Lawrence Villalva, Superintendent

A. INTRODUCTION

1. Superintendent's Compendium Described

The Superintendent's Compendium is the summary of park specific rules implemented under 36 Code of Federal Regulations (36 CFR). It serves as public notice, identifies areas closed for public use, provides a list of activities requiring either a special use permit or reservation, and elaborates on public use and resource protection regulations pertaining specifically to the administration of the park. The Superintendent's Compendium does not repeat regulations found in 36 CFR and other United States Code and CFR Titles, which are enforced without further elaboration at the park level.

The regulations contained in 36 CFR, Parts 1-7, are the basic mechanism used by the National Park Service (NPS) to preserve and protect the natural and cultural resources of the park and to protect visitors and property within the park. Parts 1 through 6 are general regulations applicable to all areas of the National Park system, and Part 7 contains special regulations specific to individual parks. Each of these Parts has many sections and subsections articulating specific provisions. Within some of these Part 1-7 sections and subsections, the Superintendent is granted discretionary authority to develop local rules to be responsive to the needs of a specific park resource or activity, park plan, program, and/or special needs of the general public.

As an example, 36 CFR 1.5(a) *Closures and Public Use Limits* provides the Superintendent certain discretion in allowing or disallowing certain activities. The authority granted by the Section, however, requires the Superintendent to comply with the Administrative Procedures Act (6 USC Section 551), which requires public notice on actions with major impact on visitor use patterns, park resources or those that are highly controversial in nature.

Another example is 36 CFR 1.6 *Permits*, which allows the Superintendent to require a permit for certain uses and activities in the park. This Section, however, requires that a list of activities needing a permit (and a fee schedule for the various types of permits) be maintained by the park.

A final example is 36 CFR 2.1(c) (1) *Preservation of Natural, Cultural and Archeological Resources*, which provides the Superintendent the authority to designate certain fruits, nuts, berries or unoccupied seashells which may be gathered by hand for personal use or consumption. This activity can occur, however, only if a written determination shows that the allowed activity does not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources.

This Compendium should be used in conjunction with Title 36 CFR, Parts 1-7, to more fully understand the regulations governing the use and enjoyment of all the areas of the national Park System.

A copy of Title 36, CFR, can be purchased from the U.S. Government Printing Office at:

Superintendent of Documents
P.O. Box 371954
Pittsburgh, PA 15250-7954

The CFR is also available on the Internet at:

http://www.access.gpo.gov/nara/cfr/waisidx_05/36cfrv1_05.html

2. Laws and Policies Allowing the Superintendent to Develop This Compendium

The National Park Service (NPS) is granted broad statutory authority under 16 United States Code (U.S.C.) Section 1 *et. seq.* (Organic Act of 1916, as amended) to "...regulate the use of the Federal areas known as national parks, monuments, and reservations...by such means and measures as conform to the fundamental purposes of the said parks...which purpose is to conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment for future generations" (16 U.S.C. Section 1). In addition, the NPS Organic Act allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments, and reservations under the jurisdiction of the National Park Service" (16 U.S.C. Section 3).

In 1970, Congress amended the NPS Organic Act to clarify its intentions as to the overall mission of the NPS. Through the General Authorities Act of 1970 (16 U.S.C. Sections 1a1-1a8), Congress brought all areas administered by the NPS into one National Park System and directed the NPS to manage all areas under its administration consistent with the Organic Act of 1916.

In 1978, Congress amended the General Authorities Act of 1970 and reasserted System-wide the high standard of protection defined in the original Organic Act by stating "Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined by Section 1 of this Title, shall be consistent with and founded in the purpose established by Section 1 of this Title, to the common benefit of all people of the United States."

16 U.S.C. Section 1c defines the National Park System as "...any areas of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes."

