E-mail: [REDACTED]

Message Text:

Dear Representative Pelosi; I strongly support the Dog Management Plan prepared by the National Park Service for the GGNRA. I think it is more than reasonable to protect wildlife such as birds, fish, shellfish, and turtles as well as sensitive planted areas from the overuse of our shoreline - especially Crissy Field! - from overuse by dogs at the hands of their "Guardians." This is especially with regard to off leash dogs. Unfortunately, the dogged defenders of the off leash status quo are very well organized and very vocal. That does not mean they are right. I think it is important that you support the GGNRA Dog Management Plan.

Message

Dear Senator Boxer;
 May 23, 2011
 I support the ataff plan prepared by the National Park Service for the GGNRA. I think it is more than reasonable to protect wildlife such as bird and marine life from the overuse of our shoreline by dog walkers and their charges, especially the unleashed ones.

Unfortunately the "Dog Community" is very vocal and very well organized. The Community at large that would reap the benefits of increased dog free zones is not.

Nonetheless, please support the GGNRA Plan.

Dear Senator Feinstein:

I strongly support the Dog Management Plan prepared by the National Park Service for the GGNRA. I think it is more than reasonable to protect wildlife such as birds, fish, shellfish and turtles from the overuse of our shoreline by dogs, especially off leash dogs.

Unfortunately the "Dog Community" ie those who own dogs, take care of dogs, operate pet supply stores, etc., is very well organized and very vocal, while those of us with opposing or different points of view about priorities for parks and open space are not.

Nonetheless, I think it is important that you support the GGNRA Dog Management Plan.

Sincerely,
Michael T Cronbach
