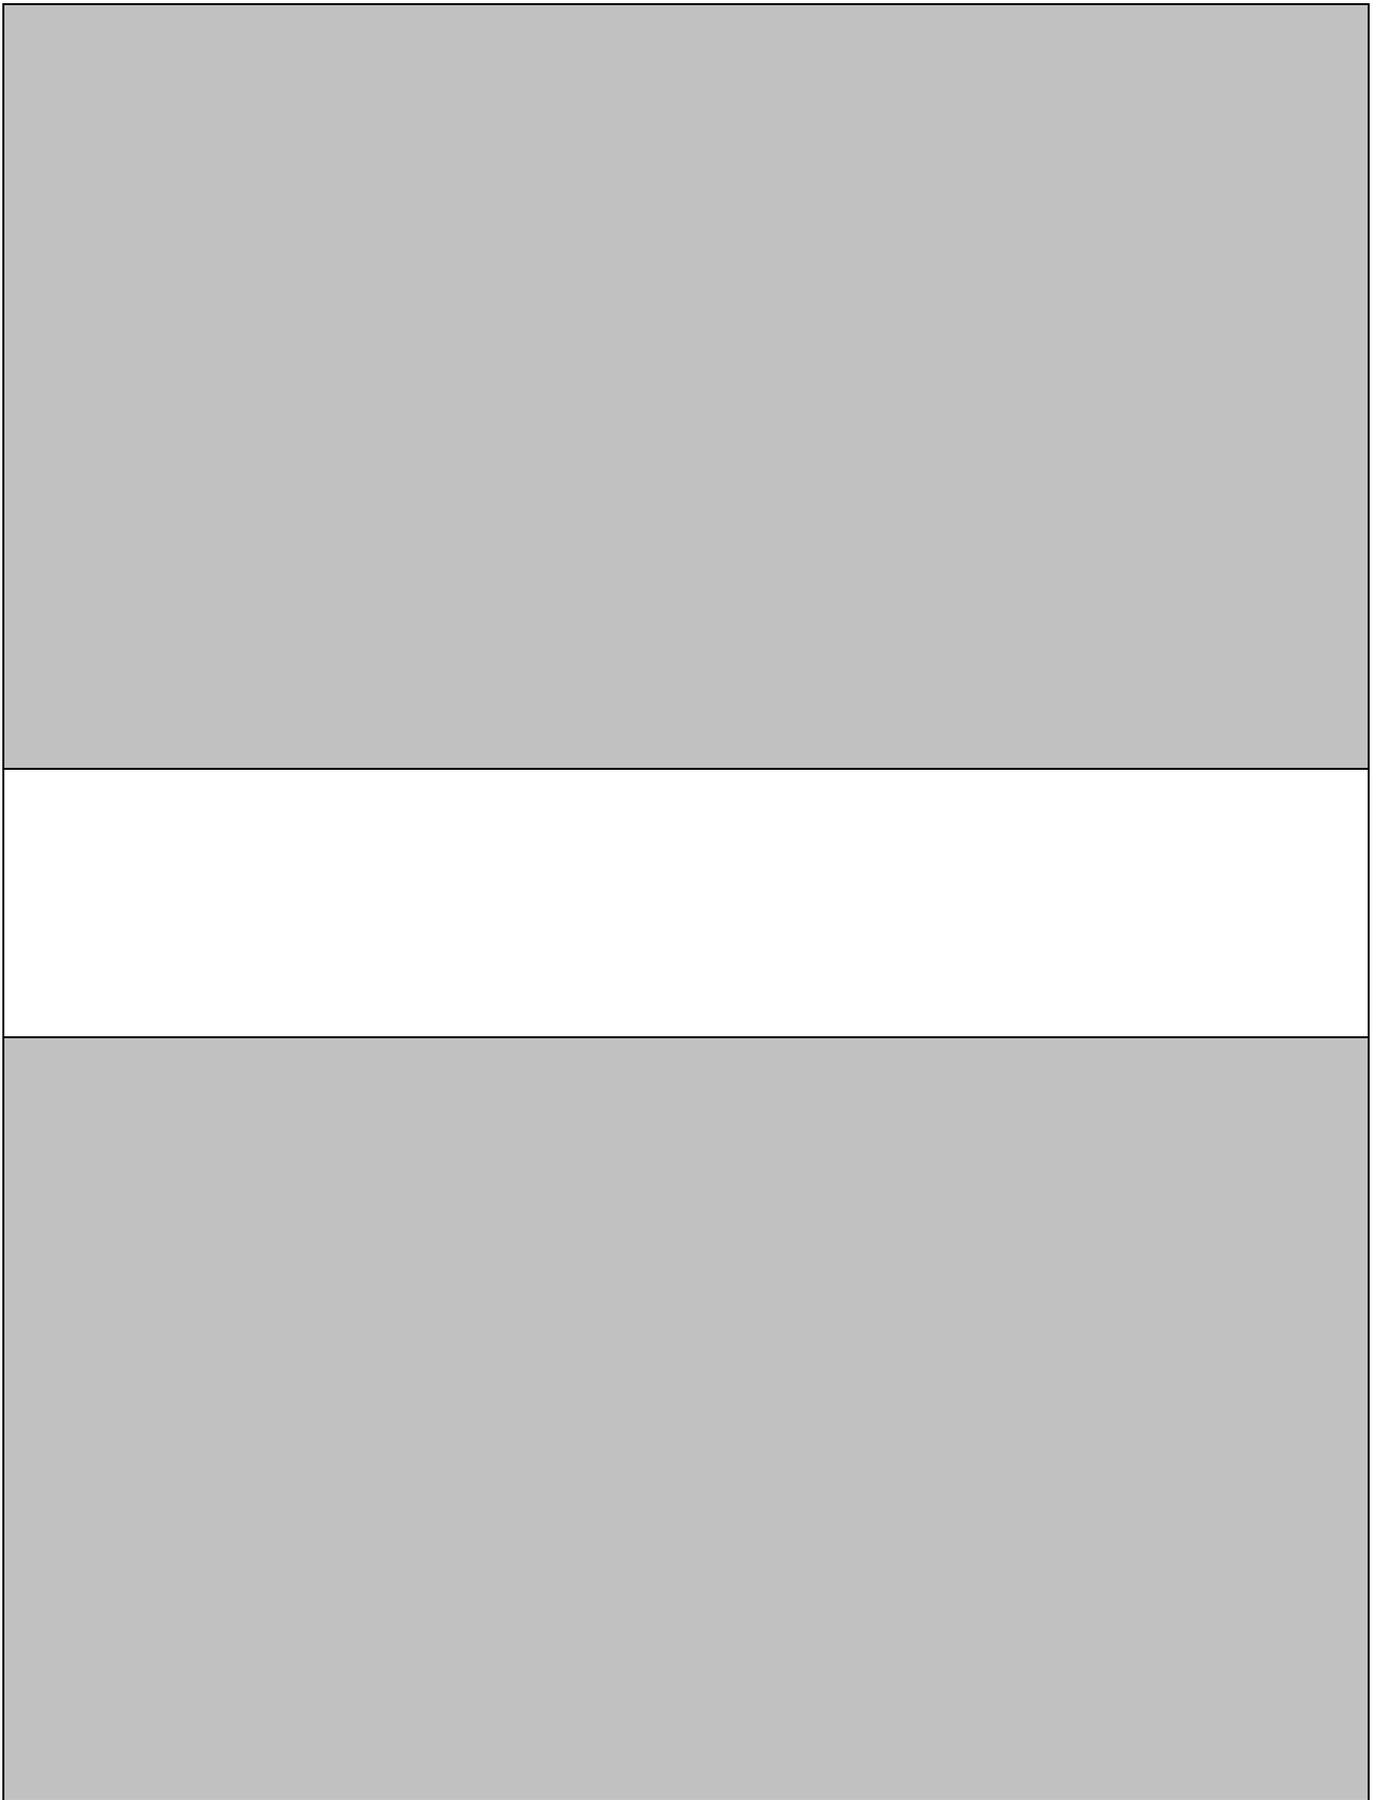

Improve the protection of the Island’s natural resources by focusing on education and interpretation, while maintaining efforts for T&E species.

9. Alcatraz Island National Historic Landmark

Natural Resources:

Goal 9NaturalC:

Treat the Island as an “island of biodiversity” where all natural processes are encouraged and sustained.

9. Alcatraz Island National Historic Landmark

Visitor Access and Experience:

