99	299	7	M	WCBP	4/17/03	3/20/04	Foster	

SB# = Studbook number, sequential by hatch date. **114M/none** means Male #114, no tag. **LAZ** = Los Angeles Zoo. **SDWAP** = San Diego Wild Animal Park. **WCBP** = Peregrine Fund's World Center for Birds of Prey in Boise, Idaho. **Portland** = Oregon Zoo in Portland, OR. **VC** = Vermilion Cliffs. **Hurricane** = Hurricane Cliffs, a briefly-used 2nd release site north of the western part of Grand Canyon. **"Captured for behavior"** in AZ has generally meant approaching people, but for some birds originally released in CA the issue was landing on power poles. **AC-9** (father of 122M/22, grandfather of 350M/-0 and 342M/42) was the last wild condor caught Easter Sunday 1987, released back into the wild in CA on May 1, 2002.

Condors in the flight pen at Vermilion Cliffs, awaiting first release:

As of 12/17/10: 7 not-yet-released birds.
