Youth Conservation Corps Summer 2015 Program June 2 - July 25

The Youth Conservation Corps (YCC) is a summer employment program for young men and women ages 15 through 18. Since 1970, the YCC program has operated as a work-earn-learn program for youth interested in their natural cultural, and historic resources.

Youth Conservation

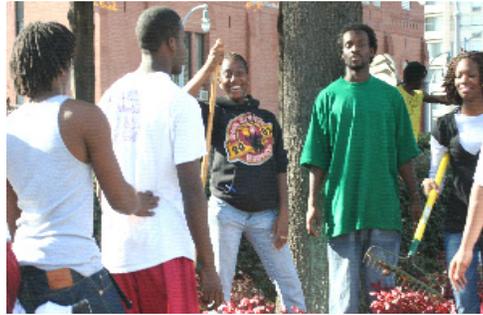

The purpose of the Youth Conservation Corps program is to further the development and maintenance of the natural resources of the United States by America's youth, and in so doing to prepare them for the ultimate responsibility of maintaining and managing these resources for the American people.

Youth are provided an opportunity to increase their self-esteem and learn self-discipline. They learn work ethics and relate with peers and supervisors, and build lasting cultural bridges between youth from various social, economic, ethnic, and racial backgrounds.

Martin Luther King, Jr., National Historic Site

Martin Luther King, Jr., National Historic Site was established in 1980 to protect and interpret for the benefit, inspiration, and education of present and future generations the places where Martin Luther King, Jr., was born, where he lived, worked, and worshiped, and where he is buried. The park features include the Visitor Center, Historic Ebenezer Baptist Church, The King Center (Dr. King's Tomb and Freedom Hall), Fire Station No.6, and the Birth Home.

Summer 2014 Projects

Youth selected for the 2014 YCC program at Martin Luther King, Jr., will rehabilitate historic structures; maintain and manage park resources; and study historic preservation.
