Superintendent's Compendium
Designations, Closures, Permit Requirements and Other Restrictions Imposed Under Discretionary Authority.

Approved:

for Josie Fernandez, Superintendent **Date:** 1/30/12

A. INTRODUCTION

1. Superintendent's Compendium Described

The Superintendent's Compendium is the summary of park specific rules implemented under 36 Code of Federal Regulations (36 CFR). It serves as public notice, identifies areas closed for public use, provides a list of activities requiring either a special use permit or reservation, and elaborates on public use and resource protection regulations pertaining specifically to the administration of the park. The Superintendent's Compendium does not repeat regulations found in 36 CFR and other United States Code and CFR Titles, which are enforced without further elaboration at the park level.

The regulations contained in 36 CFR, Parts 1-7, are the basic mechanism used by the National Park Service (NPS) to preserve and protect the natural and cultural resources of the park and to protect visitors and property within the park. Parts 1 through 6 are general regulations applicable to all areas of the National Park system, and Part 7 contains special regulations specific to individual parks. Each of these Parts has many sections and subsections articulating specific provisions. Within some of these Part 1-7 sections and subsections, the Superintendent is granted discretionary authority to develop local rules to be responsive to the needs of a specific park resource or activity, park plan, program, and/or special needs of the general public.

As an example, 36 CFR 1.5(a) *Closures and Public Use Limits* provides the Superintendent certain discretion in allowing or disallowing certain activities. The authority granted by the Section, however, requires the Superintendent to comply with the Administrative Procedures Act (6 USC Section 551), which requires public notice on actions with major impact on visitor use patterns, park resources or those that are highly controversial in nature.

Another example is 36 CFR 1.6 *Permits*, which allows the Superintendent to require a permit for certain uses and activities in the park. This Section, however, requires that a list of activities needing a permit (and a fee schedule for the various types of permits) be maintained by the park.

A final example is 36 CFR 2.1(c) (1) *Preservation of Natural, Cultural and Archeological Resources*, which provides the Superintendent the authority to designate certain fruits, nuts, berries or unoccupied seashells which may be gathered by hand for personal use or consumption. This activity can occur, however, only if a written determination shows that the allowed activity does not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources.

This Compendium should be used in conjunction with Title 36 CFR, Parts 1-7, to more fully understand the regulations governing the use and enjoyment of all the areas of the National Park System.

2. Laws and Policies Allowing the Superintendent to Develop This Compendium

The National Park Service (NPS) is granted broad statutory authority under 16 United States Code (U.S.C.) Section 1 *et.seq.* (Organic Act of 1916, as amended) to "...regulate the use of the Federal areas known as national parks, monuments, and reservations...by such means and measures as conform to the fundamental purposes of the said parks...which purpose is to conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment for future generations" (16 U.S.C. Section 1). In addition, the NPS Organic Act allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments, and reservations under the jurisdiction of the National Park Service" (16 U.S.C. Section 3).

In 1970, Congress amended the NPS Organic Act to clarify its intentions as to the overall mission of the NPS. Through the General Authorities Act of 1970 (16 U.S.C. Sections 1a1-1a8), Congress brought all areas administered by the NPS into one National Park System and directed the NPS to manage all areas under its administration consistent with the Organic Act of 1916.

In 1978, Congress amended the General Authorities Act of 1970 and reasserted System-wide the high standard of protection defined in the original Organic Act by stating "Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined by Section 1 of this Title, shall be consistent with and founded in the purpose established by Section 1 of this Title, to the common benefit of all people of the United States."

16 U.S.C. Section 1c defines the National Park System as"...any areas of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes."

In addition to the above statutory authority, the Superintendent is guided by established NPS policy as found in the *NPS Management Policies* (2006). The Superintendent is also guided by more specific policies promulgated by the Director, National Park Service, in the form of Director's Orders. As stated in the Management Policies, the primary responsibility of the NPS is to protect and preserve our national natural and cultural resources while providing for the enjoyment of these resources by visitor and other users, as long as use does not impair specific park resources or overall visitor experience. The appropriateness of any particular visitor use or recreational experience is resource-based and will vary from park to park; therefore, a use or activity that is appropriate in one park area may not be appropriate in another. The Superintendent is directed to analyze overall park use and determine if any particular use is appropriate. Where conflict arises between use and resource protection, where the Superintendent has a reasonable basis to believe a resource is or would become impaired, than that Superintendent is obliged to place limitations on public use.

