A. INTRODUCTION

1. Superintendent's Compendium Described

The Superintendent's Compendium is the summary of park specific rules implemented under 36 Code of Federal Regulations (36 CFR). It serves as public notice, identifies areas closed for public use, provides a list of activities requiring either a special use permit or reservation, and elaborates on public use and resource protection regulations pertaining specifically to the administration of the park. The Superintendent's Compendium does not repeat regulations found in 36 CFR and other United States Code and CFR Titles, which are enforced without further elaboration at the park level.

The regulations contained in 36 CFR, Parts 1-7, are the basic mechanism used by the National Park Service (NPS) to preserve and protect the natural and cultural resources of the park and to protect visitors and property within the park. Parts 1 through 6 are general regulations applicable to all areas of the National Park system, and Part 7 contains special regulations specific to individual parks. Each of these Parts has many sections and subsections articulating specific provisions. Within some of these Part 1-7 sections and subsections, the Superintendent is granted discretionary authority to develop local rules to be responsive to the needs of a specific park resource or activity, park plan, program, and/or special needs of the general public.

As an example, 36 CFR 1.5(a) *Closures and Public Use Limits* provides the Superintendent certain discretion in allowing or disallowing certain activities. The authority granted by the Section, however, requires the Superintendent to comply with the Administrative Procedures Act (6 USC Section 551), which requires public notice on actions with major impact on visitor use patterns, park resources or those that are highly controversial in nature.

Another example is 36 CFR 1.6 *Permits*, which allows the Superintendent to require a permit for certain uses and activities in the park. This Section, however, requires that a list of activities needing a permit (and a fee schedule for the various types of permits) be maintained by the park.

A final example is 36 CFR 2.1(c) (1) *Preservation of Natural, Cultural and Archeological Resources*, which provides the Superintendent the authority to designate certain fruits, nuts, berries or unoccupied seashells which may be gathered by hand for personal use or consumption. This activity can occur, however, only if a written determination shows that the allowed activity does not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources.

This Compendium should be used in conjunction with Title 36 CFR, Parts 1-7, to more fully understand the regulations governing the use and enjoyment of all the areas of the national Park System.

A copy of Title 36, CFR, can be purchased from the U.S. Government Printing Office at:

2. Laws and Policies Allowing the Superintendent to Develop This Compendium

The National Park Service (NPS) is granted broad statutory authority under 16 United States Code (U.S.C.) Section 1 *et seq.* (Organic Act of 1916, as amended) to "...regulate the use of the Federal areas known as national parks, monuments, and reservations...by such means and measures as conform to the fundamental purposes of the said parks...which purpose is to conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment for future generations" (16 U.S.C. Section 1). In addition, the NPS Organic Act allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments, and reservations under the jurisdiction of the National Park Service" (16 U.S.C. Section 3).

In 1970, Congress amended the NPS Organic Act to clarify its intentions as to the overall mission of the NPS. Through the General Authorities Act of 1970 (16 U.S.C. Sections 1a1-1a8), Congress brought all areas administered by the NPS into one National Park System and directed the NPS to manage all areas under its administration consistent with the Organic Act of 1916.

In 1978, Congress amended the General Authorities Act of 1970 and reasserted System-wide the high standard of protection defined in the original Organic Act by stating "Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined by Section 1 of this Title, shall be consistent with and founded in the purpose established by Section 1 of this Title, to the common benefit of all people of the United States."

16 U.S.C. Section 1c defines the National Park System as "...any areas of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes."

In addition to the above statutory authority, the Superintendent is guided by established NPS policy as found in the *NPS Management Policies* (2006). The Superintendent is also guided by more specific policies promulgated by the Director, National Park Service, in the form of Director's Orders. As stated in the Management Policies, the primary responsibility of the NPS is to protect and preserve our national natural and cultural resources while providing for the enjoyment of these resources by visitor and other users, as long as use does not impair specific park resources or overall visitor experience. The appropriateness of any particular visitor use or recreational experience is resource-based and will vary from park to park; therefore, a use or activity that is appropriate in one park area may not be appropriate in another. The Superintendent is directed to analyze overall park use and determine if any particular use is appropriate. Where conflict arises between use and resource protection, where the Superintendent has a reasonable basis to believe a resource is or would become impaired, than that Superintendent is obliged to place limitations on public use.