Goal 9VisitorA: *Visitor Access & Convenience*

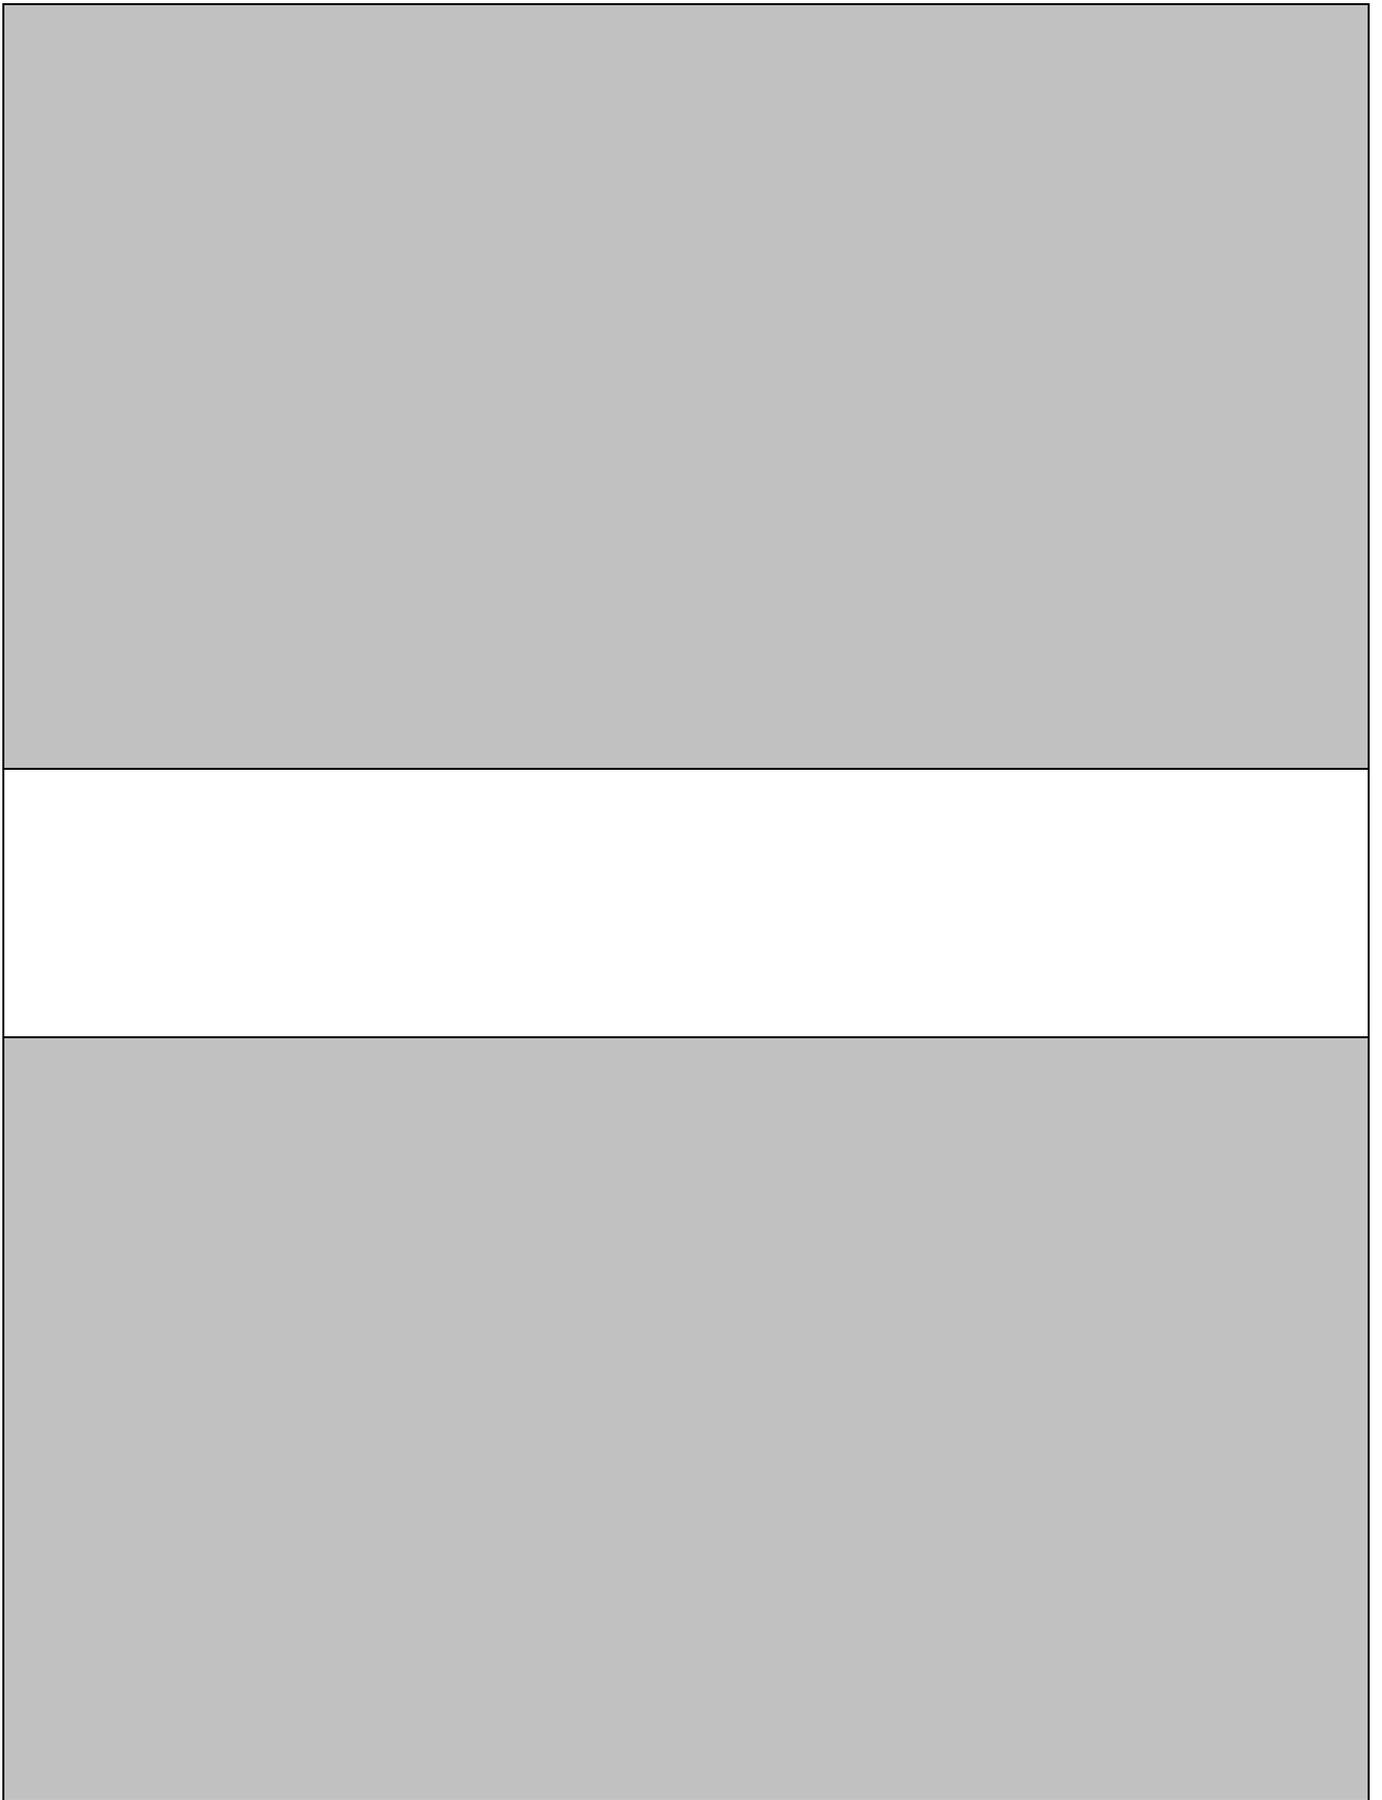

Focus on improving visitor access and convenience by improving facilities and providing a diversity of visitor options.

9. Alcatraz Island National Historic Landmark

Visitor Access and Experience:

Goal 9VisitorB: *Raising Standards*

Focus on providing a high quality visitor experience that is representative of the NPS.

