**TRAILS**

Kennesaw Mountain has 16 miles of trails within the park. To help you utilize the trails properly, we offer you a milage chart and these few rules and regulations.

Picnics are prohibited on trails, and fields bordering trails unless the field is a clearly marked activity area. This will limit the amount of trash that collects on back trails and fields.

When resting or sitting while on the trails, please be courteous and move off the trail. Remember, take nothing but pictures, leave nothing but footprints.
