Student Bibliography

The books on this list have been chosen especially to help students researching and writing reports on the natural and human history of Grand Teton National Park. Some titles will be in your local library, while others may be requested through interlibrary loan. Ask your librarian for details. In the spirit of conservation of natural resources, please save this information by starting a permanent vertical file in your school library or classroom.

Titles marked with * identify material helpful to younger reading levels as well as adults.