3. Consistency of This Compendium with Applicable Federal Law and Requirements

The Superintendent's Compendium is not considered a significant rule requiring review by the Office of Management and Budget under Executive Order 12866. In addition, this Compendium will not have a significant economic effect on a number of small entities nor impose a significant cost on any local, state or tribal government or private organization, and therefore does not fall under the requirements of either the Regulatory Flexibility Act or the Unfunded Mandates Reform Act.

The actions and requirements described in this Compendium are found to be categorically excluded from further compliance with the procedural requirements of the National Environmental Policy Act (NEPA) in Department of the Interior (DOI) Guidelines 516 DM 6 and as such, an Environmental Assessment will not be prepared.

4. Development of the Requirements of the Superintendent's Compendium

As outlined above, the NPS has broad authority and responsibility to determine what types of uses and activities are appropriate in any particular National Park System area. The requirements of the Superintendent's Compendium are developed through an analysis and determination process. The decision criteria used during this process are:

- Is there use or activity consistent with the NPS Organic Act and NPS policy?
- Is the use or activity consistent and compatible with the park's enabling legislation, management objectives, and corresponding management plans?
- Will the use or activity damage the park's protected natural and cultural resources and other protected values?
- Will the use or activity disturb or be in conflict with wildlife, vegetation, and environmental protection actions and values?
- Will the use or activity conflict with or be incompatible with traditional park uses and activities?
- Will the use or activity compromise employee or public safety?

5. Applicability of the Compendium

The rules contained in this Compendium apply to all persons entering, using, visiting or otherwise present on Federally owned lands, including submerged lands, and waters administered by the NPS within the legislative boundaries of the park. This includes all waters subject to the jurisdiction of the United States, including all navigable waters.

6. Enforcement of Compendium Requirements

NPS Law Enforcement Park Rangers enforce the requirements of the United State Code, 36 CFR, and this Superintendent's Compendium.

7. Penalties for Not Adhering to the Compendium Requirements

A person who violates any provision of the regulations found in 36 CFR, Parts 1-7, or provisions of this Compendium, is subject to a fine as provided by law (18 U.S.C. 3571) up to \$5,000 for individuals and \$10,000 for organizations, or by imprisonment not exceeding six months (18 U.S.C. 3559), or both, and shall be adjudged to pay all court costs associated with any court proceedings. You may receive a list of fines associated with any particular provision by contacting the Chief Ranger at the park address found below.

8. Comments on the Compendium

The Compendium is reviewed annually and revised as necessary. The park welcomes comments about its program and activities at any time.

9. Effective Date of the Superintendent Compendium

The Superintendent's Compendium is effective on the approval date listed on the first page of this document, and remains in effect until revised for a period up to one year.

10. Additional Information

Some of the terms used in this Compendium may have specific meaning defined in 36 CFR 1.4 *Definitions*.

11. Availability

Copies of the Compendium are available at 4097 Albany Post Rd, Hyde Park, NY 12538. It may also be found at <https://www.nps.gov/hofr/index.htm>

Recreational Activities, Other

Recreational activities are prohibited in the following areas: from the Visitor Center south to the Italian Gardens including the circular lawn in front of the Vanderbilt Mansion; within 200 feet of the core historic areas including FDR's Home and Gravesite, Val-Kill and Top Cottage. - Launching, landing, or operating an uncrewed or remotely piloted aircraft from or on lands and waters administered by the National Park Service within the boundaries of Home of Franklin D. Roosevelt, Eleanor Roosevelt, or Vanderbilt Mansion National Historic Site is prohibited except as approved in writing by the superintendent.

