I have a half day. What should I do?

Ride the Free Shuttle Buses!

Advisories

• Beat the Heat!
  • Protect the Park, Protect Yourself
  • Stay away from exposed rock. In summer, trails and walkways can become extremely hot. Be prepared for any type of weather.
  • When Thunder Roars, Go Inside.
  • Keep your water bottle filled at the filling stations, wear sunblock, and consider wearing a hat.

In-depth information about Grand Canyon National Park can be found in the Grand Canyon Visitor Center (Orange) or at visitor contact stations. More in-depth information about Grand Canyon National Park is easy. Know your limits.

Many believe they are strong enough to hike whatever trail they find. hiking is easy. Know your limits. Many believe they are strong enough to hike whatever trail they find. hiking is easy. Know your limits.

Free, Daily Park Ranger Programs

• Join a park ranger for free, daily walks, talks, hikes, demonstrations, and evening programs. Learn about geology, fossils, plants, animals, people, and the history of the National Park. Check daily programs board or park rangers for specifics.

Flying unmanned aircraft in the park is prohibited.