In addition to the above statutory authority, the Superintendent is guided by established NPS policy as found in the *NPS Management Policies* (2006). The Superintendent is also guided by more specific policies promulgated by the Director, National Park Service, in the form of Director's Orders. As stated in the Management Policies, the primary responsibility of the NPS is to protect and preserve our national natural and cultural resources while providing for the enjoyment of these resources by visitor and other users, as long as use does not impair specific park resources or overall visitor experience. The appropriateness of any particular visitor use or recreational experience is resource-based and will vary from park to park; therefore, a use or activity that is appropriate in one park area may not be appropriate in another. The Superintendent is directed to analyze overall park use and determine if any particular use is appropriate. Where conflict arises between use and resource protection, where the Superintendent has a reasonable basis to

believe a resource is or would become impaired, than that Superintendent is obliged to place limitations on public use.

3. Consistency of This Compendium with Applicable Federal Law and Requirements

The Superintendent's Compendium is not considered a significant rule requiring review by the Office of Management and Budget under Executive Order 12866. In addition, this Compendium will not have a significant economic effect on a number of small entities nor impose a significant cost on any local, state or tribal government or private organization, and therefore does not fall under the requirements of either the Regulatory Flexibility Act or the Unfunded Mandates Reform Act.

The actions and requirements described in this Compendium are found to be categorically excluded from further compliance with the procedural requirements of the National Environmental Policy Act (NEPA) in Department of the Interior (DOI) Guidelines 516 DM 6 and as such, an Environmental Assessment will not be prepared.

4. Development of the Requirements of the Superintendent's Compendium

As outlined above, the NPS has broad authority and responsibility to determine what types of uses and activities are appropriate in any particular National Park System area. The requirements of the Superintendent's Compendium are developed through an analysis and determination process. The decision criteria used during this process are:

- Is there use or activity consistent with the NPS Organic Act and NPS policy?
- Is the use or activity consistent and compatible with the park's enabling legislation, management objectives, and corresponding management plans?
- Will the use or activity damage the park's protected natural and cultural resources and other protected values?
- Will the use or activity disturb or be in conflict with wildlife, vegetation, and environmental protection actions and values?
- Will the use or activity conflict with or be incompatible with traditional park uses and activities?
- Will the use or activity compromise employee or public safety?

5. Applicability of the Compendium

The rules contained in this Compendium apply to all persons entering, using, visiting or otherwise present on Federally owned lands, including submerged lands, and waters administered by the NPS within the legislative boundaries of the park. This includes all waters subject to the jurisdiction of the United States, including all navigable waters.

6. Enforcement of Compendium Requirements

NPS Law Enforcement Park Rangers enforce the requirements of the United State Code, 36 CFR, and this Superintendent's Compendium.

7. Penalties for Not Adhering to the Compendium Requirements

A person who violates any provision of the regulations found in 36 CFR, Parts 1-7, or provisions of this Compendium, is subject to a fine as provided by law (18 U.S.C. 3571) up to \$5,000 for individuals and \$10,000 for organizations, or by imprisonment not exceeding six months (18 U.S.C. 3559), or both, and shall be adjudged to pay all court costs associated with any court proceedings. You may receive a list of fines associated with any particular provision by contacting the Chief Ranger at the park address found below.

8. Comments on the Compendium

The Compendium is reviewed annually and revised as necessary. The park welcomes comments about its program and activities at any time.

Written comments on the Compendium may be submitted to:

Superintendent
223 North Main Street
Independence, Missouri 64050

9. Effective Date of the Superintendent Compendium

The Superintendent's Compendium is effective on the approval date listed on the first page of this document, and remains in effect until revised for a period up to one year.

10. Additional Information

Some of the terms used in this Compendium may have specific meaning defined in 36 CFR 1.4 *Definitions*.

11. Availability

Copies of the Compendium are available at:
223 North Main Street
Independence, Missouri 64050

It may also be found at: www.nps.gov/hstr

B. SUPERINTENDENT'S COMPENDIUM

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Harry S Truman National Historic Site. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

I. **36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES**

§1.5 Closures and Public Use Limits

- (a)(1) Harry S Truman National Historic Site is open to the public only during daylight hours except during special NPS-sponsored or approved events and programs. Daylight hours are defined as being from sunrise to one-half hour past sunset. The park consists of the Independence and the Grandview Units.

Reason for Determination:

To facilitate protection of resources and facilities, it is necessary to limit access to the park after dark. The park contains no facilities that are normally used at night except for special uses that require the permission of the Superintendent.