Justification: *This restriction is necessary to prevent unacceptable impacts to park resources and values from the use of uncrewed aircraft. Potential impacts include harming visitors, interfering with rescue operations, causing excessive noise, impacting viewsheds, and disturbing wildlife. This restriction is required by NPS Reference Manual #60: Aviation Management, Chapter 12 – Uncrewed Aircraft Systems.*

Segways

- The use of Segways and similar devices in lieu of manual or motorized wheelchairs is allowed by persons with disabilities who would otherwise only have the option of using a manual or powered wheelchair.

Justification: *Segways are not appropriate for use by non-handicapped visitors in an historic setting mixed with pedestrians. The NPS ensures that those with disabilities have the highest level of accessibility that is reasonable to our programs, facilities, and services in conformance with applicable regulations and standards.*

- Segways may not be operated at speeds greater than 2-3 mph, the equivalent of a walking pedestrian.

Justification: *The safe operation of Segways and similar devices is dependent on their integration into the normal flow of pedestrian traffic.*

CCTV Policy Statement

In accordance with National Park Service Law Enforcement Reference Manual 9 (RM-9), notice is hereby given that Home of Franklin D. Roosevelt National Historic Site uses Closed Circuit Television (CCTV) security camera monitoring.

The park's use of Closed Circuit Television (CCTV) for law enforcement and security purposes will only be to visually monitor public park areas and public activities where no constitutionally protected reasonable expectation of privacy exists. Such CCTV use – which will have adequate privacy and First Amendment safeguards – will be to help ensure public safety and security; facilitate the detection, investigation, prevention, and deterrence of terrorist attack and crime; help ensure the safety of citizens and officers; help assist in the proper allocation and deployment of law enforcement and public safety resources; and help facilitate the protection of the innocent and the apprehension and prosecution of criminals. (RM-9, 26.1)

This policy does not restrict the official use of CCTV in government administrative areas, including administrative buildings, jail holding facilities (RM-9, 26.3.7), revenue collection sites, etc., where the government may record/monitor its facilities. For example, the government may perform unrestricted video/audio recording at revenue collection points (entrance stations, visitor center counters, etc.). This policy does not restrict the use of an Audio/Visual Recording Device (AVRD) in patrol vehicles or officer-worn recording devices used by commissioned rangers. (RM-9, 26.1).

Operation of CCTV cameras, maintenance of recorded images and use of recorded images will be in accordance with NPS and Department policy and applicable laws and regulations. (RM-9, 26.1-26.4) No person will be targeted or monitored merely because of race, religion, gender, sex, disability, national origin, or political affiliation or views. (RM-9, 26.4.2)

Nothing in this policy statement is intended to create any rights, privileges, or benefits not otherwise recognized by law.

II. 36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

Engaging in the following activities without first obtaining the required permit is prohibited:

- Carrying or possession of a weapon, trap, or net unless necessary to support §2.5 activities, **36 CFR §2.4(d)(1)**
- Collecting research specimens (plants, fish, wildlife, rocks, or minerals), **36 CFR §2.5(a)**
- Operating an unauthorized public address system in connection with a public gathering or special event for which a permit has been issued pursuant to §2.50 or §2.51, **36 CFR §2.12(a)(4)**
- Aircraft and Air Delivery
 - Delivery or retrieval of a person or object by parachute, helicopter, or other airborne means, **36 CFR §2.17(a)(3)**
 - Removal of downed aircraft, **36 CFR §2.12(c)(1)**
- Noncommercial soliciting, 36 CFR §2.37
- Explosives
 - Using, possessing, storing, or transporting explosives, blasting agents, or explosive materials, **36 CFR §2.38(a)**
 - Using or possessing fireworks **36 CFR §2.38(b)**
- Conduct a sports event, pageant, regatta, public spectator attraction, entertainment, ceremony, and similar events, **36 CFR §2.50(a)**
- Public assemblies, meetings, gatherings, demonstrations, parades, and other public expressions for groups greater than 25 people, **36 CFR §2.51(a)**

