

Hot Springs National Park

Christmas Bird Count

The National Park Service, along with the local chapters of the National Audubon Society and the City of Hot Springs, will hold a Christmas Bird Count on **Saturday, January 3, 2015.**

Individuals of all birding skill levels are invited to participate.

Did you know that through previous Christmas Bird Counts, we learned that more and more hummingbirds are staying in the USA and Canada for winter? Would you like to be a part of making contributions to scientific knowledge like that? If so, please consider joining us January 3.

A male Anna's Hummingbird. -Will Elder, NPS

For more information, or to sign up as a volunteer, please contact Hot Springs National Park's Natural Resource Manager, Shelley Todd, at 501-620-6751 or shelley_todd@nps.gov by December 19, 2014.
