In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 54 United States Code (Formerly Title 16), Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Hawai‘i Volcanoes National Park. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, and Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document.

The 2019 Hawai‘i Volcanoes National Park Superintendent’s Compendium will go into effect when signed by the Superintendent and remain in effect until superseded.

Special Note: Due to Hawai‘i Volcanoes National Park’s Increased Volcanic and Seismic Activity (HIVA) incident that took place from May to August of 2018, many closures are now in effect. There are also areas of the park that no longer exist that were included in previous versions of the Superintendent’s Compendium. In addition, changes in closures and openings may change with very little notice. Check the park website for updates.

36 CFR PART I.  GENERAL PROVISIONS

36 CFR §1.5- VISITING HOURS, CLOSURE AND PUBLIC USE LIMITS

(a)(1)Establish, for all or a portion of a park area, a reasonable schedule of visiting hours, impose public use limits, or close all or a portion of a park area to all public use or to a specific use or activity:

Visiting Hours: Hawai‘i Volcanoes National Park is open 24 hours a day with the following exceptions:

1. Any areas in the park that are temporarily closed by Superintendent's Order during emergency situations as prescribed in 36 CFR 1.5.
2. The Kahuku Unit is open to the public Wednesday through Sunday from 9:00 a.m. to 4:00 p.m. The unit may open to the public at other times for special programs or park events. Days and times of operation are subject to change per discretion of the Superintendent.
3. Kīlauea Visitor Center hours of operation are from 9:00 a.m. to 5:00 p.m., and may be open to the public at other times for special programs or events. Days and times of operation are subject to change per discretion of the Superintendent.
4. Coast Ranger Station hours are variable depending on staffing availability.

These visiting hours are necessary to balance the need for public access with the park’s ability to provide staffing.

Public Use Limits:

1. Mauna Loa Cabin, 12 persons overnight (additional 16 outside)
2. Pu‘u‘ula‘ula (Red Hill) Cabin, 8 persons overnight (additional 16 outside)
3. Kīlauea Visitor Center Auditorium, 200 persons
4. Volcano House Dining Room, 219 persons
5. Nāpau Crater, ‘Āpua, Keauhou, Halapē, Ka‘aha camping areas, 16 persons each.
6. Pepeiao Cabin, 3 persons (additional 16 outside).
7. Trail hiking: No more than 12 per group for overnight or day hiking unless part of an authorized guided hike.

Use limits are necessary to prevent resource degradation by excessive trampling of backcountry resources and preservation of solitude by restricting the amount of people utilizing popular areas.

Closures:

1. Volcanic Hazards: Due to the possibility of unpredictable volcanic hazards, the slopes of Pu‘u ‘Ō‘ō; all ledges, coastal lava deltas and beaches formed at active lava entry points on the coast, as well as specific active lava areas as posted, are closed to all visitors unless they have a permit issued by the Superintendent allowing access to those areas for specific scientific research or cultural practices.
Closures are necessary for public safety, as volcanic hazards have been known to injure or kill people.

2. Kahuku Unit: All areas of the Kahuku Unit are closed to visitation except as stated in the previous Visiting Hours. This does not apply to administrative, government use, or scientific research with a permit.

The areas accessible to the public when Kahuku is open include: Kahuku Road for vehicle traffic from Highway 11 for six miles to the Upper Glover Trailhead. This includes wayside stops at the visitor contact station, 1868 lava flow, Kahuku Road cross fence gate, picnic areas and named and designated trails. All other paddock roads and non-designated trails are closed to public use.

   a. Vehicle use is permitted only on Kahuku Road and as far as the Upper Glover and Kona Trailheads. All other paddock roads are closed to motorized vehicles with the exception of park employees performing administrative duties.

   b. All-Terrain Vehicles (ATV’s), Utility-Terrain Vehicles (UTV’s), Off-Highway Vehicles (OHVs), Dirt bikes and any other motorized conveyance used for off road travel operating in Kahuku is prohibited, with the exception of park employees performing administrative duties.

   Public use limits have been set because conditions at Kahuku may pose a hazard to other visitor/vehicle traffic as well as the lack of park resources on site and a reduced ability for emergency response. Limiting these types of vehicles and the locations of vehicles where they may operate as well as where visitors may hike are necessary to prevent resource degradation and damage, reduce the spread of invasive species, improve solitude and increase the effectiveness of emergency response.

3. Great Crack

This area was added to the park in 2018 (see Map J). Park management is in the process of use planning for this new section. In the meantime, the area will be managed as “backcountry” and all regulations applicable to other backcountry areas will apply. This includes the following closures:

   a. Backcountry permits are required for overnight stays. Limit 16 people per day for the entire area.
   b. The area is closed to motor vehicles unless authorized in writing by the superintendent or for administrative purposes following park minimum tool analysis. The area is designated as ‘potential wilderness’ and must be managed as wilderness to protect wilderness qualities.

4. Halema'uma'u and Kīlauea Summit: Due to the potential from unknown hazards caused by the instability from the 2018 Increased Seismic Activity Incident. Roads and trails marked on updated maps, and documented by a memo from the Superintendent, are closed to visitors. Additional temporary closures will be implemented depending upon conditions.

   Necessary for public safety as volcanic hazards have been known to injure or kill people.
5. 'Āinahou Pens, ‘Āinahou House, Gardens and Pastures: The 'Āinahou Pens and associated pastures (marked by "closure" signs along the access roads, see Map A) are closed to all public and administrative use except for authorized staff carrying out recovery actions, law enforcement staff engaged in compliance patrols and personnel responding to emergencies. In the event of an emergency, first responders should alert nēnē staff to the situation as soon as possible. Access to 'Āinahou House and Gardens and associated horse pasture is limited to HAVO employees and approved users as described in the 'Āinahou Ranch House and Gardens Operating Procedures (2018).

Current approved uses of the area include:

a. Approved stewardship activities led by NPS staff and/or designated volunteers.

b. Routine administrative uses, such as road maintenance, law enforcement patrols, grazing of stock animals and vegetation and wildlife management. Seasonal restrictions may apply. Activities must be coordinated with nēnē staff biologist.

c. Other requests for access must be approved by the Superintendent in consultation with the nēnē staff biologist. (See Map A and the 'Āinahou House and Gardens Operating Procedures, 2018).

6. Emergency Closures for Wildlife and Plants: Specific park areas may be closed for the emergency protection of wildlife and plants. Those areas will be closed and/or opened through the posting of signs and the issuance of park memorandum and/or news releases. Information will also be sent to all Commercial Use Authorization (CUA) holders operating in the park.

The Superintendent has determined that wildlife and plants may be adversely affected by human and vehicle interactions.