9. Alcatraz Island National Historic Landmark

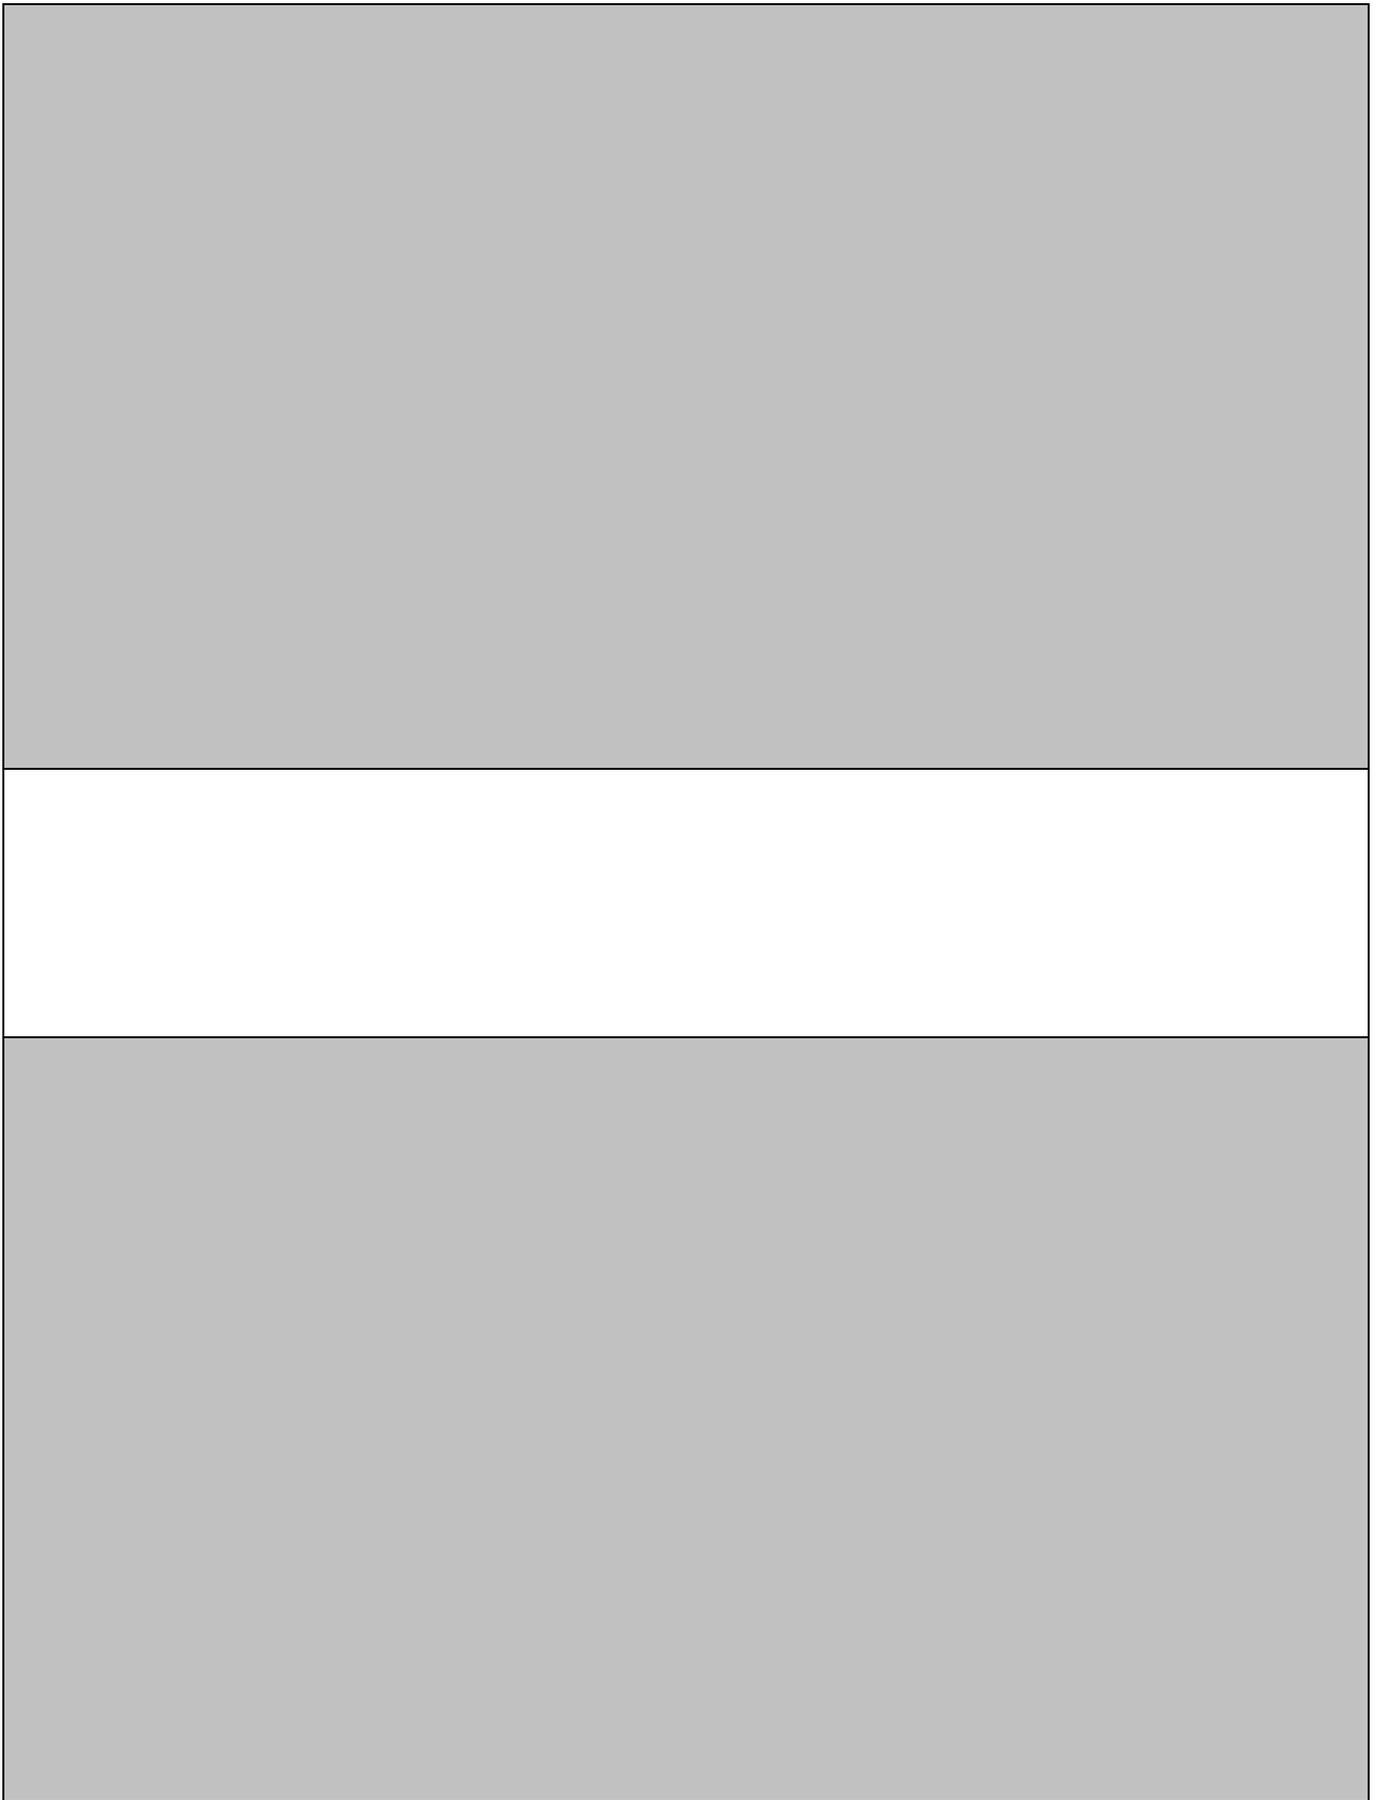

Visitor Access and Experience:

Goal 9VisitorC: *Island Experience in the Bay*

9. Alcatraz Island National Historic Landmark

Visitor Access and Experience:

Goal 9VisitorD: *Immersion in the Period of Significance*

10. Sustained Cultural Resource Preservation and Management

Fortifications:

Goal 10FortificationsA:

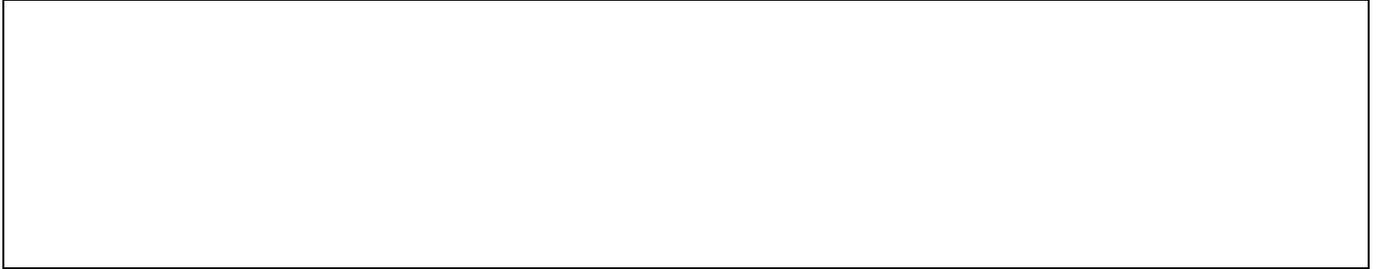

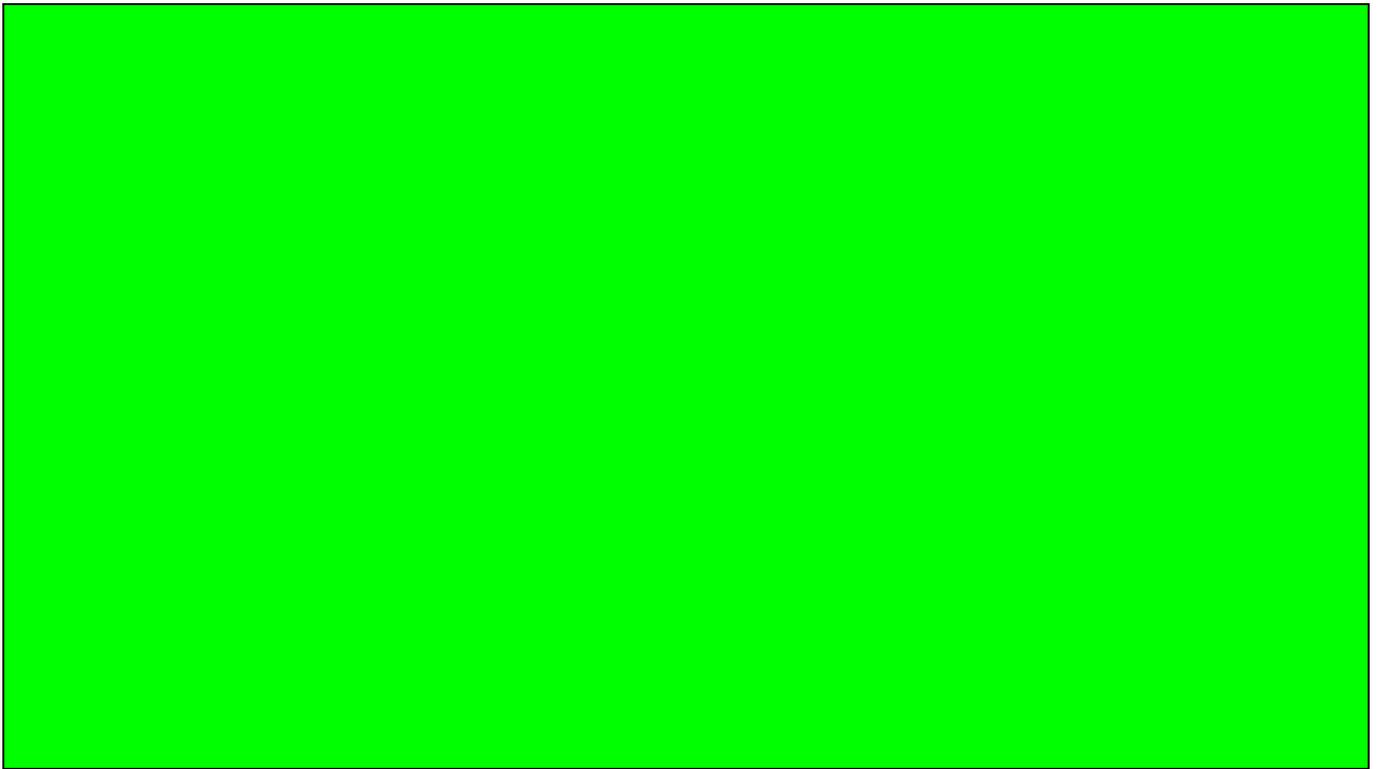

To promote long term preservation, use, and understanding of fortifications, maintain the basic integrity of all fortifications. (All fortifications continue as current with a slightly higher level of maintenance to maintain the integrity of the structures).