1. Harry S Truman National Historic Site Visitor Center is open to the public Tuesday through Saturday from 8:30 a.m. to 5:00 p.m., and is closed on all Federal Holidays.
2. Portions of the first floor of the Truman home in Independence are open to the public only through guided tours from 9:00 a.m. to 5:00 p.m. The home is open daily Tuesday through Saturday, and is closed on all Federal Holidays. Entry into the home and grounds without a ticket, which is secured at the visitor center in advance, is prohibited. All children under 12 years of age must be accompanied by a parent or guardian. All children under six (6) must be accompanied by at least one (1) adult per two (2) children.

Reason for Determination:

The Truman home and Truman farm home are open to the public only through guided tours in order to provide personal interpretation of the park's primary resources to visitors and to provide maximum protection for park resources.

Reason for Determination:

The Truman home is closed on Mondays from Labor Day to Memorial Day to allow the staff to care properly for artifacts and interior furnishings during a slow period of visitation.

Reason for Determination:

Public access to the second floor of the Truman home is prohibited due to their being only one safe means of egress and in order to protect and maintain the original condition of the stairway.

Reason for Determination:

Entry into the Truman home or onto the grounds without a ticket is prohibited in order to protect park resources, to collect the required entrance fee, and to limit the tour size to eight persons per tour. All children under 12 years of age must be accompanied by responsible adults in order to protect park furnishings from potential damage by unsupervised children.

3. At the Independence unit, the interiors of the Truman home carriage house, the Frank Wallace home, the George Wallace home, and the George Wallace garage, are closed to the public. The grounds of the Frank Wallace, and the George Wallace home are closed to the public. The grounds surrounding the Truman home are closed to the public except during guided tours of the Truman home when employees accompany visitors.
4. At the Grandview unit, the Truman farm home and all other buildings are closed to the public. The grounds of the Grandview unit are open daily during daylight hours, and self-guided cell phone tours are available.

Reason for Determination:

The Truman home garage/carriage house, the Frank Wallace home, the George Wallace Home, and the George Wallace garage, and the outbuildings at the Grandview Unit are closed to the public because these structures tell the Truman story as exterior exhibits only and are used for park administration uses, e.g. offices, quarters storage.

Reason for Determination:

Entering the grounds of the Noland Home, the Frank Wallace home, and the George Wallace home is prohibited because these grounds provide no interpretive value other than as a part of the cultural landscape. The grounds surrounding the Truman Home are closed to the public except during guided tours to provide protection for the three homes and their associated landscapes.

5. The parking area at the Truman Farm Home is closed to vehicle camping and overnight parking.

Reason for Determination:

Since overnight use and camping is prohibited in the park there is no valid reason for a vehicle to remain in the park overnight unless the National Park Service has been previously advised and authorized its presence.

6. Launching, landing, or operating unmanned aircraft from or on lands and waters administered by the National Park Service within the boundaries of Harry S Truman National Historic Sites two units in Independence and Grandview, Missouri, is prohibited except as approved in writing by the Superintendent.

Definition: The term “unmanned aircraft” means a device that is used or intended to be used for flight in the air without a possibility of direct human intervention from within or on the device, and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links.) This term includes all types of devices that meet this definition (e.g. drones, model airplanes, quadcopters,) that are used for any purpose, including for recreation or commerce.

Prohibited Activities:

The following recreational activities and/or non-traditional uses are prohibited within Harry S Truman National Historic Site because these activities tend to detract from the park’s historical theme and legislatively mandated purpose, create the potential for a visual intrusion on the historic scene, and have the potential to interfere with visitors’ understanding of the Truman story.

- a. Flying or operating of drone or unmanned aircraft, quadcopters, model airplanes, kites, and similar devices.
- b. Sunbathing
- c. Vehicle washing, waxing, and polishing
- d. Vehicle maintenance (except during an emergency breakdown)
- e. Athletic-type games and sports with or without equipment
- f. Use of Frisbees, balls, and similar objects considered recreational equipment
- g. Use of personal athletic equipment and devices such as golf clubs, boomerangs, roller blades, roller skates, skateboards, and similar recreational-type equipment.
- l. Use of fireworks or any other types of explosive devices on park property.

