

“CSI Hampton-Forensics & Historic Furnishings,” Sunday, March 8, 2015

On Sunday, March 8, 2015 at 2:00 p.m. in the orangery, join Curator Gregory Weidman, for an in-depth look at the detective work employed in uncovering the past at Hampton. This presentation will highlight Hampton’s renowned collection of antique decorative arts and seldom seen original furnishing materials.

Discover how fragments from the past, historic images, and surviving documents provide needed clues to furnish period rooms authentically and how museum professionals date objects to a certain era. How do historians and curators know what they know? Why do Hampton’s rooms look so different from our houses today? Come to this special presentation to find out!

Admission is free but space is limited, so be sure to arrive early! Call 410-823-1309 x251 or visit www.nps.gov/hamp for more information.

This program is made possible in part by a generous grant from the Maryland Humanities Council.