7. Road Closures for Motor Vehicles:

a. The entire park is closed to vehicles with a Gross Vehicle Weight (GVW) of more than 20,000 pounds (except on Highway 11), unless prior authorization has been granted by the Superintendent or designated representative.

b. The following roads within the park are OPEN to public use. All other roads including unpaved and service roads are closed to the public for motor vehicle use.

- Highway 11 in its entirety, throughout the park.

- Chain of Craters Road, its pullouts, parking lots and access roads.

Note: Chain of Craters Road is closed to all commercial vehicles and buses with a maximum manufacturer passenger capacity of more than 26 persons, from the Kealakomo Overlook to the end of Chain of Craters Road.

This is because the long, narrow and steep road may pose a risk to larger vehicles.

Chain of Craters Road is closed to public vehicles beyond the circular turnaround at the coastal end extending to the Kalapana boundary.
This section of road has been designated as a hiking/biking trail.

-Crater Rim Drive and its pullouts and parking areas from Steam Vents overlook, north and northeast to the junction with Chain of Craters Road. Due to the damage from the 2018 HIVA incident, Crater Rim Drive is closed from the north entrance to Kilauea Military Camp (KMC), south and southwest towards the southeast to Chain of Craters Road.

- Mauna Loa Road (aka “Strip Road”).

- Hilina Pali Road to Kulanaokuaiki Campground

*Hilina Pali Road beyond this point is open to foot and non-motorized bicycles. The section that is closed is due to the 2018 HIVA incident.

-Paved access roads to:

1. Tree Molds
2. Kipukāpuaulu Picnic Area (aka Bird Park Picnic Area)**
3. Kīlauea Overlook and Picnic Area
4. Steam Vents
5. Volcano House
6. Nāmakanipaio Campground**
7. Kīlauea Iki Overlook
8. Pu‘u Pua‘i Overlook
9. Devastation Trailhead
10. Mauna Ulu Trailhead
11. Kīlauea Visitor Center
12. Research Center
13. Kulanaokuaiki Campground

-On Kahuku Road from the main entrance at Highway 11 to the Upper Glover and Kona trailheads, including the airstrip.

** These roads, campgrounds, and picnic areas are subject to fire restrictions and closures during VERY HIGH (Fire Staffing Level 4) and EXTREME Fire Danger (Fire Staffing Level 5) in accordance with the park’s Fire Management Plan.

All roads are subject to emergency closures without notice prior to and during natural disasters and events including volcanic eruptions and/or seismic activity, hurricanes, tsunamis, high winds, and flooding conditions. Closures will comply with Watches and Warnings issued for events.

Watch: Predicted conditions expected anytime within 48 hours.

Warning: Predicted conditions expected anytime with 36 hours.

*Necessary for public safety as these types of hazards have been known to injure or kill people attempting to operate a vehicle in these conditions.
The gated connector road between Crater Rim Drive and Mauna Loa Road, as well as the gated entrance to Kilauea Military Camp opposite Piʻi Mauna Road are emergency access roads and are for administrative use only.

8. **Closures for Emergencies, Maintenance and Preservation of Cultural and Natural Resources:** All park roads, trails, facilities and specified designated areas are subject to temporary closure as indicated by signs or other means of notification during periods of emergencies, other public safety concerns, or for the preservation of cultural and natural resources. These temporary closures may be made until the Superintendent has an opportunity to make public notification for closures of longer durations (usually more than 48 hours). This includes closures made immediately upon the discovery of ROD (Rapid ʻŌhiʻa Death) or similar threats.

> To provide emergency responders and other staff with the flexibility to mitigate hazards to people or critical park resources.

9. **Trails Closed to Bicycle Use:** All Kīlauea, Great Crack and Kahuku frontcountry and backcountry trails are closed to bicycle use with the exceptions listed in Section IV 4.30(b) of this Compendium.

> The Superintendent has determined that bicycles may cause excessive erosion to trails and that the recreational aspect of mountain biking conflicts with other user groups (e.g. hiking) and many trails are in wilderness where bicycles are prohibited by law.

10. **Unmanned Aircraft:** Launching, landing, or operating an unmanned aircraft from or on lands administered by the National Park Service within the boundaries of Hawaiʻi Volcanoes National Park is prohibited except as approved in writing by the Superintendent.

The term "unmanned aircraft" (aka UAS-Unmanned Aerial System) means a device that is used or intended to be used for flight in the air without the possibility of direct intervention from within or on the device, and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links). This term includes all types of devices that meet this definition (e.g., model airplanes, quadcopters, and drones) that are used for any purpose, including for recreation or commerce.

> Unpermitted "Unmanned Aircraft" may pose a hazard to the administrative use of aircraft, a safety risk to the public, interfere with the natural life cycle of protected wildlife, or may be a visual and auditory impairment to the visitor experience.

11. **E-bikes:** The term “e-bike” means a two- or three-wheeled cycle with fully operable pedals and an electric motor of less than 750 watts (1 h.p.). E-bikes are allowed in Hawaiʻi Volcanoes National Park where traditional bicycles are allowed. E-bikes are prohibited where traditional bicycles are prohibited.

Except where use of motor vehicles by the public is allowed, using the electric motor to move an e-bike without pedaling is prohibited. A person operating an e-bike is subject to the following sections of 36 CFR part 4 that apply to the use of traditional bicycles: sections 4.12, 4.13, 4.20, 4.21, 4.22, 4.23, and 4.30(h)(2)-(5).
Except as specified in this Compendium, the use of an e-bike within Hawai‘i Volcanoes National Park is governed by State law, which is adopted and made a part of this Compendium. Any violation of State law adopted by this paragraph is prohibited.

**The following restrictions and/or conditions are in effect for the specific uses or activities noted:**

- **Turtle Habitat areas**: The Federally listed endangered honu‘ea turtle (*Eretmochelys imbricata*) nests along the coastal areas of ‘Āpua Point, Keauhou, Halapē, Ka’aha, Kākīwai, and Kālu‘e. During nesting season, designated sections of these beaches will be closed to camping, artificial lights, livestock, or other activities, which are disruptive to nesting turtles and hatchlings. These restrictive areas will be posted with signs or fences. All other areas of the beach will be open to the public. Park rangers and turtle personnel will patrol and monitor the area during the nesting season (See Map B).
- **Use of Throw Nets in Coastal Areas**: No nets, except for legal-sized throw nets, may be transported or possessed within the coastal areas of Hawai‘i Volcanoes National Park. Refer to 36 CFR Sec.2.4 (a) (1) (i).

*To reduce the destruction of marine resources adjacent to the park.*

- **Special Regulations**: Fishing is restricted in the Kalapana Extension. Refer to 36 CFR Part 7.25 Special Regulations.

*As regulated by legislation when the land was acquired.*

- **Buses in All Areas of the Park**: No person shall cause, suffer, or allow any engine to be in operation while the motor vehicle is stationary at a loading zone, parking or other off street areas. Three minutes are allowed for startup/cool down or passenger loading/unloading. [106 HRS & 3428-47].