Reason for Determination:

Recreational activities such as those described above are prohibited because they would be inappropriate considering the purpose of the park area and the dignity or atmosphere to be maintained. In addition, objects being flown such as drones, model airplanes, kites, and objects being thrown such as balls and frisbees cannot always be precisely controlled while in flight. These items could strike park visitors or employees which could result in personal injury, or they can crash into and through fragile portions of the

historic structure such as windows, screens, and framing which could result in substantial resource damage.

Reason for Determination:
Fireworks are prohibited because they have the real potential for causing accidental structure and ground fires which could result in loss of irreplaceable historic resources.

The following items are also prohibited inside the Truman home and the Truman farm home:

- a. Umbrellas, infant strollers, brief cases, back packs, shopping bags, and similar large hand-carried items. Due to the very limited space on the tour travel route, visitor safety and the protection of fragile historic artifacts could be compromised.
- b. All types of photography, except under special use permit.
- c. Consumption of food and beverage and the chewing of gum or similar items.
- d. Leaving the visitor tour route (i.e., the dark grey carpet in the Truman Home and the brown use carpet in the Truman farm home)
- e. Cell phone use during home tours.
- f. Segways, motorized wheelchairs and scooters.

Reason for Determination:
The prohibition against large, hand-carried items in the Truman home and the Truman Farm home is necessary for protection against theft and damage to irreplaceable artifacts along the tour route.

Reason for Determination:
Visitor photography is not permitted in the Truman Home primarily due to the direct potential damage that it tends to create. The flash from one camera is equivalent in Intensity to eight hours of direct sunlight, which over time, would cause significant damage to the historic fabrics, wall coverings, and paintings. While non-flash or video photography without light produces no direct damage, resource damage can occur in other ways during guided tours of the three houses. Photographers also tend to delay or interfere with tours because of their engrossment with setting up a shot which is unfair to other visitors. Persons carrying camera equipment provide the potential to strike artifacts with their cameras and or carry cases while walking through the narrow confines of the structure.

Reason for Determination:
The prohibition against the consumption of food and beverage in the Truman home and Farm home is that dropped food items and beverages have the potential for permanently staining original carpet and draperies. Chewing gum is not allowed because it can be dropped and then tracked through the home or become imbedded within original carpeting.

Reason for Determination:
The prohibition against leaving the designated tour route runner carpet at the Truman home and Truman farm home is to ensure protection for the furnishings along the route and to reduce the possibility of theft of artifacts by visitors wondering unattended through the homes.

Reason for Determination:
Cell phone use while participating on tours is prohibited because conversations would be disruptive to interpretive programs being provided during tours.

Reason for Determination:

Segways, motorized wheelchairs and scooters are prohibited from use within the Truman Home and Farm home due to the very limited space on the tour travel route, and for the protection of fragile historic artifacts which are on display near the tour routes in the homes.

36 CFR § 1.6 – Activities That Require a Permit

(f) The following is a compilation of those activities for which a permit from the Superintendent is Required.

1. Special events
2. Public Assemblies, meetings (such as demonstrations, ceremonies, and press conferences held by non-National Park Service personnel)
3. Sale/distribution of printed matter.
4. Commercial Photography

Reason for Determination:

Permits are required in order to regulate special uses of the park and to provide full protection for park resources.

(g) Permits may not be required for activities in the following instances:

1. Breaking news stories occurring on park property in Independence and Grandview which is being covered by multimedia news sources.
2. During visits by high profile visitors where their public relations staff may be filming or photographing visit activities as documentation of their participation in activities.
3. During visits by magazine travel writers where photographs or film segments will be included within a story which will emphasize the legacy of Truman family members, park resources or available visitor activities.

36 CFR §2.1 Preservation of Natural, Cultural and Archeological Resources

* Touching or handling artifacts or historic fabric within the Truman home is prohibited.

* Pets, bicycles, and other objects may not be tied to any portion of the fence around the home.