- Sale or distribution of printed matter for groups greater than 25 people, **36 CFR §2.52(a)**
- Memorialization - Scattering of human ashes or remains, leaving markers, tributes or memorials **36 CFR §2.62(b)**
- Engaging in or soliciting any business (requires a permit, contract, or other written agreement with the U.S.), **36 CFR §5.3**
- Construction of buildings, or other structures, boats, docks, road, trails, paths, etc. **36 CFR §5.7**
- Filming, still photography, and audio recording activity may require a permit, consistent with 54 U.S.C. 100905.
- Filming, still photography, and audio recording activity that occurs in closed areas, requires exclusive use of a site or area, or involves a set or staging equipment other than handheld equipment (such as a tripod, monopod, and handheld lighting equipment) requires a permit, unless the activity is affiliated with an activity or event that has been allowed under a written authorization, such as a special use permit.
- Filming, still photography, and audio recording that involves more than eight individuals requires a permit, unless the NPS has specifically notified an individual or group that a permit is not required, or if the activity is affiliated with an activity or event that has been allowed under a written authorization, such as a special use permit.
- If a permit is required for the reasons stated above, or if the NPS otherwise determines and then notifies an individual or group that a permit is required for a filming, still photography, or audio recording activity, then engaging in that activity without a permit is prohibited. Violating a term or condition of a permit issued by the NPS for a filming, still photography, or audio recording activity is prohibited, and may result in the suspension or revocation of the permit, in addition to any penalties that may apply under 36 CFR 1.3.

Federal law at 54 U.S.C. 100905 states that permits and fees are not required for filming, still photography, or audio recording in park areas if certain requirements are met. These requirements address various topics, including, but not limited to, group size, location, equipment, potential impacts to resources and visitors, and the likelihood that the NPS will incur related administrative costs. If any of these requirements are not met, the law allows the Secretary of the Interior, acting through the NPS, to require a permit for the subject activity. Permit requirements are imposed by the superintendent under discretionary authority provided by 36 CFR 1.5(a)(2), which allows the superintendent to impose conditions or restrictions on a use or activity, consistent with applicable legislation, to implement management responsibilities. The general regulations for permits in 36 CFR 1.6 do not apply to permits issued for filming, still photography, and audio recording, which instead are governed by the statutory provisions in 54 U.S.C. 100905. The imposition of permit requirements, on a case-by-case basis, for filming, still photography, or audio recording does not require rulemaking under 36 CFR 1.5(b). Requiring a permit with reasonable terms and conditions in accordance with statutory requirements at 54 U.S.C. 100905 is not highly controversial, will not result in a significant alteration in the public use pattern of the System unit, will not adversely affect the System unit's natural, aesthetic, scenic or cultural values, or require a long-term or significant modification in the resource management objectives of the System unit, because the permit requirement is limited in time and scope to the specific activities authorized by the permit, which contain terms and conditions that protect the values, resources, and visitors of the System unit, and implements federal law. 36 CFR 1.6(f) – Activities that require a permit

- Some filming, still photography, and audio recording (depends upon the facts and circumstances; contact the park for more information). 36 CFR 1.5(a)(2) and 54 U.S.C. 100905.

III. GENERAL REGULATIONS

36 CFR §2.1 – PRESERVATION OF NATURAL, CULTURAL AND ARCHEOLOGICAL RESOURCES

- All areas of the park are closed to wood gathering **36 CFR § 2.1 (a)(4)**

Justification: Standing dead, down, and live wood provides habitat for cavity-nesting species and insects.

- Only one quart or less of native fruits, nuts, berries, or mushrooms may be gathered for personal consumption. Up to one standard grocery sack of fruit from propagated orchard trees may be collected and removed from the park for personal consumption. Fruit gathering is considered a recreational activity. Fruit harvested for resale or other commercial purposes is prohibited without a permit issued by the Superintendent. **36 CFR § 2.1 (c)(1), 36 CFR § 2.1 (c)(2)(i)**

Justification: Unrestricted collection could adversely impact plant propagation and/or wildlife food sources.

36 CFR §2.2 – WILDLIFE PROTECTION

- Hunting is not permitted on any park property **36 CFR § 2.2 (b)(2)**
- Trapping is not permitted on any park property **36 CFR § 2.2 (b)(3)**

Justification: Park lands are open and managed for recreation and wildlife. Hunting and trapping pose a risk to public safety and are counter to park wildlife management goals.