3. Consistency of This Compendium with Applicable Federal Law and Requirements

The Superintendent's Compendium is not considered a significant rule requiring review by the Office of Management and Budget under Executive Order 12866. In addition, this Compendium will not have a significant economic effect on a number of small entities nor impose a significant cost on any local, state or tribal government or private organization, and therefore does not fall under the requirements of either the Regulatory Flexibility Act or the Unfunded Mandates Reform Act.

The actions and requirements described in this Compendium are found to be categorically excluded from further compliance with the procedural requirements of the National Environmental Policy Act (NEPA) in Department of the Interior (DOI) Guidelines 516 DM 6 and as such, an Environmental Assessment will not be prepared.

4. Development of the Requirements of the Superintendent's Compendium

As outlined above, the NPS has broad authority and responsibility to determine what types of uses and activities are appropriate in any particular National Park System area. The requirements of the Superintendent's Compendium are developed through an analysis and determination process. The decision criteria used during this process are:

- Is there use or activity consistent with the NPS Organic Act and NPS policy?
- Is the use or activity consistent and compatible with the park's enabling legislation, management objectives, and corresponding management plans?
- Will the use or activity damage the park's protected natural and cultural resources and other protected values?
- Will the use or activity disturb or be in conflict with wildlife, vegetation, and environmental protection actions and values?
- Will the use or activity conflict with or be incompatible with traditional park uses and activities?
- Will the use or activity compromise employee or public safety?

5. Applicability of the Compendium

The rules contained in this Compendium apply to all persons entering, using, visiting or otherwise present on Federally owned lands, including submerged lands, and waters administered by the NPS within the legislative boundaries of the park. This includes all waters subject to the jurisdiction of the United States, including all navigable waters.

6. Enforcement of Compendium Requirements

NPS Law Enforcement Park Rangers enforce the requirements of the United State Code, 36 CFR, and this Superintendent's Compendium.

7. Penalties for Not Adhering to the Compendium Requirements

A person who violates any provision of the regulations found in 36 CFR, Parts 1-7, or provisions of this Compendium, is subject to a fine as provided by law (18 U.S.C. 3571) up to $5,000 for individuals and $10,000 for organizations, or by imprisonment not exceeding six months (18 U.S.C. 3559), or both, and shall be adjudged to pay all court costs associated with any court proceedings. A list of fines associated with any particular provision of the Compendium may be obtained by contacting the Chief Ranger at the park address found below.

comments about its program and activities at any time.

B. SUPERINTENDENT'S COMPENDIUM

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Hot Springs National Park. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

I. 36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES

(a)(1) The following visiting hours and public use limits are established for all or for the listed portions of the park, and the following closures are established for all or a portion of the park to all public use or to a certain use or activity:

Visiting Hours:

- The Visitor Center and park offices are closed to public visitation during non-business hours.
- The following areas are closed to the public from 10 p.m. to 6 a.m.:
    - Arlington Lawn
    - Grand Promenade
    - Bathhouse Row Porches and Lawns
    - Bathhouse Row, Reserve Street, and Fountain Street sidewalks, except for walk through traffic
- The following areas are closed to the public from 10 p.m. to 7 a.m.:
    - Hot Springs Mountain Road
    - North Mountain Road
    - West Mountain Summit Road
- The following areas are closed to the public from sunset to sunrise daily:
    - Gulpha Gorge Picnic Area
    - Gulpha Gorge Campground (registered camping groups and invited guests are exempt)
    - Gulpha Gorge Amphitheater (patrons attending park sanctioned activity at the Amphitheater are exempt)

Public Use Limits:

- Removal of objects or bathing in any of Hot Springs National Park's thermal water features, except as provided at the bathhouses, is prohibited.

Determining factors: The water temperature of the springs is of such high temperature that prolonged contact may result in injury. Prohibiting activities which are potentially harmful to the public is in the best interest of the public.

- Parking at the park's water jug filling fountains is limited to 15 minutes while actively filling water containers, to allow for the fair and equitable use of facilities by patrons.