*To reduce the impacts of excessive noise and air pollution to the health of visitors and wildlife.*

- **Commercial Tours at Mauna Ulu**: Commercial tours are prohibited on Mauna Ulu unless guides have attended certification training from the NPS, which will enable them to receive a Special Use Permit (SUP) for the activity.

*This restriction will reduce resource damage to the area and impacts to cultural features and practices.*

**36 CFR §1.6 - PERMITS**

(f) The following is a compilation of those activities for which a permit from the Superintendent is required:

1. The following activities related to Public Use Limits: (§1.5)
   
   a. Overnight backcountry use.
   b. Entry into any cave in the park with the exclusion of the main loop trail of Nāhuku (aka Thurston Lava Tube) (also see 36 CFR 7.25(b)).
c. Day hiking on the Nāpau Trail beyond Puʻu Huluhulu, and Nāʻulu trails due to volcanic activity. Permits for this area may be obtained through the self-registration stations located at the two trailheads.
d. Overnight camping for Kulanaokuaiki Campground.

2. Removal of alien plants for non-commercial use (§2.1).

3. Carry or possess a weapon, trap or net (§2.4). (Public Law 111-24 sec. 512 allows for the possession of firearms in compliance with Hawaiʻi laws).

4. Scientific research where there is a disturbance to park resources and/or the collection of specimens (collection of any plant, wildlife (including insects), rocks or minerals, etc., for scientific purposes) (§2.5).

5. All camping activities in areas of the backcountry for overnight use (§2.10). Backcountry is designated as one mile from any road or development. Camping within the one-mile distance is prohibited unless within a designated campground or with written permission from the Superintendent.

6. Operating a chainsaw in developed areas and the use of small power implements such as chainsaws, lawn mowers, weed eaters, etc. by park employees, tenants, or authorized persons within their respective curtilage is permitted, without written permit, in residential, maintenance, service, utility, and concessions areas between the hours of 7:30 a.m. and 7:00 p.m. daily (§2.12).

7. Special Use Permits (SUP): The Special Use Permit authorizes activities that benefit an individual, group or organization, rather than the public at large. The park uses this permit as a management tool in order to protect park resources and the public interest. Private ceremonies (such as weddings), sporting, commercial filming, and other public events, First Amendment rights that contain more than 25 people, and other activities that are not directly sponsored by the National Park Service are examples of activities requiring such a permit. A Special Use Permit application can be found on the Hawaiʻi Volcanoes National Park website: https://www.nps.gov/havo. There is no application fee for First Amendment activities.

8. The use of explosives within Hawaiʻi Volcanoes National Park is prohibited except by the written permission of the Superintendent, for use of such explosives under the proper Federal and State regulations, laws and standards (§2.38).

9. Memorialization: See Section 2.62 of this Compendium for more information.

10. Cave Entry/Pit Crater Registration (§7.25).

To protect sensitive cave systems and mitigate safety concerns, entering, exploring lava tubes or pit craters without a permit from the Superintendent's office is prohibited. This section does not apply to the developed sections of Thurston Lava Tube or trails into Kīlauea Iki Crater. The Superintendent has further determined the intent of this regulation does not apply to park visitors who attend NPS-guided tours or park-sponsored interpretive walks to designated caves.
Permits are a necessary way for the park to monitor activities that may adversely impact park resources or jeopardize the safety of visitors.

36 CFR PART II. RESOURCE PROTECTION, PUBLIC USE & RECREATION

36 CFR §2.1- PRESERVATION OF NATURAL, CULTURAL AND ARCHEOLOGICAL RESOURCES

1. Pele's hair, Pele's tears, lava of any description, dirt, sand, or other natural mineral resources are considered a mineral resource for the purpose of this regulation. Possessing or removing it from the park is illegal as defined under §2.1 (a) (1). Educational collection is not allowed; collecting for scientific study requires a permit §2.5 (g) (2). Information on obtaining a permit for scientific study may be obtained at https://irma.nps.gov/rprs/ or contacting the park’s scientific advisor.

2. The making of lava cast(s) will be considered defacing or disturbing the natural feature from its natural state.

3. Dead wood on the ground may be collected for use as fuel for campfires within the park in the following areas:
   - Within 100 yards of Nāmakanipaio campground
   - Within 100 yards of Kipukapuaulu (aka Bird Park) picnic area
   - Within 100 yards of Kilauea Military Camp ballpark picnic area Note: Wood collected in the park may not be removed from the park or sold commercially. Cutting live [or dead] standing trees is prohibited unless authorized in writing by the Superintendent. Also to protect the forest from Rapid ‘Ōhi’a Death (ROD), no ‘ōhi’a may be brought in from outside the park.

4. The following conditions are in effect for walking, climbing, entering, ascending or traversing the listed archeological or cultural resources.

   Hiking or pedestrian traffic is restricted to the trailhead or walkway on the following trails/walkways:
   - Nāhuku (aka Thurston Lava Tube) pit crater. NOTE: Periodic closures due to safety, maintenance, or resource concerns may occur.
   - Pu‘u Pua‘i and Devastation Trail
   - Sulphur Banks trail and boardwalk
   - The petroglyph field at Pu‘u Loa may be entered and traversed by visitors via the boardwalk to view the site. Visitors must remain on the boardwalk in this immediate (within 100 feet) area, unless part of an NPS-guided tour or park-sponsored interpretive walks.
   - Steaming Bluffs and Steam Vents area.

5. Rock climbing, rappelling, slacklines and other activities that require anchoring are inconsistent with protection of park natural and cultural resources and pose safety concerns due to loose, fragile rocks and limited anchoring. These activities are prohibited for the public unless participating in an approved Search and Rescue (SAR) or Resource Management activity.
6. The following fruits, nuts, berries or unoccupied seashells may be gathered by hand for personal use or consumption, in accordance with the noted size, quantity, collection sites and/or use or consumption restrictions:

- Fruit from the following edible species may be gathered for personal use and consumption without a written permit. Collection can be by any non-mechanical means. No motorized tools may be used for any collection without written authorization from the Superintendent. Extreme care must be exercised in the collection so as not to damage the host plant or surrounding vegetation and to leave some fruit on each plant.

</table>

* Coconuts may not be taken by throwing rocks or other objects, or by climbing on walls of archeological features.

•• Only one (1) quart of ‘ōhelo berries, per person, per month, may be collected. Seasonal closures on collecting ‘ōhelo berries at specific times and locations may occur to protect nēnē forage.

For exotic plants not listed above contact the park’s Chief of Resource Management.

Removal may not be for commercial purposes/uses. Removal is limited to the use of any non-mechanized means such as small, single person, hand-operated garden tools.