- Wildlife legally wounded outside the park in accordance with State hunting regulations may only be followed inside park boundaries, dispatched and removed from the park with an NPS Law Enforcement Ranger or Resource Management Specialist present. **36 CFR § 2.2 (d)**

Justification: The requirement to notify a Law Enforcement Ranger or Resource Management Specialist protects public safety and avoids unwarranted public accusation that an illegal hunt may have occurred in the park.

- Viewing of wildlife with an artificial light is prohibited throughout the entire park. **36 CFR § 2.2 (e)**

Justification: Wildlife viewing with an artificial light may disrupt natural wildlife activities and condition wildlife to human presence. This regulation also provides increased protection of wildlife from poaching activity.

36 CFR §2.3 – FISHING

- Non-conflicting New York state fishing laws and regulations apply throughout the park. **36 CFR § 2.3 (a)**
- Fishing with live or dead minnows or other bait fish, amphibians, non-preserved fish eggs or fish roe is prohibited. Other types of bait may be used in accordance with state law. **36 CFR § 2.3 (d)(2)**

Justification: Introduction of non-native species is detrimental to the ecosystem.

- Commercial fishing is prohibited in all areas of the park **36 CFR § 2.3 (d)(4)**

36 CFR §2.4 – WEAPONS, TRAPS, AND NETS

- Individuals are authorized to possess, carry, and transport concealed, loaded, and operable firearms within NPS areas in accordance with applicable state and federal law. Possession of firearms is prohibited in Federally-owned or leased buildings. The law regarding discharge of firearms remains unchanged. **36 CFR §2.4(h)**

Justification: This wording reflects implementation of 512, P.L. 111-24, Credit Card Accountability Responsibility and Disclosure Act of 2009, 123 Stat. 1764-65 § 512 effective February 22, 2010

36 CFR §2.10 – CAMPING

- All areas of Roosevelt-Vanderbilt NHS are closed to camping, **36 CFR § 2.10(a)**

Justification: Camping activities detract from the historic setting of the parks.

36 CFR §2.11 – PICNICKING

- The following areas are closed to picnicking:
 - Within 200 feet of the FDR Home and Gravesite.
 - The Pavilion (VAMA Visitor Center) south to the Italian Gardens including the circular lawn in front of the Vanderbilt Mansion.

Justification: Picnicking in close proximity to buildings detracts from the historic setting of the parks.

- Groups of 25 people or more require a permit to picnic on park grounds

Justification: Large groups require more oversight to avoid adverse impacts to park resources and operations.

36 CFR §2.13 – FIRES

- A fire may be ignited and maintained only through a propane grill and in picnic areas with tables, and outside park housing units. The use of Charcoal and open flame is prohibited. Lighting or maintaining a fire with other materials including, but not limited to, flammable liquids, garbage, fireworks, plastics, aerosol canisters, batteries, or other manufactured or synthetic materials, is prohibited. **36 CFR § 2.13(a)(1)**
- Fires are prohibited in all areas of the park during Red Flag Warnings **36 CFR § 2.13(c)**
- Lighting and maintaining any type of fire, including but not limited to cigarettes, candles, lanterns, grills, and stoves, is prohibited within any park building unless authorized by the Superintendent. **36 CFR § 2.13(a)(1)**

Justification: This action is necessary for the maintenance of public health and safety, protection of environmental or scenic values, protection of natural or cultural resources, and the implementation of management responsibilities. Materials other than approved combustibles – especially fire accelerants and substances prone to wind transport or explosion – creates serious risks when used to light or maintain fires. These combustibles can ignite or spread wildfires that directly threaten people and valuable resources and assets. The burning of manufactured or synthetic materials can contribute to air pollution, contaminate soil and water, and be toxic to humans and the environment. Less restrictive measures, such as an education campaign informing visitors of the risks of using certain materials to light or maintain a fire, would not be commensurate with the substantial risks associated with those activities and could lead to adverse outcomes that might be prevented by establishing an enforceable condition.