10. Sustained Cultural Resource Preservation and Management

Fortifications:

Goal 10FortificationsB:

To allow for easy and effective visitor access to fortifications, focus restoration and opportunities for visitor access on fortifications that meet criteria such as being easily accessible, close to utilities, and have high integrity.

10. Sustained Cultural Resource Preservation and Management

Fortifications:

Goal 10FortificationsC:

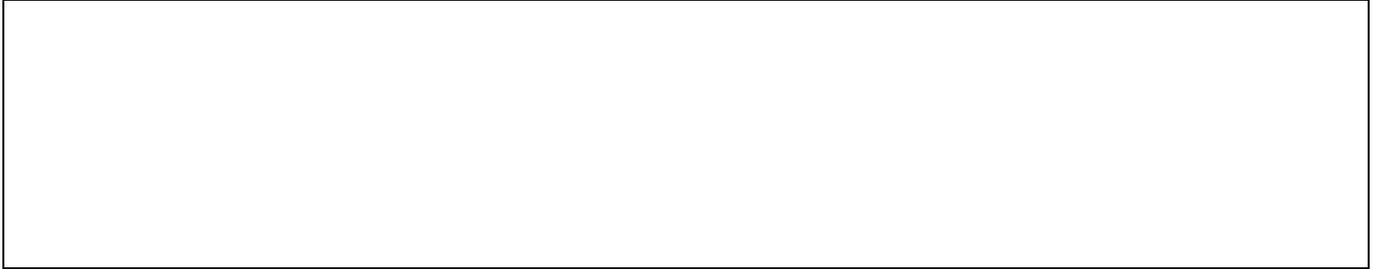

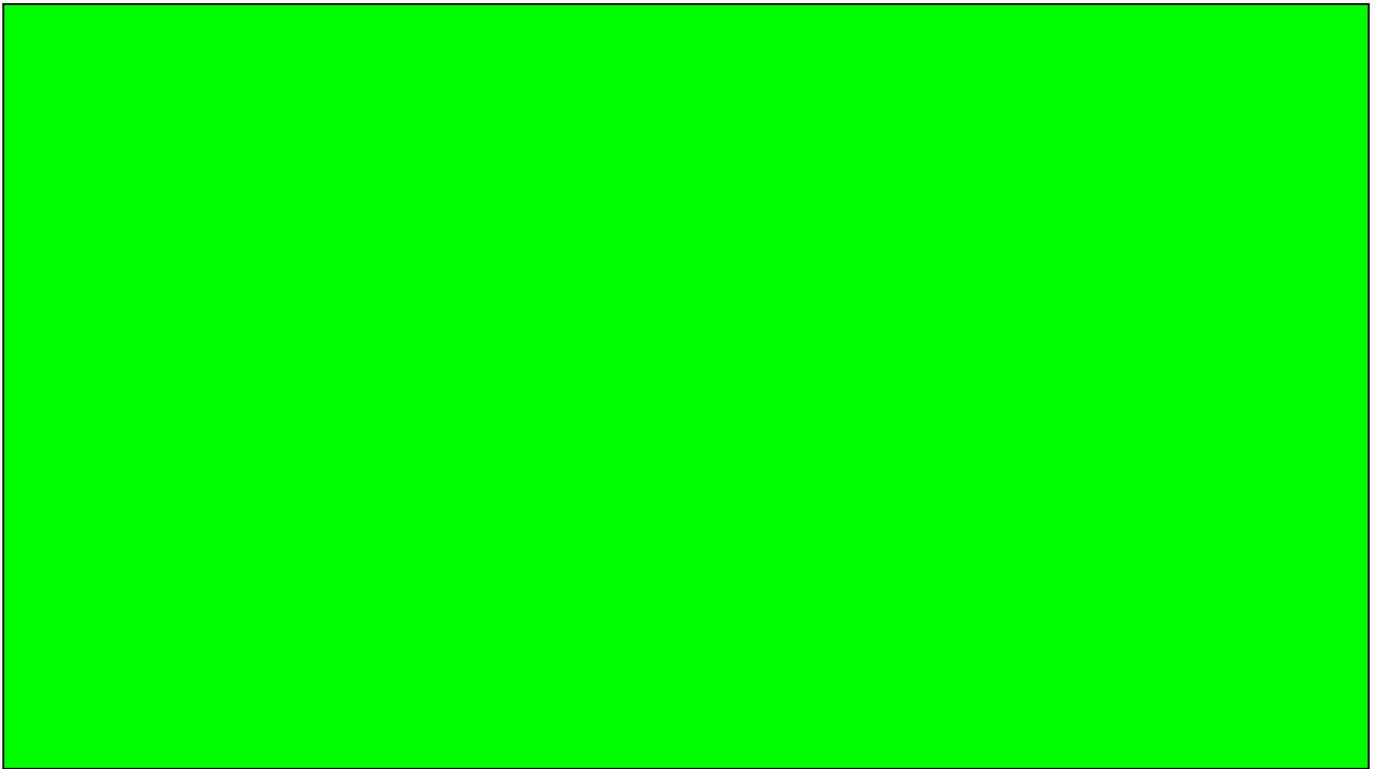

To promote targeted understanding of fortifications, focus restoration and opportunities for visitor access to fortifications that best demonstrate their military era (e.g., museums that interpret the historical stages of technology).

10. Sustained Cultural Resource Preservation and Management

Fortifications:

Goal 10FortificationsD:

To encourage self-sustaining preservation of fortifications and diverse visitor access opportunities, focus on seeking adaptive reuse opportunities (the scale and location of adaptive reuse, and balancing of natural resources and other park values, should be considered in the determination of its appropriateness).

10. Sustained Cultural Resource Preservation and Management

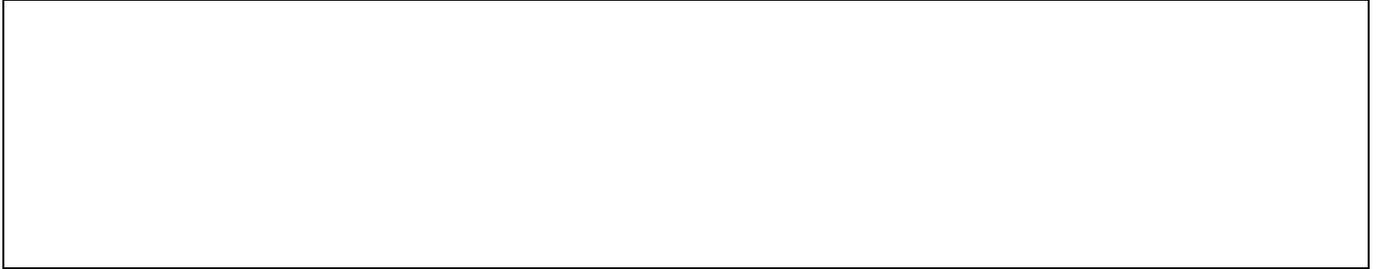

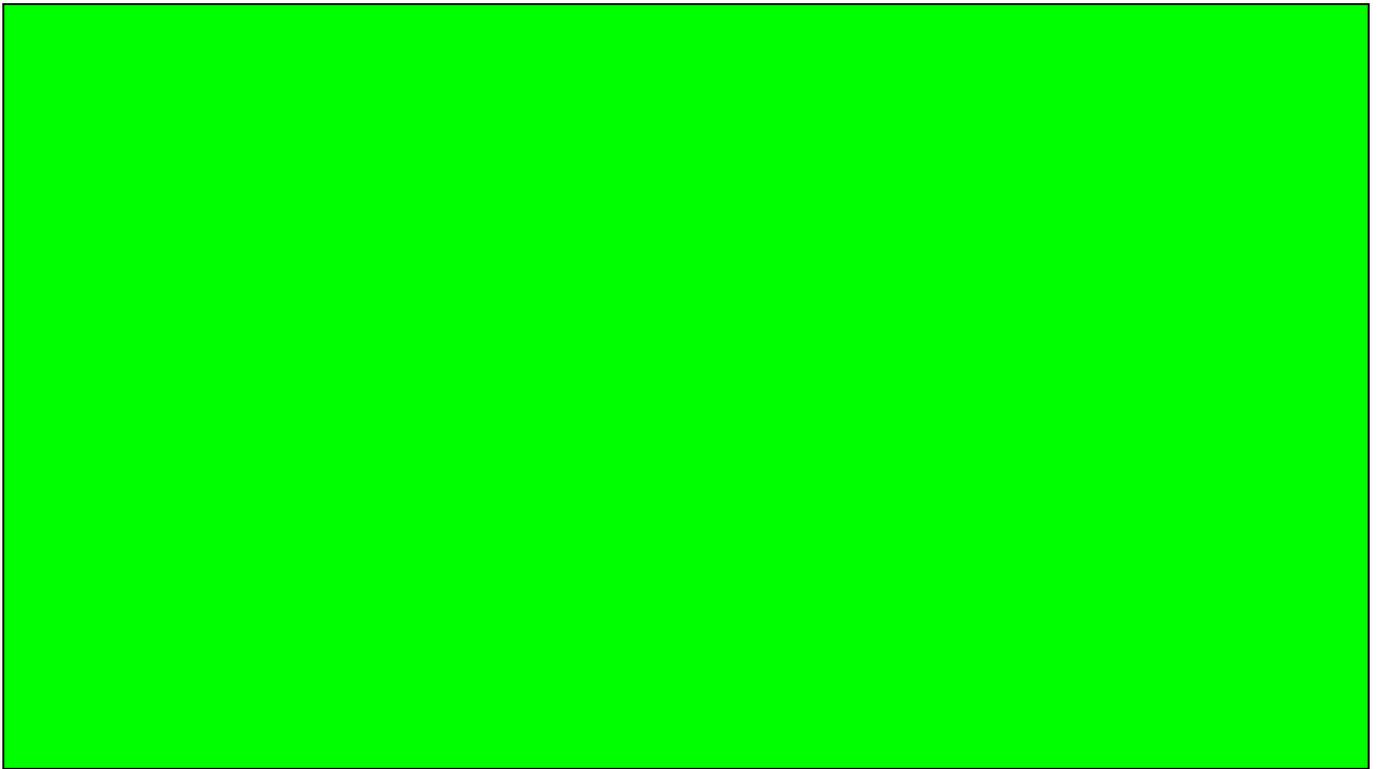

Cultural Landscapes:

Goal 10 Cultural Landscape A:

10. Sustained Cultural Resource Preservation and Management

Cultural Landscapes:

Goal 10 Cultural Landscape B:

10. Sustained Cultural Resource Preservation and Management

Museum Collections:

Goal 10MuseumA:

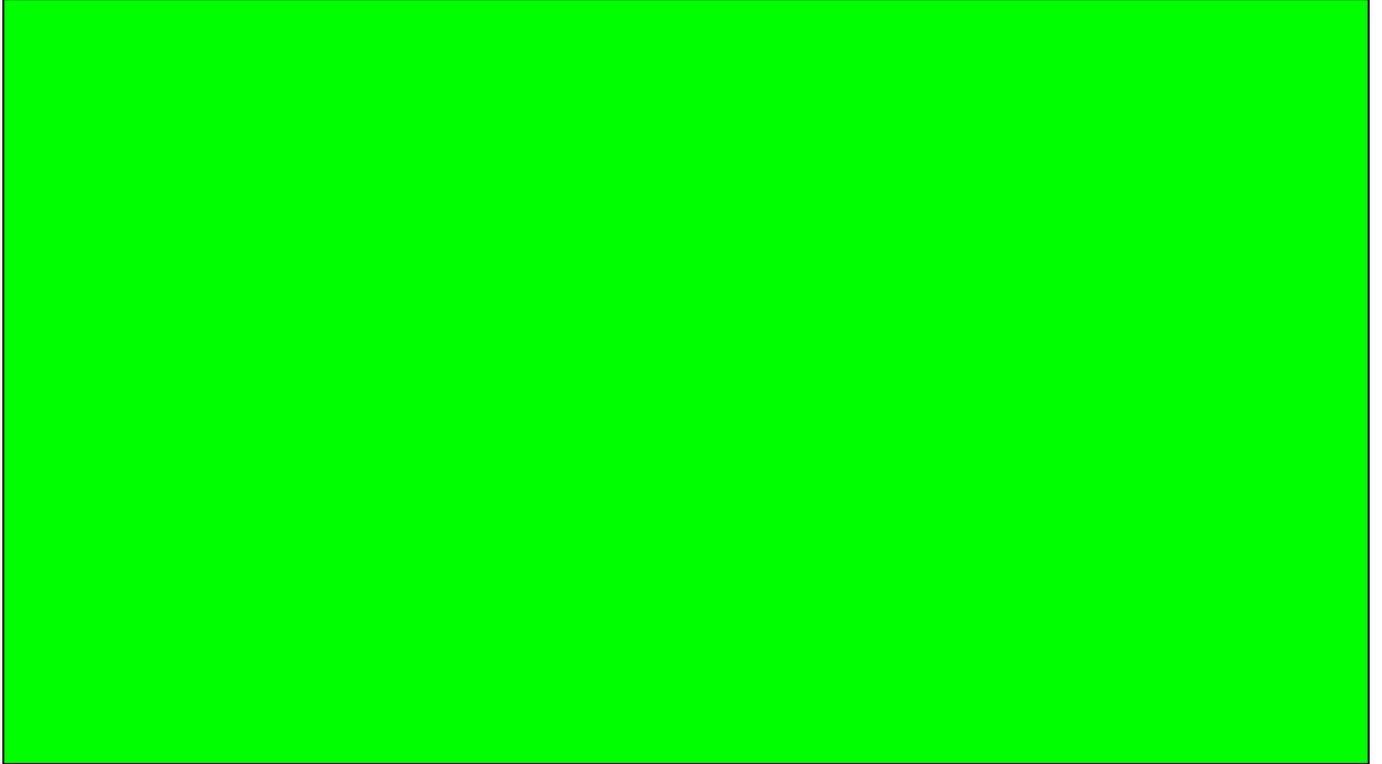

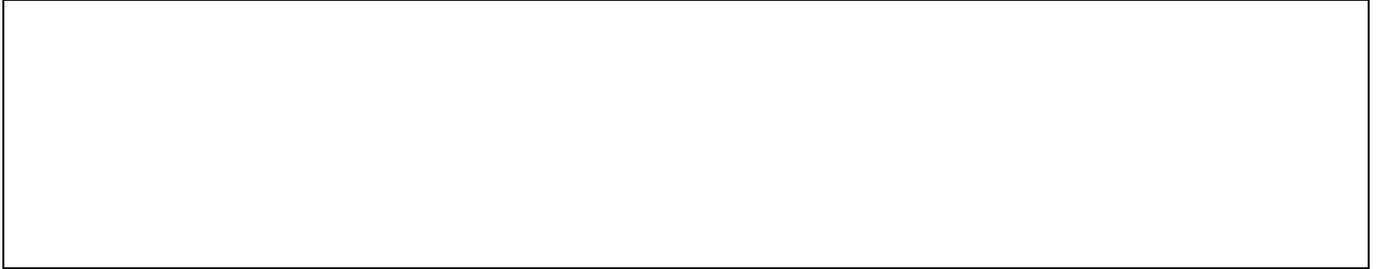

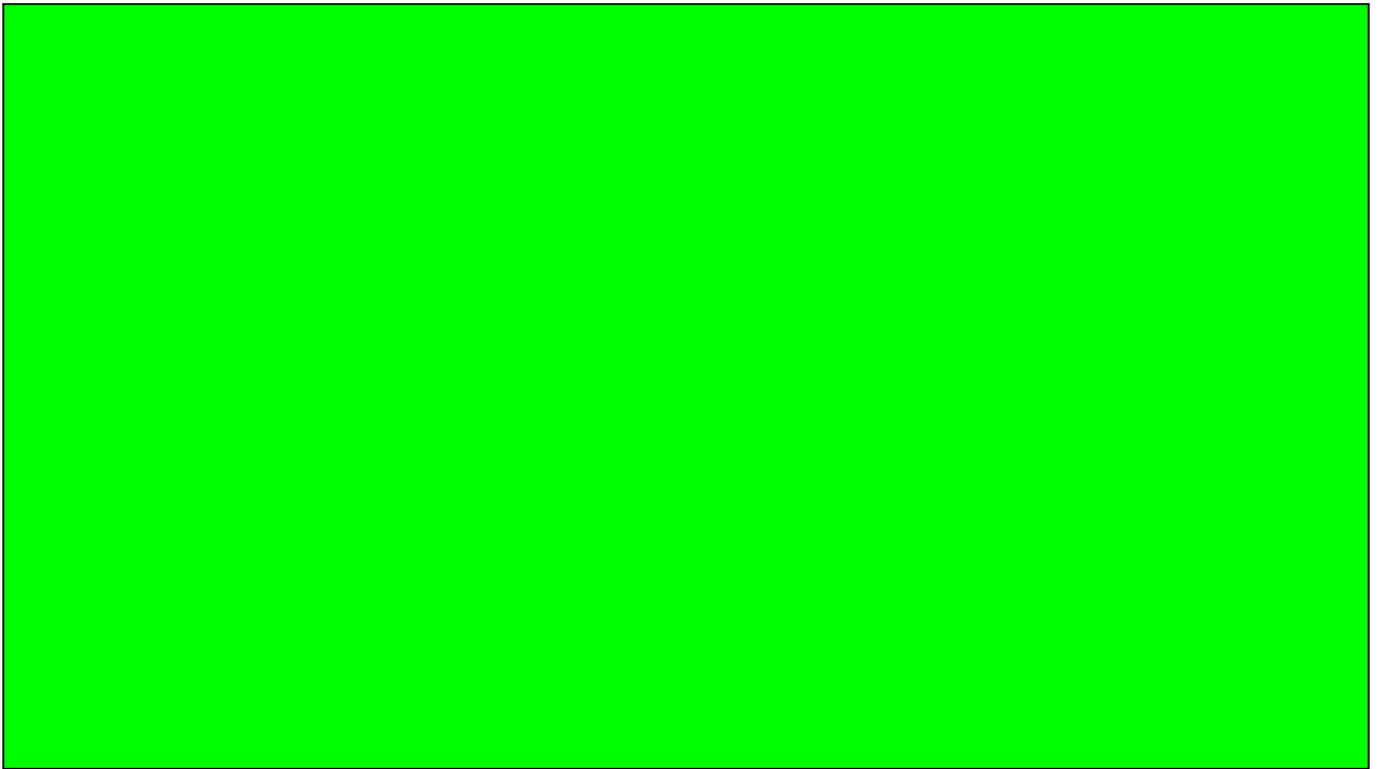

Preservation, public awareness, and understanding of park collections are based inside the park and are achieved through park efforts.

10. Sustained Cultural Resource Preservation and Management

Museum Collections:

Goal 10MuseumB:

Preservation, public awareness, and understanding of park collections are based outside of the park and are achieved through park partners and NGOs.