_The restrictions listed above are necessary to allow the park to adhere to its mandate of protecting these resources for wildlife (ōhelo), future generations and for the safety of park visitors and employees._

**36 CFR §2.2 -WILDLIFE PROTECTION**

The transporting of lawfully taken wildlife through the park is permitted under the following conditions and procedures:

- Wildlife, which is legally taken from outside the boundaries of the park, may be transported through the park in an expeditious manner. This will usually entail the hunter or fisherman driving through the park on Highway 11. The hunter/fisherman must have
supporting documentation that the wildlife was properly taken such as animal tags, hunting permits, licenses, etc.

*To allow reasonable access to other parts of Hawai‘i Island while traveling on park roads that are also designated as a state highway.*

- The entire park is closed to viewing wildlife by the use of any artificial light with the exception of authorized Resource Management crews engaged in the removal of non-native species or for bona fide activities necessary for park management.

*Artificial light interferes with the protection of park wildlife.*

### 36 CFR §2.4 - WEAPONS, TRAPS, AND NETS

- Persons are prohibited from possessing any net other than a legal-sized throw net in the coastal area of the park.

*To protect marine resources adjacent to the park and comply with state of Hawai‘i Conservation laws. See Section 1.5 of the Compendium for specific restrictions.*

- There are no public firearm ranges in Hawai‘i Volcanoes National Park.
- Hunting is prohibited with the exception of controlled resource management activities as hunting conflicts with park management practices.

- Persons authorized to carry firearms or with Hawai‘i State Concealed Carry Permits are allowed to possess firearms in compliance with federal and state law. They are prohibited from discharging any weapons and possessing firearms in buildings where federal employees work.

In all other cases, a permit is required to possess a weapon, trap or net. The Superintendent will only issue a permit to carry or possess a weapon, trap or net under the following circumstances:

1. For authorized agents (qualified volunteers) in support of approved/permitted research activities or who are a part of the park’s ungulate reduction program may possess specific weapons authorized under the permit or program.

2. To persons in charge of pack trains or saddle horses for emergency use.

3. For employees, agents or cooperating officials for official duty.

4. To provide access to otherwise inaccessible lands or waters that are contiguous to the park when other means of access are impractical or impossible.

5. All federal, military, state and local law enforcement officers retired or active duty who are authorized to carry defensive equipment in accordance with their individual agency's defensive equipment policies, so long as:

   a) Carrying such equipment is in accordance with all MOUs agreed upon by each agency.
b) Such officers are acting in an official capacity and/or are required or permitted to carry defensive equipment during “off duty” status.

c) On-duty military personnel, where the weapon is required in the performance of their duty.

36 CFR §2.10- CAMPING and FOOD STORAGE

- All overnight backcountry use requires a written permit. An administrative fee per permit is collected by the park. Backcountry is defined for this purpose as any area of the park more than one mile from a developed area and more than one mile from a paved road.

Permits are a necessary way for the park to monitor activities that may adversely impact park resources or jeopardize the safety of visitors.

- The following areas with designated camping are limited to 16 persons in combination with all other permits for that site: ‘Āpua, Keauhou, Halapē, Ka’aha, Nāpau, and the Great Crack, as well as outside at Mauna Loa, Pu’u’ula’ula (aka Red Hill), and Pepeiao cabins.

- The use of the cabins also requires a backcountry permit and the use limits apply as outlined in Section 1.5.

- Overnight use in the developed road accessible campground Kulanaokuaiki requires a written permit for which there is an administrative fee collected by the park.

Permits are a necessary way for the park to monitor activities that may adversely impact park resources or jeopardize the safety of visitors.

- Except as permitted in group campsites, the number of campers is limited to six persons or all members of an immediate family, and only one vehicle per site in the developed campgrounds.

- No person, group or organization shall camp anywhere in the park for more than a total of 30 days per calendar year, or more than seven nights within a 30-day period at a developed, road-accessible campground, without a special use permit.

- No person, group or organization shall camp at any backcountry destination for more than three consecutive nights. (See above for “backcountry” definition).

Note: Namakanipaio Campground is managed by Volcano House concessions.

Limits are necessary to prevent resource degradation by excessive trampling and preservation of solitude by restricting the amount of people utilizing popular areas.

36 CFR §2.11 - PICNICKING

Areas Closed to Picnicking: (Picnicking is allowed unless it is listed here.)
• Within the area assigned for the Volcano House concession operation, unless authorized by the Hawai‘i Volcanoes Lodge Company. Although these areas are on NPS lands, they are assigned to the company. (Namakanipaio)

• Within the area assigned to the Kilauea Military Camp (KMC), unless authorized by KMC. Although this area is on NPS land, it is administered by the Department of Defense through the Department of Morale, Welfare and Recreation (MWR) under a Special Use Permit (SUP). As of May 2016, the ball field area is no longer part of KMC operations.

• Within any NPS residential, maintenance, service, or utility area unless sponsored and accompanied by an NPS employee or resident of the park.

In order to respect the privacy of residence, the safe and orderly operation of park facilities, and in recognition of the area administration agreements of park partners.

36 CFR 2.12- AUDITORY DISTURBANCES

Motor Vehicles and Buses:

• Commercial buses may leave engines running for not more than three minutes providing the noise level does not exceed 60 decibels.

Necessary to reduce noise intrusion on the visitor experience.

36 CFR 2.13- FIRES

The lighting or maintaining of fires is generally prohibited, except as provided for in the following designated areas or receptacles, and under the conditions noted:

Designated Areas: Wood and briquette fires are allowed without a permit at the following locations:

- Kīpukapuaulu (aka Bird Park) Picnic Area fireplaces and fire grates.
- Nāmakanipaio Campground fireplaces and fire grates.
- Nāmakanipaio cabins fire grates.
- Kīlauea Overlook fire grates.
- Ball Field Picnic Area fireplaces and fire grates adjacent to Kilauea Military Camp.

Fueled stoves may be used but ONLY in the following areas:
- Developed campgrounds.
- Picnic areas where there are established picnic tables.
- Backcountry campsites with a Backcountry Use Permit.
- Kāhuku picnic area located in the fields adjacent to the visitor contact station that extends to the boundaries of the forested areas and up to, but not including Pu‘u o Lokuana. Stoves must be attended at all times and away from tall grasses.

(Note: If fire danger is “High” or greater within the park, fire use may be further restricted or prohibited by the posting of appropriate signs, website alerts, and the issuance of news releases.)
Receptacles Allowed:

Only provided fire grates and fireplaces at the above locations are allowed.

Conditions for Fires:

The following roads and areas may be closed to vehicular traffic in times of high fire danger.

- Mauna Loa Road
- Hilina Pali Road

Fires may burn out of control and destroy or damage park resources.

36 CFR §2.15- PETS

NOTE: Service Animals are excluded in sections pertaining to “PETS.” However, Service Animals are prohibited from areas where their presence will be detrimental to park resource management programs.

