Build By Ear is an exciting new workshop developed by PlayBuild to show how music, architecture and a little creativity can be used hand-in-hand to re-imagine the world around us. Each month, workshops will focus on a different musician that helped make New Orleans a hub for music and culture. Kids will learn about a New Orleans musician's life and work and then 'build' a house collage for them while listening to their music. The result: a take-home poster and an appreciation for New Orleans music!! This workshop has been inspired by Italian architect Federico Babina and with music curated by local musician Jason Marsalis, Build By Ear seeks to inspire the kid in all of us to see music and listen to architecture.