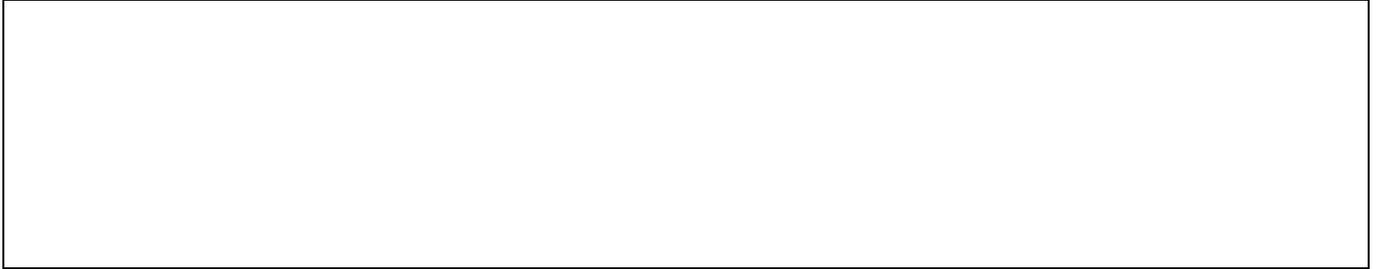

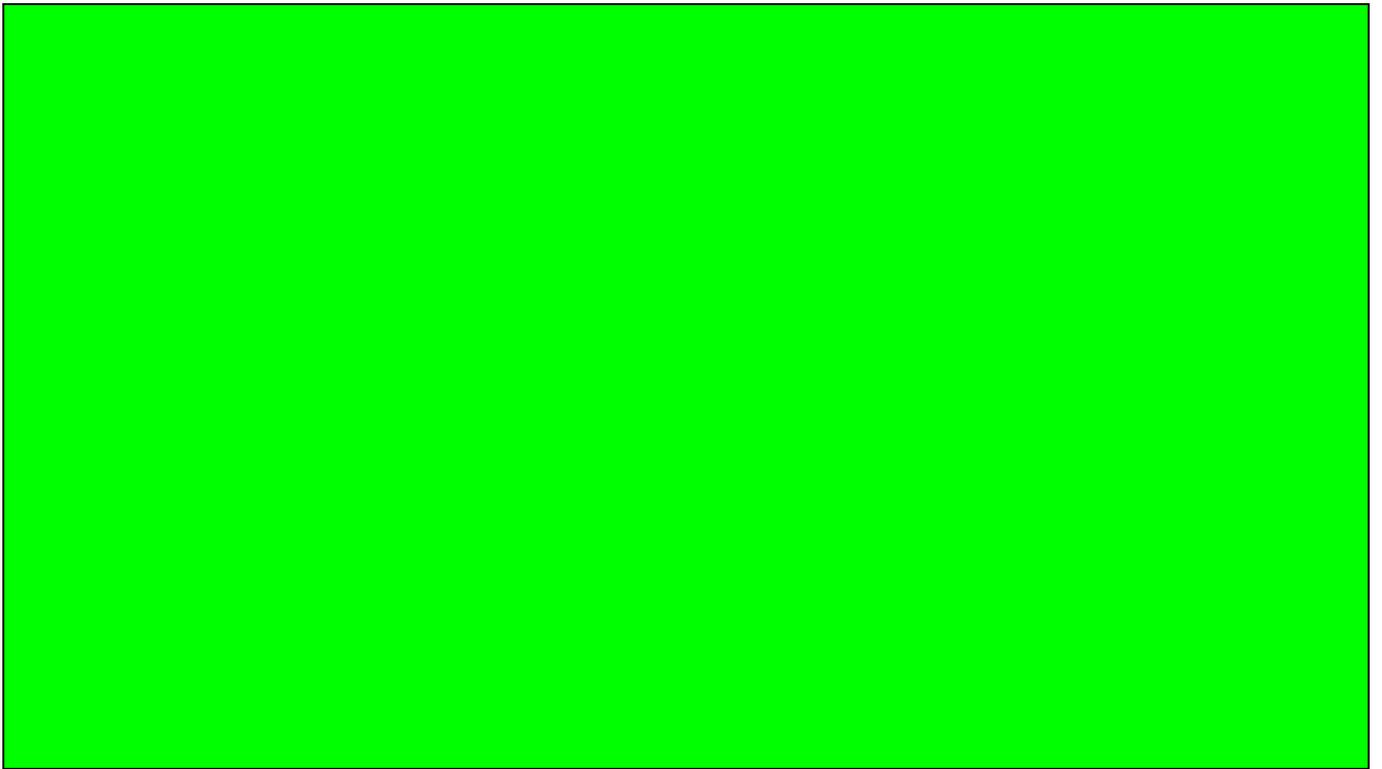

10. Sustained Cultural Resource Preservation and Management

Museum Collections:

Goal 10MuseumC:

Preservation, public awareness, and understanding of park collections are achieved through a combination of NPS and partner efforts.

11. Operational Facilities

Goal 11B:

Purposeful efficient decentralized - where park maintenance and public safety can be co-located at key geographic sites within or outside park boundaries.

Goal 11B1:

Locate outside the park boundary but maintain NPS owned/leased facilities.

