

GARNET CANYON CAMPING

There are six camping areas in Garnet Canyon. The North Fork sites are popular for ascending the Grand Teton. The Main Fork and South Fork areas are mostly used for ascents of the Middle and South Tetons and other routes in the lower canyon. All sites see heavy use and require minimum impact camping techniques. Camping is restricted to snow or bare ground sites only. Do not move rocks that are surrounded by vegetation for wind breaks or site improvement. Fires are prohibited. Camping is allowed for two nights in each zone on any single trip.
