

# Gray Wolf

VS

# Coyote

Description: most wolves resemble a long-legged German Shepherd dog with extra-large paws. Their coat can range from coal black to creamy white. In social situations, the height of the tail generally relates to the social status of that individual.

Total length: 4.5 – 6.5 feet

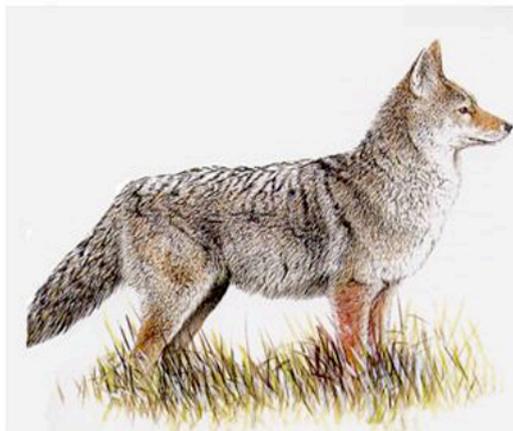

Shoulder height: 26 – 38 inches

Tail length: 14 – 20 inches

Weight: 57- 170 lbs

Diet: Large animals: (elk, moose, deer) compose 80% of their diet, but they also eat rabbits, mice, nesting birds, and carrion. They may also eat domesticated animals.

Tracks:

Description: coyotes look like gray, buffy or reddish-gray, medium-sized dogs. The nose is pointed and there is usually a gray patch between the eyes that contrast with the tawny top of the snout. The bushy tail has a black tip.

Total length: 3.5 – 4.5 feet

Shoulder height: 23-26 inches

Tail length: 12-16 inches

Weight: 18- 44 lbs

Diet: primarily carnivorous, feeding on squirrels, mice, hares, birds, amphibians, and reptiles. They also eat berries and vegetation.