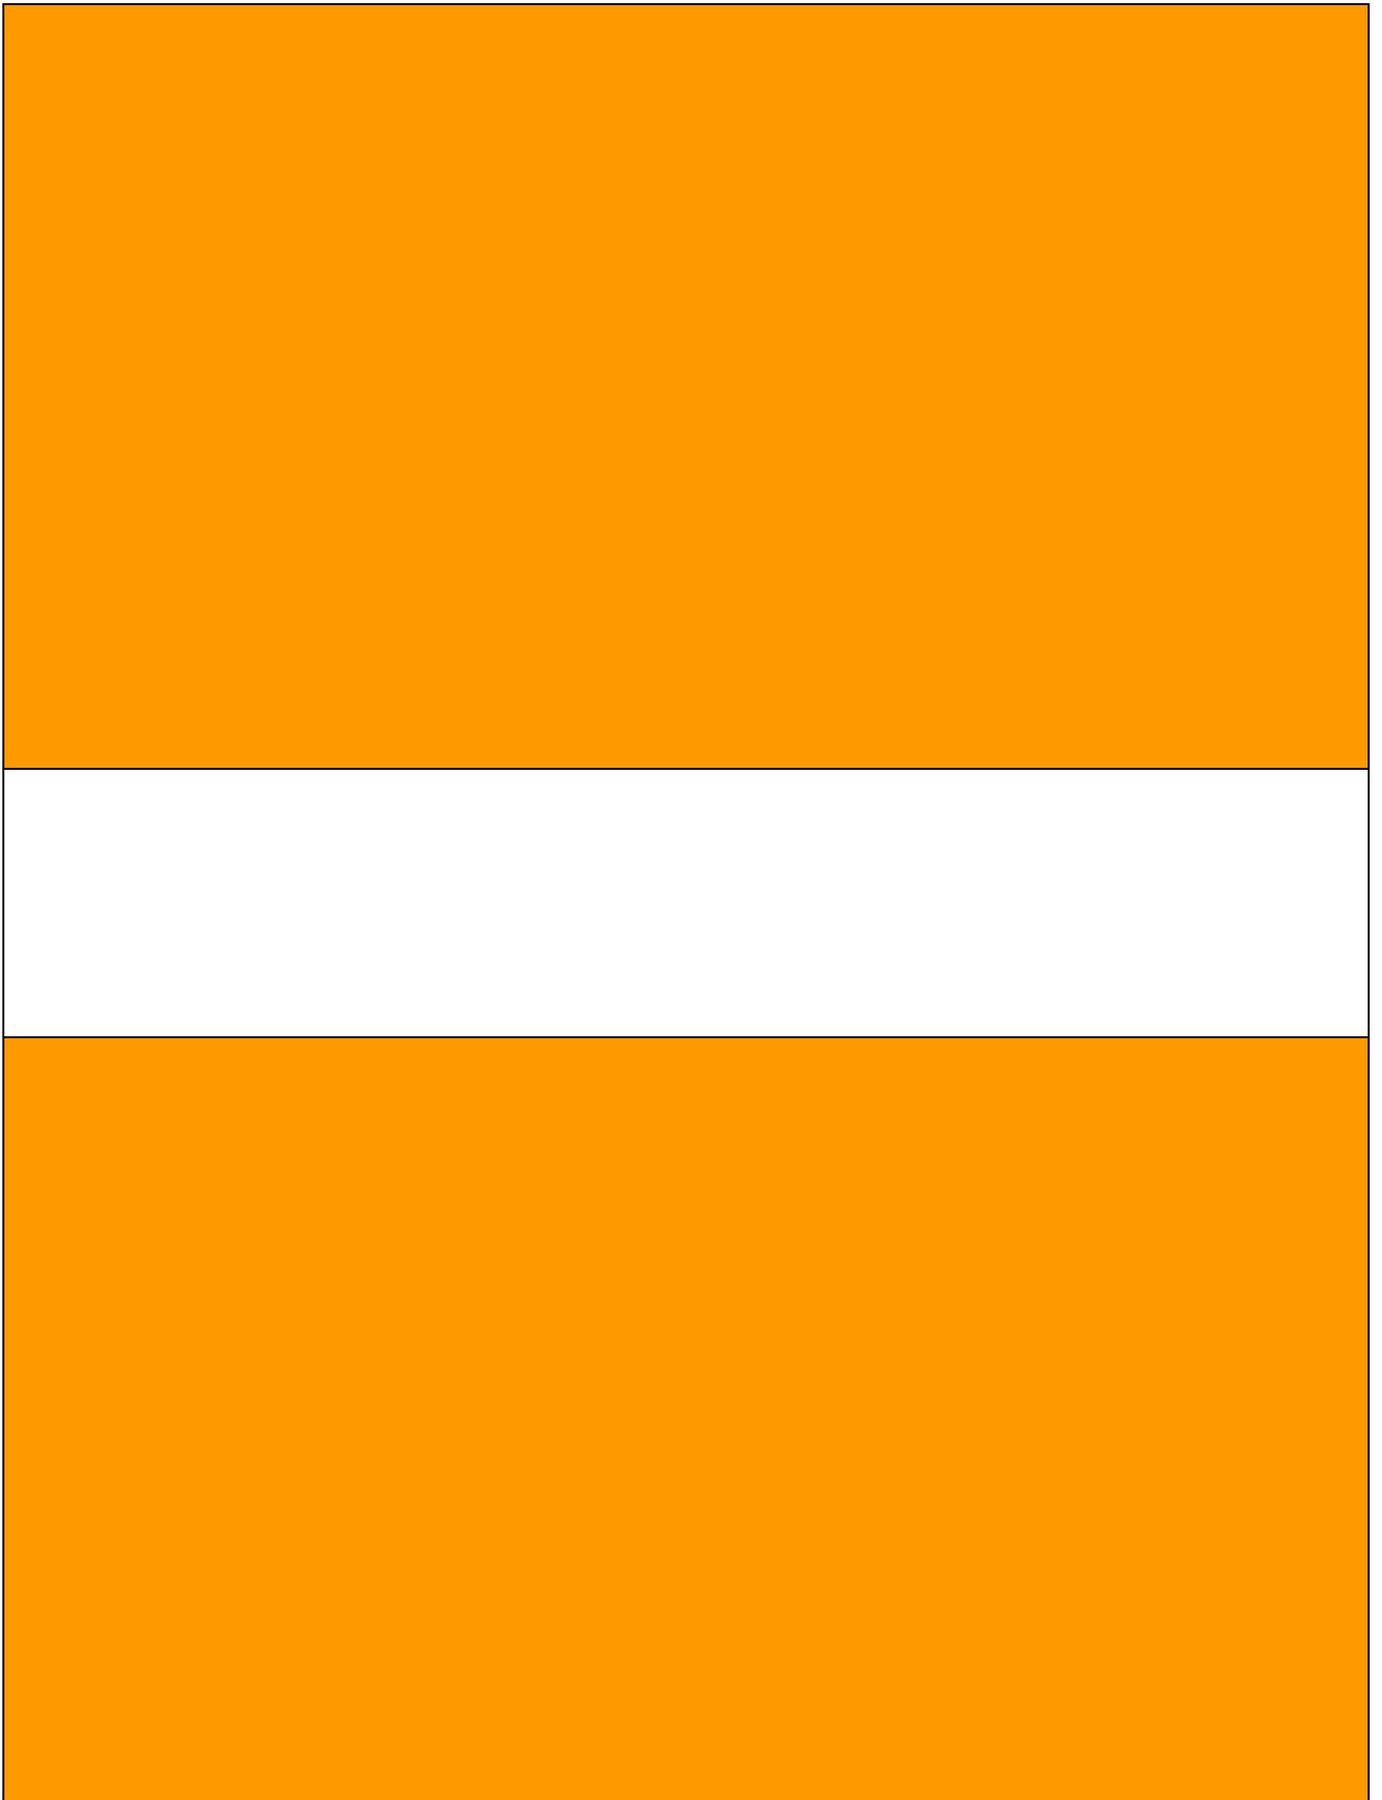

Goal 11B2:

Locate outside of very important park resources (e.g. outside the Redwood forest footprint).

11. Operational Facilities

Goal 11C:

Decentralized operational facilities that are shared with other local, regional, and federal government agencies at locations either inside or outside the park boundaries.

11. Operational Facilities

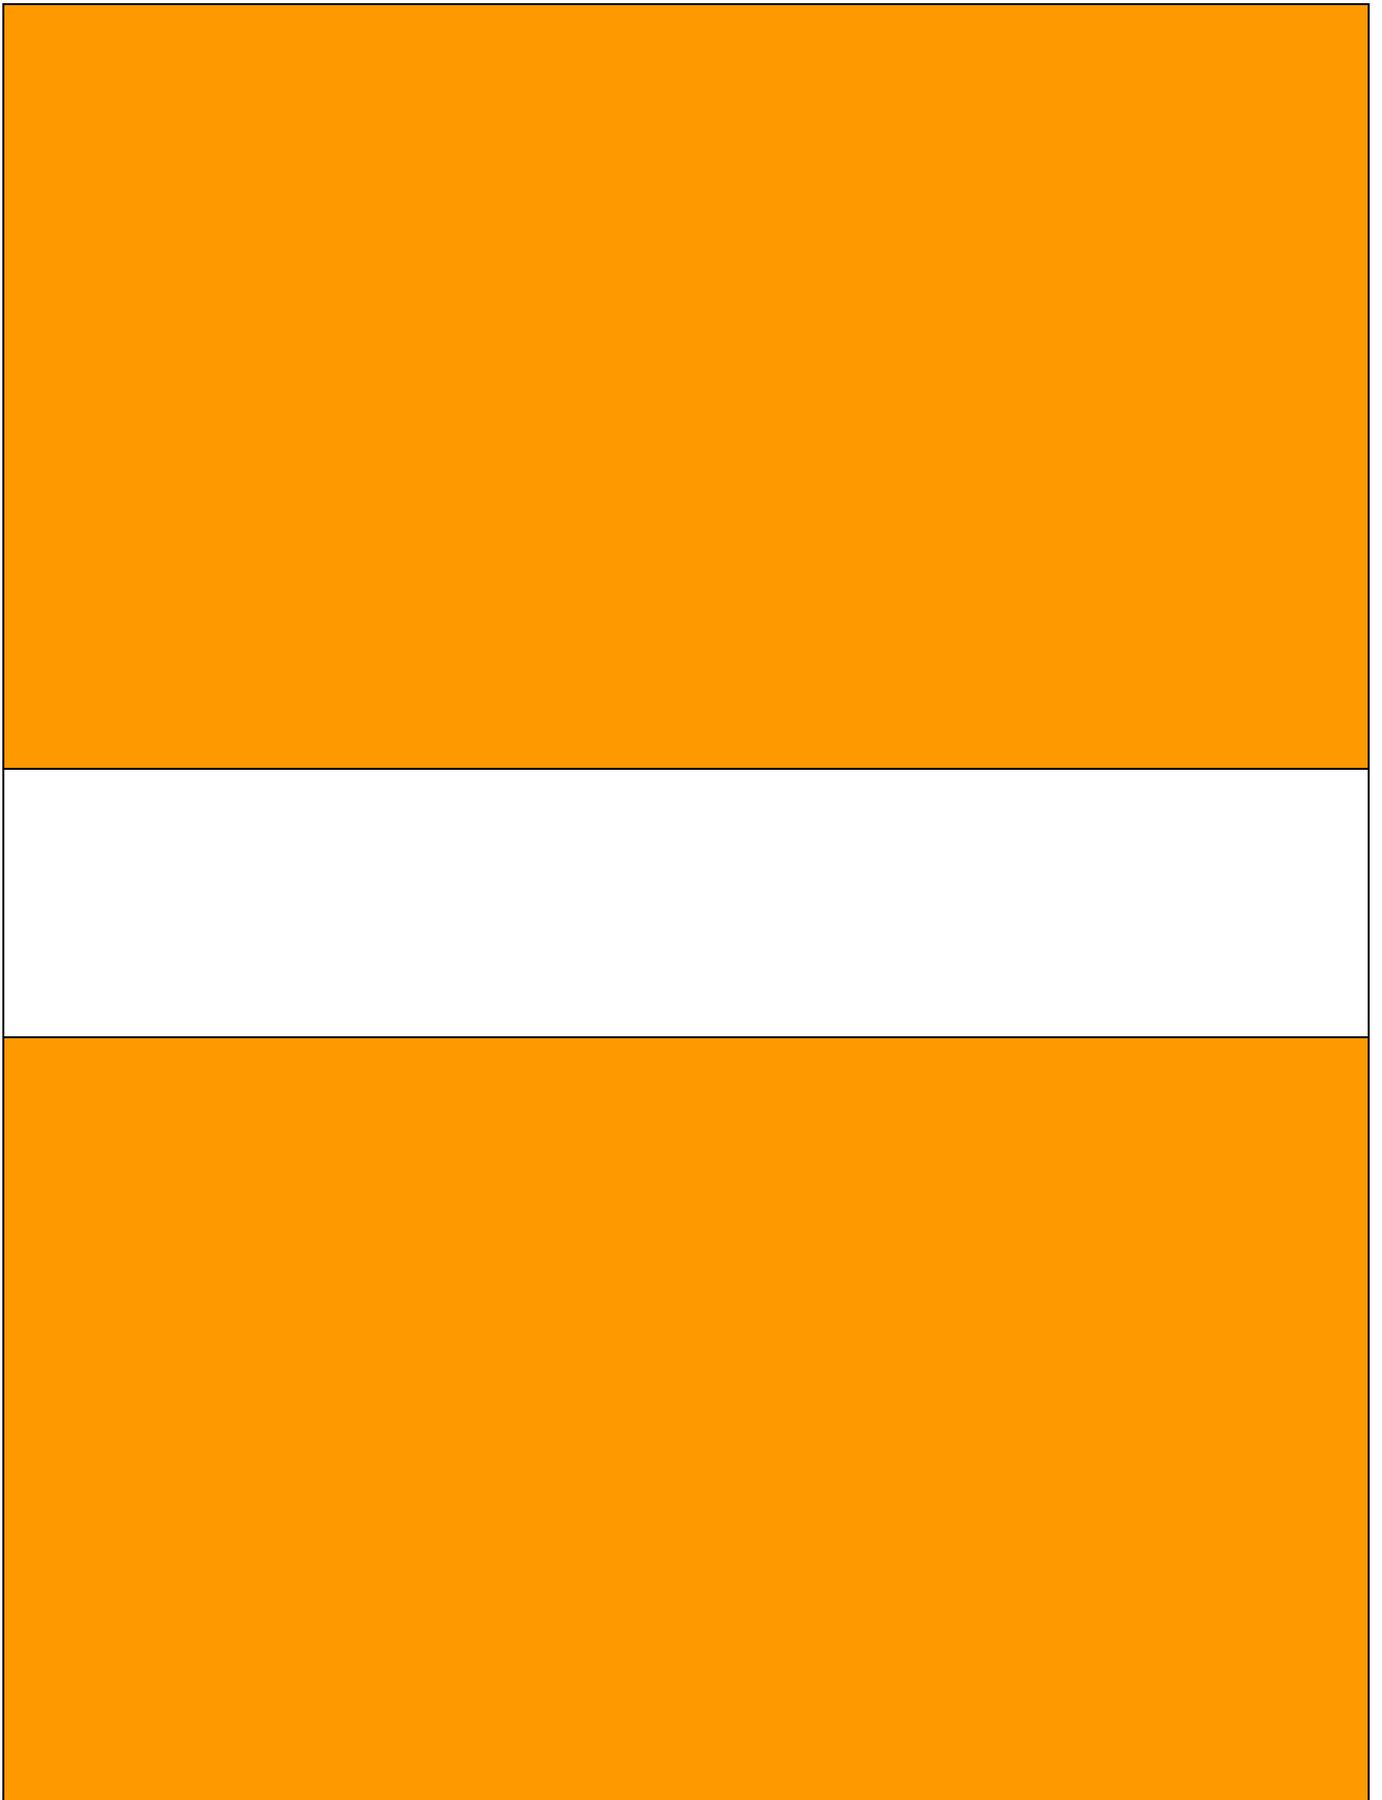

Goal 11D:

Centralize all NPS maintenance and operations in one area within or outside the park boundaries.