Determining factors: To provide Hot Springs water to the greatest number of park visitors, with a limited number of parking spaces available, parking restrictions are necessary.

- Hiking or pedestrian use is restricted to the following trails or walkways:

    - Sunset Trail
    - Gulpha Gorge Trail
    - Goat Rock Trail
    - Dogwood Trail (upper and lower)
    - Hot Springs Mountain Trail
    - Floral Trail
    - Honeysuckle Trail
    - Dead Chief Trail
    - Grand Avenue Trail
    - Reserve Trail
    - Short Cut Trail
    - Peak Trail
    - Grand Promenade
    - Old Carriage Road
    - Tufa Terrace Trail
    - Mountain Top Trail
    - West Mountain Trail
    - Oak Trail
    - Canyon Trail
    - Park walkways adjacent to: Fountain Street, Central Avenue, Reserve Street, and Whittington Avenue.

Determining factors: Reasonable visitation limitations are set to balance the needs of public access, resource protection, visitor safety, property protection and community concerns. Limiting hiking or pedestrian use to the listed trails provides a necessary protection to the park's flora, fauna, cultural and archeological resources; as well as, provides a greater level of safety to park visitor.

- Camping in the Gulpha Gorge Campground is limited to a cumulative total of 14 days in any calendar year.

Determining factors: Reasonable visitation limitations are set to balance the needs of public access, resource protection, visitor safety, property protection and community concerns. Limiting camping to 14 days in a calendar year enables more park visitor to enjoy camping in our limited number of camp sites.

Closures:

- The entire length of Indian Mountain Trail is closed from it's junction on the west side of Gulpha Gorge Road to its western terminus at the power line corridor atop Indian Mountain.

Determining factors: Indian Mountain Trail was closed in 2000 to minimize damage to the park's resources.

- Picnicking is not allowed:

    - On the grounds of the bathhouses on bathhouse row
    - At the park's historic entrance, between the Maurice bathhouse and the Fordyce bathhouse
    - On the grounds around the Park Administration Building

Determining factors: Picnicking in this area is not compatible with the cultural landscape of the area.

(a)(2) The following areas have been designated for a specific use or activity, under the conditions and/or restrictions as noted:

Camping:

- Please refer to §2.10 for detailed camping area designations.

The following restrictions and/or conditions are in effect for the specific uses or activities noted:

- Recreational activities such as throwing flying disks, ball games or sports etc., are not permitted along bathhouse row.

Determining factors: Restrictions are necessary due to the incompatibility of these activities with the cultural landscape of the area.

Segways:

- This is an interim limitation on Segways, as well as motorized scooters, subject to change pending development of NPS Management Policy that addresses this emergent technology in the National Park System. Segways and motorized scooters, as defined under 36 C.F.R. § 1.4, are motor vehicles. Pursuant to 36 C.F.R. § 1.5(a) and 4.10(a), the Park has imposed an interim restriction on the use of Segways and motorized scooters from all areas within the park including all park roads, trails, and sidewalks. However, any park visitor with a disability is permitted to use Segways and motorized scooters throughout the park, including all structures, facilities, park roads, sidewalks, trails and other surfaces when such devices are used for the sole purpose of mobility assistance. Use of any mobility assistive device, as outlined herein, must also adhere to the following:
    - No person under 16 years of age may operate a Segway.
    - A person shall operate any mobility assistive device in a safe and responsible manner; maximum speed will not exceed 5 MPH, so as not to endanger one's self or any other park visitor.
    - A person riding any mobility assistive device upon and along a sidewalk, while crossing a roadway in a crosswalk, entering or exiting from an elevator, or on any other surface shall have all the rights and duties applicable to a pedestrian under the same circumstances, except that the mobility assistive device operator must always yield to pedestrians (park visitors). Elevator use will be the only exception, users on any mobility assistive device will enter first, be allowed time to park and secure such device and will be last to exit.

Determining factors: Segways provide a reasonable mobility alternative for those who would otherwise be unable to visit the park, or find it difficult to visit the park due to personal mobility limitations; however, the public at large is restricted from using Segway, as there additional use, combined with the park's high pedestrian and vehicle traffic would create an unacceptable safety hazard to the visiting public.
