

Upcoming Ranger Programs

All programs meet at **2:00 at the Lehman Caves Visitor Center**, unless otherwise noted.

Tuesday, July 5

- ***Celestial Wonders of the Night Sky***: Learn about different types of clusters, nebula, and galaxies, and some tips for photographing the Milky Way.

Wednesday, July 6

- ***Bird Songs***: Bird vocalizations expose us to, and remind us of, our own kinship with the lives and emotions of birds. Visitors will be encouraged to make noises.

Thursday, July 7

- ***What the Scat***: Can you recognize scat on trails? What other wildlife shares the trails at Great Basin?

Friday, July 8

- ***Bristletough***: What does it take to survive the most unimaginable conditions? See how Bristlecone Pines do it, and live so long to tell about it!

Saturday, July 9

- ***Natural and Cultural Resources***: Come look at some of the tools and methods that rangers use to protect, restore, study and preserve Great Basin National Park.

Sunday, July 10

- ***Basin and Range***: Have you ever wondered how the mountains and valleys in and around Great Basin National Park came to be? Come find out! (Hint: you're actually standing on a giant boat right now.)

Monday, July 11

- ***Natural and Cultural Resources***: Come look at some of the tools and methods that rangers use to protect, restore, study and preserve Great Basin National Park.