Reason for Determination:

Touching or handling artifacts or historic fabric within the Truman home and Truman farm home is prohibited in order to protect irreplaceable furnishings, precious artifacts, and other historic features within the homes along the tour routes from theft and damage.

Reason for Determination:

The tying of pets, bicycles and other objects to the fence around the Truman home is prohibited in order to preserve the fence which is part of the homes resources, and as a health and safety issue for the benefit of other park visitors.

36 CFR §2.1 - Picnicking

- * With the exception that visitors to the Grandview Unit are permitted to picnic in the parking area and within the grassy median area of the parking lot, picnicking is prohibited on the Independence Unit home grounds.

Reason for Determination:

Because picnicking detracts from the historic theme of the park and legislatively mandated purposes, creates the potential for a visual intrusion on the historic landscape scene, and can interfere with interpretation of both homes story.

36 CFR §2.13 - Fires

- * The lighting or maintaining of fires is prohibited.

Reason for Determination:

Because fires can potentially be a high danger to one of a kind historic structures and natural features such as trees, shrubs, grass and wildlife.

36 CFR §2.15 - Pets

- * Except for service animals that are trained to assist disabled visitors, animals are Prohibited inside the Truman Home, the Truman Farm Home, The Noland Home, and the Visitor Center.

Reason for Determination:

Pets are not permitted in public buildings or on the grounds of the Truman home in order to avoid health risks, inappropriate contact between pets and visitors, and potential damage to park resources.

36 CFR §2.20 – Skating, Skateboards and Similar Devices

- * Skating, skateboards and similar devices are not allowed to be used on park property which includes grounds, sidewalks and parking lots.

Reason for Determination:

Skates, skateboards, and similar devices are prohibited on park property and its surrounding area in the interest of visitor safety, and resource preservation.

36 CFR §2.21 - Smoking

- * Smoking is prohibited on the grounds and inside all park buildings. Smoking is permitted only in the parking area of the Grandview Unit.

Reason for Determination:

Smoking is restricted in order to protect park resources and facilities, to provide a safe, healthy, and pleasant work area for employees, and to provide an enjoyable visit for our customers.

36 CFR §2.23 – Recreation Fees

(b) Recreation fees, and/or a permit, in accordance with 36 CFR part 71, are established for the

following entrance fee areas, and/or for the use of the following specialized sites, facilities, equipment or services, or for participation in the following group activity, recreation events or specialized recreation uses:

Entrance Fee Areas:

- * Visitors wishing to participate on house tours of the Truman Home in Independence, Missouri and the Truman Farm Home in Grandview, Missouri must purchase a ticket at the parks visitor center or at the farm home on the day of their visit. The cost is \$4 for Adults, ages 15 and under are free. National Parks and Federal Recreation Lands Passes are accepted at both locations.
- * There may be special “free fee” days throughout the year, usually the Saturday closest to May 8 (Harry Truman’s birthday) and National Public Lands Day in September. Visitors will be admitted to the Truman home and farm home without charge, but tickets must still be obtained at the visitor center before tours of both homes.

36 CFR §2.35 - Alcohol Beverages and Controlled Substances

- * The use and/or possession of alcoholic beverages and controlled substances within all park buildings, on the grounds around the park buildings, and in the parking area of the Grandview unit is prohibited.

Reason for Determination:

This prohibition is consistent with the laws of the city of Independence which owns the visitor center, and the National Park Service which owns the Independence and Grandview units. It has been determined that the consumption of alcohol beverages, or the possession of an open container of an alcoholic beverage, in the park is inappropriate considering:

(1) the prohibited locations are primarily set aside to provide an understanding of the events associated with the park themes.

(2) these areas are maintained for all visitors to enjoy, appreciate and understand the park’s historic resources.

(3) the purpose for which the park was established suggests a certain reverence for what took place here. Alcoholic beverages detract from that reverence.

36 CFR §2.50(a) Special Events, Conducting a Pageant, Regatta, Public Spectator Attraction, Entertainment, Ceremony, or Similar Events.

- * Special events, public assemblies, meetings, and other activities considered non-traditional (i.e., not a customary park visit, or not related to the legislatively mandated purpose of the park), are subject to certain restrictions. Refer all persons inquiring about these activities to the superintendent.

