

John D. Rockefeller, Jr. Memorial Parkway Area Map

Hot Springs

Soaking in pools where thermal waters originate is prohibited to protect resources. Soaking in adjacent run-off pools or streams is allowed, provided they do not contain an originating water source. These waters may harbor organisms that cause a fatal meningitis infection and Legionnaires' disease. Exposing your head to thermal water by immersion, splashing, touching your face or inhaling steam increases your risk of infection.

Stock Use

Horse use is allowed on and off trails in the Parkway. Different rules apply in Grand Teton and Yellowstone national parks. Ask for the Grand Teton stock brochure. Campsites along Grassy Lake Road allow stock.

For Your Safety

- **BE BEAR AWARE!** Avoid surprising bears by making loud noise like shouting or clapping your hands. Proper food storage is required. Never leave a backpack unattended. Ask a ranger or check the park newspaper for more information.
- Always maintain a distance of at least 100 yards from bears and wolves, 25 yards from all other wildlife
- Grassy Lake Road is a maintained gravel road. While passable to any vehicle in good conditions it can be dusty and washboarded. Four wheel drive is recommended. Use caution when traveling and be aware of rapidly changing conditions. The road is closed in winter.
- Carry drinking water.
- Be prepared for rapid weather changes; bring rain gear and extra clothing. High elevation may cause breathing difficulties; pace yourself.
- Snow melts gradually, leaving valley trails by mid-June, canyon trails by late July. Be careful crossing snowfields and streams.
- Tell someone where you are going and when you expect to return.
- Solo hiking and off-trail hiking are not recommended.
- Check with a ranger for up-to-date information on trail conditions.
