GRAND CANYON GEOLOGY TRAINING MANUAL LEARNING TO READ THE PAGES OF A BOOK

Stacy Timmons

December 16, 2003

Original by Stacy Timmons, MS student, Oregon
State University, Department of Geosciences,
Oregon State University, Corvallis, OR 97331-5506.
Current address: New Mexico Bureau of Geology
and Mineral Resources, 801 Leroy Place, Socorro,
NM 87801

Revised June 2009 by Allyson Mathis and Michael
Quinn, Grand Canyon National Park

*Dedicated to the beautiful spirit of my mom, Jean Marie Wagner,
who taught me to love life and believe in my dreams.*

Special thanks to:

The development and integration of the training manual was supported in part by the Geoscientists-In-The-Parks program of the National Park Service, and by Grand Canyon National Park. Dr. Robert Lillie of Oregon State University, helped develop and carefully edit the manual. The work of this manual was improved, supported and encouraged by many people including (but not limited to) Judy Geniac, Allyson Mathis, Jim Heywood, Judy Hellmich, Robin White, Tom Pittenger, Ellen Seeley, Marge Post, Ron and Pat Brown, Carol Tepper, Kathy Daskal, Katie Sullivan, Phyllis Northrup, Russell Baker, Ralph Jones, Mike Weaver, Bob Audretch, Rex Tilousi, and Dr. George Billingsley (USGS). Deep thanks to everyone who participated in this manual!

About the author:

Stacy Wagner created this geology training manual as part of her masters degree studies at Oregon State University. She worked for two summers as a seasonal interpretation ranger at Grand Canyon National Park. Working in the park was life changing for her, helping her develop deep appreciation for the Colorado Plateau geology and the southwestern US. She now lives in Socorro, NM, and works for the New Mexico Bureau of Geology and Mineral Resources.

TABLE OF CONTENTS

| | <u>Page</u> |
|---|-------------|
| PREFACE | 1 |
| Chapter 1: LEARNING THE LANGUAGE OF GEOLOGY | 2 |
| Introduction | 2 |
| | |
| GEOLOGY AT GRAND CANYON | 2 |
| | |
| PLATE TECTONICS | 4 |
| Tectonic Plate Movement | 6 |
| Development of High Elevation | 8 |
| | |
| TYPES OF ROCKS | 11 |
| Sedimentary Rocks | 12 |
| Depositional Environments | 15 |
| Igneous Rocks | 18 |
| Metamorphic Rocks | 20 |
| | |
| STRATIGRAPHY | 21 |
| | |
| GEOLOGIC TIME | 24 |
| Relative Dating | 25 |
| Absolute Dating | 25 |
| | |
| STRUCTURAL GEOLOGY | 29 |
| Joints | 29 |
| Faults | 30 |
| Folds | 32 |
| Unconformities | 33 |
| | |
| HYDROLOGY | 36 |
| Side Canyons | 40 |
| Glen Canyon Dam | 42 |
| | |
| GEOMORPHOLOGY | 43 |
| | |
| Chapter 2: READING THE PAGES OF GRAND CANYON GEOLOGY | 47 |
| | |
| THE PRECAMBRIAN (4540 TO 542 MILLION YEARS AGO) | 47 |
| Precambrian Metamorphic Rocks | 48 |
| Precambrian Igneous Rocks | 49 |

TABLE OF CONTENTS (continued)

| | <u>Page</u> |
|---|-------------|
| Grand Canyon Supergroup | 50 |
| THE PALEOZOIC ERA (542 TO 251 MILLION YEARS AGO) | 53 |
| The Tonto Group | 53 |
| The Temple Butte Formation | 56 |
| The Redwall Limestone | 57 |
| The Surprise Canyon Formation | 58 |
| The Supai Group and Hermit Formation | 59 |
| The Coconino Sandstone and Toroweap Formatio | 59 |
| The Kaibab Formation | 61 |
| The Close of the Paleozoic Era | 64 |
| THE MESOZOIC ERA (251 TO 65 MILLION YEARS AGO) | 65 |
| The Laramide Orogeny | 66 |
| THE CENOZOIC ERA (65 MILLION YEARS AGO TO PRESENT) | 71 |
| The Giant Puzzle: The Colorado River and Grand Canyon | 73 |
| Pieces of the Puzzle | 75 |
| Hypotheses for the Puzzle | 81 |
| Chapter 3: OTHER TIPS FOR INTERPRETERS | 84 |
| FREQUENTLY ASKED GRAND CANYON GEOLOGY QUESTIONS | 84 |
| ANALOGIES FOR INTERPRETING GEOLOGY | 89 |
| VISUAL AIDS FOR INTERPRETING GEOLOGY | 91 |
| APPENDIX 1: REGIONAL MAP | 93 |
| GLOSSARY | 94 |
| FURTHER READING LIST | 103 |