Pets are **PROHIBITED** in the following areas:

- In all undeveloped areas of the park, including all designated wilderness areas and backcountry trails.
- On all front-country trails, including unpaved and paved trails and trails with boardwalks.
- On all roads marked on the map as “Roads” that are only used for authorized vehicles. Roads intended for administrative use are considered "trails" and are therefore closed to pets.
- Along Chain of Craters Road from Pu‘u Loa Petroglyphs to the eastern park boundary, in order to protect the federally endangered nēnē (Hawaiian goose).
- On the ʻĀinahou access road.
- On the entire Hilina Pali Road (including Kulanaokuaiki Campground and Kīpuka Nēnē) in order to protect the federally endangered nēnē (Hawaiian goose).

Pets on a leash that is a maximum of six feet in length are **PERMITTED** in the following areas (See Map F):

Kilueua District:

- At all parking areas and surrounding curbs, excluding any parking areas on Hilina Pali Road.
- On Crater Rim Drive, in areas open to vehicles.
- On Chain of Craters Road down to Pu'u Loa Petroglyphs.
- At Nāmakanipaio Campground.
- On Mauna Loa Road (also called the “Strip” Road).
- On Highway 11.
- At the Kilauea Military Camp:
  - On paved roads and parking areas.
  - At the picnic area, up to the park ball field gate, not including the ballfield.
Kahuku Unit:

- In developed areas that include the open fields adjacent to the Visitor Contact Station and other park buildings and the area that extends to the boundary of the forested areas up to and not including Pu‘u o Lokuana.
- On Kahuku Road from Highway 11 to the cross fence gate on Kahuku Road, including the airstrip by the intersection of Pu‘u o Lokuana.
- Old Mamalahoa Highway spur road.

All areas not mentioned in the “Open” Section above are closed. Additional temporary closures may be made to protect wildlife and will be documented by a memo from the Superintendent.

Pets May be Kept by Park Residents under the Following Conditions:

- Pets kept by park residents must be in compliance with the “Park Wide Resident Pet Policy.” The “Park Wide Resident Pet Policy” applies to all residents/occupants of any quarters within the park regardless of location, ownership or employer.

Pets, even leashed pets, have been known to attack park wildlife, cause conflict with other animals, interfere with opportunities for solitude and may present a safety problem to humans.

36 CFR §2.16- HORSES and PACK ANIMALS

The following animals are designated as pack animals:

For the purposes of this Compendium, saddle and pack animals include horses, burros, mules, and donkeys. The use of dogs, llamas and other animals for transportation or the packing of supplies is prohibited. (See Map E)

To prevent trail and resource damage, stock use is PROHIBITED on the following trails:
- Halema‘uma‘u Trail
- Byron Ledge Trail
- Devastation Trail
- Kipukapaauulu (aka Bird Park)
- Crater Rim Trail from the Kīlauea Military Camp north via the Kīlauea Visitor Center area to Thurston Lava Tube (aka Nāhuku).
- Crater Rim Trail south of the Escape Road.
- In the ‘Ōla‘a Tract
- Between Pu‘u‘ula‘ula (aka Red Hill) and the summit of Mauna Loa.
- Nāpau Crater Trail

Free-trailing or loose-herding is PROHIBITED in Hawai‘i Volcanoes National Park.

Other conditions concerning the use of horses or pack animals:

- Individuals using stock in gated areas must secure all gates after passing to maintain integrity of fenced feral animal control areas.

- Stock is prohibited on paved roads except that which is minimally needed to transition from a trailer to a trail or between two designated backcountry horse use areas.
• Saddle and pack animals are required to stay on established trails for safety and resource protection.

• To prevent resource damage, no more than six stock animals are allowed per group and/or destination regardless of day use or overnight use.

• The overnight or long term (over one hour) tethering of stock to standing trees, either living or dead, is prohibited.

• Stock use at ‘Āinahou is subject to seasonal closure and is restricted to the ‘Āinahou access road only. The ‘Āinahou House, nēnē pens and associated pastures are closed to stock use. See Map B and page 3 General Provisions, Closures 4 for further information.

• All stock must be tethered at park-installed hitching posts if available, or picketed at least 100 feet from any structure or obvious camping site in the backcountry.

• Stock may not enter any beach area or brackish water pond.

• All stock is strictly prohibited at Nāmakanipaio Campground.

• All stock are strictly prohibited anywhere within the Kahuku Unit.

• All stock is strictly prohibited on the gravel Chain of Craters-Kalapana Road.

Stock regulations are in place to limit impacts from pack animals on the natural and cultural resources of Hawai‘i Volcanoes National Park while allowing for public stock use. These regulations balance stock use with other recreational uses and restrict use in areas where impacts to resources are likely to occur.

36 CFR §2.17- AIRCRAFT and AIR DELIVERY

• Hang gliding, paragliding, ultra-light aircraft, base jumping, bungee jumping, and hot air balloons: the use of parachutes or other airborne means are prohibited by 36 CFR 2.17 (3). In addition, these uses pose safety and user conflict concerns and do not contribute to public use and enjoyment of the park.

• The procedures for removing any downed aircraft and/or component parts from within the park are outlined as follows; a permit meeting the following stipulations is required:

1) Prior to starting removal operations, the owner(s) of the aircraft or their designated representatives must present a detailed written removal plan to the park's Superintendent that includes mitigations to protect the safety of all exposed to risk and reduce adverse impacts to park resources.

2) Once the proposed plan is submitted, the Superintendent will designate the appropriate park employee(s) to review the plan. This review will include the following:

   a. Past work history of the organization(s) involved.
   b. Proposed date, time, and duration of the removal process.
   c. Possible impacts on the park or park resources, facilities, visitor use and the personal safety of the parties involved.
d. The Superintendent reserves the right to require participation in the removal plan/operations of as many park employees as they deem necessary to ensure compliance with the terms and conditions of the removal permit, safeguard park resources, minimize environmental damage, and ensure the personal safety of all parties involved.

e. The additional costs associated with the assignment of park employees and/or equipment will be paid for by the owner(s) of the aircraft and not the National Park Service, except for normal cost associated with the administration and operation of the park.

f. The Superintendent or their designee may modify, stop, change, or require additional actions, equipment, or personnel at any time during the removal process based upon unforeseen circumstances. All additions and requirements to the removal plan/operations will be borne by the owner(s) of the aircraft and not the National Park Service.

NOTE: Section (c) (1) authorizes the Superintendent to establish procedures for the removal of an aircraft, establish a timeframe for the removal, determine times and means of access to the site, and specify the manner or method of removal. The intent of this section is to allow Superintendent’s control over the recovery of downed aircraft through a permitting process. [48 FR 30268, June 30, 1983].

36 CFR §2.18 - SNOWMOBILES

Snowmobiles and their use are prohibited in Hawai‘i Volcanoes National Park.

