

Species Checklist for Mojave National Preserve (MOJA)

This species list is a work in progress. It represents information currently in the NPSpecies data system and records are continually being added or updated by National Park Service staff. To report an error or make a suggestion, go to <https://irma.nps.gov/npspecies/suggest>.

Scientific Name	Common Name
<u>Fish</u>	
Cypriniformes/Cyprinidae	
[] Siphateles bicolor mohavensis	Mojave tui chub
Cyprinodontiformes/Cyprinodontidae	
[] Cyprinodon nevadensis nevadensis	springs pupfish
Cyprinodontiformes/Poeciliidae	
[] Gambusia affinis	western mosquitofish
Report Species Count: 3	

*Documented occurrences of the species in the park or in the adjoining region of the park give reason to suspect that it probably occurs within the park; however, current, verifiable evidence is needed.

NPSpecies - The National Park Service biodiversity database. IRMA Portal version. <https://irma.nps.gov/npspecies>. Accessed 4/6/2020 1:35:44 PM

The species listed here are assumed to be 'present in park' and have been reviewed. Evidence, in the form of a current, verifiable reference, voucher or observation, is included in the NPSpecies data system or is readily available. Those species marked with an asterisk have the designation of 'probably present,' and efforts are underway to obtain current, verifiable evidence to elevate the status to 'present in park.'
