

# Moonlight in the Mojave

**Friday, August 31**

**Katherine Landing Ranger Station  
7:00 - 8:30 p.m. MST (Arizona Time)**

August 2012 brings us two full moons. The second full moon is known as a blue moon. Join Ranger Robin on a 90-minute hike as the blue moon rises in the east and we explore, not only the moon and the stars, but the special adaptations that allow desert plants and animals to thrive in the Mojave Desert.

**For more information call Katherine Landing Ranger Station 928-754-3272**