There are no designated snowmobile routes in Hawai‘i Volcanoes National Park, as snowline is within the park's designated wilderness area.

36 CFR §2.20- SKATING, SKATEBOARDS and SIMILAR DEVICES

The use of roller skates skateboards, roller skis, coasting vehicles, or similar devices are allowed in the following areas:

- The paved Government Residential Area.
- The paved areas of Kilauea Military Camp (for camp guests).
- The paved and untraveled portions of parking lots.

36 CFR §2.21 - SMOKING

The following portions of the park, or all or portions of buildings, structures or facilities are closed to smoking:

- Smoking refers to all forms of tobacco or similar products including electronic cigarettes and similar nicotine delivery systems.

Smoking is PROHIBITED in the following locations:

- All enclosed government buildings, including residences.
- All of Volcano Art Center.
- All areas within the Volcano House.
- All areas of the park designated by the Superintendent as closed due to high fire danger.
- Within 20 feet of any building entrance, window or ventilation duct.
-On all unpaved trails.

**Note:** Smoking is allowed at backcountry camping areas unless in an area closed due to fire danger. All cigarette butts must be packed out.

*Smoke from burning tobacco and vapors from e-cigarettes may contain harmful substances. Electronic cigarettes contain at least 10 chemicals known to cause cancer or birth defects. Restricting the use of e-cigarettes to areas where smoking is permitted is the least restrictive method of controlling while still allowing their use. Embers produced from cigarettes may burn out of control and destroy or damage park resources and property.*

36 CFR §2.22 - PROPERTY

The following describes areas where property may be left unattended for periods longer than 24 hours, and the conditions under which property may be left:

- Visitors on backcountry trips may leave their vehicles unattended for the period authorized in their Backcountry Use Permit at designated parking areas.

- No visitor’s property will be left unattended or stored at or in Kīlauea Visitor Center, Coastal Ranger Station and Kahuku Visitor Contact Station at any time.

- Geocaching is not allowed in the park. All geocaches will be considered unattended and abandoned property and will be removed.

*These restrictions are necessary to reduce the appearance of abandoned property and litter.*

36 CFR §2.23 - RECREATION FEES

Recreation fees, and/or a permit, in accordance with 36 CFR part 71, are established for the following entrance fee areas, and/or for the use of the following specialized sites, facilities, campgrounds, backcountry sites, equipment or services, or for participation in the following group activity, recreation events or specialized recreation uses:

A. **Entrance Fee Areas:**

The following admission fees for seven days are charged for entry to all areas of Hawai‘i Volcanoes National Park, admission fees may change without notice:

- $25.00 admits one single, private, non-commercial vehicle with a passenger capacity of less than 16. Valid passes accepted.
- $12.00 admits one individual when entering by foot or bicycle.
- $20.00 admits one motorcycle.
- $12.00 for each person on board for organized non-commercial groups (service organizations, scouts, church groups, and college/school clubs) and any non-commercial vehicle with a passenger capacity of 16 or more will be charged. Valid passes may be used as defined on the back of the pass.
• The following fees apply for commercial vehicles entering Hawai‘i Volcanoes National Park:
  $25 + $12 per person in a sedan with a capacity of 1-6 passengers.
  $75 per van with a capacity of 7-15 passengers.
  $100 per mini-bus with a capacity of 16-25 passengers.
  $200 per bus with a capacity of 26+ passengers.
  $12 per passenger for non-road-based commercial tours.

B. Exceptions to Fee Charges

1) No fee is charged for the admission of any person 15 years of age or younger.

2) An educational fee waiver may be granted to schools or bona fide academic institutions that are conducting outings for non-commercial educational purposes.

3) Persons holding valid Golden Age or Golden Access Passes, Interagency Senior, Interagency Access and Interagency Annual Passes, Interagency Military Passes, Interagency Volunteer passes, Hawai‘i Tri-Park Annual Pass, Every Kid in a Park Fourth-Grade Pass, or any other specialty pass authorized by the Department of Interior or the Director of the National Park Service and persons accompanying any of these pass holders in a single private, non-commercial vehicle, are not charged an admission fee.

The collection of recreation fees will be suspended during the following periods in 2019:
- Monday, January 21 – Martin Luther King, Jr. Day
- Saturday, April 20 – Start of National Park Week/Junior Ranger Day
- Hawai‘i Volcanoes National Park Cultural Festival July 13
- Sunday, August 25 – National Park Service Anniversary
- Saturday, September 28 – National Public Lands Day
- Monday, November 11 – Veterans Day
- Other days as specially designated.

4) Kahuku Unit

C. Aircraft Fees:

The following fees for tour aircraft apply to tour passengers aboard aircraft that fly within the boundaries of Hawai‘i Volcanoes National Park.
  $25 per aircraft per flight over the park for aircraft with between 1-25 passengers.
  $50 per aircraft per flight for aircraft that have 26 or more passengers.

D. Backcountry and NPS-Run Campgrounds:

The following fees apply to backcountry camping:

$10 fee per backcountry site per permit for overnight backcountry camping with a limit of three consecutive nights in one site and no more than seven consecutive nights for the entire length of the permit.

The following fees apply to camping at Kulanaokuaiki:
$10 fee for overnight camping per site per night with a limit of seven consecutive nights.
36 CFR §2.35 - ALCOHOLIC BEVERAGES and CONTROLLED SUBSTANCES

The following public use areas, portions of public use areas, and/or public facilities within the park are CLOSED to consumption of alcoholic beverages, and/or to the possession of a bottle, can or other receptacle containing an alcoholic beverage that is open, or has been opened, or whose seal has been broken or the contents of which have been partially removed:

• All park public buildings except under the terms of a permit or contract issued by the Superintendent. For the purpose of this regulation, open picnic shelters are not considered park buildings.

The consumption of alcohol at these locations has interfered with the enjoyment of the park by others. These restrictions are necessary to maintain order and provide for visitor safety.

36 CFR §2.51 - PUBLIC ASSEMBLIES, MEETINGS

The following areas are designated for public assemblies and or meetings:

• Kīlauea Visitor Center: There are two areas designated for this purpose. 1) On the section of lawn at the west end of the Visitor Center bordered to the north by Volcano Art Center to Kīlauea Visitor Center sidewalk, bordered to the east by the same sidewalk, bordered to the south by the rock wall that separates the paved area from the grass above and bordered to the west by the tour bus parking area. 2) A second area is designated to the west of this site for use when area 1 is occupied or for other reasons determined by park management. (See Map C).

• Kahuku Unit: There are two areas designated for this purpose. 1) The area north of the Visitor Contact Station parking area and along the west side of Kahuku Road, approximately 15 feet by 15 feet. 2) The area south of the Visitor Contact Station and along the east side of Kahuku Road, approximately 15 feet by 15 feet when area 1 is occupied or for other reasons determined by park management (See Map D).