11. Operational Facilities

Goal 11E:

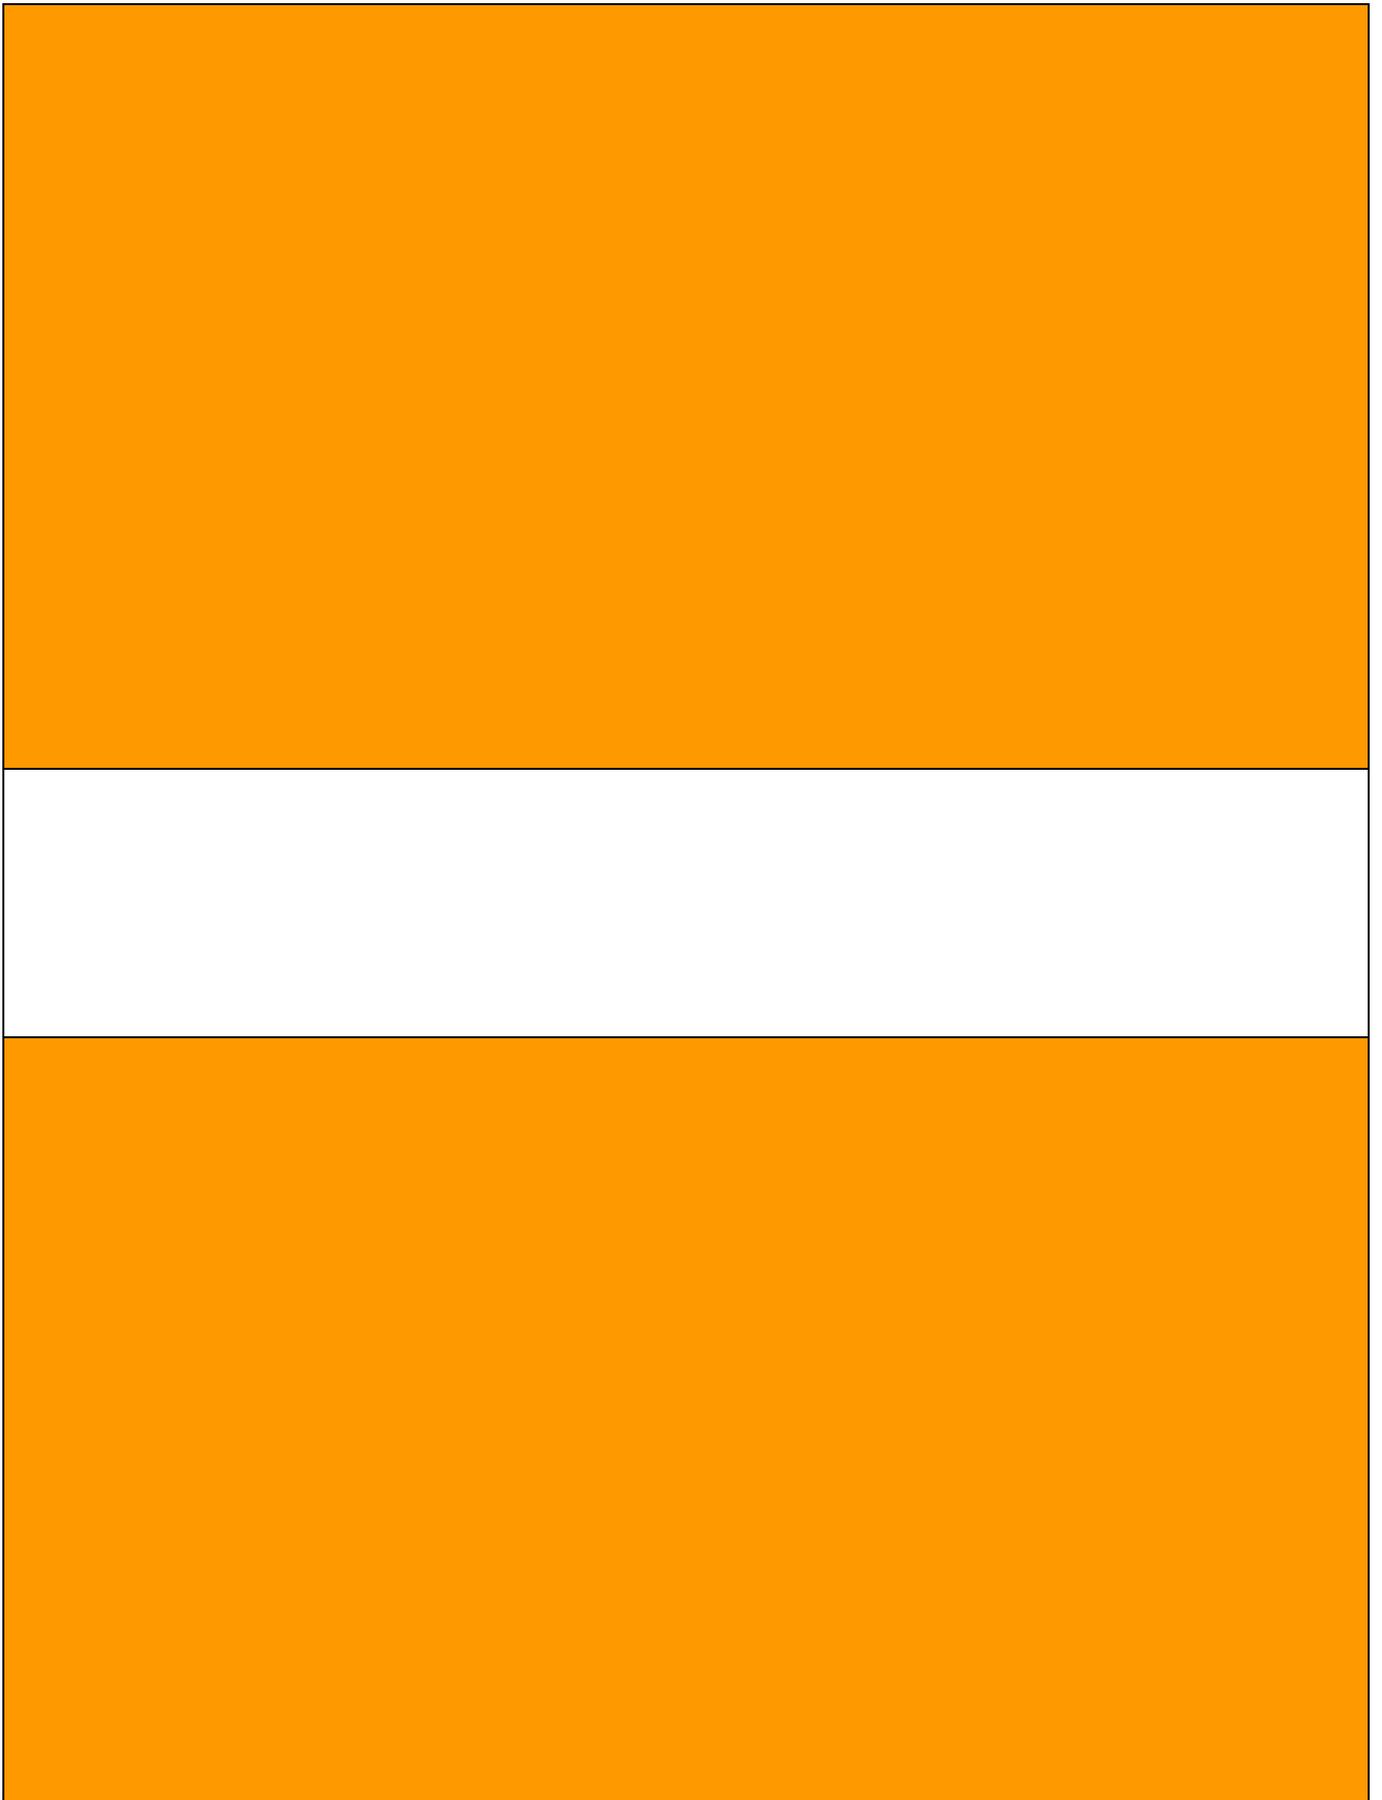

Contract out maintenance functions while providing only the most necessary buildings that are required to make this goal work effectively.

11. Operational Facilities

Goal 11F:

Combine maintenance and protection facilities at: 1) Fort Baker or Crissy Field, 2) Nearby to the Golden Gate in the Presidio, 3) San Mateo, and 4) Marin Headlands.

12. Workforce Housing

Goal 12A:

Focus on providing additional housing stock inside the park.

12. Workforce Housing

Goal 12B:

Focus on partnering to provide additional housing stock outside the park.