Reason for Determination:

Special park use may be considered for activity which is not in conflict with law or policy, and which will not result in degradation of the values and purposes for which the park was established, and that do not present a threat to public safety or property, nor would the event interfere with Memorial operations, resource protection

or visitor use, nor exceed established carrying capacities.

36 CFR §2.51(a) Public Assemblies, Meetings Gatherings, Demonstrations, Parades and Other Public Expressions of Views

- * Public assemblies, meetings, gathering, demonstrations, parades and other public expressions of views are allowed, provided a permit complying with requirements of 36CFR 2.51(a) has been issued by the Superintendent. Demonstrations involving 25 persons or fewer may be held without a permit, however the Superintendent must be contacted in advance for site orientation to the designated first amendment areas. Permits are valid for a maximum of 14 days consecutive days. A permit can be extended for up to 14 additional days, but a new application must be submitted with the extension request. Expression or demonstration of First Amendment rights will be limited to the primary First Amendment area which is the north sidewalk of the Truman home which runs parallel to Truman Road. If this area is in use, the secondary use site will be the sidewalk at the corner of the south western portion of the Truman yard exterior fence will be used. For demonstration activity at the Truman Farm Home in Grandview, Missouri the primary First Amendment area will be the sidewalk on the south side of the Truman Farm Home which parallels the parking lot. The sidewalk nearest the south east storage building which is also adjacent to the parking lot will serve as this sites secondary designated area.
- * The following areas are designated as not available for public assemblies, meetings, gatherings, demonstrations, parades and other public expressions of views.
 1. The Visitor Center interior space in Independence, Missouri.
 2. The Park Headquarters administrative space located on the second floor of the park's visitor center.
 3. The Truman Home front gate, yard and interior space.
 4. The Truman Farm Home entrance, exit doorways and yard.

Reason for Determination:

Freedom of speech, the press, religion, and assembly are rights, not privileges. The courts have recognized that activities associated with the exercise of these rights may be reasonably regulated to protect legitimate government interests. Therefore, in order to protect park resources and maintain visitor use activities, the Superintendent regulates certain aspects of First Amendment activities such as the time, the place, and the manner in which they are conducted.

36 CFR §2.52(c) Sale or distribution of printed matter that is not solely commercial advertising

- * The sale or distribution of printed matter is allowed, provided a permit complying with the requirements of 36CFR 2.52 has been issued by the superintendent.
- * The following areas are designated as not available for the sale or distribution of printed matter as such activity in these locations could cause interference with audio visual programs, the provision of home tour and park information, tour ticket and bookstore sales transactions, and the conduct of park administrative activities.
 1. The Visitor Center exterior and interior space.
 2. The park headquarters administrative space located on the second floor of the park's visitor center.
 3. The Truman Home front gate, yard and interior space.
 4. The Truman Farm Home entrance, exit doorways and yard.

5. The Noland Home interior space and yard.

Reason for Determination:

The sale or distribution of printed matter is allowed because freedom of speech, the press, religion, and assembly are rights, not privileges under the First Amendment. The courts however have recognized that activities associated with the exercise of these rights may be regulated to protect legitimate government interests such as interference of visitor activities enjoyment and park operations disruption.

36 CFR §4.21 - Speed limits

- * The speed limit on the entry road, driveway, and parking area at the Grandview Unit is 15 MPH.

Reason for Determination:

The reduced speed limit is for the safety of visitor pedestrians and stationary vehicles Which may be present at the parking lot of the Grandview unit.

36 CFR §5.5 – Commercial Photography/Filming

- * (a) Commercial filming of motion pictures or television involving the use of professional casts, settings or crews.
- * (b) Commercial photography after hours on park grounds which require the presence of park employees to protect resources.

Reason for Determination:

Commercial filming and photography is allowable after prior approval for a permit through the superintendent. This is allowable because the permit review process will satisfy requirements that the activity is not in conflict with applicable law or policy, that the filming activity does not constitute a degradation of the values and purposes for which the park was established, and the activity will not present a threat to public safety or park property, nor interfere with visitor use or park operations.