• Groups larger than 25 people must obtain a Special Use Permit. A group with 25 or fewer, no permit is needed.

• Public assembly will be confined to the above-described areas only and will not include any paved walkways adjacent to those sections described.

Limits are necessary to prevent resource degradation by excessive trampling, to reduce conflicts between user groups, and to mitigate the hazards associated with crowd and traffic control.

36 CFR §2.52 - SALE OR DISTRIBUTION OF PRINTED MATTER

The following areas are currently designated for the sale and/or distribution of printed matter, provided a permit to do so has been issued by the Superintendent:

• Kīlauea Visitor Center: There are two areas designated for this purpose. 1) On the section of lawn at the west end of the Visitor Center bordered to the north by Volcano Art Center to Kīlauea Visitor Center sidewalk, bordered to the east by the same sidewalk,
bordered to the south by the rock wall that separates the paved area from the grass above and bordered to the west by the tour bus parking area. 2) A second area is designated to the west of this site for use when area 1 is occupied or for other reasons determined by park management. (See Map C).

• Kahuku Unit: There are two areas designated for this purpose. 1)The area north of the Visitor Contact Station parking area and along the west side of Kahuku Road, approximately 15 feet by 15 feet. 2) The area south of the Visitor Contact Station and along the east side of Kahuku Road, approximately 15 feet by 15 feet when area 1 is occupied or for other reasons determined by park management(See Map D)

• Distribution and sale of printed matter will be confined to the above-described areas only and will not include any paved walkways adjacent to those sections described. (See Map C and D)

• Other Areas: The Superintendent may designate other areas in writing though a SUP, Written Agreement, MOU, MOA or other similar administrative tools.

• All printed notices that are posted within the park must have prior written approval from the Superintendent. The written approval will designate the location(s), duration, removal, and clean up procedures for each notice.

36 CFR. §2.62 - MEMORIALIZATION

§2.62 (a) Monuments: The construction of monuments requires the approval of the Regional Director.

§2.62 (b) Scattering of Ashes: The scattering of human ashes from lawful cremation requires a written permit issued by the Superintendent in conformance with Part 1 of this chapter and under the following conditions:

Requests
The written request for the scattering of ashes shall set forth the following:
- Name of applicant.
- Name of deceased.
- Date, time, and duration of the ceremony or actual scattering of the ashes.
- Estimated number of persons involved and/or attending ceremony.
- The specific location where the ashes are to be scattered.
- Any other specific details of the ceremony that would require park management attention or approval.
- Written requests for the scattering of ashes shall include a certified copy of the death certificate for the deceased, issued by the State or legal authority having lawful jurisdiction over such matters.

Locations
The scattering of ashes is permitted only at the following locations:
- Kīlauea Overlook
- Kīlauea Iki Overlook
- Hilina Pali Overlook
- Kipukapuaulu (aka Bird Park)
- Coastal areas accessed by Chain of Craters Road
- Hōlei Pali Overlook
- Pit crater overlooks

Scattering must take place in such a manner and in such a location that the ashes will not be located and identified as human remains.

- No memorials (including rock piles), plaques, photos, or flowers will be left in the park.
- The permittee recognizes and is aware of the sensitivity of this activity and agrees to perform it in a discreet and private manner.
- Established entrance fees are required and this permit does not waive those fees.
- All local, state, and federal rules and regulations must be followed.
- The Superintendent, within their discretion, may prohibit the scattering of ashes at specific points within the park.
- Scattering is not permitted at or in Halemaʻumaʻu Crater.
- Violation of the terms and conditions of the memorialization permit may result in the immediate revocation of the permit and/or other law enforcement action.
- The burial of human remains or partial remains that have not been lawfully cremated is prohibited.

36 CFR PART IV. VEHICLES AND TRAFFIC SAFETY

Motor Vehicle
Motor vehicles are defined as every vehicle that is self-propelled and every vehicle that is propelled by electric power (includes “Segways, powered scooters, powered skateboards and etc..”), except for motorized wheelchairs and ebikes.

36 CFR § 4.10-TRAVEL ON PARK ROADS

• All off-road vehicle travel is prohibited in the park.

Because of potential adverse effects to soils, native vegetation, areas of cultural significance, conflicts with other park uses and activities, and safety concerns. ATVs/UHVs are not allowed in the park in accordance with State and park regulations. Under Hawai‘i State Law (HRS 286-291), these vehicles cannot be registered, do not possess the necessary equipment to allow on roadways, and are therefore not street legal in Hawai‘i Volcanoes National Park (36 CFR 4.2).

36 CFR §4.21 - SPEED LIMITS

The following speed limits are established for the routes/roads indicated:

- Highway 11, 45 mph, between the Volcano (Eastern) Boundary and MM 37.
- Highway 11, 55 mph, between the Western Boundary and MM 37.
- Crater Rim Drive, speeds range from 15 mph to 35 mph.
- Hilina Pali Road, 25 mph.
- Mauna Loa Road, speeds range from 15 mph to 35 mph.
- Chain of Craters Road, speeds range from 15 mph to 35 mph.
- Kahuku Road, 15 mph, between Highway 11 and Upper Glover Trailhead.

Speed limits will be considered in effect with the posting on fixed posts of white and black signs reflecting national standards for signage. Temporary speed limits may be designated for a known
hazard by posting regulatory signs on temporary A frames or similar devices and by notification to park employees and cooperators via email or written letter.

*The roads at Hawai‘i Volcanoes maybe steep, narrow and winding; vehicles cannot safely negotiate turns at higher speeds. The lower speed limits are necessary to reduce risk of personal injury and damage to property and the natural and cultural resources.*

**36 CFR §4.30 - BICYCLES**

*(Park roads and parking areas that are closed to bicycle use are listed in section 1.5 of this document.)*

**Trails Closed to Bicycle Use:**

All Kīlauea, Great Crack and Kahuku frontcountry and backcountry trails are closed to bicycle use with the exceptions listed in Section IV 4.30(b) of this Compendium.

The following routes, in developed areas or special use zones, have been designated and **PERMITTED** in the following areas for bicycle use *(see Map G, H & I):*

- The “Eruption Escape Road” from Crater Rim Drive and Highway 11 access points to Chain of Craters Road at Mauna Ulu.
- The Mauna Loa Stable Service Road which starts on the Tree Molds Road.
- The fuel break road which branches east from the Stable Service Road and ends at the Volcano Winery fence, and the section of the Fuel Break Road that branches west and ends at the Kipukapuaulu Picnic Area.
- Visitors may dismount and walk their bikes between the Volcano Golf Course (at the cell tower) on the short section of trail that leads to Tree Molds access road.
- The Fuel Break Roads on Mauna Loa Road, from the Keauhou Ranch fence to the Kapāpala Ranch fence.
- The power line road across from the Keauhou Ranch Fence to the Kapāpala Ranch fence.
- All paved roads opened to visitor vehicle traffic in the Kīlauea District and Kahuku Unit.
- On the gravel portion of the Chain of Craters-Kalapana Road (along the coast; recommended for experienced bikers only).
- Kahuku Road from Highway 11 to the upper junction of Palm Trail, including Palm Trail and old Mamalahoa Highway spur road.
- Crater Rim Drive section between Chain of Craters intersection to Keanakāko‘i Crater.
• On Crater Rim Trail between Volcano House and the Resource Management road.

