

THE OFFICIAL NONPROFIT PARTNER
OF GRAND CANYON NATIONAL PARK

EXPERIENCE GRAND CANYON WITH THE EXPERTS

GRAND CANYON CONSERVANCY FIELD INSTITUTE 2020 CLASSES

EXPERIENCE GRAND CANYON UP CLOSE AND PERSONAL

As a proud partner of the National Park Service, the Field Institute helps meet the interpretive and educational needs of the park's six million annual visitors through our expert-led rim walks, backpacks, and whitewater rafting trips.

WHAT MAKES AN EXPERT?

You'll learn about the geology and cultural and natural history of this magnificent place from those who know it best—professional geologists, historians, biologists, ecologists, archaeologists, and other experts. We hand-pick our instructors from local universities, colleges, art schools, and the educational guiding community.

CUSTOM TOURS AVAILABLE FOR FAMILIES AND SMALL GROUPS

Short on time? The Field Institute offers a suite of "on-demand" programs that share the wonders of both the South and North Rims, as well as the upper stretches of the rim-to-river trails. See the "Day Hikes & Tours" section of grandcanyon.org for full details.