_The Superintendent has determined that bicycles may cause excessive erosion to trails and that the recreational aspect of “mountain biking” conflicts with user groups seeking solitude and to limit the risk of serious injury to bicyclist, pedestrians or wildlife._

**36 CFR §4.31 - HITCHHIKING**

Hitchhiking is permitted in the following areas under the terms and conditions noted:

• Persons must stand off of roadway and not impede motor vehicle, bicycle or pedestrian movement.

• Persons will not solicit rides through intimidation, by approaching parked or stopped occupied vehicles, or by face-to-face solicitation of rides while in visitor parking lots.

• Law Enforcement Park Rangers may require hitchhikers to move or to cease the activity at any time such activity creates a public safety hazard or interferes with the orderly management of the park. [36 CFR 1. 5 (a) (2)].

**36 CFR PART VII. SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM**

**36 CFR 7.25- HAWAI‘I VOLCANOES NATIONAL PARK**

• Fishing
  
  (1) Commercial fishing from parklands (above the high waterline) is prohibited except as provided for below.

  _To reduce the destruction of marine resources adjacent to the park._

  (2) Nets: the use of nets in fishing from parklands (above the high waterline), except for throw nets, is prohibited.

  _To reduce the destruction of marine resources adjacent to the park._

  (3) Kalapana extension area; special fishing privileges.

  (i) Pursuant to the act of June 20, 1938 (52 Stat. 781; 16 U.S. C. 391b and 396a) Native Hawaiian residents of the villages adjacent to the Kalapana extension area added to the park by the above act and visitors under their guidance are granted the exclusive privileges of fishing or gathering seafood from parklands (above the high waterline) along the coastline of such extension area. These persons may engage in commercial fishing under proper State permit.

  (ii) For the purpose of this section. The term "Native Hawaiian" means any descendent of not less than one-half part of the blood of the races inhabiting the Hawaiian Islands previous to 1778 (52 Stat. 784; 16 U.S.C. 396a).

The adjacent villages have been designated as Kapaʻahu, Kalapana, Kupahuʻa, Mokuhulu, Kaimū, Kēʻoekea and Kīkala-Kēʻoekea.
These restrictions are regulated by legislative agreements that were in effect when the National Park Service acquired the areas mentioned above.

**Closed Circuit Television (CCTV) Policy**

The National Park Service’s use of Closed Circuit Television (CCTV) for law enforcement and security purposes will only be to visually monitor public park areas, and public activities where no constitutionally protected reasonable expectation of privacy exists. Such CCTV use, which will have adequate privacy and First Amendment safeguards, will be to help ensure public safety and security; facilitate the detection, investigation, prevention and deterrence of terrorist attack and crime; help ensure the safety of citizens, employees and law enforcement officers; help assist in the proper allocation and deployment of law enforcement and public safety resources; help facilitate the protection of the innocent and the apprehension and prosecution of criminals. This policy does not restrict the official use of CCTV in government administrative areas including administrative buildings, jail holding facilities, revenue collection sites, etc., where the government may record/monitor its facilities. For example, the government may perform unrestricted video/audio recording at revenue collection points (entrance stations, visitor center counters, etc.). This policy does not restrict the use of an Audiovisual Recording Device (AVRD) in patrol vehicles or officer worn devices used by commissioned rangers. That use is addressed in NPS Reference Manual #9, Section 26 (aka RM 9). Recording devices will be located in a secure area that only authorized employees will have access to. A log will be maintained either at the location of the recording device or through a CAD entry with park dispatch and will contain the name, time, and date of the access.
Conditions for Research Permits to Access Closed Areas Due to Volcanic Activity (3/12)

Hawai‘i Volcanoes National Park will not authorize anyone with a research permit to enter a closed area due to volcanic hazards unless the information derived from the study will:

1) Directly contribute towards planning, mitigation, and better understanding of hazards within the park or surrounding communities.

2) Identify and prevent injuries from recognizable threats to the safety and health of persons.

The National Park Service is instructed to “work closely with specialists at the USGS and elsewhere...to devise effective geologic hazard identification and management strategies.” The information is used so that "park managers will understand future hazards and...minimize their potential impacts on visitors, staff and developed areas." (NPS Management Policies, 2006).

Research that does not meet the above criteria or that can be delayed will be denied until such time when hazard conditions have been mitigated based on evaluation by agencies responsible for monitoring such conditions. In addition, the following conditions must be met for conducting field research:

Conditions:

1. Persons may only enter the restricted area with approval by the Superintendent and under conditions specified by the Chief Ranger and Park Safety Officer. The permittee and associated group members acknowledge that they are entering hazardous areas at their own risk and initiative. The U.S. government will not be held liable for any injury, damage, or death resulting from the trip into, stays within, or returns from the areas allowed for access under this permit. Only individuals identified on the research permit will be authorized to enter the restricted area.

2. Each group is expected to have a personal operational S02 monitor and appropriate respirators associated with expected levels of S02. Participation in a respiratory safety program comparable to or exceeding NPS and USGS standards is required for use with respirators.

3. Real-time communication with NPS or USGS Hawaiian Volcano Observatory is required. A primary and back-up system utilizing radios, cell phones or satellite phones must be operational before entering restricted areas.

4. Pre-scheduled situation status reports will be conducted and immediate notification upon exiting the restricted area shall be performed with the appropriate agency (NPS or USGS). For USGS and Principal Investigators that required escort by USGS, USGS HVO will contact Pacific Area Communications Center (PACC) via phone to report staff entering Kīlauea Caldera Closed Area; they will report number of persons and vehicles. More specific Information is listed into the HVO log.

5. In restricted areas with elevated sulfur dioxide (S02) concentrations the following safety protocols must be followed for individuals with permits for this area. During fieldwork, each group will wear a minimum of one personal S02 monitor that allows them to measure S02 levels onsite. If the S02 levels exceed your respirator filter ratings, you must leave the area immediately.
6. The NPS will not authorize anyone to enter zones with ballistic hazard unless sanctioned by USGS HVO.

7. A list of people, vehicles and an itinerary with an expected time of return for every trip into restricted areas must be provided to the appropriate supporting agency (NPS or USGS).

8. Each permit shall be reviewed for impact to park resources.
MAP C

First Amendment Sites

Legend
- Killeen Voter Center
- Horseshoe Art Center Gallery
